Notice to Area Residents and Businesses
Winskill Renewal Project

The City of Delta is taking steps to replace the aging Winskill Aquatic and Fitness Centre (Winskill) with a new state-of-the-art facility. The decision was made after a facility condition assessment conducted in 2019 determined that the electrical, mechanical, plumbing, and ventilation systems as well as the building envelope and roof have reached the end of their service life and need to be replaced.

The new aquatic centre is proposed to feature a 25-meter lap pool (8 lanes with the option to expand to 10), a leisure pool, a teaching pool, as well as one- and three-meter diving boards. Additionally, it will house a fully-equipped fitness centre, gymnasium, and other multi-purpose spaces, catering to the diverse needs of our community. The City anticipates construction will begin in summer 2025 and will take approximately two years to complete. The current facility will continue to operate and serve the community until the new building is ready for operations.

To ensure the new facility meets the needs of the community, the City is planning an engagement program to involve user groups and residents in the design. The first phase of this program will begin in May. Recognizing that this project may affect neighbouring residents and businesses, the City is writing to make you aware of this work and the opportunities to get involved. In the coming weeks, you will receive a follow up letter with more information. In the meantime, we invite you to email winskill@delta.ca to be added to an email list to receive information directly about this work. Please include your name and your property address in your email.

We have attached a summary of the project to date for your information. Should you have any questions, please call JoAnne Kleb, Manager of Engagement, at 604-946-3380 or email winskill@delta.ca. If you would like to learn more about the project, please visit letstalk.delta.ca/winskill.

Yours truly,

JoAnne Kleb
Manager of Engagement
