Winskill Renewal Project Feedback Form #1

SURVEY RESPONSE REPORT
16 June 2020 - 16 July 2024

PROJECT NAME:
Winskill Renewal Project

SURVEY QUESTIONS

Q1 Which describes your interest in completing this form? Select all those that apply.

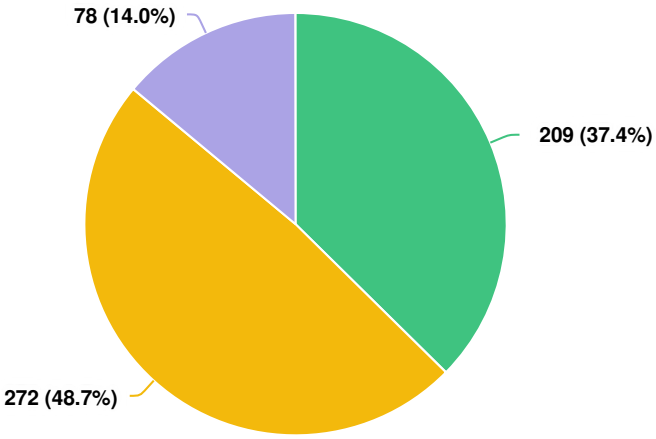

Question options

- Use the amenities in the Winskill Aquatic and Fitness Centre.
- Use the outdoor fields at Winskill Park.
- Live or work adjacent to Winskill Park.
- Other (please specify)

Optional question (578 response(s), 4 skipped)
Question type: Checkbox Question

Q2 How many members of your household use the Winskill Aquatic and Fitness Centre?

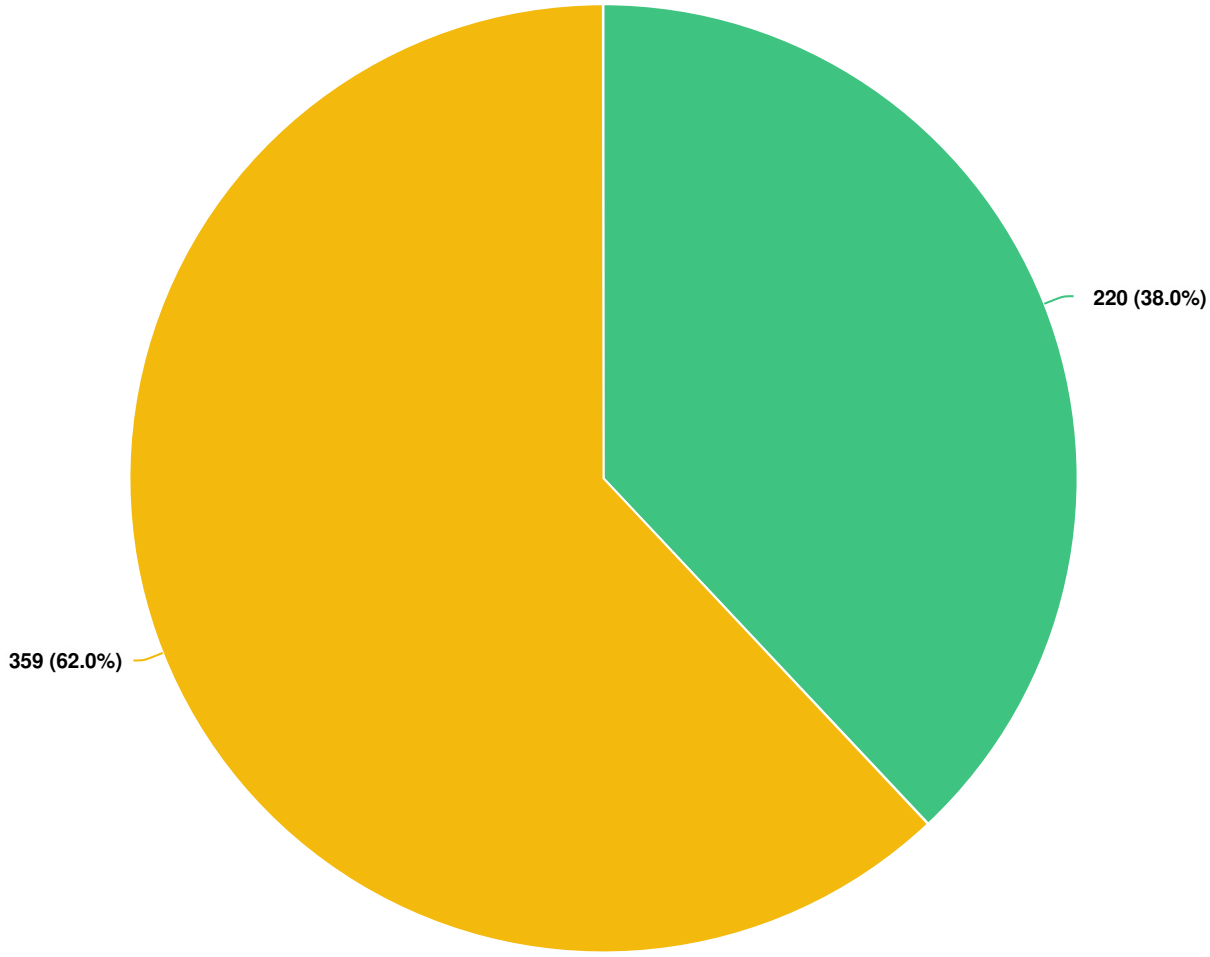

Question options

- 1-2
- 3-4
- 5 or more

Optional question (559 response(s), 23 skipped)
Question type: Radio Button Question

Q3 Are you providing feedback for yourself or on behalf of your household?

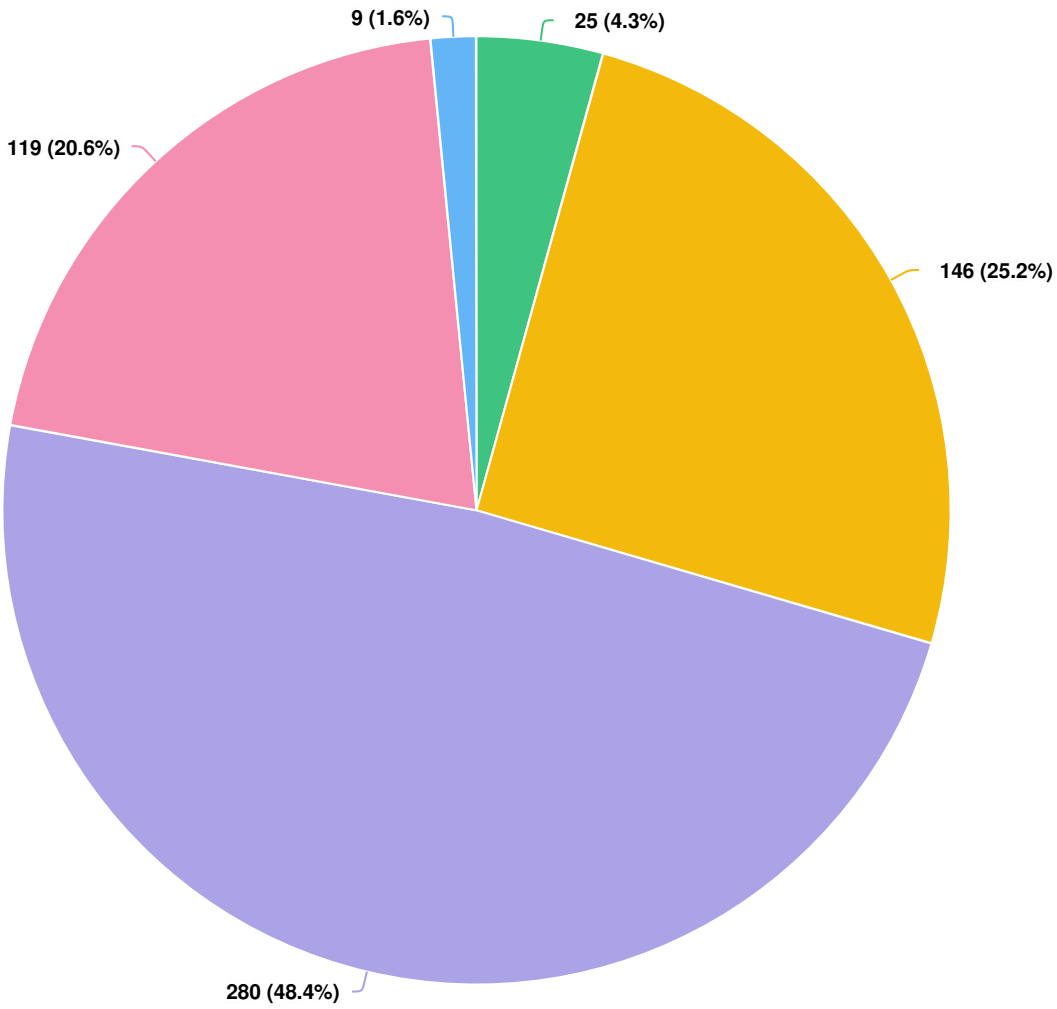

Question options

As myself
On behalf of my household

Optional question (578 response(s), 4 skipped)
Question type: Radio Button Question

Q4 Please select your age group.

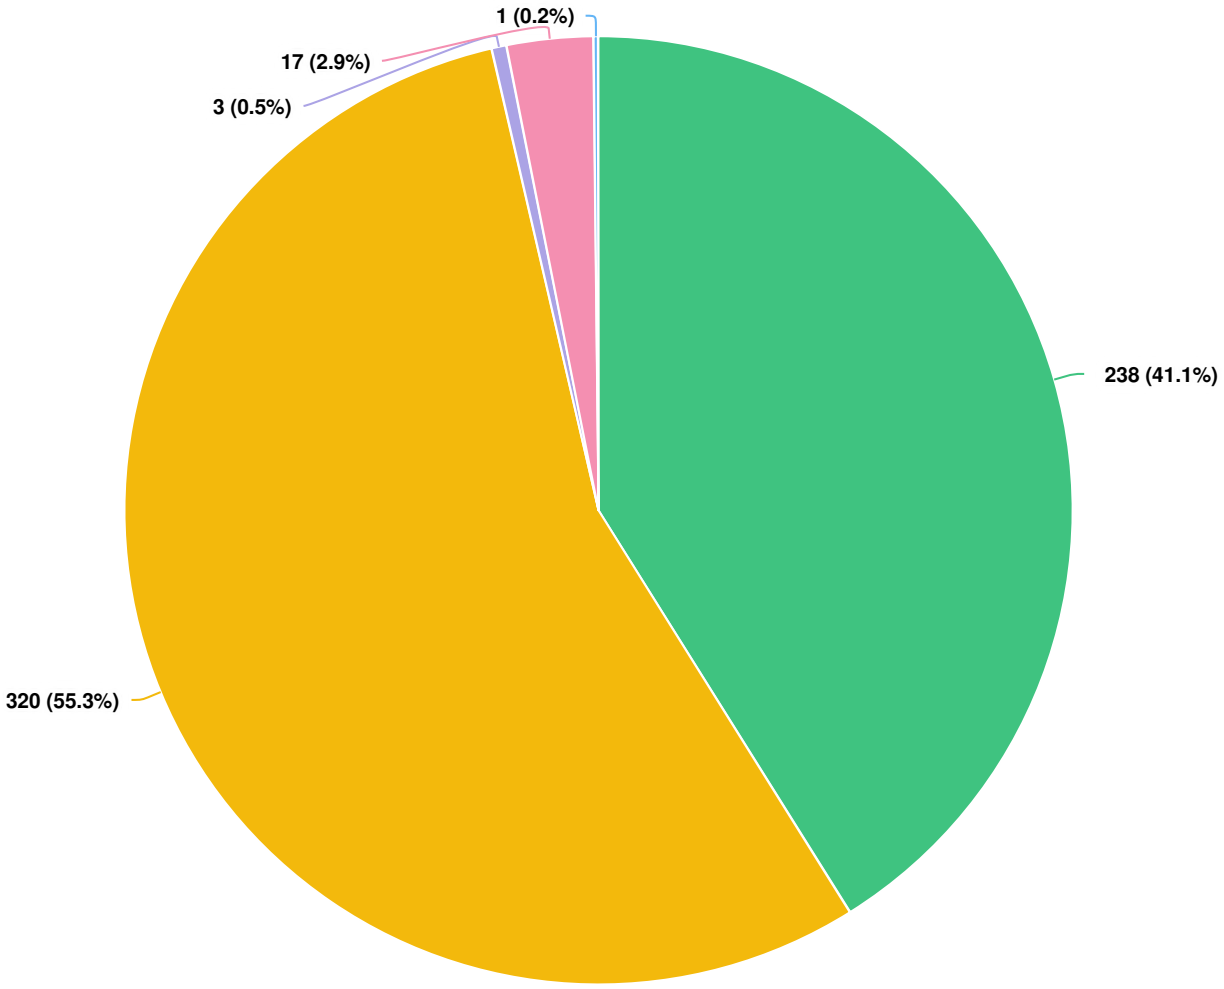

Question options

0 to 19 20 to 39 40 to 59 60 to 79 80 and up

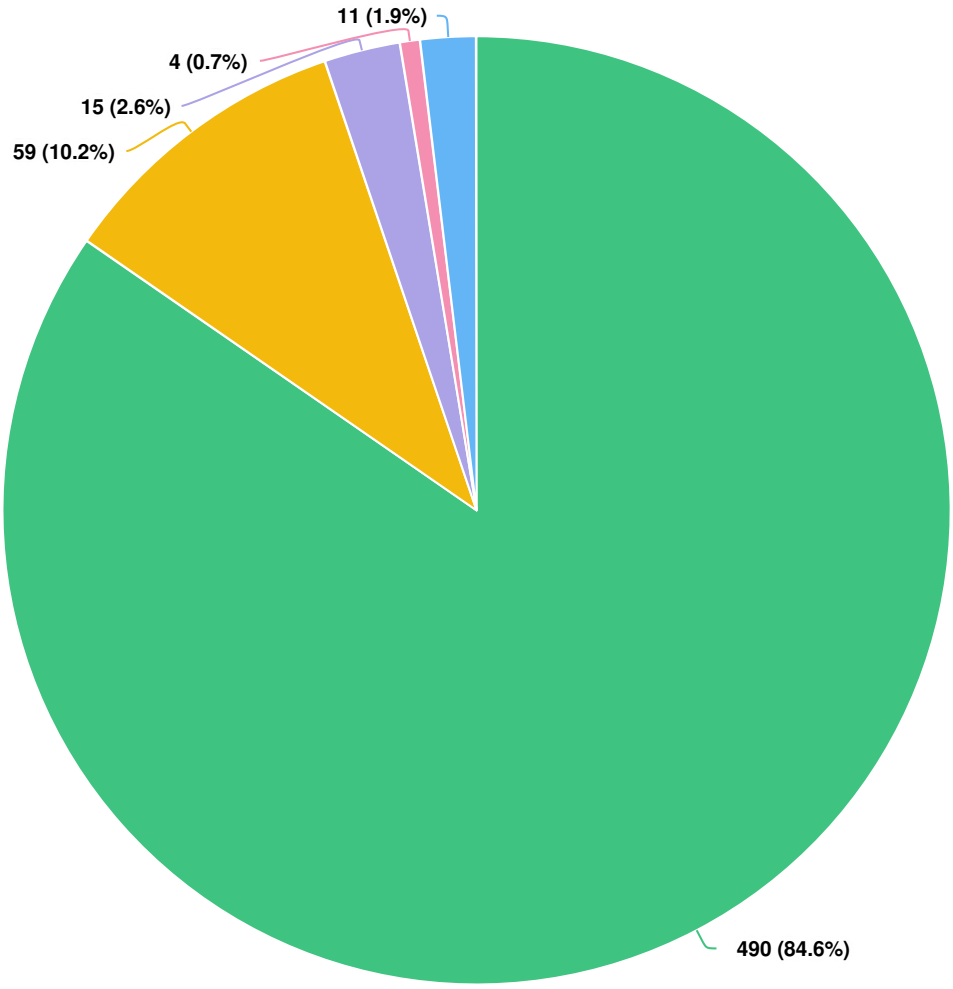

Optional question (578 response(s), 4 skipped)
Question type: Radio Button Question

Q5 Which of the following best describes your gender identity?

Optional question (578 response(s), 4 skipped)
Question type: Radio Button Question

Q6 Where do you live?

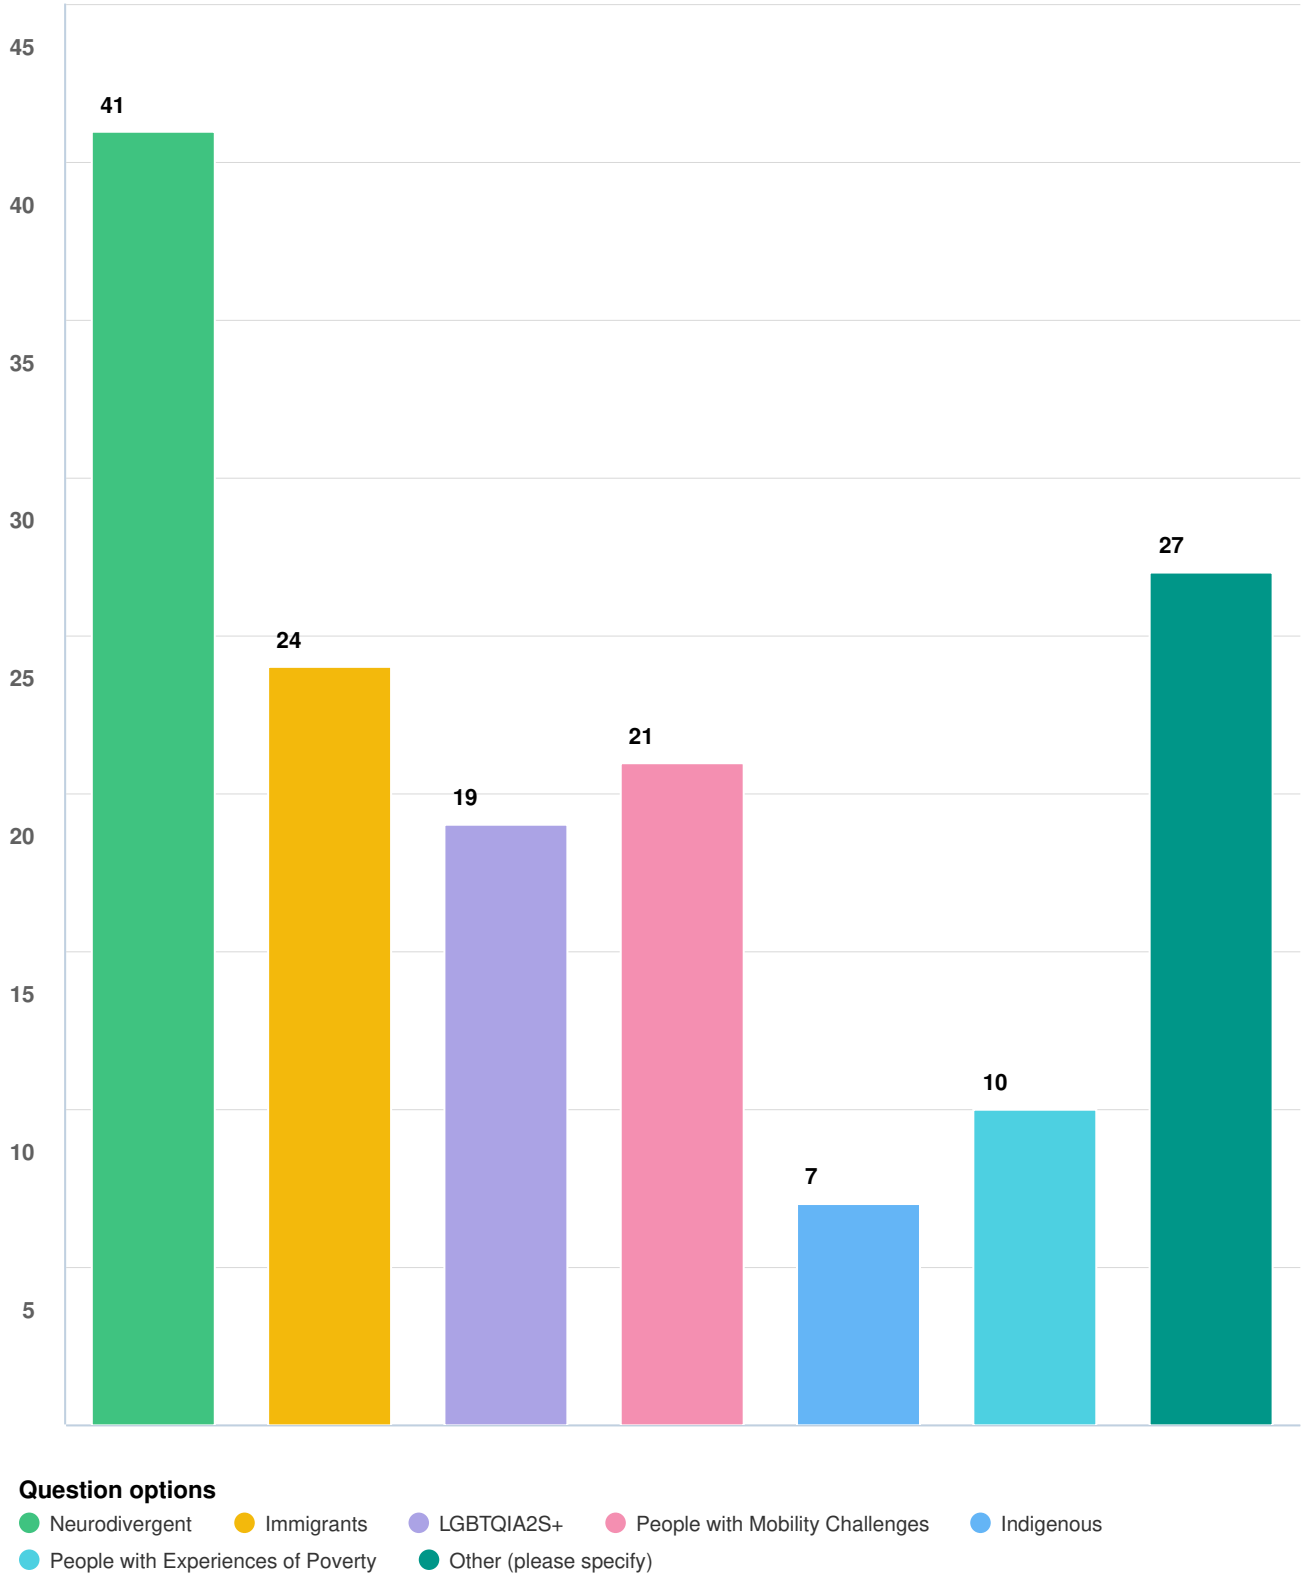

Question options

Tsawwassen Ladner North Delta Rural Delta Other (please specify)

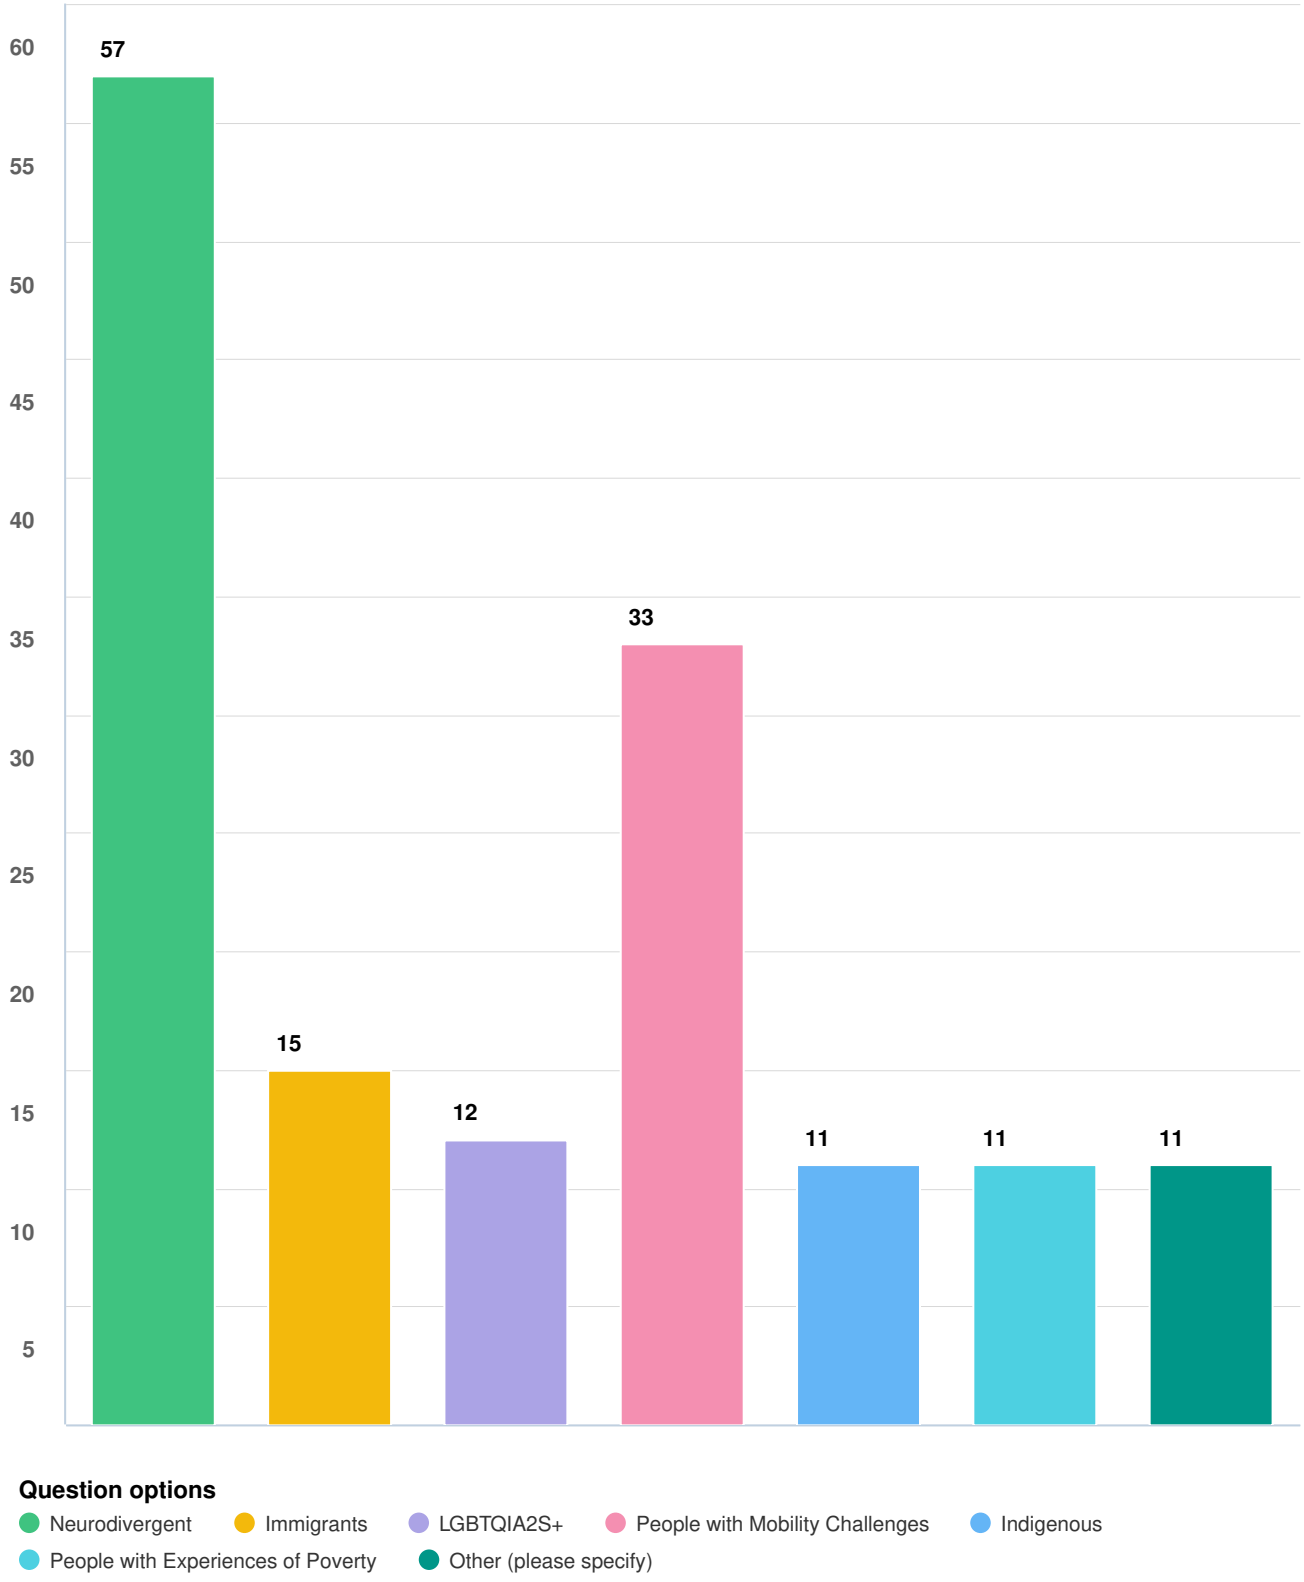

Optional question (578 response(s), 4 skipped)
Question type: Radio Button Question

Q7 Do you identify as belonging to any of the following groups? Please select those that apply if yes. If no, proceed to the next question. (We invite you to consider your unique background and needs in your responses to the feedback form.)

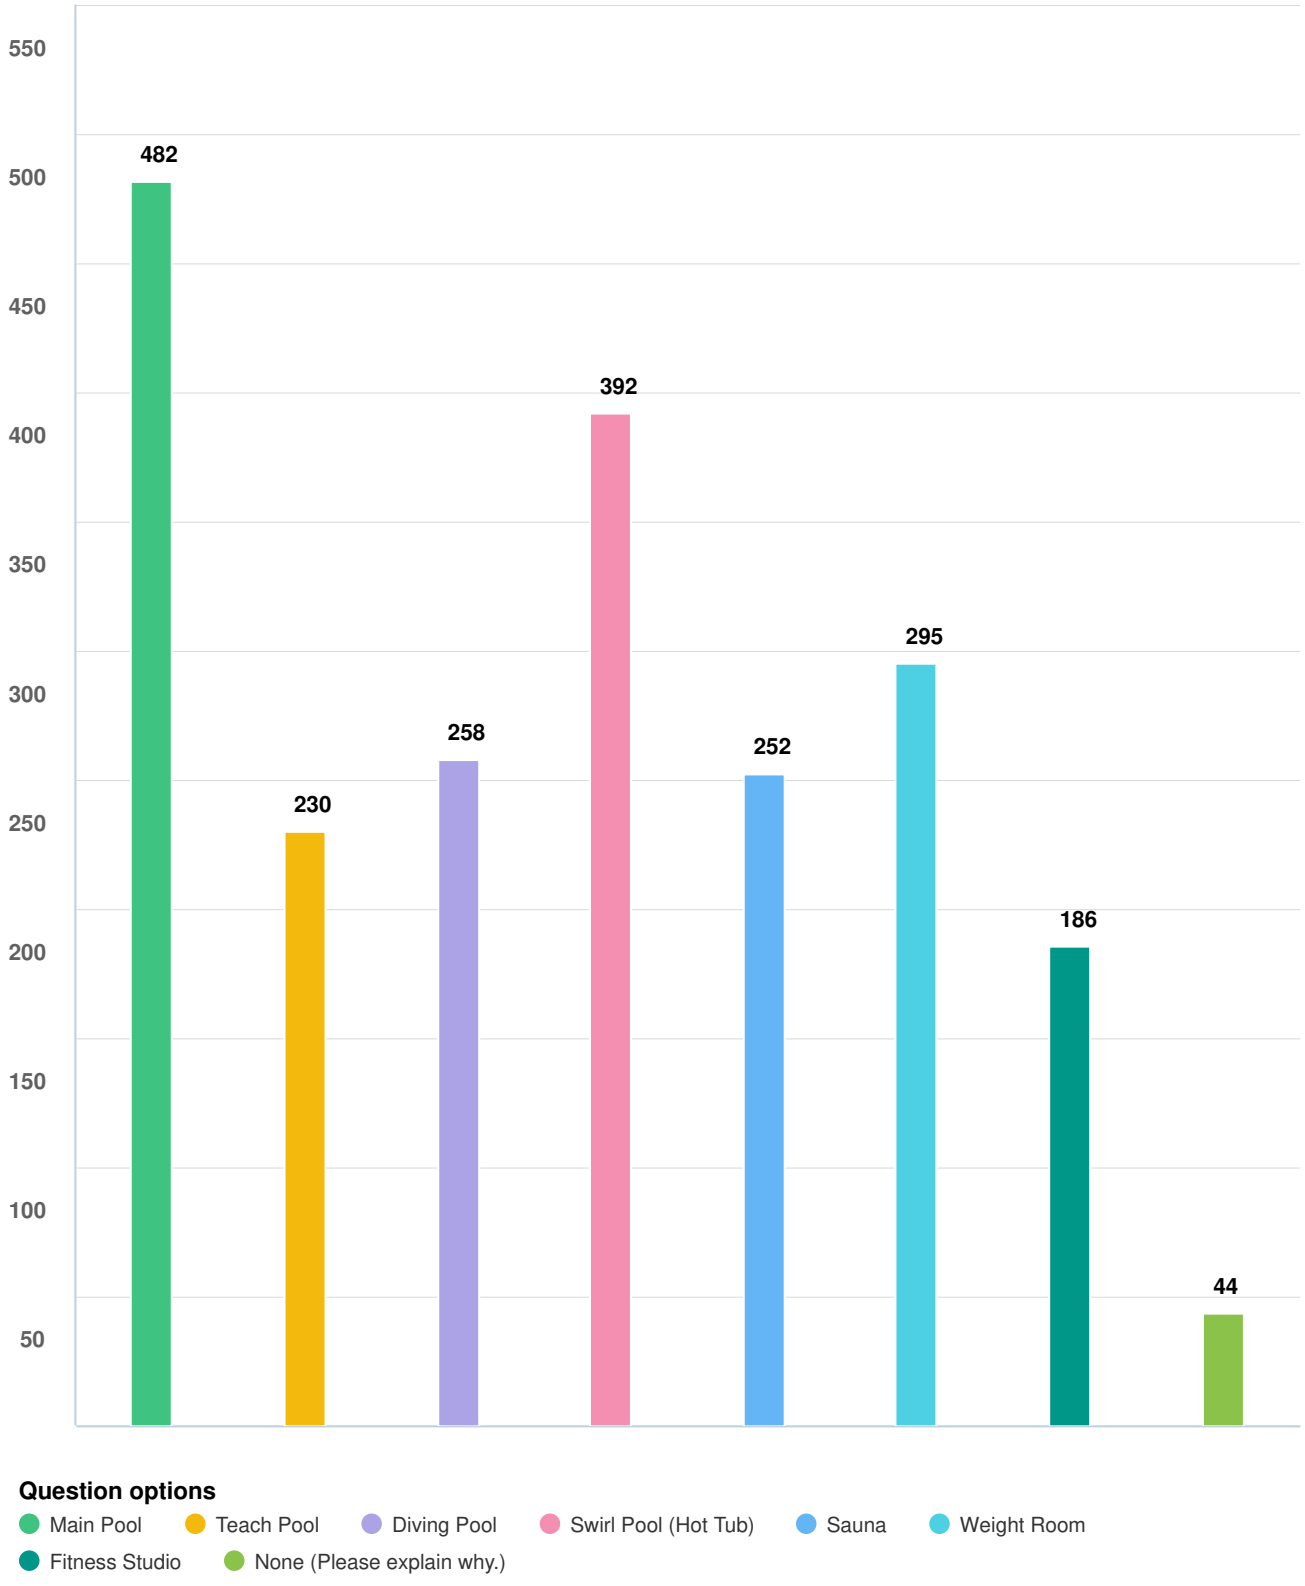

Optional question (125 response(s), 457 skipped)
Question type: Checkbox Question

Q8 Do you identify as being a caretaker, family member, or support worker of any of the following groups? Please select those that apply if yes. If no, proceed to the next question. (We invite you to consider your unique background in your responses to...

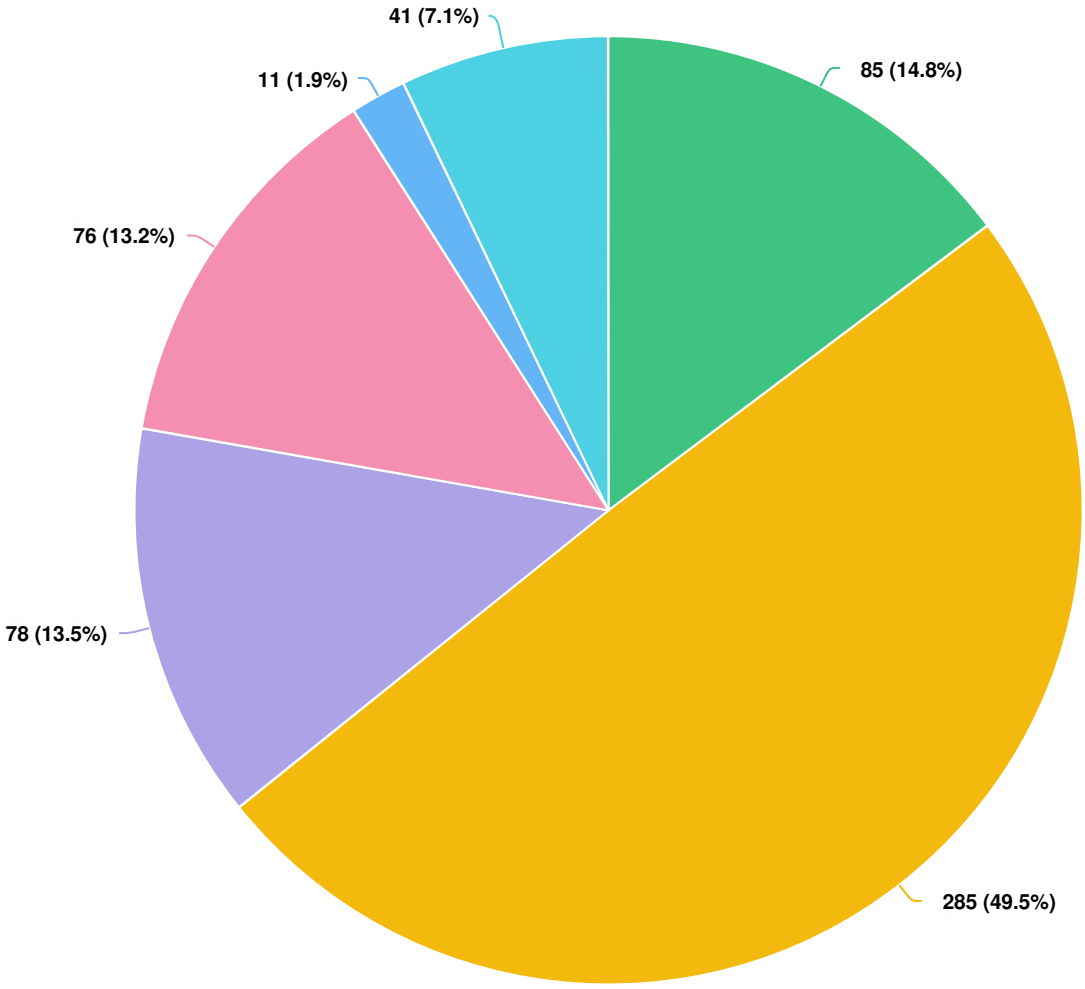

Optional question (117 response(s), 465 skipped)
Question type: Checkbox Question

Q9 Which amenities at the Winskill Aquatic and Fitness Centre do you or your household currently use? Select those that apply.

Optional question (566 response(s), 16 skipped)
Question type: Checkbox Question

Q10 How frequently do you or your household visit the Winskill Aquatic and Fitness Centre?

Question options

Daily Weekly Monthly Seasonally Yearly Never (Please tell us why.)

Optional question (575 response(s), 7 skipped)
Question type: Radio Button Question

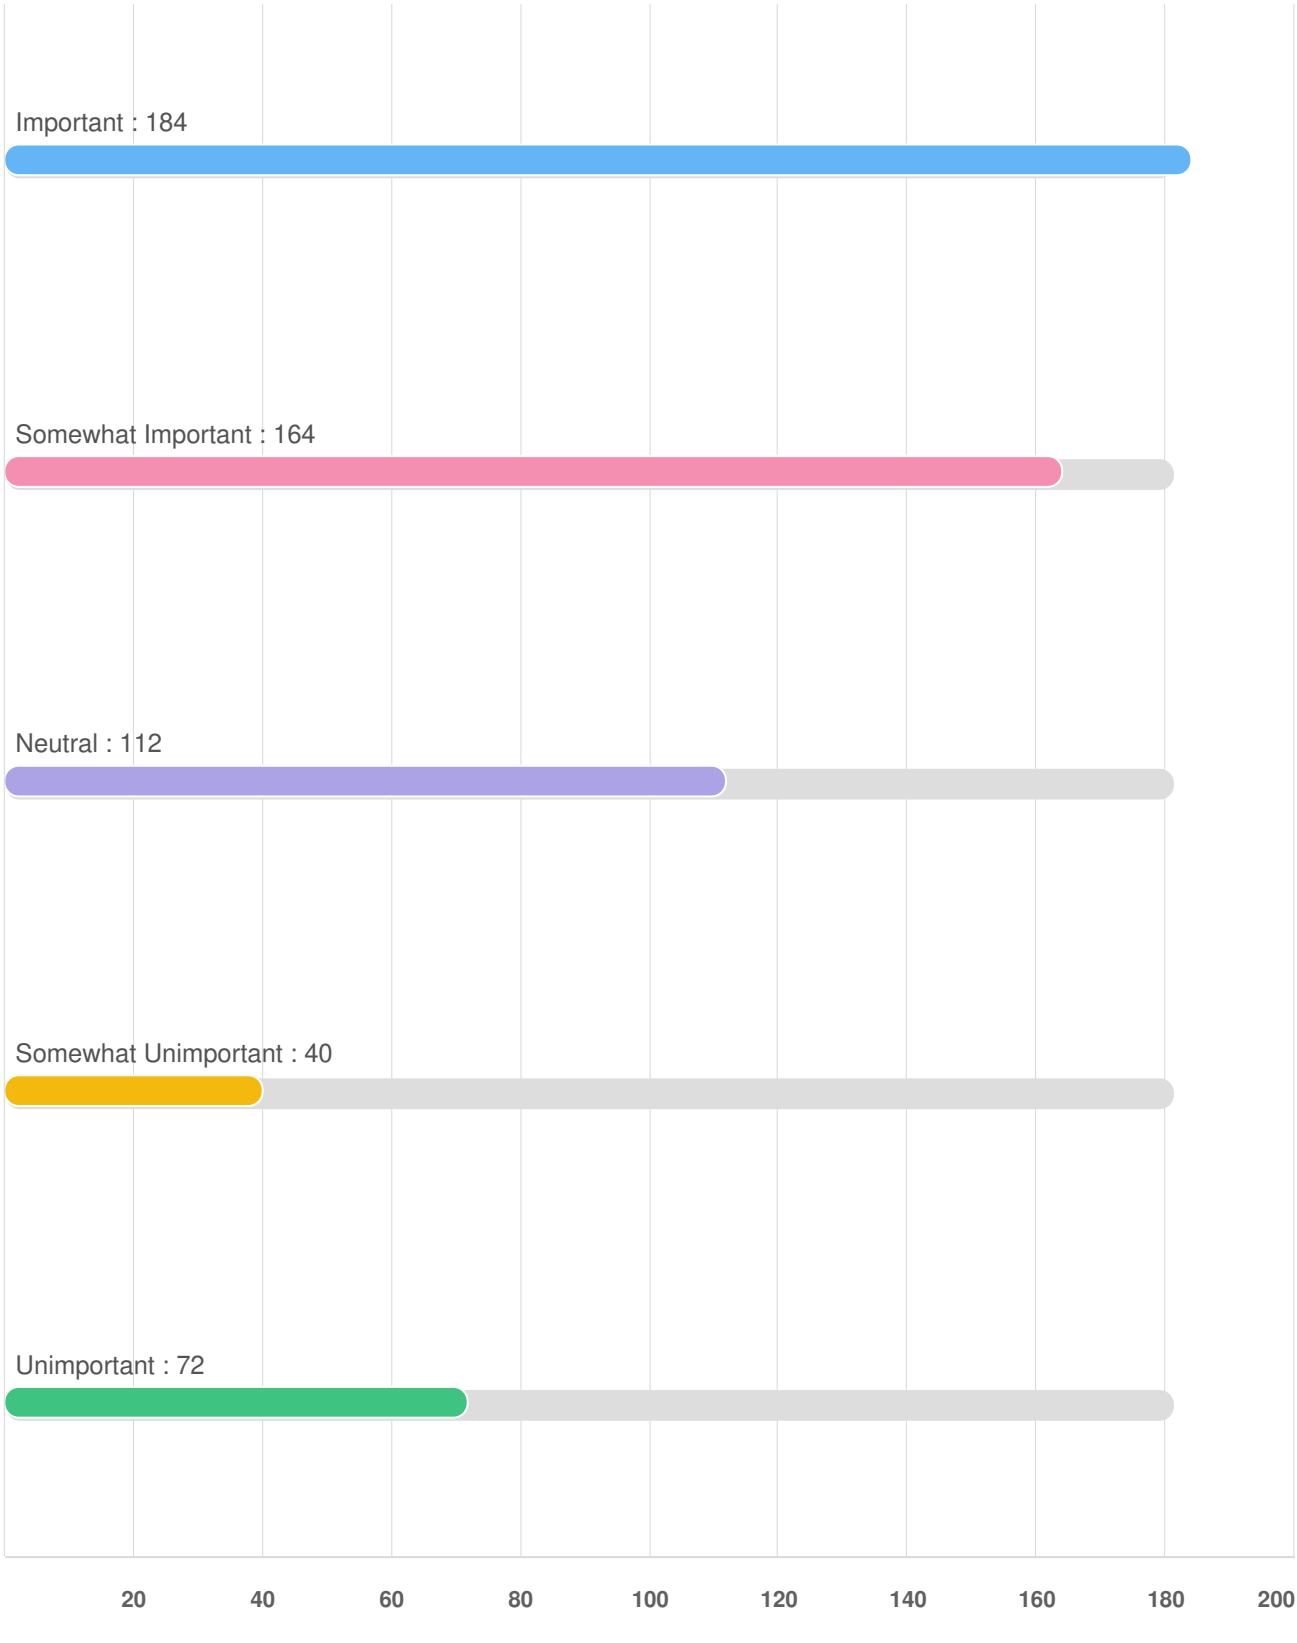

Q11 Below is a list of elements that can help inform a vision for the future aquatic and fitness facility. Which do you think are most important for the community?

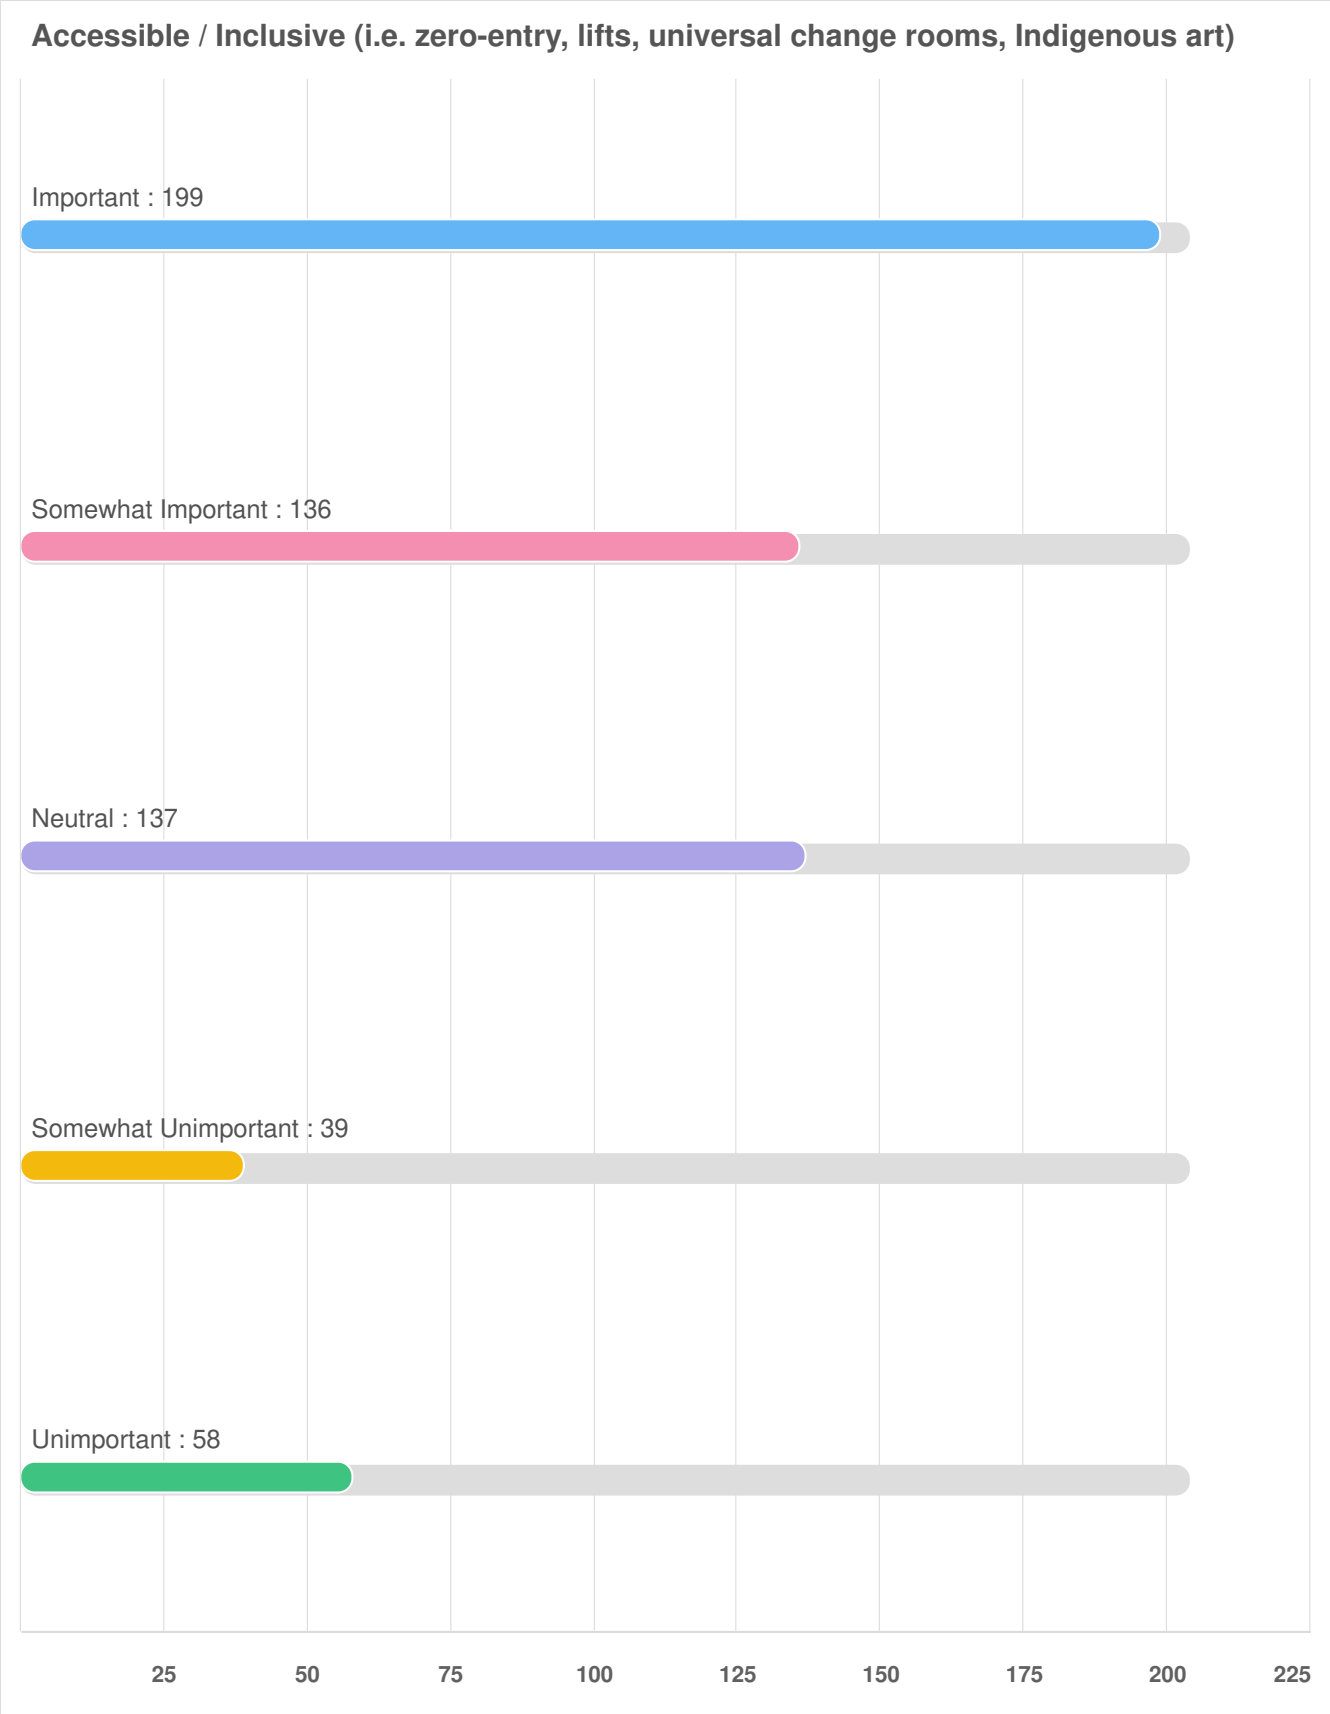

Optional question (571 response(s), 11 skipped)
Question type: Likert Question

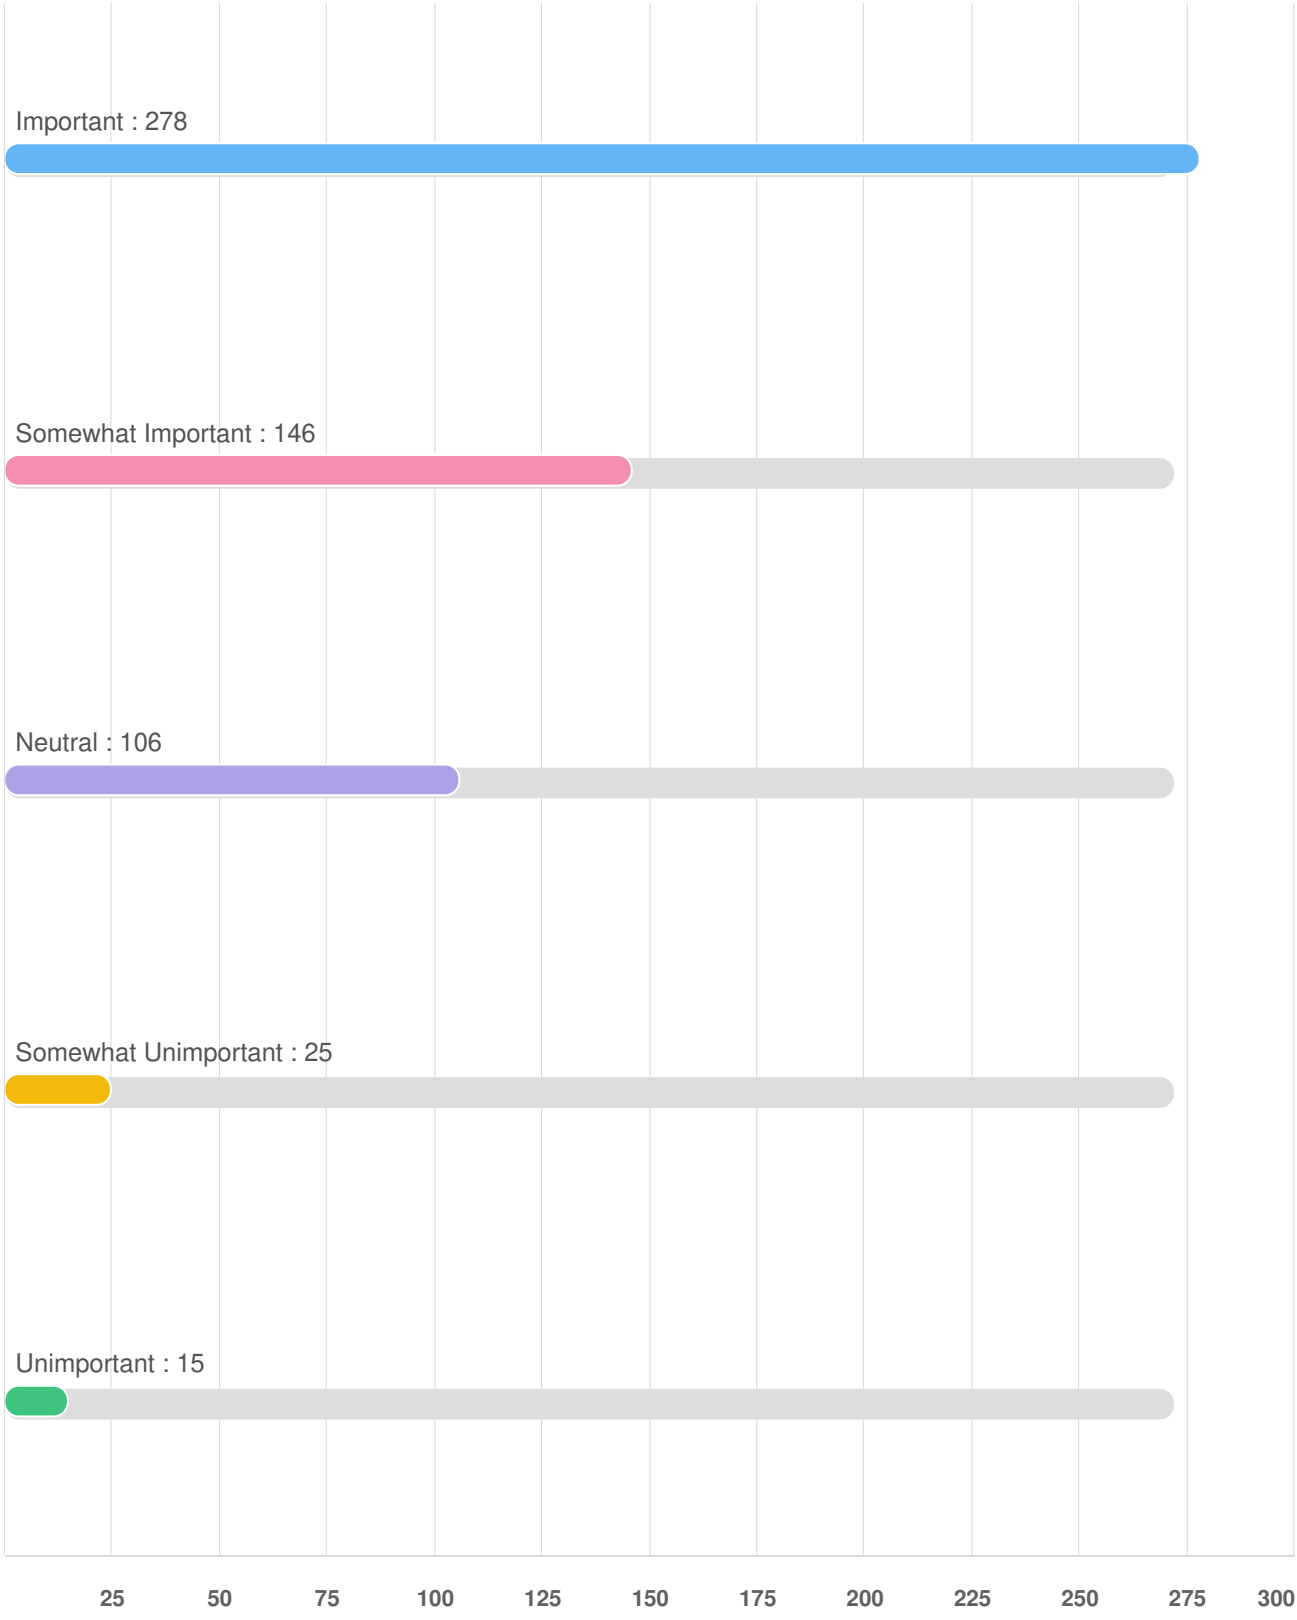

Q11 **Below is a list of elements that can help inform a vision for the future aquatic and fitness facility. Which do you think are most important for the community?**

Fun / Attractions (i.e. water slides, climbing features, lazy rivers)

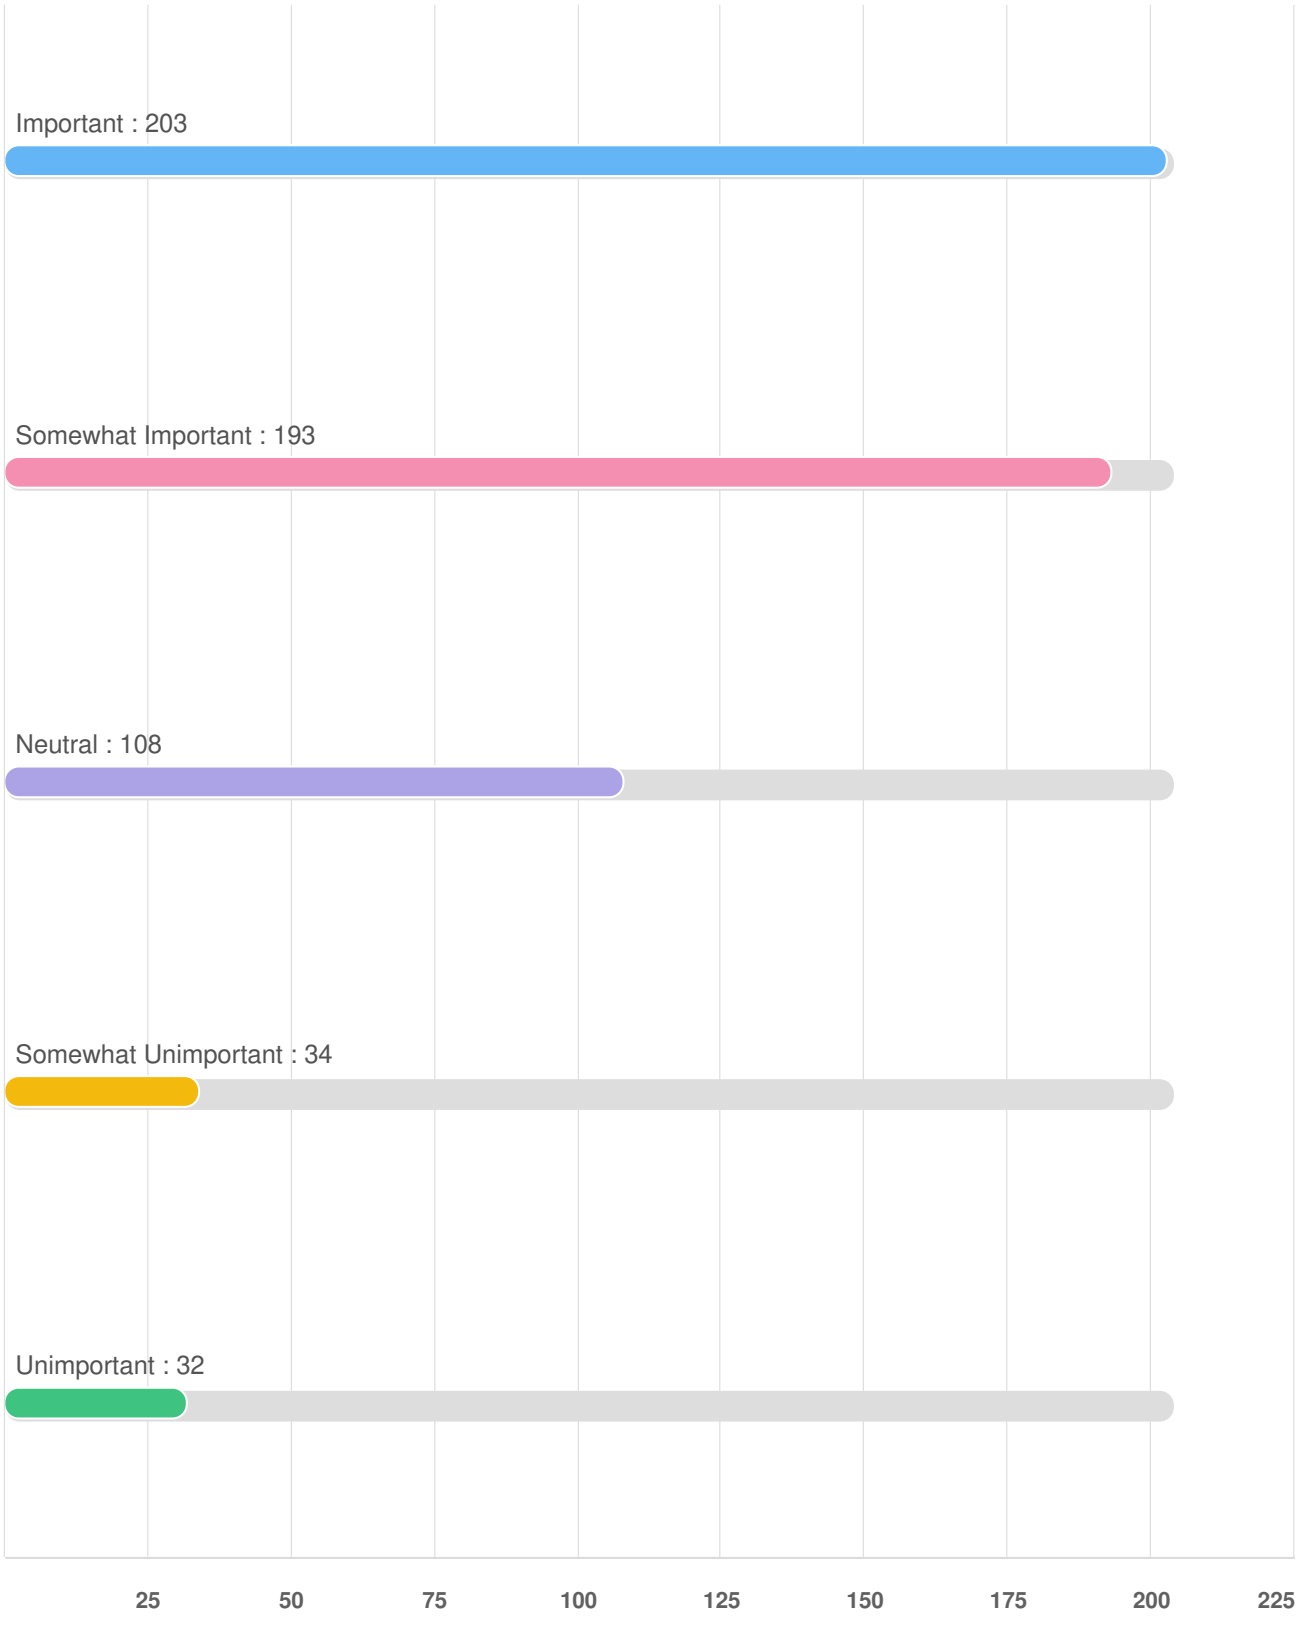

Accessible / Inclusive (i.e. zero-entry, lifts, universal change rooms, Indigenous art)
Important : 199
Somewhat Important : 136
Neutral : 137
Somewhat Unimportant : 39
Unimportant : 58
25
50
75
100
125
150
175
200
225

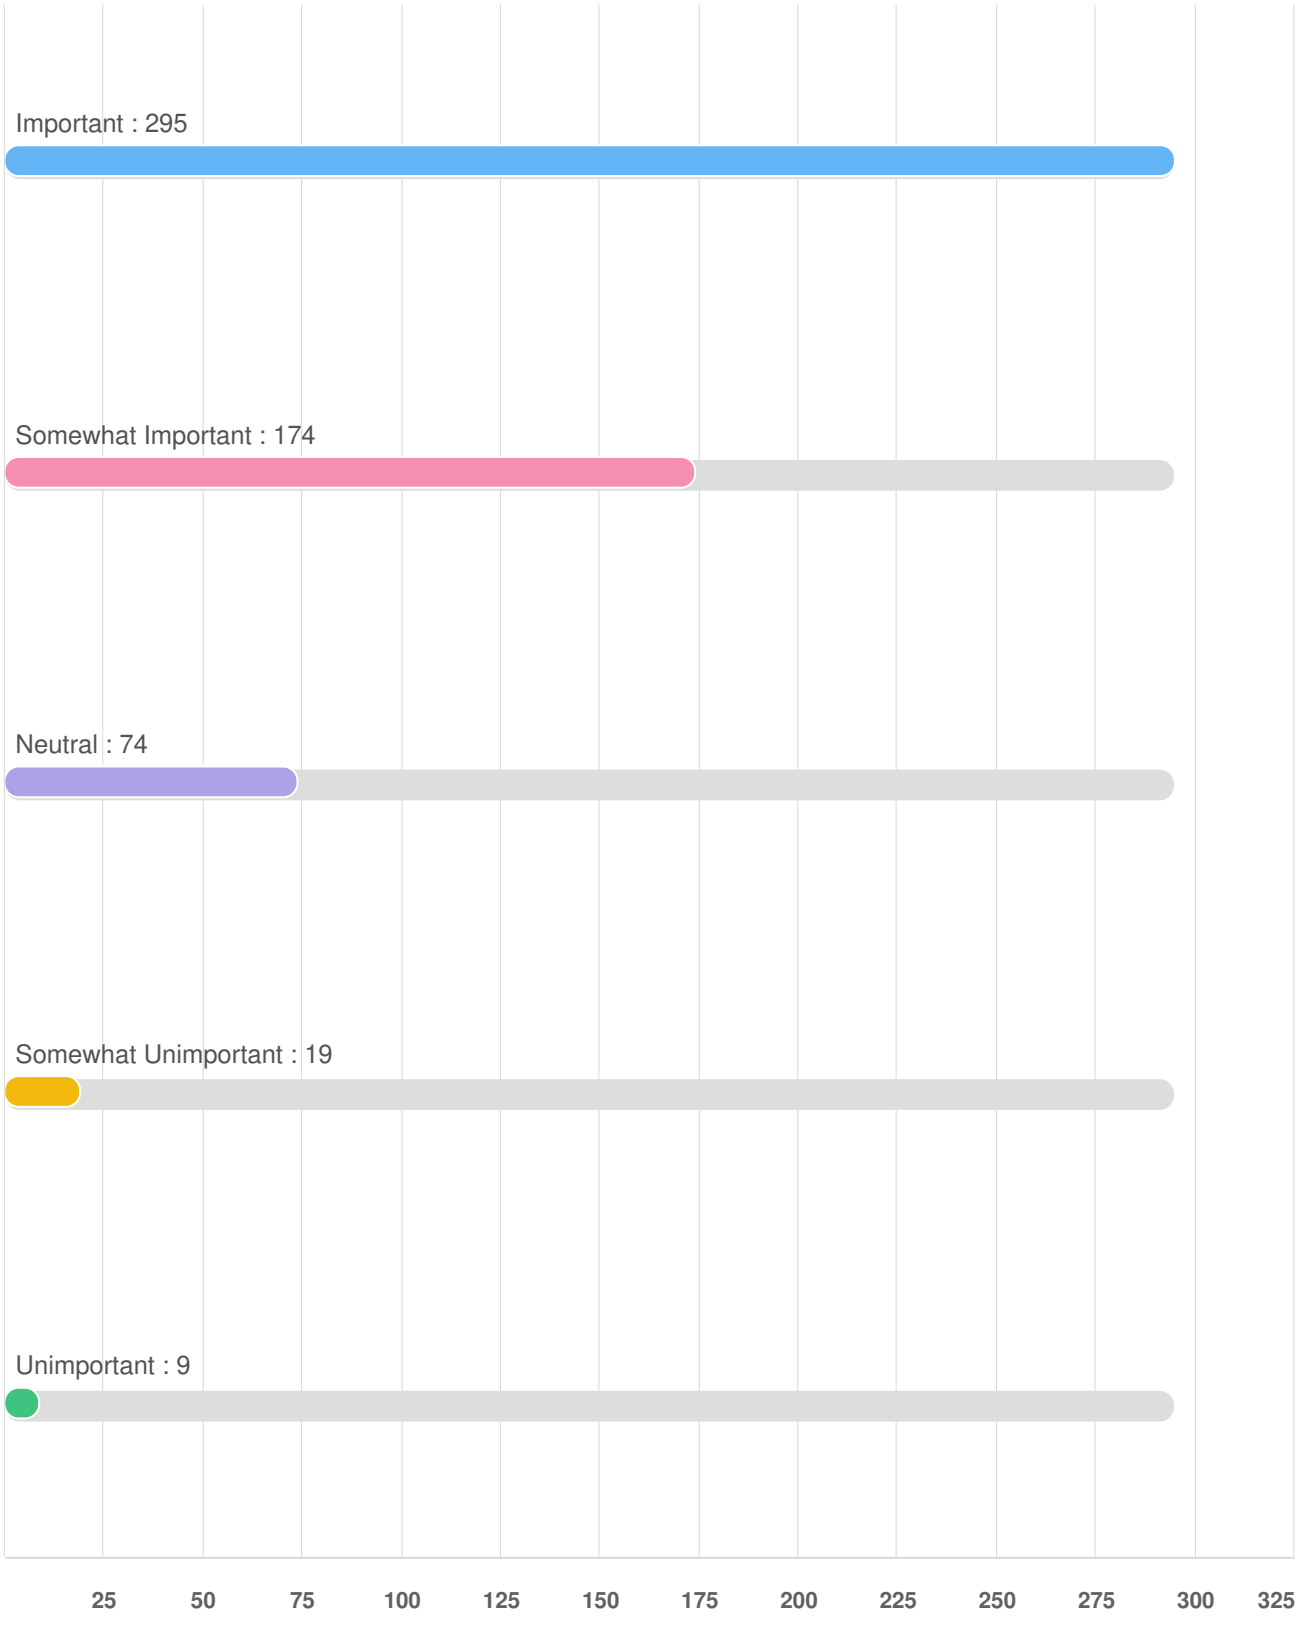

Fitness / Sport (i.e. maximize lanes / fitness area, host competitions)

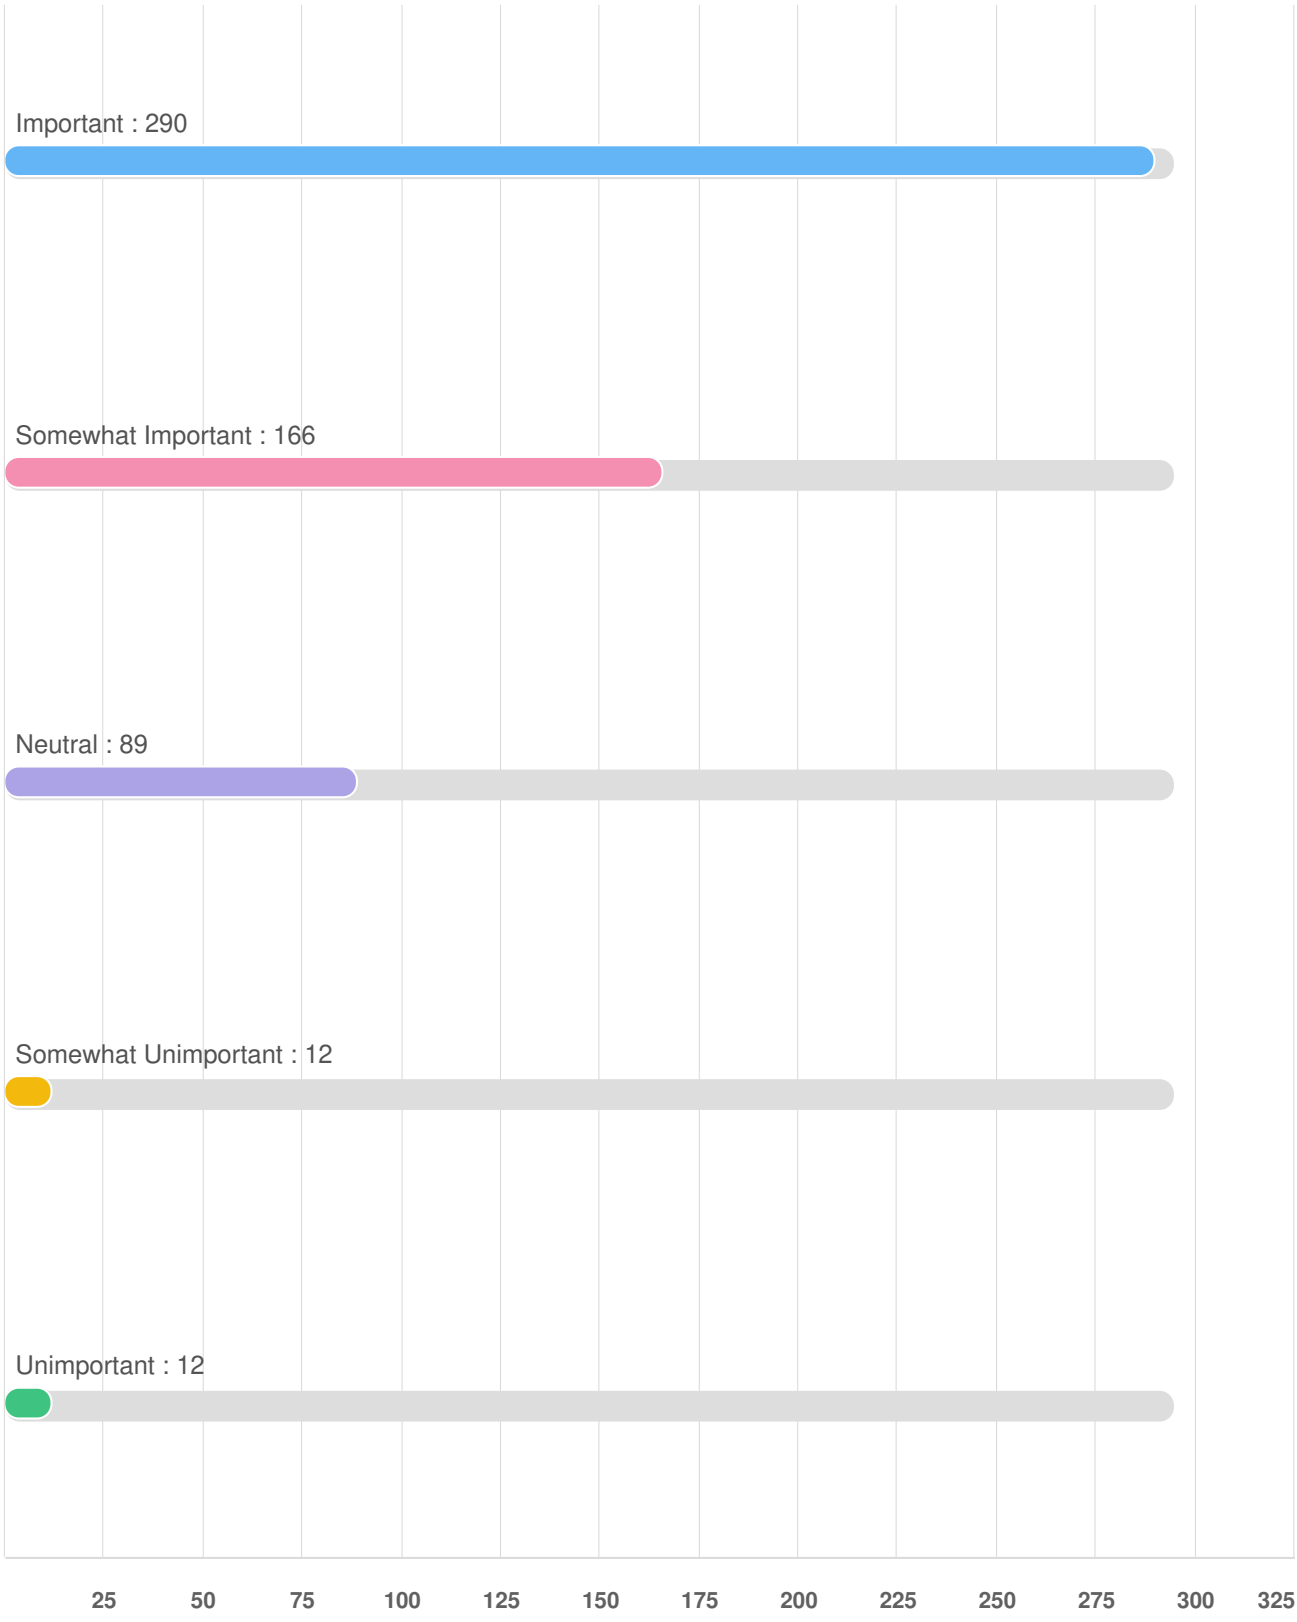

Conservation / Sustainability (i.e. solar panels, UV water treatment)

Health / Wellness (i.e. saunas, cold plunge, hot pools)

Education / Programs (i.e. teach pool, multi-purpose rooms)

Q12 Are any elements of a possible vision missing?

Screen Name Redacted
5/07/2024 08:17 PM

Picnic area where families can enjoy the pool and have lunch on a patio with a garden and continue to be active in the pool.

Screen Name Redacted
5/07/2024 08:43 PM

Enough lane space that all user groups can operate at the same time and not compete for that space. Classes and spaces for older kids/teens to have fun and hang out. My kids eyes got huge at mention of water slides and lazy rivers the pool isn't currently fun for older kids. As swim club members being better set up for competition and use of dive blocks into the lanes to optimize practicing those skills more regularly. I would love to see more school programs such as the one my oldest grade 5 daughter got to take part in for all school aged kids. Water safety and skills should be a priority for physical education and a facility that could host more of these programs would be amazing!!

Screen Name Redacted
5/07/2024 09:19 PM

Bleachers and Scoreboard for hosting regional and provincial swim meets Good quality blocks, touch pads for swim Natural light A 10-lane, 50 metre FINA-standard Olympic size competition pool A 500 square metre leisure pool with graduated access Diving facilities with a full set of dive towers to a height of 10 metres Hot tubs for families (with ramp access) and adults Large family-friendly universal change area Portable lift with 600lb capacity and portable staircase Two aquatic wheelchairs Waterslide Lazy river, spray features, and tot's area with access ramp Accessible steam room and dry sauna Spectator seating for 500 people Aquatic walker Exterior terrace

Screen Name Redacted
5/08/2024 07:44 AM

Many people in this town want to see a larger pool as there are multiple user groups that do not get a schedule due to lack of space in the current pool. My own swim group hasn't had a scheduled spot for YEARS! Also, you need to. Hold this pool for the next 50 years, increasing our housing units by 20% in the next 20 years will bring a much larger population here. Winskill aquatic and fitness centre is the WORST and SMALLEST one in the lower mainland! We need to think of young families, teens and adults and older adults here. One thing missing from your questions s the lounge area. There should be around with booths and chairs and tables So that members of our community have a place to go where they do not have to spend money and they can sit and enjoy the company of others or do their homework or have a conversation group. The only place you can do this right now that is inside out of the rain and cold is the library and that is not a place that people can actually have a regular

	conversation due to the need to be quiet. The other thing that's missing is a steam room, Many community centres around lower mainland have steam rooms now. In Europe, the health benefits of Steam rooms are widely known and used. They should definitely be lazy, rivers and fun activities and a much larger teach pool. My own daughter almost drowned because of the crowding in the teach pool that Winskill.
Screen Name Redacted 5/08/2024 12:32 PM	Community space, for gathering, public indoor space for teens to gather and study, room for boys and girls club
Screen Name Redacted 5/08/2024 01:03 PM	Blending into the environment of the area/community. Pleasant to the eye. Design of the facility.
Screen Name Redacted 5/08/2024 01:49 PM	Health and wellness is missing racket sports
Screen Name Redacted 5/08/2024 01:52 PM	Use the space vertically. We need to have space to practice health and wellness all year round, why not create a running or walking track on the second story? A safe playground space for children and a coffee shop or food venue that encourages people to stay and socialize and utilize community. Room to have fitness classes for all ages and the proper equipment and space in the weight room to train. Rowing machine and airdyne machine and barbells. A place to rent a bike as an electric bike share program. Also, showers need to be individual. With the rise of unique backgrounds and genders everyone, especially small children, need a safe space to shower and change after the pool or gym. There needs to be change tables accessible to those of all needs including older children that may require a change table. We have the knowledge and must get this right for future generations.
Screen Name Redacted 5/08/2024 02:23 PM	Weights/strength training component
Screen Name Redacted 5/08/2024 04:30 PM	I would look to Minoru in Richmond as an example for Winskill.
Screen Name Redacted 5/08/2024 09:08 PM	Parking should be in the back and more Of it!. What about underground parking or a parkade. Use poco or richmond aquatic community centres as an example of what's needed! This is long over due! Also need a boys and girls club for Tsw. The current "barn" is so unsafe for children and workers w mold. We sent our kids to

	LADNER's because of the run down facility.
Screen Name Redacted 5/09/2024 12:41 PM	don't need a gymnasium, do more multi-purpose room spaces for registered/drop in programs, rentals, courses etc. The gymnasium is already at sdrc and is quiet already as it is unless there is a drop in program going on.
Screen Name Redacted 5/09/2024 04:15 PM	DIVING BOARDS, DIFFERENT LEVELS
Screen Name Redacted 5/09/2024 05:08 PM	location - Why Winskill Park? Why not Dennison Park for school use or next to SDRC
Screen Name Redacted 5/09/2024 05:18 PM	Option 2 adding another light/ intersection would mean 4 stoplights within the span of 2 blocks (pedestrian crossing at the medical building, new intersection at 10th, entrance to the park at Ray Carter way AND then intersection at 8th.... will cause major backlog and traffic on a main artillery road for tsawwassen. this is not ideal
Screen Name Redacted 5/09/2024 06:24 PM	I would suggest a couple of Pilates reformers would be nice so patrons who have Pilates training can sign up to use them self directed.
Screen Name Redacted 5/09/2024 08:05 PM	1. A multi-use room for any faith based activities. 2. There is not even a single Squash court in entire Delta. Delta is the only city which does not have any such facility. Please include provision of at least 1 Squash court in this redesign.
Screen Name Redacted 5/10/2024 11:08 AM	Prioritizing both the public and user groups would be ideal. That means enough space to accommodate both. I would like to see a facility that is able to accommodate those in our community with special needs, currently there are no programs that focus on this segment of our society.
Screen Name Redacted 5/10/2024 11:42 AM	More 25 metre lanes, that don't have to be taken down to utilize other activities in the pool. Teach pool that is not so shallow. Steam room. Warmer change rooms. More family friendly change rooms.
Screen Name Redacted 5/10/2024 03:04 PM	I see there is a "flex field" but how about an outdoor patio with some picnic tables.

Screen Name Redacted 5/10/2024 06:45 PM	Change room facilities. Important for people who are handicapped or somewhat handicapped
Screen Name Redacted 5/10/2024 11:22 PM	I would love to see the vision for the facility progressive , forward thinking and welcoming for all ages and interests. A vibrant community hub. I believe the library is the heart of an educated public and an essential part of this complex. The weight room facility needs to be much larger than currently exists. Increased space for fitness classes, sports/swim training , meeting areas, birthday party rooms should also be incorporated . Our community is growing. We want healthy vibrant connected citizens. A first rate centre could encourage this.
Screen Name Redacted 5/11/2024 12:53 PM	teaching space - quiet areas - family change spaces
Screen Name Redacted 5/11/2024 11:22 PM	Family friendly. A place people want to go to hang out and feel good about physical activity
Screen Name Redacted 5/13/2024 01:16 PM	A way to open windows in summer for ventilation and interface with the outdoors
Screen Name Redacted 5/13/2024 08:58 PM	The exterior of the facility needs to remain intact. the forested trail provides much needed green space in a community where unsustainable concrete and 23 storey towers will dominate the city core, upsetting our eco culture and animal and bird populations. Not to mention, we need more outdoor green space for our seniors, children and leisure enthusiasts. In fact, a brilliant option would to build the new aquatic center right next to the ice rink/recreation center as in Ladner. The city can then donate the Winskill Land and green space to Affordable Housing Society where 30% rent-geared-to-income condos/townhomes or apartments can be built providing the much needed housing to people whose incomes fall into the $30,000-$90,000 brackets, thereby helping to meet the BC Government's Housing mandate in the process.
Screen Name Redacted 5/13/2024 10:39 PM	Very important to ensure there is accessible areas for those with mobility issues. Activities for children and hot tubs, saunas that youth and adults enjoy. A good weight room that is accessible and good for youth and adults.

Screen Name Redacted 5/14/2024 12:05 PM	no
Screen Name Redacted 5/14/2024 03:25 PM	Should include as much/many windows as possible. Being able to bring the outdoors in when working out, swimming, utilizing the hot tub/sauna similar to how it current is an important feature. I think how the windowed workout room and being able to watch/look out to the fields and similarly the windowed hot tub area is an amazing feature for wellbeing. Taking in the beauty of the park/outdoor elements while being physically active within the facility only amplifies the overall wellbeing of individuals.
Screen Name Redacted 5/14/2024 08:38 PM	Balance - interests and needs of different age groups
Screen Name Redacted 5/16/2024 09:49 AM	Tsawwassen needs an outdoor pool
Screen Name Redacted 5/16/2024 10:36 AM	More details on dry land fitness/wellness.
Screen Name Redacted 5/16/2024 12:24 PM	I would love to have a mind for design for multi-use spaces. There's a considerable lack of services in Delta for several populations and I'd love to see spaces designed with them in mind. For instance, a gym space with cardio equipment close to an open gym space would allow for cardiac rehab classes, PWR classes for people with Parkinsons, Osteofit for people with osteoporosis and osteoarthritis, and more.
Screen Name Redacted 5/17/2024 10:27 AM	With so many young families moving here we need to ensure that this is being addressed in the new build. From appropriate pools to change rooms. I worked at this pool as did my husband for almost 16 years collectively and have seen this area to always be lacking.
Screen Name Redacted 5/17/2024 12:38 PM	Adding extra parking is perfect
Screen Name Redacted 5/17/2024 12:59 PM	Lazy rivers. Enjoyable, stimulating shallow playa teas for small children and children with disabilities. Sensory areas, something that is planned to be sufficient long term with a an expectation placed on population growth.

Screen Name Redacted 5/18/2024 11:48 AM	The park itself as an outdoor exercise location. Blow
Screen Name Redacted 5/18/2024 12:12 PM	Disc golf course
Screen Name Redacted 5/18/2024 01:08 PM	I beg you to consider leaving the disc golf park and forested area at Winskill alone and look at other areas for parking and facility construction.
Screen Name Redacted 5/18/2024 01:39 PM	No
Screen Name Redacted 5/18/2024 02:38 PM	reducing use of chlorine and increasing use of level of salt water to reduce maintenance costs
Screen Name Redacted 5/18/2024 03:07 PM	destruction of trees in area; cost of project.
Screen Name Redacted 5/19/2024 10:09 AM	Yes. North Delta needs another indoor pool facility.
Screen Name Redacted 5/19/2024 06:10 PM	Outside disc golf course
Screen Name Redacted 5/20/2024 10:05 PM	Winskill is maxed out now and this community is set to grow. The facility (pool sizes and amenities like lazy river, well designed and plentiful family change rooms, large gym, room for boys and girls club, etc) and neighbouring fields should be accounting for growth in the community to come over the next 25 years. Let's go big now, and make a large world-class facility, with an extra diamond and lots of parking and replant the treed area elsewhere. diefenbaker could stand for a larger treed area and even some disc golf holes.
Screen Name Redacted 5/21/2024 10:59 AM	I would rather have a family doctor than a modern pool.
Screen Name Redacted 5/21/2024 01:37 PM	Parking, concession, maximizing the amount of green space in the park set-aside for playing fields
Screen Name Redacted	not that I can see

5/21/2024 07:04 PM	
Screen Name Redacted 5/22/2024 03:40 PM	potential for high level swim meets to come to Tsaw
Screen Name Redacted 5/22/2024 07:14 PM	- Splash pad area. - Interactive play station features for neurodivergent children with special needs that may not "play" the same way as other typical children their age (sensory play - water tube stations, water tables, manipulatives, etc). - Zero entry locations to all water areas including hot tub (for wheelchair and mobility challenges)
Screen Name Redacted 5/23/2024 10:37 PM	1. Need a good kids/parents area for playing and teaching to swim 2. Plunge pools of various heats including cold 3. bigger hot tub
Screen Name Redacted 5/23/2024 10:43 PM	Build for now and future generations!
Screen Name Redacted 5/24/2024 08:56 AM	Locating the new facility at the South Delta Rec site and avoiding cutting down the forest/disc golf course area makes a lot of sense.
Screen Name Redacted 5/24/2024 02:05 PM	Good family change and shower room design. Currently we are always having challenges getting the kids showed after the lessons as there are only 4 family room. A good high diving area will also be a nice feature.
Screen Name Redacted 5/24/2024 02:27 PM	A steam room and yoga/fitness studio should be included.
Screen Name Redacted 5/24/2024 06:28 PM	Preserving and adding to the urban forest. Parks should be more than playing fields. With so many mature trees being removed on private property, they should be preserved on public property.
Screen Name Redacted 5/24/2024 07:23 PM	Could the building include other uses such as supportive housing?
Screen Name Redacted 5/24/2024 07:40 PM	Baby areas
Screen Name Redacted	Looks good

5/25/2024 12:26 PM

Screen Name Redacted
5/25/2024 02:15 PM

Intuitive layouts Try to position pools to mitigate sound effects of potentially loud groups, children using Lazy River or getting lessons from areas they're probably not supposed to be using like the sauna or hot pool Considerations for transportation to the park most layouts involved a very huge looking parking lot space. If city is insistent on excessive parking try to mitigate how vulnerable users might access and store their Mobility devices like bikes or scooters close to main entrances preferably Undercover.

Screen Name Redacted
5/26/2024 11:23 AM

Track like minoru lighted

Screen Name Redacted
5/26/2024 11:38 AM

Youth meeting and social areas

Screen Name Redacted
5/26/2024 04:12 PM

Yes, preservation of Winskill's disc golf course. The first in Canada and one of the oldest in the world. The mature trees provide important shade and green space during the summer months. If disc golf is displaced, we will have to travel to Langely and Vancouver to play as there are no courses in Richmond or Surrey for this growing sport.

Screen Name Redacted
5/26/2024 06:14 PM

Disc golf

Screen Name Redacted
5/26/2024 08:54 PM

Using a more environmentally efficient water filtering system means that more of us who are affected by the high chlorine amount in the pool,can also enjoy the use of the facility and reap the health benefits of being active.

Screen Name Redacted
5/26/2024 09:17 PM

A multi-level facility that in addition to the elements above, also has underground parking available to minimize pavement taking up valuable green space

Screen Name Redacted
5/27/2024 10:57 AM

Would love a cycling space for classes like Cycle Fit at Ladner Leisure Centre.

Screen Name Redacted
5/27/2024 12:27 PM

I am concerned you are missing the aspect of preserving the greenspace. It appears the city sees the greenspace as land upon which to expand the built environment. I happen to think we need

	more natural outdoor spaces in our lives, not fewer. Joni said it best, they paved paradise, put up a parking lot.
Screen Name Redacted 5/27/2024 01:28 PM	delta swim lessons book up as soon as they're released. in general, we need more times for evening/weekend enfant/children swim lessons.
Screen Name Redacted 5/27/2024 02:34 PM	I'm not sure.
Screen Name Redacted 5/27/2024 04:09 PM	A 50m lane pool
Screen Name Redacted 5/27/2024 06:15 PM	The current “viewing area” is way too small and poorly laid out
Screen Name Redacted 5/27/2024 09:08 PM	I wish there was steam sauna and couple of showers with privacy curtains. I miss that part every time I go there.
Screen Name Redacted 5/28/2024 12:47 PM	Nuclear power plant
Screen Name Redacted 5/28/2024 04:00 PM	I have a young autistic child with severe sensory and anxiery needs. There needs to be an area that is sensory sensitive, a quiet part of the pool those ND patrons can go where there is less crowds/chaos and no blasting music/more quiet. My 4 year old is neurotypical and can't go to pool either because it is too loud and overwhelming. A quiet area that has shallow and deeper options for leisure swimming and lessons would be good. Or at the very least sensory friendly times that arent just dueing school or first thing in morning. Also quieter sensory friendly change rooms with sound proofing less echo and loud blow dryers and toilet flushes would make the pool more sensory friendly as well. Also sensory friendly fitness or physical activity classes that are offered outside of school hours and weekends too!
Screen Name Redacted 5/28/2024 05:56 PM	Club and competition spaces
Screen Name Redacted 5/28/2024 09:46 PM	Coffee shop?

Screen Name Redacted 5/28/2024 10:31 PM	Steam room
Screen Name Redacted 5/29/2024 06:37 AM	Having a weight room that meets the needs of all users. Better equipment, a calf raise machine, a hack squat machine, a preacher curl machine with plate options, lying leg curl machine, more dumbbells with 2.5lb increases between each. Better spacing between machines.
Screen Name Redacted 5/29/2024 09:17 AM	location.. perhaps the center should be at the rec center.
Screen Name Redacted 5/29/2024 03:56 PM	There is nothing in here about a viewing area. I think that is super important. I can't see what my kids are doing at all. One from above like many pools have would be great. I also think that there are not a lot of options about hosting swim meets. This should be incorporated into the vision. No options on here about a 50M pool either.
Screen Name Redacted 5/29/2024 07:20 PM	Outdoor washrooms
Screen Name Redacted 5/29/2024 10:24 PM	Ample space for large classes in pool - deep and shallow end and walking lanes etc Also water belts etc
Screen Name Redacted 5/29/2024 10:46 PM	There needs to be enough space to balance the demand in South Delta for youth swimming lessons with the need for senior/neurodivergent classes. It's not just about the space, there needs to be a budget that supports the staffing of the space too.
Screen Name Redacted 5/30/2024 12:52 PM	We need a world class pool that has the ability to attract and host competitions. The pool needs a 50m lane. If we cannot build this properly or don’t have the fund, why are we doing it now. Why not wait 2-5 more years post OCP and collect more tax to properly fund a world class pool that will attract and have people want to visit. Why don’t we think outside the box for parking? It feels like the center is being replaced with the same same. I’m not sold.
Screen Name Redacted 5/30/2024 01:56 PM	Think big, Delta! Meeting rooms for community groups. Create a new social centre for the community.
Screen Name Redacted	The pool has to be 50m.

5/30/2024 05:15 PM

Screen Name Redacted
5/30/2024 07:18 PM

No

Screen Name Redacted
5/30/2024 09:43 PM

The Air Quality inside the facilities. 1. No smoking of course. 2. Hepa filtration of all recirculating air. 3. A high ration of make up air. 4. Hepa filtration of make up air. 5. carbon filtering of the air in the swimming pool building to cut down on the chlorine smell on swimmers and attendants.

Screen Name Redacted
5/30/2024 10:11 PM

Sensory friendly days or even better - accessible sensory friendly areas are crucial. Some things to consider would be : quiet times with dim lighting and low or no music, signage for these times reminding others to keep it sensory friendly and not using hand dryers etc., quiet flush toilets, paper towel always accessible in the bathrooms for those who can't tolerate the noise of the hand dryers, a walk-in area of the pool for those who struggle with stairs, fragrance-free policies (both for those with severe fragrance allergies and also for sensory friendly purposes), staff being trained in neurodiverse affirming ways, more access to adaptive swim classes, accessible parking, accessible change rooms (if there's only one or two, people have to wait a long time when they actually require one, as lineups for change rooms around lesson times are frequently long), limited or no sudden noises (alarms, loud automated toilet flushes, loud hand dryers, etc.) an accessible pool area that is close enough to the main pool area to be able to have one child with extra needs in the accessible pool while watching a more able child in the main pool. These are just a few of the things that would give our family (and many family's that I know!) more access to the pool through accessibility measures. Thank you for considering. I have heard great things about the sensory friendly pool times in North Delta (or maybe Surrey I can't recall). Thanks!

Screen Name Redacted
5/31/2024 09:05 AM

Pool temperature is very important. Tsawwassen pool is colder than most other pools is swim lengths in.

Screen Name Redacted
5/31/2024 03:34 PM

Community facility where everyone can attend for lessons, training or fun.

Screen Name Redacted
5/31/2024 11:13 PM

Yes its a Park and this plan takes away way to much green space for parking and sports fields , the green forest is the most important part the PARK, it makes no sense that the trees and green space are the

	most affected, zero.
Screen Name Redacted 6/01/2024 01:22 AM	Pools with lots of natural light + windows are amazing!
Screen Name Redacted 6/01/2024 11:25 AM	Ensuring continued access to length swims and larger space for classes, especially for our older adult population
Screen Name Redacted 6/01/2024 11:59 AM	There is a lack of outdoor/forested areas for families and community members to picnic, play games, walk and enjoy the outdoors before and after using the facilities.
Screen Name Redacted 6/01/2024 11:01 PM	Outdoor section?
Screen Name Redacted 6/02/2024 06:01 AM	Open regular times without closures for groups or lessons!
Screen Name Redacted 6/02/2024 02:08 PM	Larger gym space to for multi-use activities
Screen Name Redacted 6/02/2024 04:01 PM	A 50 meter pool
Screen Name Redacted 6/02/2024 07:47 PM	Steam room
Screen Name Redacted 6/03/2024 11:54 AM	Concession for the sports fields? Birthday party spaces? Viewing areas for competitions and for lessons?
Screen Name Redacted 6/03/2024 12:28 PM	Accessibility and inclusion of cultural art should not be in the same category for importance. They are two totally different things and accessibility is of utmost importance whereas cultural inclusion will look different and change over time.
Screen Name Redacted 6/03/2024 12:43 PM	concession
Screen Name Redacted 6/03/2024 01:10 PM	I would LOVE a centrifugal bathing suit spinner in the mens washroom to ring out wet bathing suits!

Screen Name Redacted 6/03/2024 02:32 PM	Use for competitive events
Screen Name Redacted 6/03/2024 03:42 PM	Recreational pool for teaching aquafit and swim lessons that is not a cold as the competitive swim pool.
Screen Name Redacted 6/03/2024 06:53 PM	See comments below wrt new library and 50m pool.
Screen Name Redacted 6/03/2024 08:14 PM	Please make sure the pool will have features to make it accessible for the elderly and disabled. For many people the pool is the only place they can exercise and move freely with the water supporting their weight and taking it off their joints. It allows them to stay healthy longer, live independently and therefore puts less strain on the medical system.
Screen Name Redacted 6/04/2024 09:32 AM	A little cafe would be nice for people waiting and socializing
Screen Name Redacted 6/04/2024 01:29 PM	Park paths + shade trees for running
Screen Name Redacted 6/04/2024 05:40 PM	50 meter pool
Screen Name Redacted 6/05/2024 08:02 AM	No
Screen Name Redacted 6/05/2024 08:28 AM	Obstacle courses for the pool during public swim (the inflatable toys they bring out etc, monkey bars, basketball hoop in the water etc), lifeguard games every Friday night for the kids
Screen Name Redacted 6/05/2024 10:54 AM	No
Screen Name Redacted 6/05/2024 11:37 AM	leave the Forested area alone
Screen Name Redacted	Lobby rejuvenation. Possibly a swim shop and a cafe?

6/05/2024 01:00 PM	
Screen Name Redacted 6/05/2024 01:35 PM	Making space for everyone, bringing all ages together. Healing and rehab with better sauna/steam/hydrotherapy is a great vision. Accommodating our athletes and swimming as exercise is great. I hope a big element is also play and bringing kids and youth to the pool. Our kids love that at age 7 they are old enough to go to the pool without an adult. It is a massive step towards responsibility and independence. The Friday night games are such a hit. More spaces for family play and exercise. Many kids now just wrestle and cause a raucous in the shallow pool. Let's create more spaces for these growing bodies to move and climb and exercise while having fun!
Screen Name Redacted 6/05/2024 02:35 PM	I think that regular maintenance, minor renovations, and preservation efforts to a public building are expected and important in a community. However, the demolition and unnecessary redesigning of a public building such as winskill is a waste of time and money. Far too many buildings are being demolished and the history of it is lost. What's wrong with preserving buildings and keeping its heritage alive?
Screen Name Redacted 6/05/2024 05:47 PM	Better shower/change rooms. Easier for kids to shower (the temperature adjustment (having none right now), being able to turn it on themselves, or provide a wand style nozzle.
Screen Name Redacted 6/05/2024 05:48 PM	Viewing space for meets and events.
Screen Name Redacted 6/05/2024 06:45 PM	Adult only hot tub, family hot tub, silent sauna add well as other sauna, stream room, cold plunge pool. Individual shower/change rooms like Minoru pool
Screen Name Redacted 6/05/2024 09:40 PM	Gradual entry pool (like the kid pool at Ladner)
Screen Name Redacted 6/05/2024 10:09 PM	Lots of saunas and hot tubs. Maybe a really nice bistro with healthy food options.
Screen Name Redacted 6/05/2024 11:03 PM	wave pool, waterslides, fun elements for kids
Screen Name Redacted 6/05/2024 11:58 PM	Change room facilities, more family change rooms or undefined changing stalls for all to use.

Screen Name Redacted 6/06/2024 10:30 AM	50 m pool with several lanes
Screen Name Redacted 6/06/2024 10:46 AM	the inclusion of a 50m pool is something that could benefit the community and the winskill users
Screen Name Redacted 6/06/2024 12:28 PM	Lazy river
Screen Name Redacted 6/06/2024 12:56 PM	I would like to see an emphasis on the functionality of the aquatic center to stay focussed on its community function. TO BE A PLACE TO SWIM AND EXCERCISE. NOT TO CATER TO SOCIAL ISSUES SUCH AS GENDER IDENTITY, or WOMEN TOPLESS IN PUBLIC PLACES.
Screen Name Redacted 6/06/2024 06:17 PM	Sustainability to the current fields and park.
Screen Name Redacted 6/06/2024 07:04 PM	A 50m length pool.
Screen Name Redacted 6/06/2024 07:05 PM	50 meter pool
Screen Name Redacted 6/06/2024 08:39 PM	Pool should be built to serve the needs of the community for the next 40 years. An 8 lane pool only meets the needs we have today
Screen Name Redacted 6/06/2024 11:24 PM	Competition pool -50m
Screen Name Redacted 6/07/2024 12:20 AM	Outdoor community space other than sports fields. A water wise garden that people can sit in. A healthy snack bar. Public art.
Screen Name Redacted 6/07/2024 12:46 AM	Wave pool
Screen Name Redacted 6/07/2024 09:04 AM	Focus on indoor multi use multi sport training space

Screen Name Redacted 6/07/2024 09:40 AM	More parking
Screen Name Redacted 6/07/2024 10:43 AM	We need more lane spaces, currently, ours are always full and it just is not acceptable. We need spaces for our kids to learn without feeling that we are prohibiting seniors, especially from exercising. Pools all across BC have figured it out and can host clubs and people we should take inspiration from them.
Screen Name Redacted 6/07/2024 10:47 AM	Conversation snacking areas.
Screen Name Redacted 6/07/2024 11:18 AM	Would like to see a steam room included, would use that more than a sauna
Screen Name Redacted 6/07/2024 12:01 PM	Pool needs to focus on additional fun / attractions for children and in particular teens in order to encourage their interest and use of the pool
Screen Name Redacted 6/07/2024 12:59 PM	My grandfather used to talk about the old outdoor pool in beach grove (located near the beach grove cafe) and how popular and a great gathering spot for the community. New center should incorporate an outdoor pool with facilities and tennis court/pickel ball area. Our own country club that would we very popular and additional sources of income for center. Snack bar, rent pool chairs etc
Screen Name Redacted 6/07/2024 02:28 PM	A spin bike classroom/equipment, multipurpose room for rentals, boardroom for meeting.
Screen Name Redacted 6/07/2024 06:10 PM	Sustainability
Screen Name Redacted 6/08/2024 02:30 AM	More emphasis in environmental / conservation issues in the planning of the new project
Screen Name Redacted 6/08/2024 11:23 AM	Cafe/food services including gathering/seating areas
Screen Name Redacted	Yes. This is quite the loaded question. Accessible / Inclusive (i.e.

6/08/2024 02:18 PM	zero-entry, lifts, universal change rooms, Indigenous art) How in the world do you lump all these into 1?
Screen Name Redacted 6/08/2024 03:23 PM	Focus should be on the Aquatic enhancements as there are many fitness gyms locally.
Screen Name Redacted 6/08/2024 09:42 PM	Outdoor pool
Screen Name Redacted 6/09/2024 01:06 AM	Outdoor pool
Screen Name Redacted 6/09/2024 06:23 AM	Length of swimming lanes. We need a 50m pool in South Delta.
Screen Name Redacted 6/09/2024 01:17 PM	No
Screen Name Redacted 6/09/2024 02:48 PM	Yes, all glass surfaces should be treated with bird safe glass to mitigate negative impacts on bird populations. Many bird safe glass options make buildings, more efficient, cooler in the summer, and warmer in the winter. This should be a high priority for building design and also benefits the city in the long run by making a state of the art facility that is sustainable at multiple levels.
Screen Name Redacted 6/10/2024 10:37 AM	Outdoor pool
Screen Name Redacted 6/10/2024 12:16 PM	Proper size rooms for fitness classes...and a couple of rooms/areas.
Screen Name Redacted 6/10/2024 01:55 PM	Need a hydrotherapy pool with water jets at different heights to treat muscle soreness and injuries. Presently, the Winskill teach pool has jets that are used for this purpose, which are set at one height but are suitable in most cases. A teach pool with water jets that is the present setup causes conflicts with those who want to use the jets and teaching lessons for kids. The hot tube jets are not suitable for this type of therapy. Also, the hot tube should have jets at different heights, but the present hot tube jets are at one height level. The Ladner pool hot tube jets are located at a low height that cannot be used on shoulders, making it useless for upper body water jet massage.

Screen Name Redacted 6/11/2024 12:40 AM	Under "Conservation/Sustainability", I'd like to see specific mention of on-site stormwater infiltration. Plan the facility so that rainwater runoff from roofs, parking and sports field drainage can be used as a resource for hydrating surrounding vegetation and recharging groundwater. This is likely best accomplished by locating impervious and drained surfaces on higher ground, with generous landscaping (especially trees) on lower ground where gravity can deliver runoff. Also, design buildings with external roof downspouts (not hidden within wall structures), so that rainwater runoff can be easily guided into landscaping. Even if space is tight, downspouts can drain into large concrete raised planter-boxes (large enough to accommodate at least one tree), whose perimeter walls can also do double-duty as informal seating. Cost advantages to managing runoff in this way include: * less irrigation needed, *trees & other plants grow larger canopies with additional water supply and therefore provide more free cooling on hot days, * there's less demand on storm sewer capacity during heavy rains, because the ground itself sponges up large volumes of water.
Screen Name Redacted 6/11/2024 09:58 AM	No I think we just need to be very smart about how we spend our money to ensure that we get the best result.
Screen Name Redacted 6/11/2024 10:53 AM	Warmer updated changing rooms
Screen Name Redacted 6/11/2024 11:48 AM	Architectural features like natural light and open space should be considered
Screen Name Redacted 6/11/2024 06:57 PM	Affordability
Screen Name Redacted 6/11/2024 07:59 PM	ensuring there isn't a waste of space, it needs to be functional
Screen Name Redacted 6/12/2024 12:16 AM	I think that the vision for the facility has entirely ignored the importance of greenspace for the community and for local flora and fauna. With the recent advancement of the OCP being forced upon community members without any consideration for their concerns, and with all of the planned densification for our communities, the City should be looking to acquire additional new land to add greenspace to account for growth in the community. The vision should have considered leveraging other community facilities that could perhaps

	be expanded (i.e., South Delta Rec Centre) or acquisition of proposed land development properties currently marketed on 56 Ave to accommodate redevelopment and expansion of Winskill Park amenities. The options fail to consider the climate and shade benefits of the mature urban forest canopy and the City should be looking to complete tree/habitat enhancement work to improve the trees in the park rather than proposing to remove them and replace with saplings that will take decades to provide any real ecosystem service. In addition, I question the validity of the outdated (2020) arborist reports which are noted to be valid at the time of issuance, four years ago. With the proposed cost of replacement (i.e., $130M), I think the City should be providing transparent cost information to the public for review and input rather than just sharing conceptual plans.
Screen Name Redacted 6/12/2024 02:38 PM	An accessible (paved) walking track would be able excellent use of the fields and lightly forested area to the west of the building. Dual benefit: fitness and mental / emotional wellbeing from time spent in nature. Sungod rec centre has an unpaved track, which would be good inspiration for something similar (but paved) at winskill. A weight / exercise machine room designed specifically for seniors and people with disabilities or mobility challenges.
Screen Name Redacted 6/12/2024 03:04 PM	I think that this list is very comprehensive an covers all aspects of the pool.
Screen Name Redacted 6/12/2024 08:05 PM	Make sure it’s fully accessible
Screen Name Redacted 6/12/2024 08:51 PM	I think it is very important to have a pool that meets the needs of our growing population
Screen Name Redacted 6/12/2024 09:20 PM	Outdoor pool
Screen Name Redacted 6/12/2024 10:01 PM	Build a 50 metre pool with bulkhead so you have 2 - 25m pools and can host competitions. And we don’t have to rent Richmond. Please recognize we have nationally ranked swimmers in our community who cannot train the way they need to at our pool, we cannot hold local meets etc. our community is growing and the OCP will shove more growth down our throats so please, please build infrastructure and amenities to support this growth. The current plan will be out of date and too small the day it opens.

Screen Name Redacted 6/13/2024 08:14 AM	More space to have lessons, swim club as well as public swims at the same times
Screen Name Redacted 6/13/2024 07:58 PM	location is inappropriate. Should be combined with SDRC as is the Case at Ladner Leisure Center, North Delta Recreation Center and Sungod Recreation Center. Winskill should be maintained as a park and not just for athletes.
Screen Name Redacted 6/13/2024 10:43 PM	Emphasize needs to be placed on conserving the heavily trafficked disc golf course. It's free for all to play, excellent outdoor exercise for those of all fitness levels, financial classes, and backgrounds.
Screen Name Redacted 6/14/2024 10:30 AM	Transit friendly
Screen Name Redacted 6/14/2024 11:33 AM	Sensory friendly hours with limited number of patrons. Crowds make our kids nervous and unable to enjoy using the facilities.
Screen Name Redacted 6/14/2024 12:46 PM	Competitive swim meet capability with a 50 metre pool. No 50 metre pool in Delta.
Screen Name Redacted 6/14/2024 07:57 PM	Absolutely we love our pool right now. We understand that it needs to be expanded but absolutely no way whatsoever. It has come to my attention that the city is planning to use the forested area as a laydown area for materials while building the new pool and then turning that same area into a parking lot which I feel is a mistake.
Screen Name Redacted 6/14/2024 08:17 PM	Save the disc golf course please!! Such an important part of local history. It deserves to be treated as such! Please don't destroy it to build a new pool!
Screen Name Redacted 6/15/2024 04:00 PM	A carve out and plan to protect, conserve, or improve; Canadas oldest disc golf course.
Screen Name Redacted 6/17/2024 09:30 AM	yoga and meeting rooms expanded exercise class space as building next door is too small
Screen Name Redacted 6/17/2024 09:40 AM	Ladner and Tsawwassen are seriously under-served with weight rooms. North Delta has 2 well-equipped weight rooms, but Ladner

and Tsawwassen's weight rooms are basically unusable at peak hours, due to how small they are, lack of equipment, and overcrowding.

Optional question (182 response(s), 400 skipped)
Question type: Essay Question

Q13 Below is a list of the planned features for the aquatic facility.lap pool (8 lanes with option to expand to 10)accessible hot tub, sauna and steam room1 m and 3 m diving boardsleisure and teach pools Would you like to see any of the following featu...

Optional question (471 response(s), 111 skipped)
Question type: Checkbox Question

Q14 Do you have any suggestions for other features?

Screen Name Redacted 5/07/2024 08:17 PM	Bleachers built in for viewing events.
Screen Name Redacted 5/07/2024 08:43 PM	Daughter aged 10 would like mascots. Daughter aged 8 would like a food court. Daughter aged 4 would like a ball pit. I think what they are getting at is they would love a facility that has lots of fun things going on for all ages and healthy food options could be cool vs vending machines only!
Screen Name Redacted 5/08/2024 07:44 AM	Steam room, Sauna, viewing area, lounge with tables and chairs, and booths, A café, A much larger fitness area with more treadmills and rowing machines, women do not feel safe to exercise out in the dark. However, there is often not enough space in the gym for us to go in and not feel crowded out by Males.
Screen Name Redacted 5/08/2024 11:30 AM	Steam Room
Screen Name Redacted 5/08/2024 01:03 PM	Eucalyptus steam room
Screen Name Redacted 5/08/2024 01:52 PM	Indoor running or walking track and smoothie bar
Screen Name Redacted 5/08/2024 02:23 PM	A cold plunge would be a valuable addition for the enhanced health benefits
Screen Name Redacted 5/08/2024 04:30 PM	Minoru in Richmond is a good example of a community centre done right.
Screen Name Redacted 5/08/2024 09:08 PM	Pool should be competitive length for swim club and swim club wanting to host swim meets.
Screen Name Redacted 5/09/2024 12:41 PM	sauna and steam room. adults only hot tub and a family hot tub?

Screen Name Redacted 5/09/2024 03:47 PM	I would love to see 10 swimming lanes, and a splash pool with a play structure for little kids.
Screen Name Redacted 5/09/2024 03:55 PM	no
Screen Name Redacted 5/09/2024 05:26 PM	Currently the features are dates and not family friendly. Looking at options like the Coast Capital Outdoor pool in Aldergrove would be an amazing blend of family fun, competitive lane swimming and use and community use. The new aquatic center must incorporate more options than just a pool and must be a destination for the youth of the community.
Screen Name Redacted 5/09/2024 05:39 PM	Dedicated lates for water walking and expansion of water walking program.
Screen Name Redacted 5/09/2024 05:56 PM	Any of these features would be a lovely addition for kids!! Teenagers and the young at heart too!!
Screen Name Redacted 5/09/2024 06:24 PM	Easy in and out stairs/ramp
Screen Name Redacted 5/10/2024 10:23 AM	large hot tub temperate water similar to Minoru, allows for family hot tub time
Screen Name Redacted 5/10/2024 11:22 PM	See above
Screen Name Redacted 5/11/2024 12:53 PM	fountain
Screen Name Redacted 5/13/2024 01:16 PM	Places to sit on the pool deck in on a bathing suit with towel to take a break and rest
Screen Name Redacted 5/13/2024 08:58 PM	Please take a look at the following: https://www.kirkwoodparksandrec.org/ https://www.desperesmo.org/77/The-Lodge https://www.richmondheights.org/departments/parks___recreation_cooperative/facilities___parks/the_heights_community_center/index.php

Screen Name Redacted 5/13/2024 10:39 PM	Play features don't last long would be my concern - although fun, slides and lazy river are equally as enjoyable and over longevity is better
Screen Name Redacted 5/14/2024 01:58 AM	The inflatable obstacle courses are fun. There is one at the UBC pool.
Screen Name Redacted 5/14/2024 12:05 PM	no
Screen Name Redacted 5/14/2024 08:38 PM	enough lanes so people can swim without worry of crashing into others
Screen Name Redacted 5/16/2024 10:36 AM	Although I would not use many of the features, they do attract families and are good for the community. Where these features can be added with out significant impact to budget, they should be considered. A small slide is ok, but take any notion of a water slide off the list!
Screen Name Redacted 5/16/2024 12:24 PM	A rehab pool! I would love to see a warm pool that has both stair and ramp access, a handrail along one wall for easy grip, and a few different depths for different heights and/or exercises. I'd also love to see anchor points embedded in the walls so people could attach exercise bands and things to these points.
Screen Name Redacted 5/16/2024 01:30 PM	Incorporate a sunbathing/drying/lounging area with heat lamps for comfort during cooler winter season. Maybe a tropical theme. Locate it near a lazy river.
Screen Name Redacted 5/16/2024 07:30 PM	Drop slide, like at Minoru pool
Screen Name Redacted 5/17/2024 10:27 AM	More family change rooms or purpose built change rooms that allows multiple users in a space with a shower for them to use.
Screen Name Redacted 5/17/2024 12:59 PM	Take notes from other local pools such as Minoru, Sun God, facilities that plan for children and people of all ages and accessibility to enjoy. The current setup at Winskill is dated and should not be replicated.
Screen Name Redacted	Given the hard economic Times is really a good use of money. But we

5/18/2024 11:48 AM	need more doctors and better infrastructure. Lazy Rivers seems frivolous.
Screen Name Redacted 5/18/2024 01:07 PM	Keep the disc course
Screen Name Redacted 5/18/2024 01:16 PM	Steem room
Screen Name Redacted 5/18/2024 01:39 PM	A steam room would be nice.
Screen Name Redacted 5/19/2024 10:04 AM	I don’t necessarily care which features are installed, as long as it doesn’t completely eradicate the natural habitat of what little green space we have left int tsawwassen.
Screen Name Redacted 5/19/2024 10:09 AM	Yes. A new indoor pool facility for North Delta.
Screen Name Redacted 5/20/2024 10:05 PM	Plentiful family change rooms. Or many enclosed spaces for changing AND showering within a large all gender area.
Screen Name Redacted 5/21/2024 11:21 PM	Basketball court/gym in aquatic centre
Screen Name Redacted 5/22/2024 03:40 PM	I think maximizing lane space should be most important compared to having other structures
Screen Name Redacted 5/22/2024 07:14 PM	As mentioned above: Sensory play areas, Splash Pad
Screen Name Redacted 5/23/2024 01:38 PM	WhiteWater West is one of the largest designers and manufacturers of water slides and other pool features in the world. They are located right here in Richmond. Lets use their ideas and expertise for suggestions.
Screen Name Redacted 5/24/2024 08:56 AM	Sloped entry to kids pool.
Screen Name Redacted	Out door patio style hot tub

5/24/2024 02:05 PM

Screen Name Redacted
5/24/2024 02:27 PM

This pool needs to be much larger than simply increasing by 2 lanes! You are proposing a massive growth in our community in the next 20 years. Are you going to rebuild Winskill again in that time? I think not. And the current facility is already a discouragement for most people as it is small and in poor condition and unpleasant to use. There also needs to be improved and expanded viewing areas and a lounge where community members (including youth) can lounge with family and friends. There sis NOWHERE these kids can go and visit indoors without spending money. This is a sad state of affairs and could be rectified with this "community" centre.

Screen Name Redacted
5/24/2024 04:41 PM

A slack line installation options on kids/teen events

Screen Name Redacted
5/24/2024 06:34 PM

5m diving platform

Screen Name Redacted
5/24/2024 07:23 PM

Inclusion of good seating/observation areas for the pool.

Screen Name Redacted
5/25/2024 02:15 PM

Steam and dry sauna

Screen Name Redacted
5/25/2024 09:38 PM

Above water hot water jets in the hot tub like minoru

Screen Name Redacted
5/26/2024 02:39 PM

Delta should consider a 50m competition pool. The added benefits would more than exceed the marginal additional cost by providing a facility that could bring revenue from hosting local and international swim meets. The Dolphin swim club has a world class coach and talented swimmers but without a competition pool, these swimmers will never reach their full potential in a 25m facility. When I asked Judy the Dolphin Coach whether council had contacted her for any input on the new pool, she said no. Why hasn't Delta been asking for input from their own swim club leaders? I grew up in Guelph Ontario, a town of around 50,000 where a 50m pool was built in the late '70's. They had a good swim program and eventually produced a world class breast stroker, Victor Davis, who went on to win a gold medal at the olympics (all held in long-course 50m pools). He never would have made it there in a 25m pool. Delta is turning their back on a huge opportunity by not considering a 50m pool at this site.

Screen Name Redacted 5/26/2024 07:27 PM	Ensure all areas accessible
Screen Name Redacted 5/26/2024 09:17 PM	- A larger viewing area for parents to watch classes - A family hot tub (warm) and an adult's only hot tub (hot) - Incorporating the solarium style that is popular in many thermal recreation centres in Germany and Iceland - Hot pool with mineral infusion (i.e. calcium/ lithium)
Screen Name Redacted 5/27/2024 12:09 AM	Ensure there is adequate space for aquafit - both shallow and deep water
Screen Name Redacted 5/27/2024 10:57 AM	The spray features at Ladner Leisure Centre (or Eileen Daly in Burnaby) are great - would be good to see something replicated here.
Screen Name Redacted 5/27/2024 12:27 PM	Please look to the best practices of other places. Do not attempt to recreate "the wheel" yourself. Money would be far better spent studying and copying the best design(s) from other cities.
Screen Name Redacted 5/27/2024 02:34 PM	No.
Screen Name Redacted 5/27/2024 04:09 PM	50m pool for competitions
Screen Name Redacted 5/27/2024 06:53 PM	My only concern here is that the "fun" features that are important for the younger generation do not end up reducing the capacity for the seniors group, who seem to be the primary users during the morning and early afternoon.
Screen Name Redacted 5/27/2024 09:08 PM	Steam room and shower with privacy curtains would be great.
Screen Name Redacted 5/28/2024 12:47 PM	Freaky pool
Screen Name Redacted 5/28/2024 04:00 PM	Perhaps a screen with kids shows for distraction when there is sensory overload
Screen Name Redacted	Variable depth in the teaching pool area to maximize options for the

5/28/2024 05:56 PM	pool
Screen Name Redacted 5/28/2024 11:22 PM	Permanent bleachers or indoor observation areas for swim meets , etc.
Screen Name Redacted 5/29/2024 06:37 AM	none
Screen Name Redacted 5/29/2024 03:56 PM	50M pool, definitely 10 lanes. Integrated bleachers. Viewing area.
Screen Name Redacted 5/29/2024 05:36 PM	Mirror other popular pools for our community like watermania or Minoru pool
Screen Name Redacted 5/29/2024 10:24 PM	Large deep end and shallow end for larger classes
Screen Name Redacted 5/30/2024 12:52 PM	Doesn’t matter what feature is included but it should be a great place for small kids and larger kids to want to hang out and spend time with their friends. Public spaces like these have the ability to keep kids out of trouble.
Screen Name Redacted 5/30/2024 02:12 PM	A hot tub and sauna of equal size to the current ones. Also, a steam room could be nice, Walnut Grove Community Centre has both a steam room and sauna.
Screen Name Redacted 5/30/2024 03:03 PM	Cold plunge to beside steam and sauna
Screen Name Redacted 5/30/2024 07:18 PM	Nice big leisure pool for use by all ages
Screen Name Redacted 5/30/2024 09:30 PM	Ladner Pool has excellent kids play area; not needed in Tsawwassen. Keep Tsawwassen as a competitive/recreational pool space.
Screen Name Redacted 5/30/2024 10:11 PM	I wanted to choose them all! Haha. Top choice is the cold plunge - but only if it's truly going to be cold.
Screen Name Redacted	Length swimming at all times. Currently it can be very at times to

5/31/2024 09:05 AM	have enough room to swim. I believe you should only plan on two people per lane maximum in your scheduling.
Screen Name Redacted 5/31/2024 11:13 PM	save the actual green space and reduce the impact from that being affected , the forest and disc park have been neglected and will serve us much more then we realize for the future health of the community. this process is to rushed and needs further consideration. the town needs more time to give impute.
Screen Name Redacted 6/01/2024 11:01 PM	Hot - cold - relax combo. Possibly extending outdoors.
Screen Name Redacted 6/02/2024 06:01 AM	Warmer waters for elderly
Screen Name Redacted 6/02/2024 02:01 PM	A deeper end to the warmer children's pool to encourage younger kids to actually swim not just walk.
Screen Name Redacted 6/02/2024 02:52 PM	50 meter lanes to host provincial swim meets
Screen Name Redacted 6/02/2024 03:15 PM	A steam room
Screen Name Redacted 6/02/2024 03:58 PM	50 METER, 8-10 LANE COMPETITION POOL #SWIMCLUB
Screen Name Redacted 6/02/2024 07:47 PM	Steam room
Screen Name Redacted 6/02/2024 09:50 PM	I think Tsawwassen and south delta could use an improved outdoor pool (compared to Ladner). It would be an opportunity to incorporate this into the new facility. As a taxpayer, I would be willing to pay more for this amenity.
Screen Name Redacted 6/03/2024 12:28 PM	Sports nets to play on
Screen Name Redacted 6/03/2024 12:43 PM	zipline into the pool, a sun deck

Screen Name Redacted 6/03/2024 01:10 PM	Don't get it too cluttered
Screen Name Redacted 6/03/2024 04:11 PM	STEAM ROOM !!!!
Screen Name Redacted 6/03/2024 06:08 PM	Please ensure that there are FUN accessible features so that those with mobility restrictions can engage socially with their peers as well. :-)
Screen Name Redacted 6/03/2024 06:53 PM	I think the City should take the opportunity to combine this new aquatic facility with a new library. The extra cost would benefit the community in the long run since then there would be no need for Century Group to provide a library in the town centre and the four or more multi-storey buildings currently proposed by Century would not be needed since Century would not be asked to provide a library ammenity. In addition to the above the City should build a 50m pool not a 25m pool. A 50m pool would attract business and tourism to Tsawwassen for hosting provincial, national and international swim meets and trials. There should be a business case study developed for such a scheme to include all of these life cycle benefits to see if they justify the extra initial cost. In my view Delta staff need to look at the big picture more.
Screen Name Redacted 6/03/2024 08:14 PM	À café with seating area to to relax and meet with friends after exercise.
Screen Name Redacted 6/03/2024 08:15 PM	At all times there should be 4 or 5 lanes available for lap swimmers, in addition to programmed activities.
Screen Name Redacted 6/04/2024 10:51 AM	Cold plunge
Screen Name Redacted 6/04/2024 12:58 PM	inflatable obstacle course my kids say. Make it appealing for kids and teens. Also it is used frequently for child lessons, so a nice warm teach pool would be good.
Screen Name Redacted 6/04/2024 05:40 PM	50 meter pool
Screen Name Redacted	Wave Pool

6/04/2024 10:40 PM	
Screen Name Redacted 6/04/2024 11:11 PM	Basketball hoop or something the kids can throw the ball at
Screen Name Redacted 6/05/2024 10:50 AM	Dedicated lane for water walking
Screen Name Redacted 6/05/2024 11:53 AM	Don’t knock the trees down for parking spaces
Screen Name Redacted 6/05/2024 01:35 PM	The pool facility having better sauna, steam, cold plunge is very good. I believe Kneipp Hydrotherapy should also be added. These shallow walk through pools alternate hot and cold and massage the lower legs and feet. They do not take up much space or add much cost but they make a world of difference to stimulate the circulatory and lymphatic system, reducing pain, swelling, and inflammation. For example, a circuit maybe could be fit in around the cold plunge. The benefits are tremendous for people of all ages and fitness levels.
Screen Name Redacted 6/05/2024 02:35 PM	Just reface the outside of the whole building. Add another level on top to accommodate rooms for classes. It would give it a fresh look while still preserving its history.
Screen Name Redacted 6/05/2024 03:29 PM	Shallow water area like at Ladner Leisure for young families. This has always felt like a “safe” introductory to water/pool facilities for our ND littles.
Screen Name Redacted 6/05/2024 09:40 PM	If you create a hot tub, cold plunge, sauna, steam room it might be nice to have those separate from the main pool.
Screen Name Redacted 6/05/2024 11:03 PM	should be fun to attract kids
Screen Name Redacted 6/05/2024 11:58 PM	The looks I’ve been to with too many flashy features often don’t have those features in operation due to the lack of staff. So if you build it, please don’t over build so that it cannot be operational.
Screen Name Redacted 6/06/2024 10:30 AM	50 m lanes

Screen Name Redacted 6/06/2024 10:46 AM	None of the planned features do much good after a month of being open- the pool needs to be expanded to 50m to meet the needs to the fast growing community that exercise in the lap pool
Screen Name Redacted 6/06/2024 12:28 PM	No
Screen Name Redacted 6/06/2024 07:04 PM	50m pool that can divide into 2.
Screen Name Redacted 6/06/2024 07:05 PM	All of these features for “fun” are nice attractions on paper, however they become underused and are too expensive. Ensuring pools for sports and development is extremely important as they do not have enough space! They are guaranteed to use new sport facilities opposed to recreational resulting in less money waste imperative in our current economy. We need to be thinking about the sports and health of the entire community over just a little play toy.
Screen Name Redacted 6/07/2024 10:01 AM	You might consider expanding to a 50 metre pool. There are many swim clubs in South Delta, both youth and masters, who are currently only able to host meets at facilities outside Delta. ie: Watermania. It is difficult to book swim meet dates as the mandate for Watermania and other facilities is to provide pool time for clubs within their own community, which is completely fair. Why not support our local clubs? If we're going to build a new facility, do it right.
Screen Name Redacted 6/07/2024 10:07 AM	Would also like to see an outdoor pool. Only community in Delta that doesn't have one. If done properly it will be an excellent addition to the recreation center. Also a huge draw and potentially an incremental source of revenue. I think of how often we used to use Kits Pool, 2nd beach in Vancouver, Ladner and North Delta both have one, time for Tsawwassen to have one as well.
Screen Name Redacted 6/07/2024 10:43 AM	We see this with kids time and time again if the feature is permanently there the fun fades - we need to be able to bring things out and then put them away to keep kids interested.
Screen Name Redacted 6/07/2024 11:00 AM	a more shallow area of the pool where the play structure would be so that toddlers could move about easily

Screen Name Redacted 6/07/2024 12:01 PM	Obstacle course, play structure
Screen Name Redacted 6/07/2024 12:31 PM	50m pool
Screen Name Redacted 6/07/2024 12:59 PM	Outdoor pool, only community in Delta without one
Screen Name Redacted 6/07/2024 02:28 PM	Toddler, baby pool.
Screen Name Redacted 6/07/2024 03:28 PM	50 metre pool
Screen Name Redacted 6/07/2024 06:10 PM	Storage for training equipment
Screen Name Redacted 6/08/2024 02:30 AM	Play structures are great for the children, slides are fun for all.
Screen Name Redacted 6/08/2024 09:47 AM	All the above options don’t limit what to choose. We need our kids being active and moving their bodies. Let’s draw all kids to the pool to play around water. We are surrounded by water in this province let’s get them comfortable and into all fun things water has to offer.
Screen Name Redacted 6/08/2024 12:54 PM	Tsawwassen needs more for kids especially aged in 10-18, more activities and spaces for them
Screen Name Redacted 6/08/2024 04:52 PM	Outdoor pool please
Screen Name Redacted 6/08/2024 06:04 PM	Having a portion of the pool outside, with some play elements, or places to put down a towel would be great in a community without an outdoor pool option and the sunny weather we receive. This would be similar to the Vancouver pool at Hillcrest. https://vancouver.ca/parks-recreation-culture/hillcrest-centre.aspx
Screen Name Redacted 6/08/2024 09:42 PM	Indoor wall climbing and outdoor pool

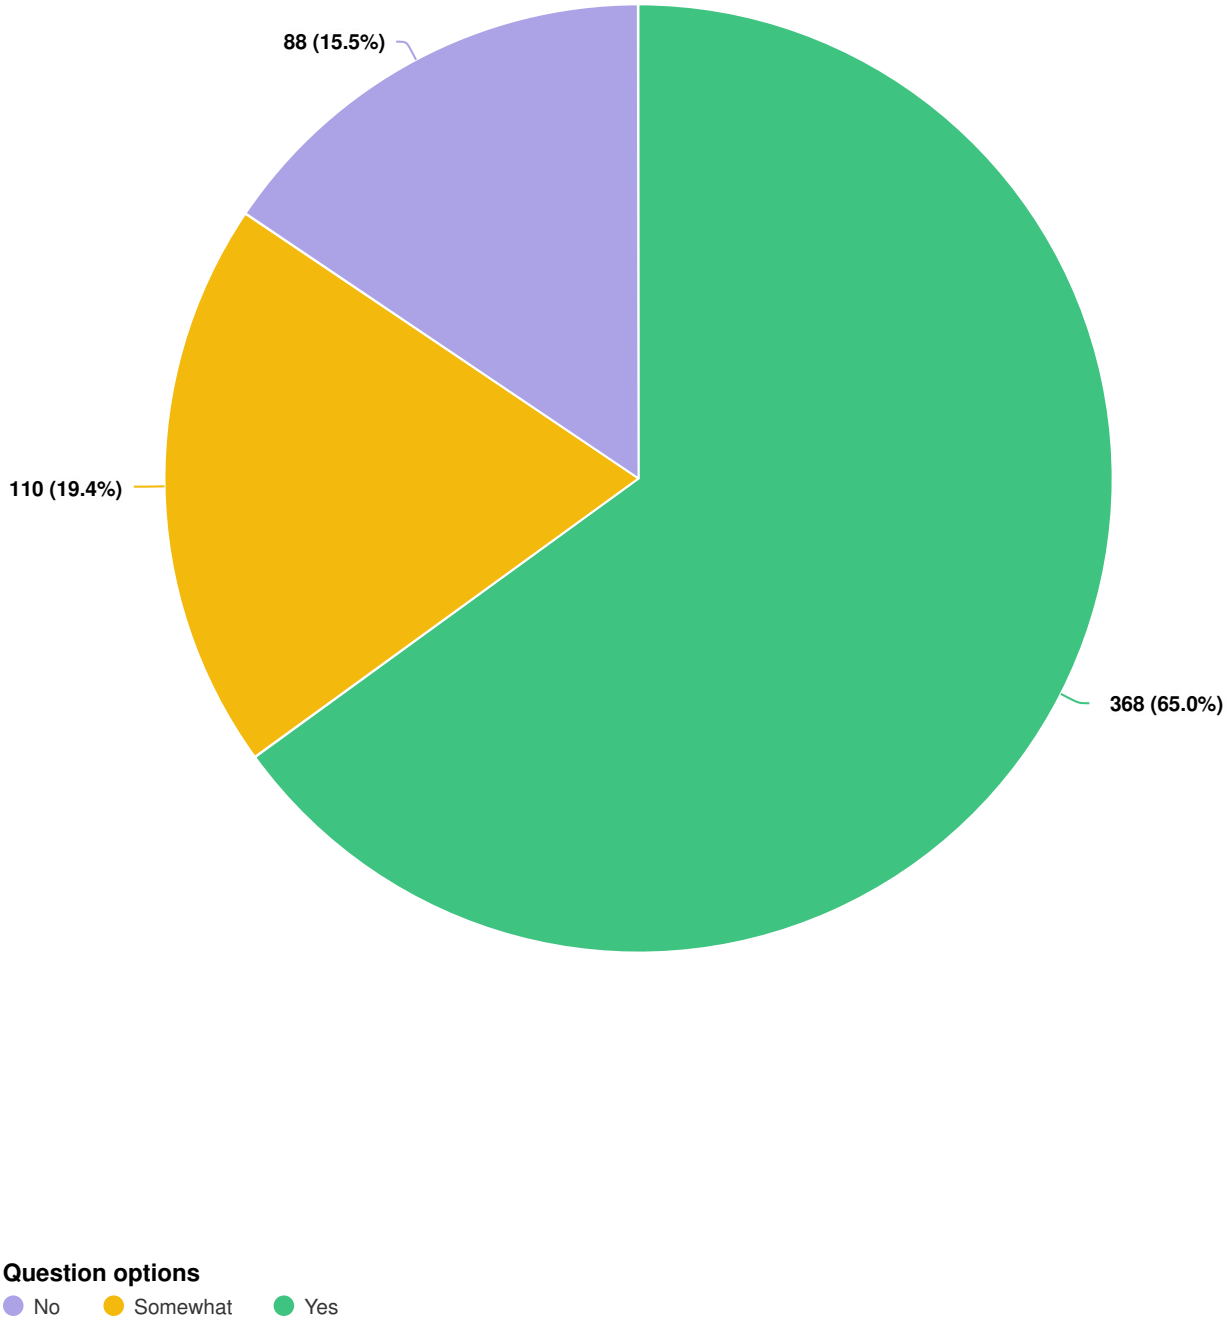

Screen Name Redacted 6/09/2024 06:23 AM	50m lanes or 2 x 25m lames with a moving bulk head
Screen Name Redacted 6/09/2024 01:17 PM	Steam room
Screen Name Redacted 6/09/2024 04:06 PM	50m lanes
Screen Name Redacted 6/10/2024 10:37 AM	Outdoor pool
Screen Name Redacted 6/10/2024 01:31 PM	Spray features are nice, a tot/teach pool with beach access, an aqua walker/bike might be nice!
Screen Name Redacted 6/11/2024 09:58 AM	I think it is important that we try to think like kids - we like new shiny toys and projects. So if inflatables are anything like I remember they are fun because they are only out for a short amount of time. And as for a cold pool - I understand the health aspect but I do not think that all our community member sword benefit from one and it has a very unique and central purpose which not everyone will want to utilize.
Screen Name Redacted 6/11/2024 11:48 AM	Eliminate the diving boards unless you are serious about allowing for a community diving user group
Screen Name Redacted 6/11/2024 06:57 PM	Wave pool
Screen Name Redacted 6/12/2024 12:16 AM	Consider salt water pools with non-chlorine based water treatment. Consider incorporating swales and raingardens around the perimeter of the new facility and parking areas. Include wildlife boxes in nearby trees (i.e., bat or owl boxes, raptor poles). I would like to see less lawn that may require pesticide/herbicide applications, I would also like to see native plant pollinator gardens. I would like to see any tree replacement relative to tree removal done at a ratio of 4:1 to offset the loss of mature trees and account for potential mortality. I would like to see replacement vegetation being strictly native trees and shrubs with a proportionate blend of conifer/evergreen and deciduous species.
Screen Name Redacted 6/12/2024 02:38 PM	The pool at the ymca in south Surrey was designed with an adjustable pool floor (up and down) which allows for full accessibility

	of the pool at certain times of day.
Screen Name Redacted 6/12/2024 03:04 PM	Growing up I used both the Ladner pool and tsawwassen pool very frequently to play. I would spend every Sunday at the pool and I always had the most fun with the inflatables because they were only out for a short amount of time. The rockwalls were boring for every kid, the slides at watermania in Richmond were fun for 1 or two visits but we could not do them together so it was not always the most fun. And all the lazy rivers and current pools were only fun because I did not go to those pools often (1 or 2 a year) and then when I could touch the bottom of the pool they lost all fun. I would say invest in things that can be put away and brought out easily and that do not require any extra training for the life guards.
Screen Name Redacted 6/12/2024 08:05 PM	No
Screen Name Redacted 6/12/2024 08:51 PM	50 m competition pool so that there is capacity to hold swim practices without clubs pushing each other out.
Screen Name Redacted 6/12/2024 09:20 PM	Outdoor pool
Screen Name Redacted 6/12/2024 10:01 PM	Build a 50 metre pool
Screen Name Redacted 6/13/2024 03:55 PM	We need water fountains, to have a pond in the outside area, lots of washrooms and change rooms, to have a water slide inside, a waterpark outside, a twisty slide, monkey bars outside, a zipline outside, big pool inside, lots of benches to relax on, places to keep it clean like garbage and recycling bins
Screen Name Redacted 6/14/2024 11:33 AM	Sprinklers
Screen Name Redacted 6/14/2024 12:46 PM	50 metre pool
Screen Name Redacted 6/14/2024 07:57 PM	When I was a kid at the pool, my best memory is playing on the wobblers with my sister and my mom. I feel like NEW wobblers for the pool would be an excellent idea.

Screen Name Redacted 6/14/2024 08:17 PM	Calming features like running water. Small Waterfalls
Screen Name Redacted 6/15/2024 04:00 PM	Preserve the disc golf course, it remains the most important and used outdoor course in delta. Typically 25-50 groups /day
Screen Name Redacted 6/15/2024 07:43 PM	The current Winskill pool is cool . Most frequently I drive to Ladner as their pool is much warmer. I have heard this comment from a number of people. The pool water temperature should NOT be catering to one group (the water polo club) but consider the larger majority of city tax payers .
Screen Name Redacted 6/17/2024 09:30 AM	natural light expanded family or universal change areas

Optional question (149 response(s), 433 skipped)
Question type: Essay Question

Q15 The current pool has six lanes and is oversubscribed during peak hours by lane swimming, lessons and youth swim clubs. The City is proposing a minimum of eight lanes in the new facility but could expand to 10 lanes at a higher cost (est. $4 million...

Optional question (565 response(s), 17 skipped)
Question type: Radio Button Question

Q16 Please feel free to explain your response.

Screen Name Redacted 5/07/2024 08:02 PM	With the growing population and extreme difficulty accessing swim lessons it seems like a no brainer to have 10 lanes now. Tsawwassen also has many competitive swim groups that use the facility that need the space.
Screen Name Redacted 5/07/2024 08:17 PM	I think the investment in 50 m 10 lane pool. Three swim clubs and public swimming could all happen at once Watermania as an example.
Screen Name Redacted 5/07/2024 08:43 PM	As someone who has swam at Winskill since the 90's growing up here the pool has not kept up with the community growth and the needs of swim club groups and other user groups. We shouldn't be turning away kids from swimming because we can only accommodate a set amount due to pool space
Screen Name Redacted 5/07/2024 09:19 PM	Community density in Tsawwassen is growing intensely with community planning to attract young families First Nations land development does not include an aquatic facility and all residents utilize the Tsawwassen facility
Screen Name Redacted 5/08/2024 07:44 AM	My own swim group has not had a spot at this pool for many years. I would support expanding too much larger than 10 lanes. We have only a 25 m pool! Many pools in the lower mainland have expanded to 50 by now. I find it almost ridiculous that you are still trying to clean to an almost similar size pool when you were trying to increase the population of our community so much plus we already have an over subscription of the current space with our current population. What do you think is going to happen when the population expands? We should be building this for 10 years ago. We should be building it for 40-50 years from now.
Screen Name Redacted 5/08/2024 11:30 AM	Even 10 maybe too few, we need to plan for growth. With lessons, clubs, it would be ideal to always have room for public swim.
Screen Name Redacted 5/08/2024 12:20 PM	There is demand for more lanes from a recreation standpoint and we run world class swimming programs from Winskill and develop elite athletes in the facility.

Screen Name Redacted 5/08/2024 12:32 PM	Please maximize lane space to accommodate both current needs as the pool space is over-subscribed and future needs. I note winskill was built 50 years ago, assume we won't rebuild again for another 50 years. What will the population be then? Note ladner pool LLC not suitable for swimming laps and clubs due to warm water. Winskill must accommodate Ladner residents lane needs as well. Please also include an electronic score board for swim meets. The one at watermania in Richmond is a good example.
Screen Name Redacted 5/08/2024 01:03 PM	If adding lanes takes away from other features, we prefer features over more lanes.
Screen Name Redacted 5/08/2024 01:52 PM	The community is growing, we need to plan for the future not for today.
Screen Name Redacted 5/08/2024 02:23 PM	I would like to see expanded room provided the infrastructure to support this is increased as well. For example, seating for parents, larger change rooms and potential additional parking to accommodate more patrons.
Screen Name Redacted 5/08/2024 04:30 PM	Less emphasis on swimming lanes and more emphasis on leisure areas.
Screen Name Redacted 5/08/2024 09:08 PM	Do it right the first time! This will be here for another 40 years+
Screen Name Redacted 5/09/2024 06:42 AM	Allows for obvious population growth in Tsawwassen.
Screen Name Redacted 5/09/2024 12:41 PM	Already at capacity with 6 lanes, adding another 2 lanes would not help. Swim club would take a 6th lane and that only leaves 1 lane for lap swimming still and one for lessons. at the minimum we need 10
Screen Name Redacted 7/01/2024 08:33 AM	Fantastic opportunity to build for the future!
Screen Name Redacted 5/09/2024 03:47 PM	It is absolutely needed. I often go to the pool and am frustrated by the limited space available.

Screen Name Redacted 5/09/2024 03:55 PM	All types of sports are extremely healthy foe our growing youth>
Screen Name Redacted 5/09/2024 04:05 PM	I grew up doing competitive swimming and would be open to my child doing the same. Having a local pool that can host competitions is important for our expanding community.
Screen Name Redacted 5/09/2024 04:15 PM	government always underestimates usage.
Screen Name Redacted 5/09/2024 05:08 PM	extend your hours to deal with "oversubscribed" issue
Screen Name Redacted 5/09/2024 05:26 PM	We could possibly hold swim meets
Screen Name Redacted 5/09/2024 05:29 PM	Since so much money is being spent why not add another $4 million and increase to 10. With projected population increase in Tsawwassen (and Ladner too) these extra two lanes would be well utilized.
Screen Name Redacted 5/09/2024 05:39 PM	With the projected growth in housing (see OCP) the facilities will be too smal at 8 lanes.
Screen Name Redacted 5/09/2024 05:56 PM	The lanes are busy now! With the growing population it would be forward thinking to plan for the most lanes possible. Better to do it now than wish it was done later!
Screen Name Redacted 5/09/2024 06:24 PM	We use the pool regularly and enjoy having lanes to do slow and steady lengths.
Screen Name Redacted 5/09/2024 07:33 PM	invest now with a plan for the future as our community is growing
Screen Name Redacted 5/09/2024 09:39 PM	The facility has to be built now to accommodate 30-40 years of future growth in the area
Screen Name Redacted 5/10/2024 10:23 AM	frequent lap pool user, not enough space with programs. prefer 50m pool

Screen Name Redacted 5/10/2024 11:08 AM	I feel the proposal of a 25 meter pool is short sighted. A 50 meter pool with a bulkhead would serve our community well into the future and prevent the over subscription of space. We do also have a masters swim club. More space equates to more participants, which means healthier community members! 10 lanes minimum!
Screen Name Redacted 5/10/2024 11:42 AM	Swimming lanes have been an issue for over 25 years that I have been swimming. It is very important to have multiple lanes for use
Screen Name Redacted 5/10/2024 03:04 PM	There needs to be a "Multi-Use lane for those who are not doing laps and are just "paddling around" at leisure. This way nobody will be getting in the way of those who like doing laps in the pool
Screen Name Redacted 5/10/2024 03:39 PM	I have a personal interest in this as I am a recreational lane swimmer that uses the pool for lap swimming for fitness purposes. I am an experienced swimmer, having grown up in swim club and then swimming with a masters team at UBC before moving to Tsawwassen. It is frustrating to swim in overcrowded lanes with slow/inexperienced swimmers. Unfortunately, I can only swim during peak hours due to a full-time work schedule in downtown Vancouver.
Screen Name Redacted 5/10/2024 04:41 PM	I am a lap swimmer and use the Winskil Pool 3 or 4 days a week. Over the last two year period the use of the lap pool has increased and access has become more difficult. This is an opportunity to maximize the number of lanes. Let's try for 10 lanes.
Screen Name Redacted 5/10/2024 11:21 PM	Build for the future not the present. Population is growing.
Screen Name Redacted 5/10/2024 11:22 PM	We are growing. Facilities must reflect this.
Screen Name Redacted 5/10/2024 11:45 PM	10 lanes would be best if affordable
Screen Name Redacted 5/11/2024 07:09 PM	how will it affect taxes?
Screen Name Redacted 5/11/2024 11:22 PM	It depends where the additional $4 million is coming from. Taxes? Pay per use?

Screen Name Redacted 7/01/2024 08:34 AM	Ensuring there is enough lanes taking into account future growth is necessary, as 8 lanes will not last long if 6 lanes are already overcrowded.
Screen Name Redacted 5/13/2024 01:10 PM	population is just going to keep growing. might as well be proactive and plan for future needs not the needs of 5 years ago
Screen Name Redacted 5/13/2024 01:16 PM	There is no sense building something that will quickly be undersized as it won't be cheaper to add in the future. Future proofing
Screen Name Redacted 5/13/2024 03:20 PM	Almost EVERY time that I am able to use the pool facilities, there is only one lane open for lap swimming; this is not acceptable for tax payers and for paying "customers".
Screen Name Redacted 5/13/2024 08:58 PM	Eight lanes is perfect and cost increase doesn't have to be so extreme. But the oversubscribed use just proves the point that TSAWWASSEN is already at a population maximum as it is.
Screen Name Redacted 5/13/2024 10:39 PM	It's important to look at growth and use of the lanes while others can enjoy other areas of the pool.
Screen Name Redacted 5/14/2024 01:58 AM	The need is clear. As mentioned above the lanes are oversubscribed during peak hours. Water walking is also quite popular.
Screen Name Redacted 5/14/2024 10:28 AM	If you build it they will come. We have a huge population increase with the TFN and densification of South Delta. We need more lanes
Screen Name Redacted 5/14/2024 12:05 PM	more more population in our Tsawwassen
Screen Name Redacted 5/14/2024 03:25 PM	I think planning for future community growth is very important. With the new housing initiatives, the population of the community is only going to grow. Why short change ourselves when undergoing a project of such immense cost only to look back with regret that we didn't include the increased capacity when we had the luxury of doing so in the planning/building stage.

Screen Name Redacted 5/14/2024 08:38 PM	See answer to 14
Screen Name Redacted 5/15/2024 02:29 PM	We need a 50 meter pool so our National level swim club doesn't have to host swim meets at Watermania and are able to train properly for long course National meets. We could then grow our club which in turn generates more revenue being put back into our community.
Screen Name Redacted 5/15/2024 11:14 PM	Fitness and youth swim clubs are more important than just wading around…
Screen Name Redacted 5/16/2024 09:49 AM	We should take the opportunity to develop the best facility possible to accommodate growth in the area.
Screen Name Redacted 5/16/2024 10:36 AM	Our community is expected to grow. Build for it now so we are not having to go through another version of this in a few years.
Screen Name Redacted 5/16/2024 12:24 PM	We are a growing community! We should plan for future growth with these large investments.
Screen Name Redacted 5/16/2024 12:25 PM	At least 10 lanes and should be 50m length
Screen Name Redacted 5/16/2024 07:06 PM	better to build now for growth of population
Screen Name Redacted 5/16/2024 07:30 PM	My son is in swim club. I would love to be able to swim laps while he practices, but with only one lane open for laps, it is often too crowded. This will only get worse as Delta's population increases, so it only makes sense to maximize the number of lanes now.
Screen Name Redacted 5/17/2024 10:27 AM	I was on the swim team for all of my childhood and teenage life and found it to be a lovely addition to the community. However, as I am older now I see the need for more lane space as general clients cannot have full access to them until night time hours and as a mom of 2 that leave little to no time to use this feature. I think planning for the future and having 10 lanes is the best way to go especially with the growing population of Tsawwassen.
Screen Name Redacted	We need to plan for the future of 50+ years accessing this site. 10-12

5/17/2024 12:59 PM	lanes would be best to plan for the future of swim clubs and hosting swim meets where we do not need to scrimp and get by on bare minimum lanes. The cost of construction will only go up exponentially so whatever is being considered as expensive now, will be much more expensive in the future. Pay now. Invest now. Enjoy now. Plan for future use.
Screen Name Redacted 5/18/2024 11:48 AM	I want my money going to infrastructure and things like doctors. I currently do not have a family doctor and have been on a waiting list for over 8 months.
Screen Name Redacted 5/18/2024 01:16 PM	Don't care
Screen Name Redacted 5/18/2024 01:39 PM	10 lanes is too many. The money can be put towards something more important.
Screen Name Redacted 5/18/2024 02:38 PM	I am a former competitive and master's swimmer. As I approach retirement - I am looking to return to be considerably more active in the pool - ie daily and therefore look forward to using the facilities more - especially the pool to swim laps and train. Use of both: the sauna and hot tub would be terrific.
Screen Name Redacted 5/18/2024 03:12 PM	Budget issue
Screen Name Redacted 5/19/2024 10:09 AM	Before we spend more money on a state-of-the-art facility for Tsawwassen the city needs to assess the need for new facilities in North Delta with twice the population of Tsawwassen and which also serves Surrey residents.
Screen Name Redacted 5/20/2024 10:05 PM	The community is growing and we need to account for that with visionary thinking now.
Screen Name Redacted 5/21/2024 10:59 AM	I would rather have a better hospital than this at this point.
Screen Name Redacted 5/21/2024 01:37 PM	So long as the fees charged back to individuals and user groups to use these lanes cover the additional costs and ongoing maintenance. This is an excellent example of an expensive facility (add-on in this case) that benefits a proportionally small number of individuals. Far

	more residents would benefit from an investment in increasing the number of (and improving the existing) playing fields in South Delta.
Screen Name Redacted 5/21/2024 07:00 PM	Let's do 10 lanes. I am sure they will get use. Would be bad if we built 8 and wished we did 10.
Screen Name Redacted 5/21/2024 09:18 PM	Cheap to plan for at onset.
Screen Name Redacted 5/21/2024 11:09 PM	Growing up I was part of the swim club program, and there was never enough space for all 3 clubs to use the pool during the week, Aswell there was also not enough space for the public and the clubs at the same time often leading to a confrontation
Screen Name Redacted 5/21/2024 11:21 PM	As long as there is a basketball hoop and an open area for kids to play in
Screen Name Redacted 5/22/2024 09:53 AM	More lanes for more fitness, swim meets, swim clubs can run more practices at a time and therefore use up the pool less.
Screen Name Redacted 5/22/2024 12:26 PM	It doesn't make sense to build a facility now that won't meet the needs of the future community.
Screen Name Redacted 5/22/2024 03:40 PM	I think having more lanes is more important for clubs and user groups and the community at large. It is currently very hard to find pool time for user groups. With the Ladner pool being so warm it would be nice to have more access to lane swimming in a more competitive pool.
Screen Name Redacted 5/22/2024 07:14 PM	It's not a priority for our family, but I can see it would be for other families.
Screen Name Redacted 5/23/2024 07:18 AM	I do not have enough experience to confidently make a decision about the number of lanes
Screen Name Redacted 5/23/2024 01:38 PM	Lets build for the future instead of today's needs. Lets only focus on a 10 lane pool instead of 8 lanes.
Screen Name Redacted	We have the opportunity to build a top notch facility - always take the

5/23/2024 10:37 PM	opportunity to future proof a new build. Also opens it up more for competitions and a revenue generator for the pool and greater community.
Screen Name Redacted 5/23/2024 10:43 PM	Just like other Peak periods at other community assets like gyms, parks, etc; the pool/recreation facility needs to be better managed with expanded hours adjusting so that peaks are flattened out to shoulder periods. Too often the facilities are closed to meet muni worker collective agreements vs serving the residents of the municipality.
Screen Name Redacted 5/24/2024 08:56 AM	Better to do it correctly now, rather then pay for an expansion later.
Screen Name Redacted 5/24/2024 09:42 AM	With the continued growth expansion in South Delta, we have to be forward thinking for the increase in population. Plan for the future.
Screen Name Redacted 5/24/2024 01:09 PM	At this time, our council should be looking at keeping cost outlays to the minimum.
Screen Name Redacted 5/24/2024 02:05 PM	Build for future population growth in mind. Also cost less now to build than later years
Screen Name Redacted 5/24/2024 02:27 PM	but think it needs much more increase than that. There are already 5 groups that i know of that do not get space at the pool. Two lanes is not going to fix that. It certainly won't serve this growing community well.
Screen Name Redacted 5/24/2024 06:34 PM	If the demand is there, the need for additional lanes should be met.
Screen Name Redacted 5/24/2024 07:23 PM	Would the 10 lanes facilitate swimming events if the lanes are only 25 m long?
Screen Name Redacted 5/24/2024 07:40 PM	Increasing from 6 to 8 means there is one lane extra for lessons and one for just swimming. I tjink it is enouhg
Screen Name Redacted 5/25/2024 09:39 AM	Costs will likely increase. I have many times chose to go to Ladner to swim laps as I knew Winskill would be busy. I swim laps for exercise

	but also for relaxation- but if there's 'traffic' in the pool I am dissuaded from swimming my laps.
Screen Name Redacted 5/25/2024 11:28 AM	Tsawwassen is going to expand so build for the future not for now.
Screen Name Redacted 5/25/2024 12:26 PM	Always overbuild !
Screen Name Redacted 5/25/2024 02:15 PM	Hoping 10 lanes will not impact design considerations I care more for like cold pool, hot pool, dry and wet sauna.
Screen Name Redacted 5/25/2024 05:29 PM	Need this place future proofed
Screen Name Redacted 5/25/2024 09:38 PM	Tsawwassen should grow taller. It has the right dirt to build beautiful towers and there would be exceptional views.
Screen Name Redacted 5/25/2024 11:10 PM	The price seems very high for only 2 extra lanes. I think the money would be better used on something more people would use like a slide/ play equipment/ hot tub
Screen Name Redacted 5/26/2024 04:08 PM	City of Delta needs to plan ahead. Let's consider the growing population. 8 lanes would easily be all in-use during peak hours.
Screen Name Redacted 5/26/2024 04:12 PM	Need more space and lanes to meet the demand of our growing community.
Screen Name Redacted 5/26/2024 05:45 PM	Build for the future not fir the present.
Screen Name Redacted 5/26/2024 07:27 PM	Development of housing in Tsawwassen will bring larger numbers of users. Plan for the future!
Screen Name Redacted 5/26/2024 08:54 PM	Less crowded lanes as a result.
Screen Name Redacted 5/26/2024 09:17 PM	In the current pool lessons and swim club take up all but one lane for the public. Opening to 10 lanes would encourage people to continue

	attending the pool during those peak hours without feeling squished together in fewer lanes and it would make winskill a more prominent facility for competitive swimming
Screen Name Redacted 5/26/2024 09:28 PM	Sometimes we are unable to use the cold pool because the lanes are occupied with lessons and swim Club.
Screen Name Redacted 5/27/2024 12:27 PM	If you insist on not following the best practices from elsewhere, then please do a value based analysis. Usage and enjoyment per square metre of space per unit of time and the cost of that space. Then optimize for maximum usage and enjoyment (which is qualitatively measured) per dollar per unit of time. This will at least show you where the clear winnings ideas and clear losing ideas. But again, this problem has already been solved, if you just focus on researching other cities around the world to find the best solutions.
Screen Name Redacted 5/27/2024 01:28 PM	expand hours
Screen Name Redacted 5/27/2024 02:34 PM	I have no interest in swimming, but I can appreciate why they would want to expand the pool.
Screen Name Redacted 5/27/2024 04:09 PM	Me and my friends swim for the winskill dolphins and would like to host competitions from time to time. A 50 meter with good diving blocks would be great!
Screen Name Redacted 5/27/2024 06:15 PM	It’s time to build for the future, not the absolute minimum to get by now.
Screen Name Redacted 5/27/2024 06:16 PM	Planning for future growth is important
Screen Name Redacted 5/27/2024 06:53 PM	The population increase planned for the next few years forces us to think ahead and think big.
Screen Name Redacted 5/27/2024 09:08 PM	Rush hours are always going to busy, I never experienced much issues with number of lanes. It's a nice to have thing not very important

Screen Name Redacted 5/28/2024 07:44 AM	Seems like alot of people are using the lanes and with a growing population, its best to have more than less.
Screen Name Redacted 5/28/2024 12:47 PM	10
Screen Name Redacted 5/28/2024 04:00 PM	It seems 8 would be enough for needs to be met but if the attendance warrants 10 lanes it is ok
Screen Name Redacted 5/28/2024 05:56 PM	If the pool is expanded to 10 lanes you could run two separate clubs training programs in the pool at the same time. And if you make the with of those lanes the right size you could have a 25yard wide pool which would allow for even more training space while still allowing for public swim lanes at all times. Adding two additional lanes should not cost 4 million however. I would question the suppliers. Myrtha pools needs to be one of the options you look at for construction.
Screen Name Redacted 5/28/2024 07:32 PM	There will be an increase in need and usage of the pool with the growing community. The southlands and tsawwassen springs developments will continue to grow and increase the population.
Screen Name Redacted 5/28/2024 09:46 PM	I think 10 lanes also supports swim clubs in the area, while allowing recreational users space.
Screen Name Redacted 5/28/2024 10:31 PM	For swim club training and ability to host swim meets
Screen Name Redacted 5/29/2024 06:37 AM	Budget will dictate the number of lanes.
Screen Name Redacted 5/29/2024 03:56 PM	The current pool is already well over capacity. Anything less than 10 lanes would be a real shame as the capacity for lessons, swim clubs, etc.
Screen Name Redacted 5/29/2024 05:36 PM	Please build for the future as a facility like this will only have more users as it becomes more accessable and built for the community
Screen Name Redacted 5/29/2024 10:24 PM	More space in deep and shallow end ?

Screen Name Redacted 5/29/2024 10:46 PM	It is better to future proof now, then deal with known growth issues after the work has been completed.
Screen Name Redacted 5/30/2024 08:52 AM	I would not use lane swimming
Screen Name Redacted 5/30/2024 12:52 PM	We need to plan for the future. We also need a 50m lane for swimmers and competitions as well as a proper clock. Let’s build for our growing and bright future.
Screen Name Redacted 5/30/2024 01:56 PM	Population will grow beyond levels today. Let’s build a facility to support South Delta in the years to come
Screen Name Redacted 5/30/2024 02:12 PM	If it’s deemed important by swimmers and we can afford it, why not? It would be nice to have enough lanes that casual swimmers can still access even during club swims.
Screen Name Redacted 5/30/2024 03:03 PM	Also 10 lanes allow for big swim meets
Screen Name Redacted 5/30/2024 05:15 PM	The new facility should be a 10 lane 50m pool to accommodate the future growth which will come from the Southlands, Tsawwassen Springs expansion and Tsawwassen First Nations developments as well as the new tower in Tsawwassen Town Centre and increased residential growth resulting from the new OCP. The building of a new 25m facility is a retrograde and short sighted project that will be outgrown within 10 years. Delta is one of the few municipalities that does not have a 50m facility, our swim club sends a high number of swimmers to the National Swim Team even though they have to train in a small pool. We can not hold a top flight Aquatics Meet, which would bring people from out of town, who would spend money on food and accommodation, in an old style 25m facility.
Screen Name Redacted 5/30/2024 07:18 PM	City is growing, so should the amenities.
Screen Name Redacted 5/30/2024 10:11 PM	This doesn't impact me much at this time so it's hard for me to speak to. I can see the value in including it in this expansion now.
Screen Name Redacted	I've ended up going to Ladner indoor pool at times because it gets to

5/31/2024 09:05 AM	busy to swim lanes and the pool is too cold. In the summer I'll also swim in Ladner outdoor pool if need be.
Screen Name Redacted 5/31/2024 03:34 PM	Our city is contining to grow and access to the facility will grow as well.
Screen Name Redacted 5/31/2024 11:13 PM	Swimming is important but saving the green space is more important, we can do both by allowing other fields in town at some schools for other sports like baseball. why cant the park be the number 1 place for conserving, we cant rebuild the forest we can plant for the future and build baseball and sports fields on empty older fields in town, there are many.
Screen Name Redacted 5/31/2024 11:44 PM	I think it’s better to think ahead about the future as community populations keep growing and the need of bigger facilities.
Screen Name Redacted 6/01/2024 01:22 AM	10 Lanes would make swimming not so cramped and would be awesome.
Screen Name Redacted 6/01/2024 11:25 AM	I use those lanes regularly and would welcome an increase. Especially when swim teams have them blocked off for adult lengths swim times. Would like a spot where the water walkers would stay in the designated area. They often spill into the slow and medium lanes in order to have a lane to themselves.
Screen Name Redacted 6/01/2024 11:30 AM	I use the lanes regularly and would welcome the expansion
Screen Name Redacted 6/01/2024 03:11 PM	Water walkers currently take up a couple of lanes, so please factor them in.
Screen Name Redacted 6/01/2024 10:00 PM	If there’s going to be a lot of kid’s activities (water slide, rope swing etc.) it would be nice to be in a separate area from the people swimming laps or doing swim lessons.
Screen Name Redacted 6/01/2024 11:50 PM	I use the open lanes which leaves two lane available for swimmers during programs
Screen Name Redacted	Very simple - if you are not in lessons etc it is a barrier to use pools-

6/02/2024 06:01 AM	unfair resource use. Must take elders who don't subscribe but yet have paid for rec centre overs many years - can't get in so virtually useless to us. Also closures in summer are unforgivable as that is when it is easier to get out and use it. Also when scorching hot nice to cool down w a swim!!
Screen Name Redacted 6/02/2024 02:01 PM	With the proposed increase in density in the area it would be foolish not to plan for the recreation needs of those residents.
Screen Name Redacted 6/02/2024 02:08 PM	I would rather put the money to expand the gym or have an area for tennis or other racket sports
Screen Name Redacted 6/02/2024 03:58 PM	Delta facilities (or lack of) are so overpopulated. As a swim coach, you double the practices and lessons you can run at the same time by building a 50 meter pool. Anything less will not support the future growth of competitive swimming in Delta.
Screen Name Redacted 6/02/2024 04:01 PM	And a 50 meter pool to host swim meets
Screen Name Redacted 6/02/2024 09:50 PM	There is population growth occurring in south delta, so always good to build for the long term assuming this facility could last 60 plus years.
Screen Name Redacted 6/03/2024 11:49 AM	Delta's population is growing this facility should look forward to the future and accommodating its needs.
Screen Name Redacted 6/03/2024 11:54 AM	Spend the money now for a facility that will be useful in the most future scenarios.
Screen Name Redacted 6/03/2024 12:06 PM	There are far more people using the pool ie. children who don't use the lanes than do and I think that they should be prioritized
Screen Name Redacted 6/03/2024 12:28 PM	I don't use them
Screen Name Redacted 6/03/2024 12:43 PM	It is too much money and it could take away from fun and educational stuff.

Screen Name Redacted 6/03/2024 01:10 PM	I go in the morning and if the lanes are full they openup after a few minutes..
Screen Name Redacted 6/03/2024 02:32 PM	As a former competitive swim coach and life guard, I am acutely aware of potential problems if the pool is not designed to accommodate for competing events, lessons, and restricted ability to provide space for a variety of users
Screen Name Redacted 6/03/2024 04:10 PM	Access during peak times and growth of community
Screen Name Redacted 6/03/2024 06:08 PM	We need to build for the future, not the past.
Screen Name Redacted 6/03/2024 08:03 PM	we always under build in this country
Screen Name Redacted 6/03/2024 08:14 PM	It makes more sense to have more usable space overall and more room to expand in the future instead of having to rebuild or renovate.
Screen Name Redacted 6/03/2024 08:15 PM	While the swim clubs and lessons are excellent uses, it is also important to always have several lanes available for lap swimmers.
Screen Name Redacted 6/03/2024 08:59 PM	often use the swim and walking lanes in the pool and often too crowded
Screen Name Redacted 6/03/2024 10:27 PM	Even with 8 lanes, I could see them being over booked. I'm hoping all pools will be accessible to those with disabilities
Screen Name Redacted 6/04/2024 12:45 PM	We are a fast growing community… We may as well put the money into expand more than we need right this moment because in the near future, we will need more space anyways. We're doing a huge remodel we may as well make it worth it
Screen Name Redacted 6/04/2024 01:17 PM	More is better and I feel the additional lanes would be used in the new facility.
Screen Name Redacted 6/04/2024 04:47 PM	I tend to pick the off-peak times so lane accessibility has not been an issue

Screen Name Redacted 6/04/2024 05:40 PM	Increasing population
Screen Name Redacted 6/04/2024 06:12 PM	Let’s plan for the future.
Screen Name Redacted 6/04/2024 07:07 PM	Don’t feel size of facility should necessarily be o creased
Screen Name Redacted 6/04/2024 09:36 PM	I understand the frustration With the lack of available lanes from all perspectives. My kids were in the summer and winter swim clubs, I was in the adult swim club and now I am a recreational swimmer and can see there is definitely a need for more lanes.
Screen Name Redacted 6/04/2024 10:11 PM	Let’s build it for the future!
Screen Name Redacted 6/04/2024 10:22 PM	The population will continue to grow, expanding to 8 lanes only when the current 6 are already oversubscribed doesn't provide much room for continuing growth unless you are planning on building another new facility in the area as well soon.
Screen Name Redacted 6/04/2024 10:40 PM	We need to build this for the future not just for today.
Screen Name Redacted 6/04/2024 11:11 PM	The demand is already there and it would allow for the lanes to always be open during lessons
Screen Name Redacted 6/04/2024 11:43 PM	Tsawwassen is only getting more dense. We need to build a new pool for the future needs of this community not just to meet the immediate needs.
Screen Name Redacted 6/05/2024 12:08 AM	It’s only going to get busier as more people move to Tsawwassen, better to design and build it with more space to begin with than retrofit at a later date.
Screen Name Redacted 6/05/2024 08:28 AM	We regularly go to the pool and there are no lanes available unless you are on the swim team or having a lesson.

Screen Name Redacted 6/05/2024 10:01 AM	Expand operating hours to accommodate more people
Screen Name Redacted 6/05/2024 10:50 AM	I am short and unable to walk in any other lanes than the shallowest lane. When swim club is there, they use all the lanes except the one closest to the deep end and I cannot walk in that lane with my head above the water!
Screen Name Redacted 6/05/2024 01:35 PM	The accommodation of lane swimming is very important to all ages. Swimming is an exercise our aging population can participate in as it is easy on the joints. The young swim clubs are amazing and in high demand as more kids move here. Building a new facility without enough for the demand would be a big mistake.
Screen Name Redacted 6/05/2024 02:35 PM	I walk my dog every day by the pool and when I look inside, oftentimes there's nobody using the lanes. Having too more is ridiculous.
Screen Name Redacted 6/05/2024 02:50 PM	Definitely put in a 10 lane pool- do some future proofing especially with the projected population increases due to the proposed housing density goals. It would be very beneficial to build a facility that can host competitive aquatic events.
Screen Name Redacted 6/05/2024 03:29 PM	There is a rampant shortage of swimming lesson availability in the lower mainland—if there were to be more lanes that enabled more teaching opportunities, our families could be better supported in accessing this vital life skill for our kids.
Screen Name Redacted 6/05/2024 03:39 PM	Adding 10 lanes will take up too much space.
Screen Name Redacted 6/05/2024 05:48 PM	Only if the pool is not a 50 metre.
Screen Name Redacted 6/05/2024 06:19 PM	100%- absolutely! There are so many young swimmers in this community and an incredible swim team. They need more space for training!!
Screen Name Redacted 6/05/2024 09:40 PM	I'm not informed enough to answer definitively. How much is it oversubscribed? And is this quite common? Also, I'm not sure how

	many ppl are allowed in a lane at a time. Is 2 more lanes just two more ppl at peak hour? If so, that space can be used by many more ppl at peak hour without the extra 4 million.
Screen Name Redacted 6/05/2024 11:03 PM	more opportunities for swimmers
Screen Name Redacted 6/05/2024 11:58 PM	Aging population, as well as all ages, need space for physiotherapy and rehabilitation, as well as fitness and endurance swimming.
Screen Name Redacted 6/06/2024 10:30 AM	Lanes should be 50 m
Screen Name Redacted 6/06/2024 10:46 AM	The pool should be 50m in order to incorporate all the users
Screen Name Redacted 6/06/2024 12:56 PM	Population growth requires forward thinking and consideration f the facility is to remain adequate for future generations
Screen Name Redacted 6/06/2024 07:04 PM	The clubs always have always booked the lanes there is never enough room for us to both swim. We live near the water and there should always be room for people to practice/learn. We should take inspiration from Richmond with the double 50 lanes they have.
Screen Name Redacted 6/06/2024 07:05 PM	Having a 10-lane pool over a 6-lane pool is crucial for several reasons. First, a 10-lane pool allows for more swimmers to practice or compete simultaneously, which is especially important for swim meets or swim teams with many members. Additionally, in a 10-lane pool, swimmers have more space to swim without overcrowding, leading to safer and more efficient swimming sessions. The additional lanes also provide more flexibility in scheduling practices and events, making it easier to accommodate different groups and activities. Overall, a 10-lane pool offers increased capacity, better organization, and improved safety compared to a 6-lane pool.
Screen Name Redacted 6/06/2024 11:24 PM	Opportunity to be a premier competition facility
Screen Name Redacted 6/07/2024 12:20 AM	$4 million now doesn’t seem to be much compared to how much it would cost to renovate or upgrade later? Is it really that oversubscribed or is it that the facility isn’t open enough? But, isn’t

density supposed to increase? Build it for projected future capacity.

Screen Name Redacted
6/07/2024 12:46 AM

I think it's better to have more lanes with the Delta density initiative

Screen Name Redacted
6/07/2024 01:39 AM

Could the design be flexible. So at non peak hours the lanes could open up into more pool area to play around in.

Screen Name Redacted
6/07/2024 09:01 AM

Our community is only growing with all the building. We need more facilities.

Screen Name Redacted
6/07/2024 09:04 AM

Use the space more effectively with other features

Screen Name Redacted
6/07/2024 09:20 AM

That's too much money to have more lanes just to make the lanes undersubscribed. Oversubscribed presumably means 100% utilized, that is good.

Screen Name Redacted
7/01/2024 08:42 AM

If it is important to the swim clubs then I support this

Screen Name Redacted
6/07/2024 10:01 AM

Again, a 50 metre pool with bulkhead would allow clubs and residents to use the pool at the same time.

Screen Name Redacted
6/07/2024 10:27 AM

You need to design this space for the future development of the community. More ppl are coming to this town, we must plan accordingly.

Screen Name Redacted
6/07/2024 10:43 AM

As said earlier I use the lanes and all my family tend to use the lanes. Kids - seniors. We need swim clubs, water activities for seniors, and just the option to do lanes. Fun fades if it is permanent what we need is a pool which suits all ages. I noticed one of the options was a lazy river, I grew up in Victoria and I can speak from experience lazy rivers and whirlpools nobody uses after 6 months. The only people who will use them are the out-of-towners because it is not suited for the adults and the kids get bored and move on to the next new and sparkly thing. The pool should always be available for all people, which is why I think we need as many lanes as we can get and if thats 10, then we have to hope that is enough to suit our rapidly growing community.

Screen Name Redacted 6/07/2024 10:47 AM	Save money 8 lanes is already a lot.
Screen Name Redacted 6/07/2024 10:49 AM	The community is growing - given the costs and lifecycle of this infrastructure, it makes more sense to plan for the future needs of the community.
Screen Name Redacted 7/01/2024 08:42 AM	Tsawwassen is growing- we should be thinking ahead
Screen Name Redacted 6/07/2024 11:15 AM	no need to blow $ budget on a small town pool * I like Tsawwassen being a small town - that is why I choose to live here with my 4 children.
Screen Name Redacted 6/07/2024 12:01 PM	Pool lanes are over capacity everyday after school and one weekends, discouraging recreational use and fitness
Screen Name Redacted 6/07/2024 12:31 PM	The additional 2 lanes are needed for both leisure and swim competition needs.
Screen Name Redacted 6/07/2024 12:59 PM	Keep as is but create an outdoor pool with the remaining funds
Screen Name Redacted 6/07/2024 02:28 PM	The more residents that are able to benefit from the facility at once at any given time comfortably is an excellent investment.
Screen Name Redacted 6/07/2024 03:28 PM	Need more facilities in South Delta!
Screen Name Redacted 6/07/2024 05:35 PM	Look at keeping the facility open longer and extending the availability This employs more staff that will be bringing their earnings back into the community.
Screen Name Redacted 6/07/2024 06:10 PM	The pool needs to accommodate the community for 40 years. You need to think bigger
Screen Name Redacted 6/07/2024 08:45 PM	NEED! MUST HAVE!

Screen Name Redacted 6/07/2024 10:11 PM	We are a city still in its infancy, 8 lanes will be “oversubscribed” in less than 15 years, it’s time to spend money and build for the next 50.
Screen Name Redacted 6/08/2024 02:30 AM	I don't use the pool, just thinking in regard to money management here.
Screen Name Redacted 6/08/2024 09:16 AM	our boys are all swimmer and would enjoy more space
Screen Name Redacted 6/08/2024 09:46 AM	Please explain how 2 additional lanes costs an additional 4 million.
Screen Name Redacted 6/08/2024 12:54 PM	There is enough swimming lanes they need space for fun
Screen Name Redacted 6/08/2024 02:18 PM	There is a brand new renovated pool 5-10 minutes down the hwy in Ladner right beside Delta Corp city hall. Expand that pool and DONT CUT DOWN ANY TREES!
Screen Name Redacted 6/08/2024 03:23 PM	A minimum of 10 lanes is required to accommodate all user groups.
Screen Name Redacted 6/08/2024 04:52 PM	I don’t lane swim at the time. Mostly for relaxing and play for our family
Screen Name Redacted 6/08/2024 06:04 PM	I think 8 is plenty and I would rather see the 4 million spent on other features, as mentioned in question 14.
Screen Name Redacted 6/09/2024 08:13 AM	4 million can go a long way of tax money in helping people in need.
Screen Name Redacted 6/09/2024 09:18 AM	8 lanes would also reach capacity before the end of this pools lifespan
Screen Name Redacted 6/09/2024 04:06 PM	With the expected further development of Tsawwassen and considering the expected lifespan of the pool, it would be short-sighted to plan for a capacity that only barely handles current needs

Screen Name Redacted 6/10/2024 12:16 PM	Tsawwassen is experiencing significant growth and will continue to. Eight lanes will be insufficient/crowded very soon.
Screen Name Redacted 6/10/2024 01:31 PM	Considering Delta's rapidly expanding population, I believe it is important to overbuild for today's standards (as most likely 8 lanes will be inadequate in a few short years)
Screen Name Redacted 6/10/2024 01:55 PM	Need to plan far ahead for the pool to be used by a larger local population in the future. The Ladner pool is a good example of poor planning that wasn't properly designed for longer term plan for its use. It was obsolete shortly after it was built, so it presently falls short of being useful to most of the residence. Delta must avoid another Ladner pool debacle.
Screen Name Redacted 6/10/2024 04:05 PM	We need to consider the expanding needs of the community considering our part in expanding housing units in delta under the provincial mandate. We should not be building for just our current capacity
Screen Name Redacted 6/11/2024 09:58 AM	I used to have (and still know) kids who were in swim club and my grannie/her friends used the lanes. I am also known to go swim lanes when I need to breakup my gym routine and there were never enough lanes. Swim meets took us to other amazing pools where they had visions that worked. While I don't believe we can have water mania (and nor do I want watersides as then we have to retrain ALL the lifeguards - I used to be one) I think we should take inspiration from it. Same as walnut grove the all have created smart ideas to make the most amount of lanes work which then respects SOO many different groups of the community.
Screen Name Redacted 6/11/2024 10:53 AM	You need to project for future use, not presently used.
Screen Name Redacted 6/11/2024 11:48 AM	Community growth expectations will mean that more space be available in the future.
Screen Name Redacted 6/11/2024 06:57 PM	The 10 lane pool would support Tsawwassens population growth more sustainably. A 10 lane pool will attract swim clubs to host competitions in Tsawwassen as opposed to elsewhere which supports the town’s economic development

Screen Name Redacted 6/11/2024 07:59 PM	because of population and also a pool that children can play in
Screen Name Redacted 6/12/2024 12:16 AM	I would be more likely to agree with expansion if the City does not impede on ANY existing greenspace and looks to acquire additional land to expand greenspace within the community. Not everyone in the community is passionate about public aquatics or fitness facilities, and with the growth being forced on the community, I want to see MORE greenspace.
Screen Name Redacted 6/12/2024 10:56 AM	The pool was built fifty years ago with six lanes. Adding only 33% lanes to save $4M is shortsighted, given the population growth since 1970 and the large increase expected in the future. Interestingly the public has not been asked about the length of the pool, nor has it even been mentioned. This in spite of the fact that Markus Thormeyer trained at Winskill when he was younger, but moved his training elsewhere to eventually compete at the Olympic level. Delta's MP Carla Qualtrough is also a former Paralympic swimmer. The length of the pool does have an impact on how swimmers train, because shorter lengths mean less emphasis on endurance. Having a 50m pool with removable bulkheads would help Canada in the competitive swim arena. It would also add a lot of flexibility. For example, bulkheads could be moved to host municipal lessons in one section, a swim club in another, and divers in a third section. There are no 50m pools in Delta.
Screen Name Redacted 6/12/2024 02:38 PM	Planning for growth and the future makes sense. It won't get any cheaper to expand over time, and it's helpful when the city develops infrastructure improvements that benefit the community well into the future (beyond the next election cycle).
Screen Name Redacted 6/12/2024 03:04 PM	I am a college student and have just completed my first year. I live on campus but come home for all the holidays, breaks and some weekends. I grew up swimming and still do to clear my head and stay active. Winksill is the closest pool to my house and where I grew up going to. The pool was always very busy whenever I used it and since being able to compare it to my college pool it just is cramped. We need more lanes for everyone. I think getting more lanes should be a priority for this project.
Screen Name Redacted 6/12/2024 03:23 PM	Yes because It'll only cost more in the future if it's put off.

Screen Name Redacted 6/12/2024 08:51 PM	I don't actually think that 10 lanes is enough for our growing population. Look at all the development around us. I also would like to point out that we have no capacity to hold meets and that there is no capacity to hold meets or train 50 here. For a little town that sends multiple kids every year to nationals or this year to Olympic trials, they have to travel out of town and through the tunnel to properly train. That is shameful. Having the ability to host meets without fully shutting down a facility will bring economic benefits to our community. When the Winskill dolphins host a meet out of town, that is a huge economic driver where you have hundreds of kids and families in town, shopping at our shops, but instead all that goes to Richmond for aWatermania
Screen Name Redacted 6/12/2024 10:01 PM	The community is growing and the OCP will create more growth. If the city insists on the OCP please build infrastructure to support the growth.
Screen Name Redacted 6/14/2024 09:26 AM	Already oversubscribed, if the facility is meant to address future growth it needs to be built for future ocp changes and densification . Should build 20 lanes.
Screen Name Redacted 6/14/2024 10:30 AM	I love the outdoor are of Winskill Park. the mature trees, shaded fields etc are a treasure that is not replaceable. My experience is parking is already oversubscribed most Monday mornings at 0800 when I use the pool. The pool isn't even busy then!! Delta really needs to reconsider the auto-centric plan for a major redevelopment of a leisure centre at Winskill.
Screen Name Redacted 6/14/2024 12:46 PM	We need both a 50 metre, 8 lane pool, and a 25 metre pool. Both were just completed in New Westminster for $115 million. We can afford both.
Screen Name Redacted 6/14/2024 07:57 PM	The pool has always been shared by swimmers during certain times and for basketball and kid times it has been this way ever since 1979 when I first started going to the pool and it has worked well. I understand that the population has increased, and therefore we need to expand the size of the pool and update it, but this does not give us an excuse to tear down a forest and destroy an area that is incredibly important to the community
Screen Name Redacted 6/14/2024 08:02 PM	I think the building needs an upgrade but, not that much expansion. We would like to see the park remain as it is. Especially the disc golf

course.

Screen Name Redacted
6/14/2024 09:41 PM

Population in TSAWWASSEN is growing and we should be building for anticipated needs.

Screen Name Redacted
6/14/2024 10:46 PM

My concern is loss of outside areas

Screen Name Redacted
6/14/2024 11:49 PM

It would attract an Olympic caliber of swim club and swim meets and would draw people to Tsawwassen which would be good for the local economy.

Screen Name Redacted
6/15/2024 08:21 AM

This should be a 50 meter pool. It is a huge urban planning error to make this 25 meters.

Screen Name Redacted
6/15/2024 04:00 PM

We do not need a giant industrial looking aquatic center in the middle of what is a pristine piece of natural parks. I don’t think the city should be so hypocritical as to no follow the restrictions they impose on others (like the golf courses) when it comes to building and clearing forest for construction.

Screen Name Redacted
6/16/2024 01:43 PM

I don't want the new facility to end up overtaking greenspace.

Screen Name Redacted
6/16/2024 03:58 PM

Our population in Tsawwassen is only going to expand so having more lanes to accommodate would be needed in the future.

Screen Name Redacted
6/16/2024 11:21 PM

Our community is grown! Build for the future and not what would be good for right now.

Screen Name Redacted
6/17/2024 09:30 AM

It is important to be able to swim lengths while fitness classes still operate. Make is so lanes Are Still accessible to those of us swimming lengths.

Screen Name Redacted
6/17/2024 09:30 AM

more lanes are needed but perhaps the extra space is not just about more lanes - look at penticton pool with areas for water fitness classes

Screen Name Redacted 6/17/2024 09:40 AM	Tsawwassen and Ladner's facilities are already under-equipped. As the community grows, this problem will become more pronounced.

Optional question (259 response(s), 323 skipped)
Question type: Essay Question

Q17 The new facility will incorporate features for accessibility and inclusivity. Are there any accessibility or inclusivity features that you would like to see incorporated in the new facility?

Screen Name Redacted 5/07/2024 08:17 PM	Automatic doors for the change rooms for wheel chair users and families.
Screen Name Redacted 5/07/2024 08:43 PM	I would love to see some entry points that you don't just need a lift to get in I think anyone with accessibility issues are put off by having to ask for help using these. A more gradual entry point that is easy to use no matter ability would be lovely.
Screen Name Redacted 5/08/2024 07:44 AM	A few universal change rooms. But not too extensive the LGBTQ portion of the community is about 10%. We should certainly ensure inclusivity, but we should do so, ensuring that the cost do not exceed what would be fair for that portion of the population to be comfortable and safe.
Screen Name Redacted 5/08/2024 11:10 AM	Wheelchair friendly
Screen Name Redacted 5/08/2024 12:32 PM	No
Screen Name Redacted 5/08/2024 01:03 PM	More assisted swimming tools/toys
Screen Name Redacted 5/08/2024 01:49 PM	Squash courts please
Screen Name Redacted 5/08/2024 01:52 PM	Single shower stalls and more family change rooms that are all private
Screen Name Redacted	Accessibility for disabled persons so they can easily get into and out

5/08/2024 02:23 PM	of water
Screen Name Redacted 5/08/2024 04:30 PM	No
Screen Name Redacted 5/08/2024 09:08 PM	Wheelchair accessible Lifts Family change rooms (look at rmd as an example) all rooms have doors no doesn't matter what side you change on.
Screen Name Redacted 5/09/2024 03:47 PM	Gender neutral change rooms/wash rooms.
Screen Name Redacted 5/09/2024 03:55 PM	no
Screen Name Redacted 5/09/2024 04:05 PM	change rooms with a location to put down children who can't yet walk. Ladner has small little chairs with straps that were very handy when my child was younger.
Screen Name Redacted 5/09/2024 05:29 PM	At this stage I do not have accessibility issues but as I age (and by the time the new facility is opened) I would probably be thankful for accessibility. To me inclusivity means allowing all to enjoy this new pool.
Screen Name Redacted 5/09/2024 05:56 PM	At present, I am lucky enough to not need any accessibility features but would love to have them available when and if I need them!!
Screen Name Redacted 5/09/2024 06:24 PM	Easy in and out stairs or ramp in pool
Screen Name Redacted 5/10/2024 10:23 AM	ability to bring young children into pool ie gentle ramp
Screen Name Redacted 5/10/2024 03:04 PM	A lift chair for those with mobility issues would be good.
Screen Name Redacted 5/10/2024 06:45 PM	More family change rooms
Screen Name Redacted	input needed from many who will use the features

5/10/2024 11:45 PM	
Screen Name Redacted 5/11/2024 12:53 PM	lazy river being accessible, perhaps even as a conduit between the teaching pool and the main pool
Screen Name Redacted 7/01/2024 08:34 AM	Having a wheelchair accessible pool area is a must, as well as having classes specially for Delta residents coming as immigrants to help teach without a language barrier.
Screen Name Redacted 5/13/2024 01:16 PM	Lockers reachable height for those in wheelchairs. Currently too low and too high.
Screen Name Redacted 5/13/2024 08:58 PM	Perhaps a walk in no life entry. As far as gender neutral washrooms, etc., no. I don’ t feel that is appropriate when there are usually family facilities available to use.
Screen Name Redacted 5/13/2024 10:39 PM	Wheelchair accessible hot tub, adaptive swimming lessons.
Screen Name Redacted 5/13/2024 11:11 PM	Grab bars and railings to make moving around change areas safer
Screen Name Redacted 5/14/2024 10:28 AM	I think wheel chair accessibility is of utmost importance for this. We can't please or meet every demand for every group so I believe we need to focus on the family demographics which are most relevant in our area and the ones who use the facility the most.
Screen Name Redacted 5/14/2024 12:05 PM	no ideal
Screen Name Redacted 5/14/2024 03:25 PM	While accessibility and inclusivity are extremely important factors to include in any/all projects and plans. I feel often these features are overly included/incorporate and often underused in the end. Providing these features for individuals that require them should be a top priority. But, should not be viewed as the main priority, as I find they often detract from the overall ascetics, ambiance, look/feel and enjoyment of the facility by the majority of the users that don't require these features. What I'm trying to say is I find there often isn't a good balance of incorporating these features without them negatively impacting the appeal/use of the overall facility for other users. I would suggest perhaps a user/demographic study that critically looks at the

	actual percentage of patrons that would require or utilize the accessibility and inclusivity features and seek to strike a balance based on the makeup of the users. With the understanding that potentially the percentage of current users that require these features might be under represented, because they might not use the facility based on them not having/feeling like they have the adequate accessibility that they feel they require. It is also important to remember that we live in a community that for the most part is ageing and will potentially require additional accessibility in the future. I urge consideration of a balanced approach when looking to include accessibility features.
Screen Name Redacted 5/14/2024 08:38 PM	I have a daughter-in-law who is paraplegic. I would like to see a device which would allow her access to the swim pool
Screen Name Redacted 5/15/2024 11:14 PM	More family Change rooms
Screen Name Redacted 5/16/2024 09:49 AM	Best answered by those affected users
Screen Name Redacted 5/16/2024 10:36 AM	Be careful what you consider inclusivity and what is just common sense. The scale was recently removed from the weight room due to inclusivity. Sports registration has been horribly affected in the name of inclusivity. These are just a couple of examples of changes that were not needed to be "inclusive". Do people get paid more to come up with these stupid ideas?
Screen Name Redacted 5/16/2024 12:24 PM	Yes! A rehab pool (as described above); accessible gym equipment with enough room for two people in bariatric walkers to pass each other between the equipment; a variety of cardio equipment for all abilities including treadmills, bikes, arm bikes, Nu-Step machines and more; a variety of accessible weight machines; an open gym space close to cardio equipment for class use; a full array of accessibility equipment for in-water rehab including strap weights and floats for people with spinal cord injuries.
Screen Name Redacted 5/16/2024 07:06 PM	slings for wheelchair users?
Screen Name Redacted 5/17/2024 10:27 AM	My daughter has autism and is a very active child. With the addition of more play based areas and equipment that would fit our family and many new families needs. Our current favourite pool in terms of

	features is Minoru Pool in Richmond.
Screen Name Redacted 5/17/2024 12:59 PM	I do not want to see universal change rooms. Minoru pool does this and it is a terrible experience for families, particularly with small children. Some smaller individual use stalls, such as Winskill has now, should be available for people who need unique spaces. The spaces for families should be for families. Spaces for women are for women, spaces for men are for men. Allow others that need a unique space to have a unique space that doesn't take away from families feel comfortable when changing.
Screen Name Redacted 5/18/2024 01:39 PM	No
Screen Name Redacted 5/18/2024 02:38 PM	If this is to also be a training pool for swimmers - can it be made deeper with a separate diving area from the pool (that is not attached).
Screen Name Redacted 5/20/2024 10:05 PM	Consider sensory and ocd needs to maximize cleanliness of changing and on deck facilities. Allow an area for shoes and parent viewing/lesson pickup on deck that won't bring diet in.
Screen Name Redacted 5/21/2024 01:37 PM	We feel it is important the city focus first on those improvements to parks and facilities that will address areas of greater and more immediate need. By way of example, money allocated for inclusive art (or any art for that matter) would be better set-aside for addressing pressing needs for ball diamonds, soccer fields, football fields and the like.
Screen Name Redacted 5/21/2024 10:39 PM	Zero entry for little ones
Screen Name Redacted 5/22/2024 12:26 PM	Use universal design throughout.
Screen Name Redacted 5/22/2024 03:40 PM	- gradual entry - large change rooms and a lift/change table for older people - sensory friendly features
Screen Name Redacted 5/22/2024 05:21 PM	Change tables for kids (not babies)

Screen Name Redacted 5/22/2024 07:14 PM	Zero entry to all water areas (hot tub, lanes, main swim area, etc) for those with mobility challenges. Areas for neurodivergent children to have sensory play.
Screen Name Redacted 5/23/2024 07:18 AM	A gradual entry similar to Ladner pool
Screen Name Redacted 5/23/2024 01:19 PM	Easy pool access for disabled persons
Screen Name Redacted 5/23/2024 01:38 PM	As we are living in an all inclusive world where everything has to be politically correct, we have to make it all inclusive.
Screen Name Redacted 5/23/2024 08:51 PM	tactile features for the visually impaired.
Screen Name Redacted 5/23/2024 10:37 PM	2 or more lifts. Accessible / grip walk areas / pathway where water exists.
Screen Name Redacted 5/24/2024 08:56 AM	No
Screen Name Redacted 5/24/2024 02:05 PM	Pool area for old folks to have activities that promote their well-being. Have aquatic exercise in mind.
Screen Name Redacted 5/24/2024 06:34 PM	Low stimulus (dim lights, low noise) hours for neurodivergent folks
Screen Name Redacted 5/24/2024 07:23 PM	Should exceed BCBC. Consult with Delta's Mobility and Accessibility Committee.
Screen Name Redacted 5/25/2024 09:39 AM	Delta needs to extend Delta prices and program registration availability to those living on Tsawwassen lands. It made me sick to hear that they were charged a higher rate- there is no reconciliation in penny pinching. Where there's an opportunity to lift up the community, who's land we benefit from, who have been generationally impacted by colonialism and residential schools, it should be an obvious choice.
Screen Name Redacted	Sheltered convenient parking for non-car users. Mobility scooters, e-

5/25/2024 02:15 PM	bikes
Screen Name Redacted 5/25/2024 06:42 PM	More larger designated change rooms specifically for accessibility only
Screen Name Redacted 5/25/2024 09:38 PM	Wheelchair ramp into the water
Screen Name Redacted 5/26/2024 11:23 AM	We cannot have gender neutral washrooms it isn't ok - a young girl shouldn't worry about a man coming into the washroom. You need a handicap washroom and a 4th gender neutral
Screen Name Redacted 5/26/2024 07:27 PM	Large change rooms for wheelchair users
Screen Name Redacted 5/26/2024 08:54 PM	Gender neutral washrooms.
Screen Name Redacted 5/26/2024 09:17 PM	- Deck chairs for seating near the sauna, steam room and whirlpool to relax and rest - If the pools are not zero entry, including more stair-style entry rather than the traditional ladders
Screen Name Redacted 5/27/2024 02:34 PM	No.
Screen Name Redacted 5/27/2024 06:16 PM	Should be accessible for everyone
Screen Name Redacted 5/27/2024 06:53 PM	Not my area of expertise; will leave that question for those who are more familiar with those issues.
Screen Name Redacted 5/27/2024 09:08 PM	No
Screen Name Redacted 5/28/2024 07:44 AM	N/A
Screen Name Redacted 5/28/2024 10:53 AM	No

Screen Name Redacted 5/28/2024 12:47 PM	No
Screen Name Redacted 5/28/2024 03:47 PM	More handicapped parking
Screen Name Redacted 5/28/2024 04:00 PM	Please see previous reply - sensory friendly change rooms, senory friendly times outside of school hours, sensory friendly/quiet area for ND patrons that need it (pool area)
Screen Name Redacted 5/28/2024 05:56 PM	All spaces should be accessible. And gender neutral change spaces make it inclusive.
Screen Name Redacted 5/28/2024 07:32 PM	As a community hub this new facility should be accessible to as many as possible and the facilities should be that way also. Some pools say they are accessible but it is only certain sections. If possible it would be beneficial to the community if every area was as accessible as possible.
Screen Name Redacted 5/28/2024 11:22 PM	No
Screen Name Redacted 5/29/2024 06:37 AM	none
Screen Name Redacted 5/29/2024 10:24 PM	Gradual walk in entrance no stairs at some entries to pool
Screen Name Redacted 5/30/2024 08:52 AM	No
Screen Name Redacted 5/30/2024 12:52 PM	Larger family change room. All change rooms to have their own shower stalls.
Screen Name Redacted 5/30/2024 02:12 PM	Gender neutral change rooms would be great! But I also think shared change rooms are culturally important. Maple Ridge Leisure Centre has switched to only individual change rooms, I wouldn't opt for that.
Screen Name Redacted	"Beach access" to the main pool for easy access

5/30/2024 03:03 PM	
Screen Name Redacted 5/30/2024 05:15 PM	No
Screen Name Redacted 5/30/2024 07:18 PM	More family or universal change room facilities. Penticton's rec centre is a great example
Screen Name Redacted 5/30/2024 10:11 PM	Sensory friendly days or even better - accessible sensory friendly areas are crucial. Some things to consider would be : quiet times with dim lighting and low or no music, signage for these times reminding others to keep it sensory friendly and not using hand dryers etc., quiet flush toilets, paper towel always accessible in the bathrooms for those who can't tolerate the noise of the hand dryers, a walk-in area of the pool for those who struggle with stairs, fragrance-free policies (both for those with severe fragrance allergies and also for sensory friendly purposes), staff being trained in neurodiverse affirming ways, more access to adaptive swim classes, accessible parking, accessible change rooms (if there's only one or two, people have to wait a long time when they actually require one, as lineups for change rooms around lesson times are frequently long), limited or no sudden noises (alarms, loud automated toilet flushes, loud hand dryers, etc.) an accessible pool area that is close enough to the main pool area to be able to have one child with extra needs in the accessible pool while watching a more able child in the main pool. These are just a few of the things that would give our family (and many family's that I know!) more access to the pool through accessibility measures. Thank you for considering. I have heard great things about the sensory friendly pool times in North Delta (or maybe Surrey I can't recall). Thanks! Also a quiet room or sensory friendly room where people who are in sensory overload or in meltdown could go to regulate
Screen Name Redacted 5/30/2024 10:23 PM	Please do not have one change room. Male and female change rooms should be separate
Screen Name Redacted 5/31/2024 11:13 PM	Saving the green space at our main park in town. how is it even considered for removal?
Screen Name Redacted 5/31/2024 11:44 PM	Yes
Screen Name Redacted	No

6/01/2024 08:40 AM	
Screen Name Redacted 6/01/2024 11:25 AM	Yes; wheelchair access, ramps for those with mobility issues. As 36% of TSA is over the age of 65; must accommodate those with limited mobility
Screen Name Redacted 6/01/2024 11:30 AM	Hoist for person in a wheelchair to get into the water, ramp for easy entrance or exit
Screen Name Redacted 6/02/2024 06:01 AM	Accessibility yes for ease of use -
Screen Name Redacted 6/02/2024 02:01 PM	Not having the showers as a place people must walk through to enter the pool area. Getting rid of the existing style of motion shower controls that don't recognize the presence of people under a certain height. Family/private shower and changing facilities without a toilet in the same space.
Screen Name Redacted 6/02/2024 03:12 PM	Since the provincial government says we have to expand the population, by the time this pool is built, it will be too small.
Screen Name Redacted 6/02/2024 09:50 PM	No
Screen Name Redacted 6/03/2024 11:54 AM	Lots of family and gender neutral change/bathrooms. Carefully consider facilitating seniors low-impact fitness and physiotherapy, both of which may come with mobility challenges.
Screen Name Redacted 6/03/2024 12:43 PM	More big accessable changerooms and ramps up into the hottub. Ramps into the pools. Make sure there is a disability support worker to help people who need support
Screen Name Redacted 6/03/2024 03:42 PM	Tswwwassen has a significant seniors population so supports for showering, changing etc where participants can be safe if they are not stable on their feet.
Screen Name Redacted 6/03/2024 04:10 PM	Larger family changing rooms, private shower options

Screen Name Redacted 6/03/2024 06:08 PM	Please ensure that when creating washroom and change spaces that there is very clear marking & education for all staff that gender-designated change rooms are not for the purpose of random people policing them when they decide they think someone is or isn't presenting male or female "enough" for their liking. If someone identifies as a woman/femme, then they can use the women's change facilites. If they identify as a man/masc, then they can use the men's change facilities. Universal facilities should also be in *addition* to accessible facilities, not in replacement for them; otherwise this pressures all gender atypically presenting people PLUS all those who require accessible facilities into one space, limiting access. If there is a concern about privacy, then make every toilet staff and change stall a floor-to-ceiling private stall in each change facility for the benefit and privacy of all individuals - don't police and punish those who don't present in a typical fashion, or in a way that meets the subjective opinion of any random person who decides they don't like how someone dresses. This hurts everyone.
Screen Name Redacted 6/03/2024 08:14 PM	Enough room for exercise classes and a good sound system for music and microphones for the fitness instructors so they don’t have to shout and lose their voice!
Screen Name Redacted 6/03/2024 08:15 PM	There should be some gender neutral washroom facilities.
Screen Name Redacted 6/03/2024 10:27 PM	Quiet areas, increased accessibility, voice/video features for deaf/blind
Screen Name Redacted 6/04/2024 01:17 PM	Make sure change rooms have a private place to change and/or an "everyone welcome" change room (it works in Europe).
Screen Name Redacted 6/04/2024 01:29 PM	No
Screen Name Redacted 6/04/2024 06:22 PM	50 m pool
Screen Name Redacted 6/04/2024 09:36 PM	When the new Maple Ridge pool facility opened after renovations, their inclusive change rooms were terrible, especially for seniors and small children. There needs to be separate change rooms: MEN, WOMEN, and Universal.. Pls do not consider a one-fits-all approach.

Screen Name Redacted 6/04/2024 10:22 PM	I don't understand why you are combing questions on accessibility and inclusivity. If you separated into questions related to accessibility and questions related to inclusivity you would get more useful data. Please consider separating and updating this survey.
Screen Name Redacted 6/04/2024 10:40 PM	No
Screen Name Redacted 6/04/2024 11:11 PM	More accessibility washrooms, Ramps into the pools/ hot tub for easy access
Screen Name Redacted 6/05/2024 08:28 AM	Family change rooms
Screen Name Redacted 6/05/2024 11:53 AM	Don’t knock the trees down for parking spaces
Screen Name Redacted 6/05/2024 01:00 PM	Hot tubs of varying temperatures so that people with sensitivities can still enjoy a relaxing experience (similar to minoru aquatic center)
Screen Name Redacted 6/05/2024 01:35 PM	Walk in/gradual entry pool space
Screen Name Redacted 6/05/2024 02:35 PM	Just update signage to make things more inclusive You don’t have to tear a building down to accommodate inclusivity.
Screen Name Redacted 6/05/2024 03:29 PM	As above: large/accessible shallow water/wading area like LLC for cautious toddlers/infants, and in our case ND kiddos. Perhaps specific ND-friendly open swim programming with reduced noise and stimulation during those hours?
Screen Name Redacted 6/05/2024 06:45 PM	Zero depth entry with adjoining family hot tub, water wheelchairs, fully accessible change room with adult size flip down change table and ceiling lift
Screen Name Redacted 6/05/2024 09:40 PM	Maybe features that aren’t in the Ladner pool.
Screen Name Redacted 6/05/2024 11:03 PM	no

Screen Name Redacted 6/05/2024 11:58 PM	I like the ledge around the deep end of the current pool.
Screen Name Redacted 6/06/2024 12:56 PM	Not concerned
Screen Name Redacted 6/06/2024 07:04 PM	Non-slip tile.
Screen Name Redacted 6/06/2024 07:05 PM	Seeing people of all backgrounds and physical abilities use the pool is a wonderful thing. Ensure that all people continue to have this access.
Screen Name Redacted 6/07/2024 12:20 AM	Please also keep in mind that older adults/seniors may not want to be in universal change rooms or washrooms. There should be an option available for those who don't want to share change room areas with other genders. But hopefully universal is done right with floor to ceiling privacy, which also equals expensive I'm sure for how many you would need. Be sure to go look at Clayton Community Centre in Surrey.
Screen Name Redacted 6/07/2024 12:46 AM	Changing rooms for soccer or baseball on outside of new building with washrooms, showers not needed
Screen Name Redacted 6/07/2024 09:04 AM	Not really. Don't over Focus on this stuff. Build for the majority/average use and don't try to overspecialize
Screen Name Redacted 6/07/2024 09:20 AM	No
Screen Name Redacted 6/07/2024 09:28 AM	Should be accessible to all
Screen Name Redacted 7/01/2024 08:42 AM	yes
Screen Name Redacted 7/01/2024 08:42 AM	yes

Screen Name Redacted 6/07/2024 10:01 AM	Definitely need water wheelchair accessible entry into the pool.
Screen Name Redacted 6/07/2024 10:43 AM	I would love to see a non-slip tile. My daughter's friend the other day slipped when coming out to the lobby and I can only imagine how hard it is for seniors who struggle with balance. Additionally, I would love to see seats that lower into the water because those are fundamental for some to get in. They need a currentless water and if the seats are not there then they can not access any water source.
Screen Name Redacted 6/07/2024 10:43 AM	Ensure compliance with regulatory requirements for those who are disabled and please engage with the disabled community for their feedback. Thank you for taking this into consideration!
Screen Name Redacted 6/07/2024 10:49 AM	Those to provide options for people with physical or mental challenges to participate and benefit.
Screen Name Redacted 6/07/2024 12:31 PM	ones listed sound good.
Screen Name Redacted 6/07/2024 12:59 PM	No
Screen Name Redacted 6/07/2024 10:11 PM	Lifts and wheel chair access, defined change spaces.
Screen Name Redacted 6/08/2024 02:30 AM	As long as the facilities are fully accessible for people with mobility problems, that's very important. If I were using the pool, I would like to shower, or change, in a women's room/bathroom, not in a room that is for everybody at the same time, (Is this what it's called "universal'?)
Screen Name Redacted 6/08/2024 09:46 AM	Slope entry for when I age gracefully
Screen Name Redacted 6/08/2024 09:47 AM	Minarou in Richmond has a great concept. I'd like to see women and men's change-rooms but also family and an area for all to feel free to be who they are
Screen Name Redacted 6/08/2024 11:23 AM	Change rooms, washrooms, ramps, lifts that are designed in consultation with people who have lived experience - RHF. Quiet swim times scheduled.

Screen Name Redacted 6/08/2024 06:04 PM	Nothing beyond the obvious (ie. lifts, ramps, universal change rooms, etc)
Screen Name Redacted 6/09/2024 04:06 PM	Standard - washrooms, Ramps, pool lifts, etc
Screen Name Redacted 6/10/2024 12:16 PM	Gender neutral/private changerooms
Screen Name Redacted 6/10/2024 01:55 PM	Standard building code for accessibility but no need for inclusivity because no one knows what that will end up to be.
Screen Name Redacted 6/11/2024 09:58 AM	More lanes - LETS GET PEOPLE USING THEM AND LOVING THEM. Lanes are an integral part of recovery and skills! I would also love to see some tile that is also meant for a pool. Please no more just pretty things - everything should be double function.
Screen Name Redacted 6/11/2024 10:53 AM	Lifts, pool equipment for those that require support, etc
Screen Name Redacted 6/11/2024 06:57 PM	Ramp or lift into the water Gender inclusive change and washrooms Sensory friendly swimming times Accessible to all cultures and indigenous communities
Screen Name Redacted 6/12/2024 12:16 AM	I think that restroom and shower facilities should be separated for biological females, biological males and those that identify as genders other than their biological gender of origin. As a biological woman, I would not be comfortable using restroom and shower facilities that are shared with men identifying as female.
Screen Name Redacted 6/12/2024 02:38 PM	See my previous notes. Tsawwassen is well on its way to being an extremely senior friendly / disability friendly community. The more accessible features that can be built into the new winskill facility, the better.
Screen Name Redacted 6/12/2024 03:04 PM	Non slip tile would be amazing.

Screen Name Redacted 6/12/2024 08:51 PM	Ensuring disabled acces
Screen Name Redacted 6/13/2024 08:14 AM	Sloped entry
Screen Name Redacted 6/14/2024 10:30 AM	For Delta to spend this amount of money on a recreational facility that is hard to access by transit from the huge population increases on TFN lands, or Ladner and North delta is questionable. As a long time resident of Richmond and newer to Delta I use the example of the development of 6 Rinks and Watermania off 6 Road and Steveston Hwy. Immediately on opening that the majority of access was by automobiles. Yes a bus service went in but not easy to reach. Why not expand in an area that reduces traffic congestion? ie a lease or P3 with TFN. Or expand the facility around the ice rink; an easy, safe bike ride along the dike from the huge, new development on Spetifore Land or what the new area along Boundary Bay is now called.
Screen Name Redacted 6/14/2024 11:33 AM	Gradual beach-like entry. Family/universal change rooms and toilets. Sensory friendly hours with limited number of patrons. Crowds make our kids nervous and unable to enjoy using the facilities.
Screen Name Redacted 6/14/2024 07:57 PM	I'm all for inclusivity and new features for the facility. I like how you were thinking about introducing some indigenous art that would make my sister's family very happy.
Screen Name Redacted 6/14/2024 08:17 PM	Calming and soothing areas for anxiety or those who may be feeling overwhelmed or overstimulated
Screen Name Redacted 6/14/2024 09:41 PM	Gender neutral facilities.
Screen Name Redacted 6/14/2024 10:46 PM	No
Screen Name Redacted 6/14/2024 11:49 PM	ramps and elevators for the handicapped
Screen Name Redacted 6/15/2024 07:48 AM	Larger change rooms

Screen Name Redacted 6/15/2024 03:32 PM	Accessible change areas, sloped entry, lift, handrails
Screen Name Redacted 6/16/2024 04:39 PM	More family change facilities. Something like the facilities in Grandview pool in South Surrey come to mind. Gendered spaces for those who need them, but on weekend, the family change rooms are always full and the separate locker rooms are empty. Design a space that can be used by everyone, all the time, instead of investing square footage in space that is only used 50% of the time.
Screen Name Redacted 6/17/2024 08:46 AM	There's a current in the baby pool - which is difficult for my child to stand in one place. Zero entry pool would be nice. A seat for the potties too - my daughter is too afraid to sit on the big botty.
Screen Name Redacted 6/17/2024 08:48 AM	Change room accessibility. More accessible bathrooms for families w needs. Quiet space would be amazing or a quiet pool area
Screen Name Redacted 6/17/2024 08:51 AM	Pool access accessibility (e.g., no pool lifts, no zero-entry pools). Not safe for kids, because anyone can get in the changing Rooms-divide the children's area from the adults
Screen Name Redacted 6/17/2024 08:52 AM	Change room accessibility
Screen Name Redacted 6/17/2024 08:55 AM	My kid doesn't like loud sounds, we need a design that minimizes and dampens sound so that it is not loud and echoing. The current wood panel ceiling at Winskill is very good at reducing echos and absorbing sounds. A ceiling design the absorbs sound and a multiple room design, such as an L-shaped room, U-shaped or dividing walls to lesson sounds would be helpful. The New University of British Columbia pool square design is terrible for sound. Zero-entry pools, beach-entry pools, walk-in pools .
Screen Name Redacted 6/17/2024 08:58 AM	Shower room for Neuro diverse with attendant/ family member, change room accessibility and quiet space
Screen Name Redacted 6/17/2024 09:00 AM	With pool being too wide open and too many people around, my child with Autism could not enter the training pool. Overwhelmed sensory needs (Too many noices around). Quiet space and one to one training place

Optional question (170 response(s), 412 skipped)
Question type: Essay Question

Q18 The new facility will meet or exceed the minimum standards for energy efficiency. Are there any environmental stewardship or sustainability features that you would like to see incorporated in the new facility?

Screen Name Redacted 5/07/2024 08:43 PM	It would make sense to use solar panel technology considering the level of sun exposure in that area.
Screen Name Redacted 5/08/2024 12:32 PM	No. Facility should meet energy efficiency codes and standards.
Screen Name Redacted 5/08/2024 01:03 PM	Green roof, roof access sitting area, covered green parking. Salt water pool
Screen Name Redacted 5/08/2024 04:30 PM	Multiple DC fast chargers and level 2 chargers for vehicles. Covered Picnic area for outdoor recreation.
Screen Name Redacted 5/09/2024 06:42 AM	Solar panels, heat pumps
Screen Name Redacted 5/09/2024 12:41 PM	If the city actually recycled and composted instead of the separated bins in the lobbies all going into one garbage bag
Screen Name Redacted 5/09/2024 03:47 PM	Lots of natural light.
Screen Name Redacted 5/09/2024 03:55 PM	no
Screen Name Redacted 5/09/2024 04:05 PM	solar panels
Screen Name Redacted 5/09/2024 04:15 PM	solar/water
Screen Name Redacted 5/09/2024 05:08 PM	green roof to help replace the lost park space. Delta's tree canopy is decreasing rather than increasing which will only continue under the

	draft OCP
Screen Name Redacted 5/09/2024 05:56 PM	I am very happy that these issues are being addressed! Do as up to date as you can on all environmental and sustainability features! Do it now! Don't be sorry down the road!
Screen Name Redacted 5/09/2024 06:24 PM	Solar panels and less chemicals (uv or other filtering tech)
Screen Name Redacted 5/09/2024 09:13 PM	Solar panels.
Screen Name Redacted 5/09/2024 09:39 PM	Build something that doesn't need to be torn down in 30 years
Screen Name Redacted 5/10/2024 11:45 PM	listed ones are worthwhile
Screen Name Redacted 5/11/2024 12:53 PM	instead of chlorine or bromine, salt water and light treatments for water treatments
Screen Name Redacted 5/11/2024 07:09 PM	salt water pool, solar panels
Screen Name Redacted 7/01/2024 08:34 AM	The facility needs to put forward energy-efficient workout equipment for the weight rooms, and reduce heating in weight or gym rooms to save money and energy.
Screen Name Redacted 5/13/2024 01:16 PM	Windows and doors that open up in hot weather and for better ventilation. Better ventilation and opening windows to the outdoors in fitness and change room areas.
Screen Name Redacted 5/13/2024 08:58 PM	Keep the green space outside! Perhaps reduce light pollution after hours and maybe consider a saltwater pool?
Screen Name Redacted 5/13/2024 10:39 PM	No
Screen Name Redacted	does not matter

5/14/2024 12:05 PM

Screen Name Redacted
5/14/2024 03:25 PM

A green roof and the use of solar panels would be nice.

Screen Name Redacted
5/14/2024 08:38 PM

I would love to see some attention to water usage i.e. limits on showers and automatic on/off taps. So many go for so long and a great deal of water is wasted.

Screen Name Redacted
5/15/2024 11:14 PM

Couldn’t care less about this…

Screen Name Redacted
5/16/2024 10:36 AM

Water conservation should be considered. Chemical treatment best practices should be implemented for safety for people and the environment. Tree retention should be a key component of the construction.

Screen Name Redacted
5/16/2024 12:24 PM

This isn't my scope so I will trust those who know more!

Screen Name Redacted
5/16/2024 07:06 PM

all appropriate and available technologies

Screen Name Redacted
5/17/2024 12:59 PM

Extensive access to EV chargers to plan for a future (10-20 years from now) where a majority of people will use plug in hybrid or electric cards. These should charge by the amount of electricity used instead of an hourly rate, but also with a cap on how many hours someone can charge/park for.

Screen Name Redacted
5/18/2024 11:48 AM

I would like to see the protection of green space since you seem very concerned about environmental initiatives.

Screen Name Redacted
5/18/2024 01:39 PM

No

Screen Name Redacted
5/18/2024 02:38 PM

Can a geothermal application be used for the? Having an abundance of natural light would be important. At times Winskill could really feel dark and dingy. Solar heating for showers Rain water capture - cisterns for flushing toilets etc LED mood lighting?

Screen Name Redacted 5/20/2024 10:05 PM	No. Seems like this will be adequately covered.
Screen Name Redacted 5/21/2024 01:37 PM	Geothermal systems, EV charging stations (with pre-built capacity for significantly more in the future) and rooftop solar.
Screen Name Redacted 5/21/2024 07:00 PM	Can we use the old water for watering the sports field? Can we utilize the rooftop for garden space, rain collection etc.
Screen Name Redacted 5/22/2024 08:07 AM	Solar panels
Screen Name Redacted 5/22/2024 12:26 PM	Consider a green roof. The City should lead by example.
Screen Name Redacted 5/22/2024 03:40 PM	no
Screen Name Redacted 5/23/2024 01:38 PM	Solar panels and heat recovery systems among others
Screen Name Redacted 5/23/2024 10:37 PM	Solar panels, plant wall on the outside, geo thermal heating
Screen Name Redacted 5/23/2024 10:43 PM	Surrounding facility has flora/fauna that is fire proofed. Transportation paradigms shifted to make access/use easier for bikers/e-bikes, etc.
Screen Name Redacted 5/24/2024 08:56 AM	No
Screen Name Redacted 5/24/2024 02:05 PM	Geothermal heating system
Screen Name Redacted 5/24/2024 06:34 PM	Retain forested area on north west corner of park. This is important green space for the community and is important habitat for nesting birds and other wildlife.
Screen Name Redacted 5/24/2024 07:40 PM	Solar panels, optic fibre illumination (roof)

Screen Name Redacted 5/25/2024 09:39 AM	Yes- but not my expertise.
Screen Name Redacted 5/25/2024 09:38 PM	Outsulation.
Screen Name Redacted 5/26/2024 11:38 AM	Really?
Screen Name Redacted 5/26/2024 07:27 PM	Somehow control the use of water in the showers or other public areas or at least meter the flow so the amount can be followed,recorded and shared with the public
Screen Name Redacted 5/26/2024 08:54 PM	Check New Westminster New inBlue pool drum water filtration system (May, 2024) articles online.
Screen Name Redacted 5/26/2024 09:17 PM	- Green roof or solar panels on roof - Focus on underground parking to offset the heat caused by pavement in valuable greenspace around the facility - Indigenous plant landscape around the facility
Screen Name Redacted 5/27/2024 12:27 PM	Given that the minimum standards are required by code, this is actually a requirement. You have written this statement as though you're going out of your way to doing something nice. Again, just follow best practices from elsewhere when it comes to energy efficiency and sustainability. Why does every new project director want to re-invent the wheel? Given these survey questions, the best first decision might be to replace whomever is in charge and then change the incentives for the project.
Screen Name Redacted 5/27/2024 02:34 PM	No.
Screen Name Redacted 5/27/2024 06:16 PM	Solar energy for electric and water temperatures seems logical.
Screen Name Redacted 5/27/2024 06:53 PM	Obviously, one must minimize the carbon footprint as much as possible
Screen Name Redacted 5/27/2024 09:08 PM	No

Screen Name Redacted 5/27/2024 09:54 PM	Cut down as few trees as possible. Tsawwassen and delta are being deforested at an alarming rate. Leave the trees
Screen Name Redacted 5/28/2024 07:44 AM	N/A
Screen Name Redacted 5/28/2024 12:47 PM	Power plant beside it
Screen Name Redacted 5/28/2024 04:00 PM	Solar panels?
Screen Name Redacted 5/28/2024 05:56 PM	Solar panels over roofs as well as outdoor seating areas. Water free urinals and up to date water saving features etc.
Screen Name Redacted 5/28/2024 07:32 PM	Inclusion of a green roof or solar panels to help power, heat and cool the building would be appreciated.
Screen Name Redacted 5/28/2024 11:22 PM	No
Screen Name Redacted 5/29/2024 06:37 AM	having sustainability in mind is a good step
Screen Name Redacted 5/29/2024 10:24 PM	Ability to control or change temperature
Screen Name Redacted 5/30/2024 08:52 AM	No
Screen Name Redacted 5/30/2024 01:56 PM	Recyclable rainwater LEED standards Rooftop gardens and beekeeping
Screen Name Redacted 5/30/2024 02:12 PM	Is it possible to aim for a LEEDs certification? Link below. Also, it would be great to see some regenerative energy systems, like solar, implemented. https://www.cagbc.org/our-work/certification/leed/
Screen Name Redacted 5/30/2024 05:15 PM	No

Screen Name Redacted 5/30/2024 07:18 PM	No, just keep it cost effective
Screen Name Redacted 5/30/2024 09:43 PM	See item 12.
Screen Name Redacted 5/30/2024 10:11 PM	N/a
Screen Name Redacted 5/31/2024 11:13 PM	Saving the green space in the bio diverse amazing forest that needs better management for the future.
Screen Name Redacted 5/31/2024 11:44 PM	Yes
Screen Name Redacted 6/01/2024 11:25 AM	Solar panels, heat pumps
Screen Name Redacted 6/01/2024 11:30 AM	Anything that will provide renewable energy and self sustainability
Screen Name Redacted 6/01/2024 11:59 AM	Solar panels, rainwater collection units, more efficient use of water in bathrooms.
Screen Name Redacted 6/01/2024 11:01 PM	Solar energy
Screen Name Redacted 6/02/2024 06:01 AM	Salt water instead of chlorine- cleaner easier and cheaper maintenance!! Better for humans.
Screen Name Redacted 6/02/2024 02:01 PM	A green roof and spaces to teach the local community about sustainable practices
Screen Name Redacted 6/02/2024 03:12 PM	No
Screen Name Redacted 6/02/2024 09:50 PM	No

Screen Name Redacted 6/03/2024 11:54 AM	Consider a best-in-class lifecycle carbon result. Incorporate mass-timber where it makes sense. Keep the form clear and simple, which should also make it easier to detail for durability and energy performance.
Screen Name Redacted 6/03/2024 12:28 PM	Saltwater or oxygen sanitization rather than chlorine
Screen Name Redacted 6/03/2024 12:43 PM	Make the facility 2 levels so that green space and trees can be preserved. More trees for hide and seek, don't waste money on plastic toys that are not good for the environment
Screen Name Redacted 6/03/2024 08:14 PM	An energy efficient building would be ideal. Use Solar panels to provide electricity and any other modern technology available. Do everything possible to reduce wasting water. Make sure there will be EV level 3 fast charging stations available.
Screen Name Redacted 6/03/2024 10:27 PM	Definitely water regulation and sustainability. Water is becoming more of a scarcity and we need to protect supply. I would honestly be happy with just one pool in south Delta.
Screen Name Redacted 6/04/2024 09:32 AM	no chlorine, not healthy and destroys swimwear
Screen Name Redacted 6/04/2024 01:17 PM	No.
Screen Name Redacted 6/04/2024 01:29 PM	Yes
Screen Name Redacted 6/04/2024 10:40 PM	Do not waste too much money.
Screen Name Redacted 6/04/2024 11:43 PM	Green roof, solar panels, grey water system.
Screen Name Redacted 6/05/2024 01:00 PM	Grey water in the toilets
Screen Name Redacted 6/05/2024 01:35 PM	I assume solar panels would be very helpful especially if the building is in the open more towards 56st where it has optimal sun exposure

Screen Name Redacted 6/05/2024 02:35 PM	Make the pools saline pools. Many people are allergic to chlorine.
Screen Name Redacted 6/05/2024 03:29 PM	Rainwater collection for gardens/water features.
Screen Name Redacted 6/05/2024 11:03 PM	no
Screen Name Redacted 6/05/2024 11:58 PM	Maybe a living roof if the roof is not a functional space. Water captured off the roof for landscaping etc. pollinator garden…
Screen Name Redacted 6/06/2024 10:30 AM	solar panels to reduce electricity inputs; green roof
Screen Name Redacted 6/06/2024 12:56 PM	Not concerned
Screen Name Redacted 6/06/2024 07:05 PM	Just please ensure solar panels are being used, and as much renewable energy is used as possible.
Screen Name Redacted 6/07/2024 12:20 AM	Again go look at Clayton Community Centre, or ask about planning the City of Surrey is doing for new facilities. They've done a very good job. Clayton is a passive house with a lovely community garden. Not sure what the latest is on pools, but would be nice to have a healthy aquatic centre without breathing in all that chlorine.
Screen Name Redacted 6/07/2024 12:46 AM	If solar panels could generate enough power for the aquatic center
Screen Name Redacted 6/07/2024 09:04 AM	Smart efficiency makes sense
Screen Name Redacted 6/07/2024 09:20 AM	Definitely electric solar panels to make the facility near electrical neutral… powered by "Sunny Tsawwassen".
Screen Name Redacted 6/07/2024 09:28 AM	Green energy as much as possible

Screen Name Redacted 7/01/2024 08:42 AM	yes
Screen Name Redacted 7/01/2024 08:42 AM	yes
Screen Name Redacted 6/07/2024 10:27 AM	Green roof, solar panels, grey water system. Water catchment systems.
Screen Name Redacted 6/07/2024 10:43 AM	I would love if it could be solar power - however solar can be added later. I added it to my house 3 years ago now and it works like a charm. If there is space in the budget I would say get the pannels but I truly believe that we need to focus on expanding Winskill (not adding to it - no new silly features like a lazy river, cold plunge, waterslides).
Screen Name Redacted 6/07/2024 10:47 AM	More natural cleaners in the pool, salt. And solar panels to lower maintenance costs
Screen Name Redacted 6/07/2024 10:49 AM	No.
Screen Name Redacted 7/01/2024 08:42 AM	As many as possible please! As little disruption to the few remaining trees around the facility as possible
Screen Name Redacted 6/07/2024 12:31 PM	attention to ground movement and water conservation
Screen Name Redacted 6/07/2024 12:59 PM	No
Screen Name Redacted 6/07/2024 06:10 PM	Ensure water is not lost by installing proper gutter system
Screen Name Redacted 6/07/2024 08:45 PM	Solar panels
Screen Name Redacted 6/08/2024 02:30 AM	1) A good number of recycling and garbage bins. Not only inside the facilities, but outside, in and around the sport's fields. Some people keeps littering the lawns, when they don't find a close-by receptacle for their discarded items. 2) The lights of many lamp-posts outside, or

	the ones inside the building, could have automatic sensors, so to be off when the room is not in use, or when not needed in the outside lawns. As it is now, many lights are left for the night. The outdoor lights are very bright and affect many migratory (and local) birds, as Delta is a corridor for many of them in their migration routes.
Screen Name Redacted 6/08/2024 11:23 AM	Access to public transportation is poorly at Winskill Park. The South Delta Rec Centre is a much better location for the new facility for many reasons including environmental stewardship and the future growth of the community.
Screen Name Redacted 6/08/2024 02:18 PM	Yes NOT CUTTING DOWN ANY TREES THAT OWLS LIVE IN.
Screen Name Redacted 6/08/2024 06:04 PM	None beyond what is planned.
Screen Name Redacted 6/08/2024 09:02 PM	Would be cool to have a 100% renewable gas run facility
Screen Name Redacted 6/09/2024 06:23 AM	Keep the pool cooler so lane swimmers do not overheat. Ladner is an untenable pool for competitive swimming.
Screen Name Redacted 6/09/2024 02:48 PM	Yes, bird friend glass on all outer windows.
Screen Name Redacted 6/09/2024 04:06 PM	Leave the forested area with disc golf in place
Screen Name Redacted 6/09/2024 10:43 PM	Incorporate solar hot water if cost effective.
Screen Name Redacted 6/10/2024 12:16 PM	Saline vs chlorine?
Screen Name Redacted 6/10/2024 01:55 PM	Efficient water usage features should be used.
Screen Name Redacted 6/11/2024 12:40 AM	Please read response to item 12 above, regarding stormwater runoff infiltration at ground level. Two reasons I didn't suggest green roofs: (a) when they work well, they diminish groundwater recharge,

	sometimes to zero; (b) all roof membranes eventually fail, which means that the rooftop ecological community must be destroyed and started over again. That said, a rooftop pollinator meadow, NO IRRIGATION other than rainwater, could have merit.
Screen Name Redacted 6/11/2024 09:58 AM	I would love to see MATT Concrete a local brand which makes carbon neutral aesthetic panels. I just got one in my house and I love the look and also supporting a clean product. Other bonus is it is from a local family and their warehouse is in Tilbury!
Screen Name Redacted 6/12/2024 12:16 AM	MORE greenspace, incorporation of improved surface water management (i.e., rain gardens, swales), native plant pollinator gardens, wildlife features (owl and bat boxes, raptor poles), maintain existing proportion/ratio of permeable surfaces. Avoid use of pesticides/herbicides on sport fields. If ANY trees are removed, I would like to see replacement with only native species (non-ornamental) with good mix of conifer/evergreen and deciduous at a replacement ratio of 4:1 to make up for the decades it will take for saplings to mature and provide viable ecosystem services, and to account for potential mortalities.
Screen Name Redacted 6/12/2024 02:38 PM	Every possible feature we can afford, assuming these features been tested, are built with quality, and will run with reasonable upkeep costs.
Screen Name Redacted 6/12/2024 03:04 PM	I worked at MATT Concrete a local sustainable aesthetic concrete firm and they do beutafial work while being carbon neutral. I think if delta consoled with them for a pierces of sustainable art and had a little background story that would be pretty sweet.
Screen Name Redacted 6/12/2024 03:23 PM	Solar panels, Ways to save water, Windmills
Screen Name Redacted 6/12/2024 10:50 PM	Bike/scooter parking
Screen Name Redacted 6/13/2024 12:47 PM	Bird deterrent fritting on the windows.
Screen Name Redacted 6/14/2024 09:26 AM	Leed gold should be a goal for the facility

Screen Name Redacted 6/14/2024 12:46 PM	Solar energy would heat water. Heat exchangers for efficiency. See New Westminster pool web site for details.
Screen Name Redacted 6/14/2024 07:57 PM	I'm definitely open to environmental stewardship or sustainability features whatever the community is asking for should be recognized and acknowledged that being said this does not give us an excuse to destroy the forest in the back of the park. I cannot stress this enough.
Screen Name Redacted 6/14/2024 08:17 PM	Save water. Save energy. Use quality products that will last.
Screen Name Redacted 6/14/2024 09:41 PM	Local or native replacement plants.
Screen Name Redacted 6/14/2024 10:46 PM	Unknown
Screen Name Redacted 6/14/2024 11:49 PM	Free energy cell devices will be available in 2 or 3 years time which would help tremendously with heating bills.
Screen Name Redacted 6/16/2024 10:29 PM	Green roof. Habitat improvements; bat boxes, eagle/owl habitat etc.

Optional question (145 response(s), 437 skipped)
Question type: Essay Question

Q19 The building will nearly double the available recreation space. Here is a list of the planned features of the fitness centre and common areas:Fully-equipped fitness centreFull size gymnasiumFitness and movement studios and multi-purpose spacesAccessible/universal change roomsAdministration spaceAre any missing? What features in the fitness centre and common areas would you like to see?

Screen Name Redacted 5/07/2024 08:02 PM	Making the facility as large as possible as there are so many users. The fitness center should be larger than the one in Ladner as that one is not big enough and is always full. Lots of space for fitness classes.
Screen Name Redacted 5/07/2024 08:43 PM	Bigger family change rooms the one at Winskill currently is a disaster. An area to make parent hand off of young ones easier than the tiny little door from the family change room we all have to use right now.

Screen Name Redacted 5/08/2024 07:44 AM	At least one of the fitness Studios should be mirrored with a bar so that there can be barre classes. There should also be a Spin Class room. What is happened all the yoga and spin classes that used to happen? There weren't enough then and now there's even less.
Screen Name Redacted 5/08/2024 11:10 AM	Really want a bigger fitness center and weight room. The current one is so small that it is barely usable and is not functional. The new facility should be at least 5 times the current size to accommodate teens, adults and seniors.
Screen Name Redacted 5/08/2024 12:20 PM	Outdoor accessible washrooms for the sports fields.
Screen Name Redacted 5/08/2024 12:32 PM	Viewing space for watching swim lessons and swim meets. Space for boys and girls club - an essential child care and family support in our community boys and girls club has been positively influential on many folks in the community for years and shouldn't be shut out.
Screen Name Redacted 5/08/2024 01:03 PM	Rooftop sitting area, comfortable waiting area or viewing gallery.
Screen Name Redacted 5/08/2024 01:49 PM	Squash courts. Racket sports are so important to longevity and Tsawwassen doesn't have squash courts anywhere. I used to play a lot when I was apart of a different community
Screen Name Redacted 5/08/2024 01:52 PM	Smoothie bar Walking or running track Individual showers
Screen Name Redacted 5/08/2024 02:23 PM	I believe universal change rooms would make many females and young children uncomfortable and not wish to use these rooms. I believe Sungods layout separated between male/female/family is the safest for patrons. Also, I believe that having a weight/room strength training area similar to Sungod is the most effective use of the space. Please maximize the space to accommodate the most of the area. The ND Rec Centre is an example of a facility that does not make the most of the space. The stairs and the open area take away from the weight/room athletic space and the facility struggles to attract patrons as a result. For myself, please ensure the facility has a large number of strength training components (dumbells, benches, squat racks)
Screen Name Redacted	Much more space in weight room and fitness areas.

5/08/2024 04:30 PM	
Screen Name Redacted 5/08/2024 09:08 PM	Spin bikes, stairmasters, elliptical, treadmills Pilates yoga room Weight circuit TRX bands Basketball / volleyball/pickleball courts
Screen Name Redacted 5/08/2024 09:35 PM	Drop down netting in the gym to accommodate indoor batting and pitching in the winter months for baseball training which is currently being held in very small gyms in the public schools.
Screen Name Redacted 5/09/2024 12:41 PM	Lots of lobby space. maybe adding in a cafe would be nice for people wanting to watch lessons or relax after their time in the pool/weight room. A viewing area for lessons only. Higher ceilings in the lobby as it is way too loud at peak times with people talking and kids after school
Screen Name Redacted 5/09/2024 03:55 PM	no
Screen Name Redacted 5/09/2024 04:05 PM	Please, please include at least one outdoor basketball court. PLEASE
Screen Name Redacted 5/09/2024 04:05 PM	Indoor racketball or squash courts. Indoor play area for children as these are severely lacking in South Delta.
Screen Name Redacted 5/09/2024 04:06 PM	Indoor rock climbing gym - there are NONE in Delta
Screen Name Redacted 5/09/2024 04:15 PM	physiotherapy office
Screen Name Redacted 5/09/2024 05:08 PM	less please. There are plenty of private businesses in Tsawwassen offering fitness facilities and services - let them do it. If you insist on providing the services increase your prices in line with private business (I'm sure this will not cover your costs but it will help)
Screen Name Redacted 5/09/2024 05:26 PM	As the pool on Fraser hwy and approximately 164th, they have a large viewing area above the pool to watch contestants
Screen Name Redacted 5/09/2024 05:29 PM	A small cafe (such as is available at Ladner Pool). When I attended Gentle Fit there last summer it was nice to grave a tea/coffee and

	visit outside with a friend. This would support a local business owner as well
Screen Name Redacted 5/09/2024 05:39 PM	Non-universal change room for those uncomfortable with universal.
Screen Name Redacted 5/09/2024 05:56 PM	It works for me at present! I'm sure others know what other features I may need in the future!
Screen Name Redacted 5/09/2024 06:24 PM	Pilates reformers for patrons who have Pilates training to sign in and use.
Screen Name Redacted 5/09/2024 09:13 PM	Cafeteria, benches
Screen Name Redacted 5/10/2024 10:23 AM	universal change rooms, gym and fitness centre at least double the size
Screen Name Redacted 5/10/2024 03:39 PM	Fitness centre: - Lots of cardio machines (treadmill, elliptical, rowing).
Screen Name Redacted 5/10/2024 11:22 PM	Incorporate the library. More citizens will come to use the facility and perhaps become more physically active or more literate! Win win!
Screen Name Redacted 5/10/2024 11:45 PM	Sungod has a nice facility. what are their comments about what is needed
Screen Name Redacted 5/11/2024 12:45 PM	please provide a weigh scale. If I am attending the gym to lose weight - how is the absence of a weigh scale going to encourage my attendance??
Screen Name Redacted 5/11/2024 12:53 PM	a couple of curtained showers in the change rooms
Screen Name Redacted 5/11/2024 11:22 PM	Group fitness classes Spin bikes
Screen Name Redacted 7/01/2024 08:34 AM	Possible use of office spaces to balance recreational costs?

Screen Name Redacted 5/13/2024 01:16 PM	Don’t see the need for a gymnasium. SDRC has one. The schools have them already and may be underutilized. More room for different fitness classes with options to have folding glass door walls so rooms can be open to outside in warmer weather for healthy covid ventilation.
Screen Name Redacted 5/13/2024 08:58 PM	I just feel the City of Delta is trying to reinvent the wheel here….If the South Delta Rec Center is expanded, adding a pool facility onto this current existing building which already houses an ice rink, gymnasium, conference, multi-activity and teaching rooms; funds can be saved and reappropriated toward non-profit market and rent-geared-to-income, sustainable housing on the current Winskill property.
Screen Name Redacted 5/13/2024 10:39 PM	It wild be nice to see the designers and city staff take some time and attend all other new local pools and lol at their features, setups and generate the best ideas. Learn from others what works and what doesn’t
Screen Name Redacted 5/13/2024 11:11 PM	Ensure there is more space between pieces of equipment. At the moment it’s is too close together. In most cases I would guess there is less than 60cm between weight machines and aerobic equipment such as treadmills. This means people have to wait to pass each other to get to a new place, and people with vision and/or balance concerns find it stressful and/or risky to move around the area.
Screen Name Redacted 5/14/2024 01:58 AM	Sounds good.
Screen Name Redacted 5/14/2024 10:28 AM	Climbing facility would be amazing. We went to the rec Center in Canmore last summer and the programs and use of the climbing facility were fantastic.
Screen Name Redacted 5/14/2024 12:05 PM	no
Screen Name Redacted 5/14/2024 03:25 PM	A decent cafeteria/coffee shop/smoothie bar with a relaxing seating area would be a nice addition and potentially act as a community hub by users between/coming/going to/from classes and activities at the facility. I also think a well thought out viewing area for parents to wait while their children are in classes/lessons is important.

Screen Name Redacted 5/15/2024 11:14 PM	Change rooms for men and women and more family change rooms with showers.
Screen Name Redacted 5/16/2024 10:36 AM	Spin studio
Screen Name Redacted 5/16/2024 12:24 PM	All looks great. Please consider the space for walking around and between these spaces. For instance, if there is a cardiac rehab program but the cardio equipment and open gym space are at opposite ends of the facility, that will be taxing for a lot of the individuals. Similarly, I would love to see the rehab pool and in-water rehab equipment be positioned as close as possible to the accessible change rooms.
Screen Name Redacted 5/16/2024 01:30 PM	Maximize natural daylight.
Screen Name Redacted 5/16/2024 07:06 PM	multi purpose spaces need to have size and flexibility
Screen Name Redacted 5/17/2024 10:27 AM	Rental spaces for parties and community use would be a great addition to the facility.
Screen Name Redacted 5/17/2024 12:59 PM	Rentable spaces for family. Right now something similar to Winskill stretching room, but which unfortunately not always available due to its multi-use setup. Rentable space for families and community events of varying sizes would be wonderful to have access to.
Screen Name Redacted 5/18/2024 01:07 PM	Keep the disc course
Screen Name Redacted 5/18/2024 01:39 PM	No
Screen Name Redacted 5/18/2024 02:38 PM	Flexible seating to allow for people connect of all ages. Covered bike areas for locking up bikes
Screen Name Redacted	more and better floors on yoga spaces. will the current free-standing

5/18/2024 03:07 PM	fitness studio be demolished?
Screen Name Redacted 5/19/2024 10:09 AM	What's missing is another indoor pool facility for North Delta.
Screen Name Redacted 5/20/2024 10:05 PM	Yoga /pilates studio. Fitness centre could easily more than double.
Screen Name Redacted 5/21/2024 01:37 PM	Restroom. lockers and concession accessible to all park users. Outside seating. Pre-planning for appropriate areas for "beer gardens" and other events with appropriate wiring (power, lighting PA etc.), overhang(s) for weather protection, seating and the ability to "fence off" if and as needed. Bike/ebike parking (with charging?) and locked storage facilities for field user groups (Soccer, TABA, Field Hockey, Slow Pitch etc.)
Screen Name Redacted 5/21/2024 01:51 PM	Make sure the group fitness room is large enough to hold approximately 30 participants and a large, well organized space to store all the equipment, i.e., hand weights, bands, BOSU balls, weighted bars, mats, medicine balls and the large exercise balls A separate spin (bike/cycle) room is needed for classes as well
Screen Name Redacted 5/21/2024 07:00 PM	Would be nice for lots of weights and benches in the weight room.
Screen Name Redacted 5/21/2024 07:04 PM	none missing
Screen Name Redacted 5/22/2024 12:26 PM	ALL of the change rooms and facilities should be designed to be universal rather than just a few. there should be a concession of some kind and areas for people to view activities.
Screen Name Redacted 5/22/2024 12:10 PM	Racquet sports here or at SDRC are missing
Screen Name Redacted 5/23/2024 07:18 AM	Healthy food service - smoothies, fruit, etc. Not only vending machines
Screen Name Redacted 5/23/2024 09:23 PM	Cafe

Screen Name Redacted 5/23/2024 10:37 PM	Sounds good
Screen Name Redacted 5/23/2024 10:43 PM	Competitive monthly user rates …. For gym only.
Screen Name Redacted 5/24/2024 02:40 AM	I would put in a small coffee shop area like they have at the Ladner Leisure Center, somewhere for parents to sit and wait for their children in lessons. It would also generate revenue to help offset operating costs. If architecturally feasible, this could be done as part of a second floor area that overlooks the pool.
Screen Name Redacted 5/24/2024 08:56 AM	Greatly expanded weight room and cardio area.
Screen Name Redacted 5/24/2024 02:05 PM	A foam pit where people can learn more difficult trick for high diving or another activities. A hardwood floor in the movement studio cater to dance practice as well.
Screen Name Redacted 5/24/2024 02:27 PM	Lounge area and expanded pool viewing area. The lounge should have tables and coffee tables with comfotable seating. So that people can work on comupters/paper or visit over drinks with community members. There should be a small concession shop as well, like at Ladner rec centre.
Screen Name Redacted 5/24/2024 04:41 PM	Dance yoga area with mirror and ballet stretch bar on the wall.
Screen Name Redacted 5/24/2024 06:34 PM	Workspace/ tables and charging ports for people working on laptops while waiting for kids.
Screen Name Redacted 5/24/2024 07:23 PM	Space for a barre class.
Screen Name Redacted 5/25/2024 09:39 AM	Nursing room, defibrillator
Screen Name Redacted 5/25/2024 11:28 AM	Indoor pickleball courts. Everyone wants these but no one wants them outside because of the noise.

Screen Name Redacted 5/25/2024 08:23 PM	Food service(like coffee shop), tables, chairs, couches, vending machines.
Screen Name Redacted 5/25/2024 09:33 PM	Courts for racketball, badminton and squash
Screen Name Redacted 5/26/2024 11:38 AM	As long as some non fit consultants are making equipment recommendations. These need to be done with the fitness attendants. Come on - we pay them!
Screen Name Redacted 5/26/2024 05:45 PM	Ping pong and other racquet aports
Screen Name Redacted 5/26/2024 07:27 PM	Meeting rooms
Screen Name Redacted 5/26/2024 08:54 PM	Café?
Screen Name Redacted 5/26/2024 09:17 PM	- Having a second floor to the building dedicated to fitness. This could be where all of the fitness centre and movement studios live to maximize the space. - A weight room and cardio room that are 3x larger than the current spaces to allow for more space between machines and inclusion of specialized equipment (i.e. boxing bags, heavy ropes) plus a dedicated stretching area away from machines - Minimum of 2 fitness studio spaces: One for general classes (i.e. zumba, yoga, etc.) and one with more specialized equipment (i.e. cycling or kickboxing). Including proper sound systems and equipment storage (mats and balls) for both - Combination of family-size stalls and single stall options in all change rooms - Covered bike parking
Screen Name Redacted 5/26/2024 09:28 PM	Additional family change rooms and updated showers
Screen Name Redacted 5/27/2024 10:57 AM	Would love to see a space for cycling classes with indoor bikes!
Screen Name Redacted 5/27/2024 02:34 PM	None.
Screen Name Redacted	Doubling the fitness centre is a bare minimum. Right now, the weight

5/27/2024 06:53 PM	room is far too small. Would like to see a room devoted to stretching. Will yoga classes move into the new facility? Would be nice to have a meeting room available for non-profit community groups that lack their own space.
Screen Name Redacted 5/27/2024 09:08 PM	Above looks good
Screen Name Redacted 5/27/2024 10:39 PM	leisure area for seniors/children' zone
Screen Name Redacted 5/28/2024 07:44 AM	Yoga Studio
Screen Name Redacted 5/28/2024 10:53 AM	No
Screen Name Redacted 5/28/2024 12:47 PM	fun things
Screen Name Redacted 5/28/2024 04:00 PM	Rooms for rent (small rooms) for local artists/music/movement practitioners to rent to help bring more patrons to facility
Screen Name Redacted 5/28/2024 07:32 PM	A smoothie bar would be nice, but now i think i'm just being greedy.
Screen Name Redacted 5/28/2024 09:46 PM	Spin studio? Indoor turf field?
Screen Name Redacted 5/28/2024 11:22 PM	Coffee shop
Screen Name Redacted 5/29/2024 06:37 AM	Having a weight room that meets the needs of all users. Better selection of equipment, a calf raise machine, a hack squat machine, a preacher curl machine with plate options, lying leg curl machine, more dumbbells with 2.5lb increases between each. Better spacing between machines.
Screen Name Redacted 5/29/2024 09:17 AM	twin the gym at the high school with a dedicated entrance for the public. Becoming more common for community libraries to be twinned with the high school. Why not the gym.

Screen Name Redacted 5/29/2024 03:56 PM	A few areas for fitness classes. Hard to get into what is being offered now.
Screen Name Redacted 5/29/2024 10:24 PM	Family spaces
Screen Name Redacted 5/29/2024 10:46 PM	There needs to be adequate space to stretch in the new facility.
Screen Name Redacted 5/30/2024 08:52 AM	La Cross area
Screen Name Redacted 5/30/2024 12:52 PM	A proper snack cafeteria or smoothie bar. If we are promoting whole fitness why are we left with lacklustre vending machines to fuel hard work and health.
Screen Name Redacted 5/30/2024 02:12 PM	I'm personally most excited for this section! See my comment above about accessible change rooms. It would be great to increase the weight training equipment, we are missing some key machines and have a limited supply of free weights. At high traffic times it can be challenging to access. Some equipment that would be great to add: T-bar row machine 2-3x as many dumbbells, barbell stations, benches, weight plates, kettle bells, smith machines Glute ham developer (machine) and/or leg curl machine Abs crunch machine Hack squat machine The list could go on! I will stop there lol. It might be helpful for the planners to tour a private gym like Steve Nash or Altea, would help our lovely public facility stay competitive and better serve community members.
Screen Name Redacted 5/30/2024 03:03 PM	Pilates Tai Chi
Screen Name Redacted 5/30/2024 05:15 PM	None
Screen Name Redacted 5/30/2024 07:18 PM	No opinion
Screen Name Redacted 5/30/2024 09:43 PM	Stretching and relaxation spaces.

Screen Name Redacted 5/30/2024 10:11 PM	Sensory friendly play area as well as a quiet room or space for people when they are in sensory overload or meltdown and need a quiet space to regroup.
Screen Name Redacted 5/31/2024 11:13 PM	gymnasium is not needed there are many at schools and at the hockey facility , features should be preserving adjacent green space then consider amenities .
Screen Name Redacted 6/01/2024 11:25 AM	Love that plan. Any increase in size is most appreciated
Screen Name Redacted 6/01/2024 11:59 AM	I don’t think a full sized gymnasium is needed. The rec centre down the road has one. This is an unnecessary use of space and money.
Screen Name Redacted 6/01/2024 10:00 PM	Will the full size gymnasium have indoor activities like youth basketball? I would like to see something like the cloverdale Rec centre but with a larger fitness area and better fitness studio. That rec centre has a really good layout. I really enjoyed going there before I moved to south delta. An area for parents sit while they're watching their kids at swimming lessons and maybe a coffee shop like Ladner set up?
Screen Name Redacted 6/02/2024 06:01 AM	Certainly a viewing room , coffee tea small tables for those waiting for participants. PARKING!!!!!!!!!!!!!!
Screen Name Redacted 6/02/2024 02:01 PM	Accessible fitness studio not at the top of a large set of stairs
Screen Name Redacted 6/02/2024 02:08 PM	would the gym be big enough for badminton, pickle ball or tennis . Delta has no covered facility for tennis!!
Screen Name Redacted 6/02/2024 03:12 PM	Sounds good.
Screen Name Redacted 6/02/2024 07:23 PM	Pickleball
Screen Name Redacted 6/02/2024 09:50 PM	An area for plyometrics.

Screen Name Redacted 6/03/2024 11:49 AM	Pickel ball courts
Screen Name Redacted 6/03/2024 11:54 AM	Make sure the 'full-size' gym allows for viewing from bleachers instead of the super tight gym at SDRC.
Screen Name Redacted 6/03/2024 12:28 PM	Ballet bars in fitness studio
Screen Name Redacted 6/03/2024 03:26 PM	Important to have a wood floor in movement studio to accommodate dance/zumba classes. Also need good ventilation and a larger space since most classes fill up too quickly
Screen Name Redacted 6/03/2024 06:08 PM	I notice that it's listed as "accessible/universal change rooms." This implies that the primary change rooms for everyone else are the main ones and that those who require accessible spaces are now sharing those accessible spaces with those who may not be welcomed into traditionally gendered change rooms. As noted above, this hurts those who need accessible change rooms by pushing more people into smaller/fewer spaces, and it hurts those who may not be typically gender presenting by implying that they should go elsewhere. Universal change rooms should be accompanied with VERY clear signage and training for all staff that discrimination based on gender identity and/or gender expression by patrons and/or staff is not permitted. Let's ensure that a safe and welcoming environment for all is created and protected by design and from the get-go!
Screen Name Redacted 6/03/2024 08:14 PM	Gym definitely needs to be larger. Make sure there will be enough equipment to meet the demands for the increase in population and users of the facility. A café with seating would be great to have too.
Screen Name Redacted 6/03/2024 08:15 PM	I think it is important to have a separate stretch room adjacent to the weight room. Many people do personal stretching, yoga, pilates etc.as part of their fitness routine. It would be best if all scheduled events were in other multi purpose rooms so the stretch room is always available.
Screen Name Redacted 6/04/2024 09:32 AM	cafe for people waiting and socializing, so you don’t have to go in and out without an area to meet with a friend before or after using the facility

Screen Name Redacted 6/04/2024 12:58 PM	family change rooms, female and male change rooms continued
Screen Name Redacted 6/04/2024 01:29 PM	No
Screen Name Redacted 6/04/2024 06:12 PM	Pickleball courts
Screen Name Redacted 6/04/2024 10:11 PM	Indoor walking /running track if there is space
Screen Name Redacted 6/04/2024 10:40 PM	All good
Screen Name Redacted 6/04/2024 11:11 PM	A Cafe with food and drink options - great for the staff working , parents waiting for children or people using the fields
Screen Name Redacted 6/04/2024 11:43 PM	Sauna!
Screen Name Redacted 6/05/2024 08:02 AM	A rope/ boulder climbing wall
Screen Name Redacted 6/05/2024 08:28 AM	Bigger selection of weight machines
Screen Name Redacted 6/05/2024 01:00 PM	Child minding
Screen Name Redacted 6/05/2024 03:29 PM	Cafe or concession for families watching lessons? Viewing area with ample seating for watching lessons. Provisions for adapted fitness and programs for physical, intellectual and neurodivergent disabilities.
Screen Name Redacted 6/05/2024 06:45 PM	Lots of windows and glass to see outside to forest/green space
Screen Name Redacted 6/05/2024 09:40 PM	Tennis court

Screen Name Redacted 6/05/2024 11:03 PM	none
Screen Name Redacted 6/05/2024 11:58 PM	Observation area. Currently it gets CROWDED during lessons time.
Screen Name Redacted 6/06/2024 10:30 AM	There is potential in that space to build a second floor that features the library, boys and girls club, rental space. This would reduce reliance on the current (small, leased) library space.
Screen Name Redacted 6/06/2024 10:46 AM	with south delta buildings growing in height its crucial to not miss the opportunity to build up and make use of the space in the sky.
Screen Name Redacted 6/06/2024 07:04 PM	The second floor library space and rental spaces for birthday parties (like Richmond).
Screen Name Redacted 6/06/2024 08:39 PM	Indoor sport courts
Screen Name Redacted 6/07/2024 12:20 AM	What about a healthy snack/ juice bar, common/ gathering space/ water wise garden. What about art spaces? Tsawwassen is lacking! Again, Clayton has a performing arts space, but also visual arts, a recording studio, wood working studio (not to mention Library) which opens up opportunities for classes they we just don't get here. Our young people need opportunities here, things to do. We shouldn't have to go to other communities.
Screen Name Redacted 6/07/2024 12:46 AM	Artificial turf for soccer or baseball indoor training, potential volleyball games also
Screen Name Redacted 6/07/2024 09:04 AM	I think these aspects are especially import and lacking at the current facility. As a coach of multi amateur sport teams locally, It would be huge to have a large multi use multi sport flexible training area
Screen Name Redacted 6/07/2024 09:06 AM	Fun for kids
Screen Name Redacted 6/07/2024 09:20 AM	Unsure

Screen Name Redacted 7/01/2024 08:42 AM	covered outdoor training
Screen Name Redacted 6/07/2024 10:07 AM	Larger gym size to accommodate more people
Screen Name Redacted 6/07/2024 10:26 AM	A space for services, such as RMT, chiropractor, physiotherapy, cafe
Screen Name Redacted 6/07/2024 10:40 AM	When the new Ladner Leisure Centre weight room opened a few years ago, it was already too small and should have been larger, due to its popularity. A new Winskill weight room needs to be triple the size it currently is because many seniors use it and residents from TFN use our facilities, and the number of residents moving there continues to grow. We need a really large state of the art weight room with space large enough to accommodate equipment needed for a good gym, and open space for non-equipment use like foam rollers, balls, mats, stretching, etc. We also need space for classes ie. yoga etc. to replace the current old church which needs to be demolished.
Screen Name Redacted 6/07/2024 10:43 AM	No - Tsawwassen tends to gravitate towards treadmills and stair masters so just ensuring we have enough of those.
Screen Name Redacted 6/07/2024 10:47 AM	Seating area, cafe
Screen Name Redacted 6/07/2024 10:49 AM	indoor youth activity space. Also a larger lobby/waiting area. Would like to see fitness classes - barre/pilates
Screen Name Redacted 6/07/2024 02:28 PM	seating viewing area, workspace.
Screen Name Redacted 6/07/2024 03:20 PM	Squash/Raquetball courts
Screen Name Redacted 6/07/2024 03:28 PM	50 metre pool
Screen Name Redacted 6/07/2024 06:10 PM	Treatment areas

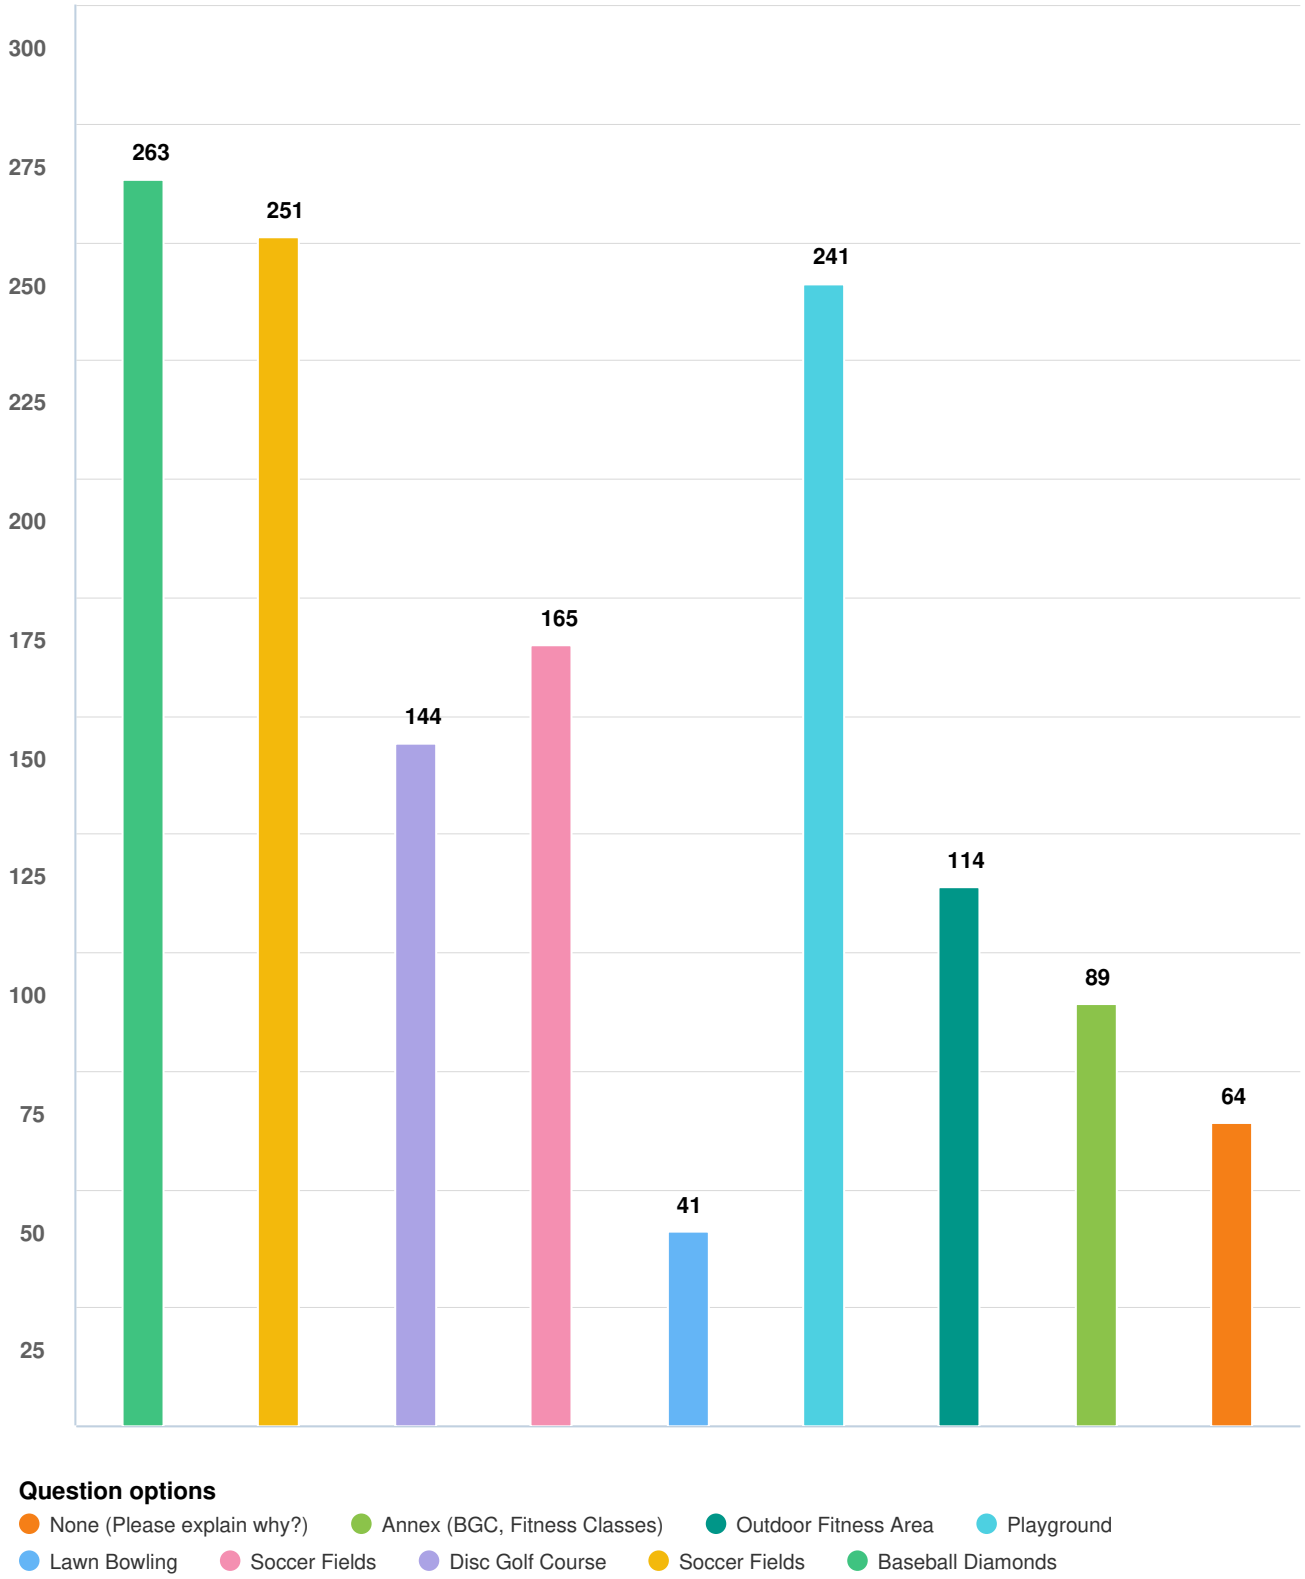

Screen Name Redacted 6/07/2024 10:11 PM	Big free weights section, open air option either large windows that open or covered outdoor area accessible from the weight room.
Screen Name Redacted 6/08/2024 02:30 AM	Again, not sure what do you mean when you say 'universal' change rooms. But I would feel uncomfortable if I have to change if front of everybody else.
Screen Name Redacted 6/08/2024 11:23 AM	Retail space. Climbing wall.
Screen Name Redacted 6/08/2024 02:18 PM	None. There are plenty of gyms in Tsawassen that can be used and expanded without cutting down any TREES.
Screen Name Redacted 6/08/2024 06:04 PM	Room for a pingpong table or similar would be nice, a simple lounge for conversations, maybe with a tv for sports, would also be nice. Similar to Cambie Community centre entrance.
Screen Name Redacted 6/09/2024 12:41 AM	More yoga class space
Screen Name Redacted 6/09/2024 02:48 PM	Lots of open space for training that does not have equipment in fitness area. As well as more private workout spaces for people with sensory challenges that struggle with activity around them.
Screen Name Redacted 6/10/2024 01:55 PM	Healthy fast food dispensary and eating area.
Screen Name Redacted 6/11/2024 09:58 AM	I heard that the library was a possibility and I think that is the most amazing idea the urban developers have had! I know we are all really excited to see this new library it is so clever!
Screen Name Redacted 6/11/2024 10:53 AM	Accessibility to fitness rooms and programs without stairs What is universal changerooms?
Screen Name Redacted 6/11/2024 11:48 AM	HIIT and/or Crossfit studio
Screen Name Redacted 6/11/2024 07:59 PM	Universal change rooms make me feel uncomfortable. If they are going to be available, it needs to be completely closed off and no slits

	between walls or a space under the door
Screen Name Redacted 6/12/2024 12:16 AM	I only care about surrounding greenspace. I would only consider visiting the aquatics centre if the pools salt-water with specifically adult-only pools (no kids).
Screen Name Redacted 6/12/2024 03:04 PM	No I think that has everything.
Screen Name Redacted 6/13/2024 12:45 PM	Change rooms should designed with enough room for lockers and change areas to be not too crowded
Screen Name Redacted 6/13/2024 12:47 PM	Birthday Party room
Screen Name Redacted 6/13/2024 10:27 PM	Pilates Reformers
Screen Name Redacted 6/14/2024 09:26 AM	Multipurpose rooms are mainly empty outside of limited programming throughout it the day and evening hours. Would reduce sq ft space for these rooms and instead build out bigger fitness and gym space
Screen Name Redacted 6/14/2024 11:33 AM	Sensory room/quiet space with fidgets, bean bags, pop up tents, etc. to help calm and regulate the body
Screen Name Redacted 6/14/2024 07:57 PM	One thing I always remember as a kid going swimming was being really hungry afterwards and waiting for my mom to come pick me and my sister up. I think it would be great to have more than just sugary snacks in the vending machines. Let's actually give these kids some real food because after a big long swim, that's exactly what they need.
Screen Name Redacted 6/14/2024 08:17 PM	Coffee shop / cafe! Comfortable hangout spaces!!
Screen Name Redacted 6/14/2024 09:41 PM	No
Screen Name Redacted 6/15/2024 07:48 AM	Bathing suit dryer/spinner

Screen Name Redacted 6/15/2024 03:32 PM	Physiotherapy Small coffee shop
Screen Name Redacted 6/15/2024 07:43 PM	Air conditioning !
Screen Name Redacted 6/16/2024 09:22 AM	Coffee / Concession vendor or kiosk
Screen Name Redacted 6/16/2024 01:43 PM	Fitness class space! Anything that helps build community and maintain the community feeling of living in Tsawwassen.
Screen Name Redacted 6/16/2024 03:58 PM	For the fitness centre it would be nice to ensure it accommodates all types of workouts such as functional training, HIIT, agility, strength training, etc. A nice open turf area in the fitness centre would be amazing.
Screen Name Redacted 6/16/2024 04:39 PM	Indoor toddler playground, for when it's raining/while siblings in are in lessons.
Screen Name Redacted 6/17/2024 09:30 AM	café
Screen Name Redacted 6/17/2024 09:40 AM	Fully-equipped fitness centre must be defined. To adequately serve community needs for weight lifting facilities, a facility of this size should offer, at minimum: -6 Squat Racks -3 Flat Bench Presses -2 Incline Bench Presses -4 power-lifting / deadlift platforms Many Gyms over-prioritize cardio equipment and weight machines, which sit at around 50% capacity, even at peak hours, while the free-weight area is completely overloaded, making it impossible to complete a workout in a reasonable time. I would be in full support of reducing the amount of cardio equipment, and reducing the amound of weight machines. Weight machines have been shown by many studies to lead to more injuries, and require higher maintenance than free weights, and should be lowest priority.

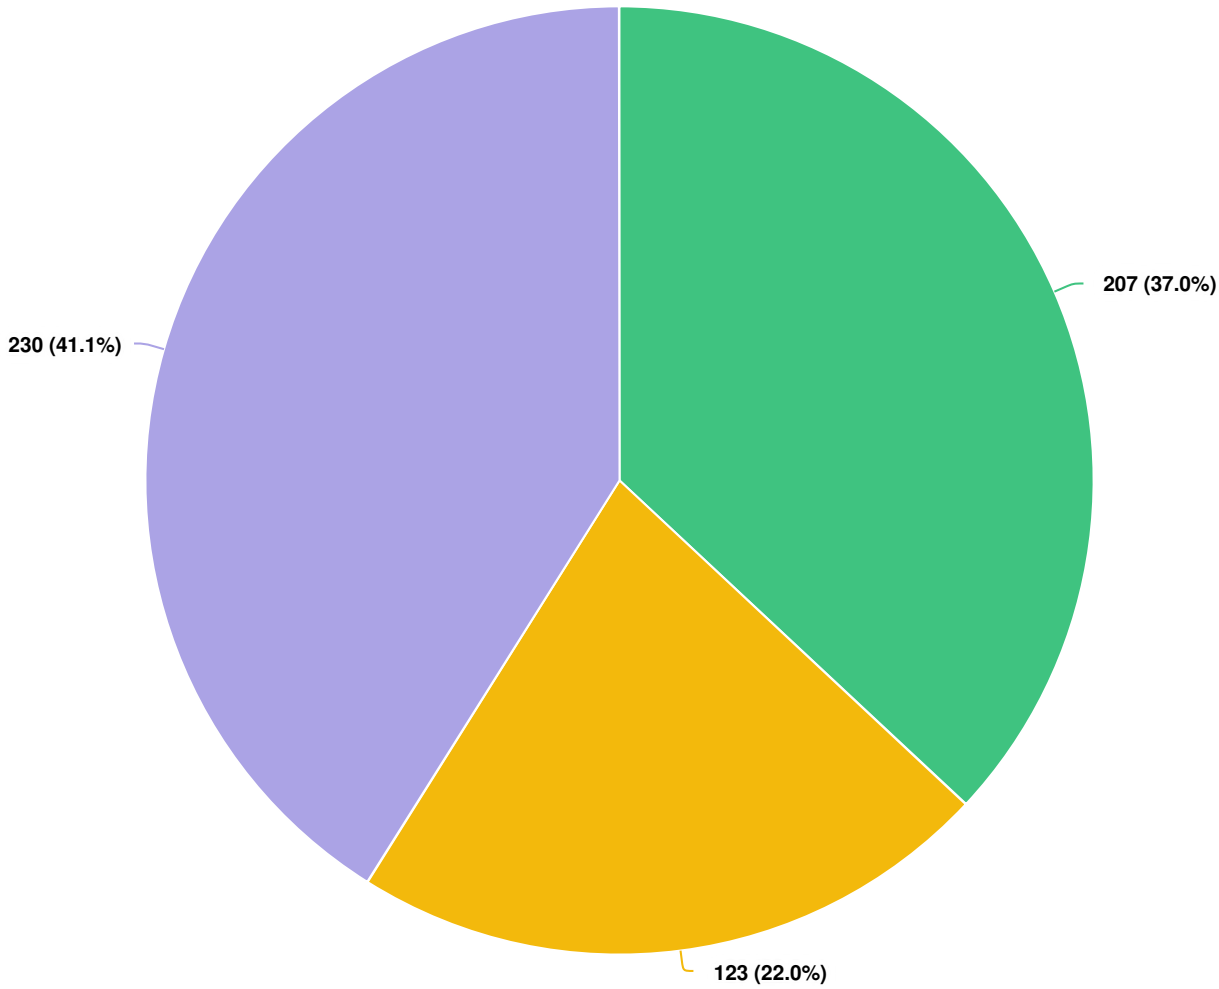

Optional question (191 response(s), 391 skipped)
Question type: Essay Question

Q20 Which amenities in Winskill Park do you or your household currently use? Please select those that apply.

Optional question (551 response(s), 31 skipped)
Question type: Checkbox Question

Q21 The current field at Winskill Park has three ball diamonds. The City is conducting a field usage study to determine the need for a fourth ball diamond and has considered a possible future location as part of this project. Are you open to adding a f...

Optional question (559 response(s), 23 skipped)
Question type: Radio Button Question

Q22 Please feel free to explain your response.

Screen Name Redacted 5/07/2024 08:02 PM	Increased population will need more fields. The current fields are already full.
Screen Name Redacted 5/07/2024 08:17 PM	Leave the trees standing and move the pool closer to 56th.
Screen Name Redacted 5/07/2024 08:43 PM	There are many fields around town my children don't play ball but my nephew does. I would be curious if there is a challenge for field use around town or if there is enough with Winskill combined with the other fields.
Screen Name Redacted 5/08/2024 07:44 AM	What portion of the community uses baseball diamonds? My own family has used the baseball diamonds however there's never appeared to be a shortage of baseball diamonds. There has appeared to be a shortage of fitness class classes, and a shortage of a steam room and a shortage of swimming pool space. Why are we adding more baseball diamonds when there isn't an issue there? In fact, I would propose that some of the baseball diamond space be taken to expand the new pool.
Screen Name Redacted 5/08/2024 11:10 AM	Baseball only matters to people playing baseball. The TBA can use other fields in other parks. The soccer fields are important too.
Screen Name Redacted 5/08/2024 11:30 AM	Not at the expense of being able to expand Winskill to accommodate the future. There are other site that baseball could be accommodated especially as it is seasonal sport where as Winskill facilities can be used year round
Screen Name Redacted 5/08/2024 12:32 PM	Baseball diamonds are available at brandrith park and Dennison park. Baseball is not a 12 season sport and those fields sit empty much of the year. The money should be spent on maximizing the new winskill facility and further money spent on baseball diamonds can wait.
Screen Name Redacted 5/08/2024 01:03 PM	If it is going to get used then yes.
Screen Name Redacted	Our kids play sports, there will be more people using these facilities

5/08/2024 01:52 PM	as Tsawwasswn grows
Screen Name Redacted 5/08/2024 02:23 PM	I believe the facility accommodates the current demand for field usage. It may be worth looking into an indoor training space for batting cage usage.
Screen Name Redacted 5/08/2024 04:30 PM	We'd be better served with an outdoor rink and basketball court
Screen Name Redacted 5/08/2024 09:35 PM	Baseball fields are maximized already for TABA. Dennison and Pebble Hill fields are taken away from TABA at the beginning of June for slo-pitch, leaving all the young kids without a field for the end of spring ball and summer ball. The fields at winskill should also have lights to accommodate more usage into the early evening and allowing for more usage in Spring when it gets dark earlier.
Screen Name Redacted 5/09/2024 06:42 AM	Uncertain if there is a need for such.
Screen Name Redacted 5/09/2024 12:41 PM	I think keeping the park/green space is more important than adding another diamond. There are so many people that walk the park and walk their dogs along the outer trail. Not everyone wants to go to an off leash park for safety of their own dogs. Keep the green space and trees
Screen Name Redacted 5/09/2024 04:05 PM	Pebble Hill has a new one- please think of other sports like basketball. There have been new Laccrose, New Pickle Ball, New Soccer but NO time indoors or oitdoors for basketball., A covered basketrball court would be used so much! No one uses it for disc golf
Screen Name Redacted 5/09/2024 04:06 PM	There are many baseball diamonds in Delta already
Screen Name Redacted 5/09/2024 04:15 PM	seasonal use should be flexible if adding additional
Screen Name Redacted 5/09/2024 05:08 PM	we need natural park space not just playing fields
Screen Name Redacted 5/09/2024 05:18 PM	Adult sport leagues are equally important in this consideration. Population growth means new families of children AND parents

	wanting to play sports- as it is we are already fighting over the limited fields. Additional baseball diamonds- for adult play means 300ft size fields, the proposed options don't consider adult play and the need for larger, multi use fields. Smaller fields can only be used by certain age group teams, this is not inclusive nor does it consider future growth for other user groups.
Screen Name Redacted 5/09/2024 05:26 PM	Three fields seem okay at present
Screen Name Redacted 5/09/2024 05:29 PM	Being a senior this does not apply to me.
Screen Name Redacted 5/09/2024 05:56 PM	Over the years, we have used all of these fields for various sports, events etc. , baseball the least!
Screen Name Redacted 5/09/2024 06:24 PM	If it will be used then go ahead
Screen Name Redacted 5/09/2024 07:03 PM	Do not remove any existing trees!!! Do not remove the disc golf course Plant more trees!!!
Screen Name Redacted 5/10/2024 11:08 AM	Parking is an issue at Winskill, any additional facilities will impact accessibility.
Screen Name Redacted 5/10/2024 12:23 PM	Willing to pay my share, but not a fan of baseball.
Screen Name Redacted 5/10/2024 03:04 PM	I don't feel that it is needed.
Screen Name Redacted 5/10/2024 03:39 PM	Is it necessary? Are the existing diamonds overbooked/in too much demand?
Screen Name Redacted 5/10/2024 05:09 PM	Will the 2 small diamonds for the little kids tball still exist?
Screen Name Redacted 5/10/2024 11:45 PM	decide after study done. build if needed.

Screen Name Redacted 5/11/2024 07:09 PM	not a baseball fan
Screen Name Redacted 7/01/2024 08:34 AM	The three ball diamonds come at a major expense and take away space from other positive usage of the field space.
Screen Name Redacted 5/13/2024 01:16 PM	Build for the future
Screen Name Redacted 5/13/2024 03:20 PM	Relocating the pool and fitness facilities to South Delta Rec Centre land would provide a more cohesive land space for four diamonds with a centralized viewing area in the middle. It would ensure the protection of much of the existing forested area and disc golf as well.
Screen Name Redacted 5/13/2024 08:58 PM	Our community doesn't need a 4th baseball diamond.
Screen Name Redacted 5/13/2024 10:39 PM	A 4th ball diamond or make use of the one at pebble hill park. More soccer fields are needed so it would be nice to add soccer or ball fields. We are in dire need ice rinks, arenas for lacrosse.
Screen Name Redacted 5/14/2024 01:58 AM	No because the plans show cutting down too many trees.
Screen Name Redacted 5/14/2024 10:28 AM	If you look at the registrations for younger kids in ball we are having record numbers of kids coming up. I coach a peewee team at the moment and we are struggling to manage field time for everyone. That is with older kids and smaller numbers.
Screen Name Redacted 5/14/2024 12:05 PM	3 is enought for contest in weekend, and we have so many baseball in every schools and parks which is enought for kids to train or do anythings. do not wast our tax to builid the 4th baseball field.
Screen Name Redacted 5/14/2024 08:38 PM	Adding a fourth diamond would require one of the options which eliminates the forest area. I think this is a very poor idea. The park serves a vital purpose in providing a natural environment to very many seniors and others who live in the downtown core. The density is only going to increase and that natural area will be even more important in the future. The therapeutic benefits of being in nature have been proven, we all know climate change is a fact and our trees are a valuable and vital resource in our ability to deal with increasing

	heat. It is incumbent on our policy makers to realize the importance of nature as we move forward.
Screen Name Redacted 5/15/2024 10:46 PM	Have you asked TABA about projected membership numbers ?
Screen Name Redacted 5/16/2024 10:36 AM	You are leaving out the diamond on the turf. Also, creating another diamond would likely impact the existing forested area of the park.
Screen Name Redacted 5/16/2024 12:24 PM	Our family doesn't use the baseball diamonds. There are so many ball diamonds in South Delta; I'd love to see field space dedicated to other sports.
Screen Name Redacted 5/16/2024 12:25 PM	Kids sports are growing. And with new developments there will be even more families needing facilities.
Screen Name Redacted 5/16/2024 05:06 PM	The current three diamonds could be better utilized to accommodate greater usage. An unnecessary fourth ball diamond would impinge on any other uses of the park space, such as the well-used forest path around the current frisbee park.
Screen Name Redacted 5/16/2024 07:06 PM	Our observation is that only the main field on 56th is utilized quite fully - other diamonds are barely ever in use
Screen Name Redacted 5/16/2024 07:30 PM	The pool/gym serves a far greater population than a baseball field, so I would rather see more money spent on that.
Screen Name Redacted 5/17/2024 10:27 AM	As someone who has worked at Winskill these are only used during the summer months and sporadically.
Screen Name Redacted 5/17/2024 12:59 PM	They are used seasonally, and part time during seasonal games at best. I'd rather see a larger facility for swimming and families than a 4th diamond.
Screen Name Redacted 5/18/2024 11:48 AM	There are lots of other locations available at schools where we could distribute some of the load.
Screen Name Redacted	The city has plenty of other ball diamonds asides from the ones at

5/18/2024 12:05 PM	winskill. Also the turf field would make it 4 diamonds currently.
Screen Name Redacted 5/18/2024 12:12 PM	There are more than enough baseball fields in tsawwassen; only one disc golf course
Screen Name Redacted 5/18/2024 12:56 PM	There are many other baseball diamonds in Delta that can be utilized.
Screen Name Redacted 5/18/2024 01:08 PM	Delta has many ball fields. Other near by communities have them as well. The disc golf course must be preserved as it is not only historic m, but the only one in the area.
Screen Name Redacted 5/18/2024 01:16 PM	Don't need another,leave green space!
Screen Name Redacted 5/18/2024 02:38 PM	I don't know how well used these areas are. When they are being used, parking always seems an issue when it appears they are in use. This then seems to limit others from coming to use other facilities. Are more options available for people to use active transport. More covered bike parking located in other areas?
Screen Name Redacted 5/18/2024 03:07 PM	existing ball fields seem underused.
Screen Name Redacted 5/19/2024 10:04 AM	There are more than enough baseball fields throughout the community. I.e brandrith, pebble Hill park. There is only one disc golf course
Screen Name Redacted 5/19/2024 04:13 PM	another ball diamond is ok as long as it doesn't cause the loss of the disc golf course .. i have been utilizing the coure since 1978 ..
Screen Name Redacted 5/20/2024 10:05 PM	south delta has a thriving baseball community. Support its growth as the population expands.
Screen Name Redacted 5/21/2024 10:59 AM	I would rather see existing diamonds at other locations improved. It would be a shame to destroy the forest area to build more diamonds that are not used all year round.
Screen Name Redacted	Usage case for an additional ball field is far stronger than for adding

5/21/2024 01:37 PM	new swimming lanes. Construction costs are similar (as an add-on) and an additional field would benefit far more residents. TABA, TMSP and the RAMS (among others) are all currently competing for field allocations and enrollment is far outpacing current capacity. One additional field would be helpful but is not nearly enough to provide sport opportunities to families moving into newly developed areas in the region.
Screen Name Redacted 5/21/2024 01:51 PM	Three should be sufficient
Screen Name Redacted 5/21/2024 07:00 PM	I don't play baseball. If there is a need not a want then go for it. But if it's not a top priority then let's have the 10 lane pool for the money that would be used for a diamond.
Screen Name Redacted 5/21/2024 07:04 PM	3 fields is enough
Screen Name Redacted 5/21/2024 09:18 PM	Future growth
Screen Name Redacted 5/21/2024 11:09 PM	Baseball/Softball is very important to the town and the community is only growing
Screen Name Redacted 5/22/2024 09:53 AM	If it means losing the forested area at Winskill I am opposed to another baseball diamond. The fields at Pebble Hill Elementary seems like a better option for another baseball diamond, especially the all-weather field.
Screen Name Redacted 5/22/2024 12:26 PM	Yes, if this facility is needed and can be provided without loss of other facilities. Although if there are other demands in the community identified, these should be considered too. Has pickle ball been considered? (or would that happen in the gym?)
Screen Name Redacted 5/22/2024 12:10 PM	It's disproportionate and only serves a limited section of the community.
Screen Name Redacted 5/22/2024 03:40 PM	Parking is already a HUGE issue with only 3 diamonds. We need more parking (thing more than you think you need!)

Screen Name Redacted 5/23/2024 01:38 PM	Only if the field usage study combined with the future development of Tsawwassen justifies such an addition.
Screen Name Redacted 5/23/2024 08:51 PM	Only if a 4th diamond doesn't eliminate disc golf and the forested area
Screen Name Redacted 5/23/2024 10:37 PM	They take a lot of space and area and are seasonal - the spaces are not used during non-baseball season. Does not offer shade or ability for other sports usage, so 3 is enough, given there are other diamonds available in Tsawwassen.
Screen Name Redacted 5/23/2024 10:43 PM	Unless multi purpose for year round use. Ridiculous to build another park for 3-4 months use otherwise!
Screen Name Redacted 5/23/2024 10:47 PM	It's a rare day when all three of the diamonds are being used. No need to spend the money to have a fourth.
Screen Name Redacted 5/24/2024 02:40 AM	I would defer to the field usage study. If the existing diamonds are oversubscribed and a fourth would see sufficient use, that seems fine.
Screen Name Redacted 5/24/2024 08:56 AM	Baseball diamonds are single use. Better to accomidate other facilities / options that are multi purpose.
Screen Name Redacted 5/24/2024 02:05 PM	3 diamond is enough for 97% of the year.
Screen Name Redacted 5/24/2024 02:27 PM	Baseball fields are only used for a few months of the year and are used by a small minority of the community. Why expand? This community needs a much larger rec centre and more parking for young families to access it, not more baseball diamonds.
Screen Name Redacted 5/24/2024 06:28 PM	The list of amenites did not include walking in the forest, birdwatching etc. See my comment above about mature trees.
Screen Name Redacted 5/24/2024 06:34 PM	Keep the trees and green space.
Screen Name Redacted 5/24/2024 06:34 PM	Open to new baseball diamond provided it is not the the expense of the existing trees in the park.

Screen Name Redacted 5/24/2024 07:40 PM	If it is needed yes, why not
Screen Name Redacted 5/24/2024 08:27 PM	We need to maintain as many trees as possible. That area of mature trees is very well used and enjoyed by many people, families, folks walking dogs , children enjoying a natural out door environment . Ball diamonds are nice but there are very few place in Tsawwassen where people can walk and enjoy a trail trees and fresh air. People with mobility issues can't get to places like Deas island park , or even up to Diefenbaker.
Screen Name Redacted 5/25/2024 09:39 AM	There is only so much space. We should maintain some of the park's green space. I think the quantity of diamonds is sufficient for the size of the community.
Screen Name Redacted 5/25/2024 11:28 AM	There are other diamonds nearby. More soccer would be better?
Screen Name Redacted 5/25/2024 12:26 PM	Can the park be planned to add a fourth diamond as may be required later ?
Screen Name Redacted 5/25/2024 02:15 PM	Prefer Green Space or alternative Recreation, not a baseball fan
Screen Name Redacted 5/25/2024 11:10 PM	There are so many kids that play baseball in south delta the fields during baseball season are always full. With growth in the area there will be more kids playing so the need for an additional field.
Screen Name Redacted 5/26/2024 04:08 PM	There's already enough baseball diamonds. This seems to be a game-scheduling conflict rather than an issue of too few baseball fields.
Screen Name Redacted 5/26/2024 04:12 PM	You can put baseball diamonds at other Tsawwassen parks. Please don't displace the one accessible location for disc golf in Delta. Baseball diamonds can be accommodated at other parks.
Screen Name Redacted 5/26/2024 05:45 PM	Build for the future not for the present

Screen Name Redacted 5/26/2024 07:27 PM	Perhaps at a later date, once the old building is removed and the land returned to nature and park needs
Screen Name Redacted 5/26/2024 09:17 PM	There could be better uses for that space. As of now there are already 3 diamonds at Winskill in addition to other diamonds at Brandrith and Dennison parks in Tsawwassen. I would prefer to see that space used for a larger playground, community gardens or nature paths
Screen Name Redacted 5/27/2024 10:57 AM	Only if needed - are they oversubscribed?
Screen Name Redacted 5/27/2024 01:28 PM	more teams can play at once so we can have shorter ball days
Screen Name Redacted 5/27/2024 02:34 PM	There are already many baseball fields in Delta. There is only a single disc golf course. And destroying the only disc golf course in Delta to add one more baseball field to the countless amount that already exist is not a great use of green space.
Screen Name Redacted 5/27/2024 04:09 PM	I believe that a new pool would better accommodate the population of Tsawwassen more then a baseball diamond
Screen Name Redacted 5/27/2024 06:53 PM	While it would be great to preserve the neighbouring trees, if future demand merits another ball diamond, better to plan for it now. That being said, perhaps other under-used locations within Tsawwassen exist that could be used.
Screen Name Redacted 5/27/2024 09:54 PM	Keep as many trees as possible.
Screen Name Redacted 5/27/2024 10:31 PM	Not sufficient usr
Screen Name Redacted 5/28/2024 04:00 PM	I don't use it and don't hear many people doing baseball seems unnecessary
Screen Name Redacted 5/28/2024 05:56 PM	If you can add or improve on the space available thinking towards the future of the community, this should be done.

Screen Name Redacted 5/29/2024 08:04 AM	The fields are at maximum capacity and we need more field space
Screen Name Redacted 5/29/2024 09:17 AM	The trail and the frizbee golf area is the only cool place we have to walk during the summer heat waves. This area must remain and be available for future generations.
Screen Name Redacted 5/29/2024 03:56 PM	Anything to encourage more sport in Delta is helpful. My son plays baseball and more field time is always valuable.
Screen Name Redacted 5/29/2024 06:54 PM	I don’t think it’s necessary but also don’t have anyone in my household who plays baseball. I’m open to adding a diamond though, if it’s deemed necessary.
Screen Name Redacted 5/29/2024 10:46 PM	It is well known that there are not enough diamonds to service the youth and adult leagues that play in South DELTA, an additional field is a necessity.
Screen Name Redacted 5/30/2024 06:55 AM	More general options are nedded for multiple sport ventures, from soccer to lacrosse, which have lighting through the Fall-Winter. Baseball diamonds are solely for baseball.
Screen Name Redacted 5/30/2024 08:52 AM	Use of fields should be diverse. Not monopolized
Screen Name Redacted 5/30/2024 12:52 PM	Is there a need? I believe there to be a larger need for better pool facility than to add one more diamond.
Screen Name Redacted 5/30/2024 01:56 PM	Make Tsw suitable for tournament play. Create revenue opportunities for local businesses. Lots of upside for thinking big.
Screen Name Redacted 5/30/2024 03:03 PM	Only the one outlined on Option A
Screen Name Redacted 5/30/2024 07:18 PM	I am a lifetime softball player and my league plays at Winskill. I played baseball at Winskill growing up, and my kids play there now. With the city's growth both my league and the kids leagues are having to compete more and more for the diamonds. We shouldn't discourage recreation at any age

Screen Name Redacted 5/30/2024 09:30 PM	improve nearby fields at Southpark School and SDSS/Dennison for additional baseball space
Screen Name Redacted 5/30/2024 10:11 PM	There is lots of need for ball diamonds in South Delta for the kids and adults ball, and our population is only growing.
Screen Name Redacted 5/30/2024 10:23 PM	Love that baseball diamonds are being added. Such a great field for the community to use
Screen Name Redacted 5/31/2024 02:05 PM	Park is for everyone - not just one sport
Screen Name Redacted 5/31/2024 11:13 PM	green space and forrest are the most important part for the future build a new pool , use other areas in Tsawwassen for sports fields and protect and rebuild the canopy for our future children, why is this not considered, its to important, we can have both so lets do that.
Screen Name Redacted 6/01/2024 11:25 AM	Believe that soccer fields can double as football fields for increased usability. Baseball diamonds are limiting in duplicate use and end up being off leash dog areas with the fencing they use for baseball field.
Screen Name Redacted 6/01/2024 11:30 AM	Takes up too much space. Better use for soccer which can double as football field.
Screen Name Redacted 6/01/2024 11:59 AM	There are enough diamonds already. More open multi-use space for all people of the community to enjoy, not just sports facilities. For example accessible walking paths, gardens and trees, larger disc golf area, larger playground and green space for picnics and outdoor family activities.
Screen Name Redacted 6/01/2024 03:11 PM	I would not like to lose further forest space or disc golf space. Tsawwassen already has many ball diamonds.
Screen Name Redacted 6/01/2024 11:50 PM	It will minimize space available for the new buildings and parking
Screen Name Redacted	Parking is not satisfactory now !!! Can’t get anywhere to put your car

6/02/2024 06:01 AM	especially if disabled!
Screen Name Redacted 6/02/2024 02:01 PM	With the planned growth in the area, people being more active at higher ages and the trend toward people living in smaller homes it would be short sighted to not expand this project to the maximum capacity from the start.
Screen Name Redacted 6/02/2024 02:08 PM	I find the diamond usage of time quite low. Space better used for other things
Screen Name Redacted 6/02/2024 09:50 PM	I don’t think the diamonds in town including Dennison and brandrith are fully used. The turf field at winskill is always being used. We go there almost daily and is sometimes hard to find space. Another turf field is needed more.
Screen Name Redacted 6/03/2024 11:49 AM	Delta’s population population is growing, a fourth baseball diamond would be a good addition.
Screen Name Redacted 6/03/2024 11:54 AM	Field sports are very popular and give children and youth a healthy option for socializing and playing.
Screen Name Redacted 6/03/2024 12:06 PM	There is already plenty of space allocated to baseball
Screen Name Redacted 6/03/2024 12:28 PM	Not using it right now.
Screen Name Redacted 6/03/2024 12:43 PM	because it cost more money, it would take space used for dryland exercises
Screen Name Redacted 6/03/2024 04:10 PM	See above - access should not be restricted - community cant use what is there now…
Screen Name Redacted 6/03/2024 08:03 PM	Winskill is an idea location for ball diamonds and more outdoor play area is important to achieve and maintain
Screen Name Redacted 6/03/2024 10:27 PM	Baseball is only a portion of the season, and not very inclusive. I would rather see the rec center expanded or upgrade the playground

to be more inclusive.

Screen Name Redacted
6/04/2024 01:17 PM

I don't play baseball nor do any family members.

Screen Name Redacted
6/04/2024 01:29 PM

As long as it's not encroaching on frisbee golf and path through wooded area

Screen Name Redacted
6/04/2024 02:01 PM

There is no need for an additional field. Creating one would require the destruction of trees and impact other park user groups, such as the disc golfers and trail users.

Screen Name Redacted
6/04/2024 07:07 PM

Not needed Green space for play and nature more important. Three diamonds are enough

Screen Name Redacted
6/04/2024 10:22 PM

While local baseball fields may be oversubscribed when it comes to bookings, in my experience with our kids often they are intentionally overbooked by local youth associations but not every booking is used, so often a field is "unavailable" when no one is actually using it. I believe this practice may be used to prevent access to anyone trying to organize a new group or association. Usage of all bookings should be confirmed, I think if this were done you would find there is a lot of unused time despite fields being booked, so don't believe an additional baseball field is necessary.

Screen Name Redacted
6/04/2024 10:40 PM

I do not play baseball anymore. Too old. Love to go to the park to watch

Screen Name Redacted
6/04/2024 11:11 PM

My husband is on a softball team and it was very hard to book times for them

Screen Name Redacted
6/04/2024 11:40 PM

With growing community and more kids entering baseball, there is not enough baseball diamonds in Tsawwassen

Screen Name Redacted
6/04/2024 11:43 PM

I am into adding a 4th diamond but not at the cost of loosing any trees. That being said, if there are dead or dying trees, they should be considered for removal to create more space.

Screen Name Redacted

As long as the additional diamond doesn’t take away space from the

6/05/2024 12:08 AM	other facilities.
Screen Name Redacted 6/05/2024 08:02 AM	Disc golf has become more popular over the years especially during covid. In Vancouver a lot of young people playing it. More people from the city will start moving here. I'm against taking down the beautiful green space with the disc golf course. These are some of the last trees in Tsawwassen. Where should children play in the woods without it being a dog park and have a chance stepping in poop each time.
Screen Name Redacted 6/05/2024 08:28 AM	Build that at a different location.
Screen Name Redacted 6/05/2024 09:30 AM	There is more to Tsawwassen than baseball. There is no need for more facilities than we already have and it severely limits the use of the fields for anything else.
Screen Name Redacted 6/05/2024 10:50 AM	I do not want to loose the disc course for 1 more ball diamond.
Screen Name Redacted 6/05/2024 11:37 AM	leave the forested area
Screen Name Redacted 6/05/2024 11:53 AM	Don’t knock the trees down for parking spaces
Screen Name Redacted 6/05/2024 01:35 PM	My experience is that the current 3 diamonds make walking through the park challenging and the danger of being hit by a ball too high. I feel we need to consider positioning of fields and the use of netting to create more safety and accessibility for walkers and park goers than we currently have. I do not see how a fourth diamond could fit but if there was a way I would support it. Cutting down the forest is not an option to make space for a ball diamond.
Screen Name Redacted 6/05/2024 02:35 PM	How many do you need?? It’s already overwhelming to walk through 3 when you just want to take a walk. With so much noise and chaos one more would make me want to change my walking route.
Screen Name Redacted 6/05/2024 03:29 PM	Would rather maintain more forested/natural habitat than an additional baseball diamond.

Screen Name Redacted 6/05/2024 03:39 PM	We have multiple other parks where their fields can be used for baseball.
Screen Name Redacted 6/05/2024 09:24 PM	The fields are rarely bring used at the same time and for less than half the year.
Screen Name Redacted 6/05/2024 09:40 PM	Would having a 4th diamond make Winskill a location for baseball tournaments? Maybe that's a good thing then? Good for the community. Otherwise, I'm not sure we'd need a fourth diamond at the pool.
Screen Name Redacted 6/05/2024 11:03 PM	there are lots of baseball players that need fields to play games
Screen Name Redacted 6/05/2024 11:58 PM	We can't put everything in the same place. I would like to see the old trees stay.
Screen Name Redacted 6/06/2024 12:47 AM	Grass is bad for the environment, we need more forested greenspace, not mall ball park
Screen Name Redacted 6/06/2024 10:30 AM	We think funds should go to improving the building facility.
Screen Name Redacted 6/06/2024 12:56 PM	There are enough baseball diamonds in tsawwassen
Screen Name Redacted 6/06/2024 06:17 PM	There are enough baseball diamonds and the proposal to reduce trees and land space is not optimal for the community.
Screen Name Redacted 6/06/2024 07:05 PM	Baseball is a huge deal in delta and should be something that is taken seriously. However, the pool is something that has been ignored for years and is something that should be prioritized
Screen Name Redacted 6/06/2024 11:24 PM	Baseball is a growth sort in SD
Screen Name Redacted 6/07/2024 12:20 AM	Seems like a lot of space for one group. And didn't upgrades just happen? There are two (?) or at least one diamond at Pebble Hill school that I notice doesn't seem to be used at all or very rarely. What

	about other schools? Again, can the arts get some love in this town? Money/ space for other pursuits espy for young people. My kids are older now, but options were always lacking. If it hasn't changed and you want young families here…
Screen Name Redacted 6/07/2024 12:46 AM	With the Delta density initiative it's better to have an extra field with so many user groups wanting field time for baseball
Screen Name Redacted 6/07/2024 09:01 AM	More and more kids want to play sports. More fields will accommodate the growth we are seeing and will continue to see with the new building happening.
Screen Name Redacted 6/07/2024 09:04 AM	These fields are beyond capacity and it's a fantastic place for the community
Screen Name Redacted 6/07/2024 09:20 AM	Baseball is very popular in Tsawwassen and it's nice to have all baseball games played together.. especially with multiple kids, and being able to see other games while attending your own game. It builds community and highlights the physicality and skill of the community.
Screen Name Redacted 6/07/2024 09:24 AM	The new baseball facilities are needed and would benefit our association and the future growth of baseball in our community.
Screen Name Redacted 6/07/2024 09:27 AM	Baseball is growing in our community and popularity within BC and Canada. Only makes sense to support these age groups.
Screen Name Redacted 6/07/2024 09:28 AM	new facilities are needed and would benefit our baseball association and the future growth of baseball in our community
Screen Name Redacted 6/07/2024 09:40 AM	The population is growing. There is not enough ball diamonds for all the groups. As Tsawwassen has always been known for a strong baseball club, to be more competitive against other clubs there needs to more room to train.
Screen Name Redacted 6/07/2024 09:43 AM	Need more diamonds to accomodate growing population in Tsawwassen to continue to offer programs for all age and skill levels

Screen Name Redacted 7/01/2024 08:42 AM	need more diamonds, our kids practices get moved around due to lack of space
Screen Name Redacted 7/01/2024 08:42 AM	growing population, needs more diamonds. Would be great to have a covered batting cage or covered areas to train year around.
Screen Name Redacted 6/07/2024 10:01 AM	It seems there are a lot of user groups wanting access to the field - field hockey, soccer, disc golf. I'm not sure that awarding another baseball diamond will be well received by the other users.
Screen Name Redacted 6/07/2024 10:01 AM	Benefit growth of the association
Screen Name Redacted 6/07/2024 10:17 AM	currently needed and would benefit future growth of baseball in Tsawwassen
Screen Name Redacted 6/07/2024 10:26 AM	New facilities are needed and would benefit our association and the future growth of baseball in our community.
Screen Name Redacted 6/07/2024 10:27 AM	new facilities are needed and would benefit our association and the future growth of baseball in our community
Screen Name Redacted 6/07/2024 10:27 AM	Baseball is integral to the Tsawwassen community and with high enrolment in the baseball association we need more fields for games and practices
Screen Name Redacted 6/07/2024 10:43 AM	My son does baseball, I have always found that in a perfect world, it could be nice to have another diamond what we need is more parking and seats. We just did the lawn bowling and it was very controversial and now is being changed again? so I think we should not do the baseball diamond until we see what problems the parking solves and what new problems arise with this mandated housing.
Screen Name Redacted 6/07/2024 10:49 AM	Baseball enrollment is growing along with population growth - additional diamond is needed to meet the needs of kids and adults. Again, this project needs to plan and accommodate both current and future needs.
Screen Name Redacted	We need to preserve the forest around the facility and maintain some

7/01/2024 08:42 AM	indigenous wild space in the park
Screen Name Redacted 6/07/2024 11:15 AM	Depends on cost or if possible - just upgrade 3 fields to be more versatile in use.
Screen Name Redacted 6/07/2024 11:18 AM	As a baseball coach for many years in Tsawwassen I definately think we need a 4th ball diamond to allow us to host tournaments and accomodate future growth. We also need better practice facilities for baseball and soccer. We also need a better shed for storage and use of field prep equipment.
Screen Name Redacted 6/07/2024 12:01 PM	Baseball diamonds at Winskill are heavily used and allow for families in Tsawwassen to stay in Tsawwassen. Too often we need to drive to Ladner for field use
Screen Name Redacted 6/07/2024 12:31 PM	new facilities are needed and would benefit TABA and the future growth of baseball in our community
Screen Name Redacted 6/07/2024 01:07 PM	new facilities are needed and would benefit our association and the future growth of baseball in our community
Screen Name Redacted 6/07/2024 02:28 PM	TABA continues to offer robust opportunities for community connection, and our public facilities should reflect this commitment. Providing high-quality spaces benefits not only the baseball community but also the local residents who appreciate the community spirit TABA fosters each season. Overlooking this valuable, volunteer-run asset would be a disservice to the broader community.
Screen Name Redacted 6/07/2024 03:28 PM	Need more baseball fields
Screen Name Redacted 6/07/2024 03:29 PM	We need more synthetic, year round baseball fields to keep kids off electronics
Screen Name Redacted 6/07/2024 03:39 PM	New facilities are needed and would benefit our association and the future growth of baseball in our community. Currently in the summer there are inadequate facilities for all of the youth baseball teams to train.

Screen Name Redacted 6/07/2024 04:03 PM	Baseball is a growing sport. Hard to ensure everyone has fields to practice and play on. Ensuring more fields allows more kids time to enjoy the game.
Screen Name Redacted 6/07/2024 05:35 PM	Involving youth in team sports is a great way to foster community spirit, bringing together parents, children, and volunteers in a shared goal of promoting health, teamwork, and social interaction. The engagement of families and community members in such activities not only supports the physical and emotional development of children but also strengthens community bonds. The situation with the adult slo-pitch league at Winskill, Dennison and Pebble Hill Park, which commandeer the ball diamonds during the summer, presents a challenge. It's clear that the children's need for active play and sports is a priority, and the addition of a fourth ball diamond could be a solution that benefits all parties involved. The City's field usage study is a proactive step in assessing the need for additional recreational space. If the study concludes that there is a significant demand for another diamond, and if the community is supportive of the investment, adding a fourth ball diamond could be a valuable enhancement to Winskill Park. This would allow for the accommodation of both the adult league and youth sports without compromising the availability of play areas for the children.
Screen Name Redacted 6/07/2024 06:10 PM	You are already redesigning the park. Make all the changes now. More cost effective
Screen Name Redacted 6/07/2024 07:30 PM	new facilities are needed and would benefit our association and the future growth of baseball in our community”.
Screen Name Redacted 6/07/2024 10:11 PM	Build for the future not for the moment.
Screen Name Redacted 6/07/2024 11:57 PM	It would be a great addition to a growing sport membership in the community.
Screen Name Redacted 6/08/2024 02:30 AM	If adding a fourth ball diamond will mean cutting the tress that are still left at Winskill park, I do not think this would be of benefit to the community. You see, all of those above marked outside places, are also used for people like me, who come to the park for walking, running, or simple for being in nature, or contemplation. Those beautiful, big and mature trees that are in Winskill Park, (behind and around the front and back of the pool and current fitness center), are not only beautiful, but very much needed for us, human beings, for

	other animals, and plants. If a new building, or worst, parking space, is the cause of cutting those trees, this will be a very sad and unfortunate situation, indeed.
Screen Name Redacted 6/08/2024 09:16 AM	Taba has a good Baseball program but requires more fields, would help to have another field for use.
Screen Name Redacted 6/08/2024 09:45 AM	We don't have enough baseball fields for all the teams. In the late spring and summer slow pitch takes over and you summer baseball is left without fields to practice on yet this is advanced youth baseball and kids that hope to have a future in the game. With the community growing we need to plan for now and the future.
Screen Name Redacted 6/08/2024 09:46 AM	New ball fields and amenities are needed. We heavily use the fields in Tsawwassen and will for the next 15 years.
Screen Name Redacted 6/08/2024 09:47 AM	We need more space for all our ball athletes. Currently we lose our space at Dennison for summer ball and are forced to play on bigger fields.
Screen Name Redacted 6/08/2024 10:46 AM	New facilities are needed and would benefit our association and the future growth of baseball in tsawwassen.
Screen Name Redacted 6/08/2024 10:58 AM	New facilities are needed and it would make the baseball asoutien larger and would be fun to have more baseball at Winskill
Screen Name Redacted 6/08/2024 11:23 AM	Baseball is a sport that brings the community of Tsawwassen together like no other, from tournaments to tadpoles, grandparents, friends, neighbours and dogs. It should be grown, supported, invested in and built for future generations.
Screen Name Redacted 6/08/2024 02:18 PM	No because you have to cut down a bunch of trees.
Screen Name Redacted 6/08/2024 03:23 PM	Not enough parking to accommodate increasing the pool clientele and baseball. An extra baseball diamond could go into another park.
Screen Name Redacted 6/08/2024 04:52 PM	Doesn’t really concern me

Screen Name Redacted 6/08/2024 06:04 PM	This would allow the sport of Baseball to continue further growth in our community and would bring more teams into a similar area (rather than having some teams restricted to using Dennison park).
Screen Name Redacted 6/08/2024 06:53 PM	new facilities are needed and would benefit the kids that play for TABA and the future growth of baseball in our community.
Screen Name Redacted 6/08/2024 09:02 PM	Do we actually need a 4th diamond?
Screen Name Redacted 6/08/2024 11:42 PM	Due to the massive expansion of Tsawwassen (tfn and southlands) there is a huge influx of families with children and not enough fields To run baseball on. We need at least 2 more fields.
Screen Name Redacted 6/09/2024 09:18 AM	Prefer to maintain green space with trees and paths
Screen Name Redacted 6/09/2024 02:48 PM	Preserving the trees area in Winskill park should be a priority this is a unique and valuable area of tsawwassen that should be maintained at all costs.
Screen Name Redacted 6/09/2024 09:08 PM	new facilities are needed and would benefit our association and the future growth of baseball in our community
Screen Name Redacted 6/09/2024 10:43 PM	New fields are needed and will help TABA and the future growth of Baseball in our community.
Screen Name Redacted 6/10/2024 11:10 AM	As a TABA coach and parent, South Delta is behind many other communities in the area with an up-to-date facility for Baseball. It's time for Delta (south) to have an appropriate facility for its TABA and community members.
Screen Name Redacted 6/10/2024 12:16 PM	My family doesn't play ball, but it is very popular in South Delta
Screen Name Redacted 6/10/2024 01:31 PM	New facilities are needed and would benefit Tsawwassen baseball and the future growth of baseball in our community

Screen Name Redacted 6/10/2024 01:55 PM	Tsawwassen has enough ball diamonds and if more are needed they should be located somewhere else in town. What not get the TFN to build one or two on their land for the community to use.
Screen Name Redacted 6/10/2024 06:37 PM	I would much rather preserve the forestry area, trails, and disc golf course as I use it to walk my dog everyday as well as play disc golf on weekends
Screen Name Redacted 6/11/2024 12:40 AM	Sports field drainage is not environmentally friendly -- especially plastic fields of artificial turf, especially with crumb rubber particles (which introduce fish-toxic 6PPD-quinone into natural waterways). If drainage is sent into landscaping for filtration and infiltration, I'm fine with an additional sports field. (Soil and plants are highly effective at trapping 6PPD-Q so it doesn't enter natural waterways; it then breaks down in a matter of days or weeks.)
Screen Name Redacted 6/11/2024 09:58 AM	Baseball diamonds are so important do not get me wrong - but they can be added after whereas new parts to the building can not be. Its a marathon not a sprint. Plus of we are getting those towers then we are going to need all the room in the pools we can get.
Screen Name Redacted 6/11/2024 10:53 AM	Serious ball players so open it up to more team usage - tournaments, etc
Screen Name Redacted 6/11/2024 06:57 PM	Baseball diamonds are exclusively for clubs while pool is used by clubs and private residents alike. The many should be spent on facilities benefiting all rather than on a 4th baseball field
Screen Name Redacted 6/12/2024 12:16 AM	I would only be open to the City adding a fourth ball diamond if the City also adds an equivalent or greater sized area of natural greenspace.
Screen Name Redacted 6/12/2024 10:56 AM	The existing diamonds don't seem to be oversubscribed and there are lots of diamonds in Delta. A new indoor facility is being built in Ladner. Compared to swimming, baseball requires a huge amount of land per participant. I think the space being considered for a fourth diamond should be allocated to some other general purpose use, with shade, ideally one that disc golf could be played on too.
Screen Name Redacted	I'm concerned that the new facility and fields will eat into the green

6/12/2024 02:38 PM	space to the west of the current building. The world is full of baseball diamonds and soccer fields, but there is a lack of accessible and safe walking areas for seniors and people with disabilities. In other words, please don't sacrifice the green space for another baseball diamond.
Screen Name Redacted 6/12/2024 03:04 PM	I think in the future adding one would definitely be amazing but right now we need to focus on getting this building built for the betterment of our whole community. We need to add room in the pool and then we can more easily add another field rather than another lane.
Screen Name Redacted 6/12/2024 03:23 PM	The three baseball diamonds already take up enough space, plus there are many more around delta for baseball and softball teams to use.
Screen Name Redacted 6/12/2024 10:01 PM	Nobody but a very very small group care about disc golf. The soccer and baseball fields are critical. Especially as the community grows. Please build an expanded pool that meets the growing needs (50m) and preserve or grow the amenities used by most of the community - soccer, field hockey, baseball.
Screen Name Redacted 6/13/2024 12:47 PM	Not st the expense of other spaces
Screen Name Redacted 6/13/2024 04:51 PM	I would not want the trees or frisbee golf to be removed!!
Screen Name Redacted 6/13/2024 07:58 PM	I have lived on Winskill for over 40 years and there are very few occasions during the year where all fields are used. Destroying the forest to provide another field in absurd when the rest of the world is trying to preserve and add trees. Many folks use the park for exercise. It should not be for the exclusive use of athletes.
Screen Name Redacted 6/13/2024 10:43 PM	There isn’t enough room
Screen Name Redacted 6/14/2024 09:26 AM	Baseball fields are a massive waste of space compared to the use that they get through the year. Massive space and resources allocated to a sport used for 4 months of the year and then remains virtually empty for the other 8. If program space is needed for additional sport programming, look at other sports instead.

Screen Name Redacted 6/14/2024 10:30 AM	My response is based on my husband's participation in baseball leagues and taking my grandson to baseball. This is a very popular sport in Delta and ensuring adequate field for this encourages strong leagues
Screen Name Redacted 6/14/2024 12:46 PM	Seems that 3 fields at Winskill is adequate. Extra space could have others sports, ie tennis, pickleball
Screen Name Redacted 6/14/2024 01:16 PM	as the community grow more fields will be needed for the growing population. best to get it done now.
Screen Name Redacted 6/14/2024 07:57 PM	As a regular visitor to the park, I see all the baseball diamonds every day and I can tell you that in no way whatsoever is it OK to destroy the forest in the back of the park to build a new baseball diamond.
Screen Name Redacted 6/14/2024 08:17 PM	Please save the disc golf course and instead rearrange the ball fields to accommodate the new facilities
Screen Name Redacted 6/14/2024 09:41 PM	There are other facilities in Tsawwassen that can be upgraded.
Screen Name Redacted 6/14/2024 10:46 PM	Keep the outdoor space Parkside and spacious
Screen Name Redacted 6/14/2024 11:01 PM	It would take away from the park/trees. The large trees are practically irreplaceable. I feel there are enough baseball fields in the area, we don't need a softball city in our town.
Screen Name Redacted 6/14/2024 11:49 PM	I think you should preserve one area for walking in the woods with dogs plus incorporate a new version of Disk Golf within that area. The beauty is in the TREES. Replant those trees that need replacing and plant more.
Screen Name Redacted 6/15/2024 02:09 PM	baseball has the highest number of sport specific 'fields' of all sports. Other sports should not always need to defer to baseball. It would also be a shame to remove much needed green space and trees to accommodate additional baseball fields. Smarter allocation of current field for baseball regarding scheduling need to occur first before more and more baseball fields are built. In addition, other sports, such as field hockey, also ought to be considered if the field hockey specific

	turf proposed and approved for Holly park does not go through. Baseball has enough already.
Screen Name Redacted 6/15/2024 04:00 PM	There are an abundance of baseball diamonds in Tsawwassen. Just a half k down the road is brandrith with
Screen Name Redacted 6/16/2024 01:04 AM	Need to keep the trees
Screen Name Redacted 6/16/2024 09:22 AM	The baseball field situation in Tsawwassen is over capacity with all the user groups. Youth baseball is significantly impacted in the late spring summer when adult leagues begin to play leaving limited to sometimes no options for our youth.
Screen Name Redacted 6/16/2024 01:43 PM	I would rather see everyone continue to plan around using 3 instead of sacrificing other outdoor spaces and forest in favour of another baseball diamond. I think having more variety of outdoor use space is more important than adding another baseball diamond. Why get rid of something different to add another of the same.
Screen Name Redacted 6/16/2024 03:58 PM	I Think baseball is quite a popular sport within the community. I may be wrong but I don't think there is any other park in south Delta that could host a baseball tournament with multiple fields for a lots of teams.
Screen Name Redacted 6/16/2024 04:39 PM	Nature park space is important as well.
Screen Name Redacted 6/16/2024 10:29 PM	Unless you buy up surrounding land and expand the park. The trees and habitat will be mowed down for another diamond.
Screen Name Redacted 6/17/2024 09:40 AM	If the City's findings demonstrate a need for it.

Optional question (260 response(s), 322 skipped)
Question type: Essay Question

Q23 Please rank the options in order of preference with 1 being most preferred and 3 being least preferred. (If you have any changes to your preferred option, please describe in the next question.)

OPTIONS	AVG. RANK
Option 1: West	1.71
Option 3: South	2.06
Option 2: North	2.14

Optional question (469 response(s), 113 skipped)
Question type: Ranking Question

Q24 Do you have another option that hasn't been considered? Would you adjust any of the options presented?

Screen Name Redacted 5/07/2024 08:02 PM	I would make the facility bigger. A 50 m pool would be amazing. A nice green space with a bunch of trees
Screen Name Redacted 5/07/2024 08:17 PM	Move the pool to option 3 and have the new field where the current pool is.
Screen Name Redacted 5/07/2024 08:43 PM	No
Screen Name Redacted 5/08/2024 07:44 AM	Yes, none of these have a large enough building. Baseball diamonds are not in short supply and they are seriously only used for a couple months a year! Use a plan that makes a larger aquatic centre - even if it has to take over One of the baseball diamonds. And don't take down any of those nice big trees for a baseball diamond!
Screen Name Redacted 5/08/2024 12:32 PM	I have no preference for siting. There was no option not to make a selection.
Screen Name Redacted 5/08/2024 01:03 PM	North-west corner of the lot

Screen Name Redacted 5/08/2024 01:49 PM	Squash courts please. They are so popular in other communities where there available. We have a gymnasium at south delta rec that people have access too. Might be repetitive to have that here
Screen Name Redacted 5/08/2024 01:52 PM	Build on top of the current parking lot?
Screen Name Redacted 5/08/2024 04:30 PM	Traffic in and out should be main concern.
Screen Name Redacted 5/08/2024 09:08 PM	Can an additional diamond be put where the disc golf is now?
Screen Name Redacted 5/09/2024 03:55 PM	no
Screen Name Redacted 5/09/2024 05:08 PM	option 3 WITHOUT the road access on 10 Ave onto 56th
Screen Name Redacted 5/09/2024 05:18 PM	Look at back to back diamonds (Reference MAP in Langley) to utilize the field space and offer larger fields. A full reno of this cost that doesnt consider future growth and more field time is very short sighted. Minimize the parking allotment and increase baseball diamonds in the west field to create 4 diamonds where games can happen at once. Should also be considering SUNFEST and how that will look at the new facility
Screen Name Redacted 5/09/2024 05:29 PM	PRESENT AN OPTION WHICH WOULD ALLOW FOR A LIBRARY TO BE BUILT AND OWNED BY DELTA!!!
Screen Name Redacted 5/09/2024 05:56 PM	I have no opinion on this!
Screen Name Redacted 5/09/2024 06:24 PM	Whichever is least impact to the environment
Screen Name Redacted 5/09/2024 07:03 PM	Create more spaces to enjoy the outdoors, other than just sport activities. Picnic area, more trees and flowers, a nature forest for nature walks.

Screen Name Redacted 5/10/2024 10:23 AM	adjacent to an outdoor playground
Screen Name Redacted 5/10/2024 11:42 AM	Imperial Village field area/southlands
Screen Name Redacted 5/10/2024 12:23 PM	No opinion.
Screen Name Redacted 5/10/2024 03:04 PM	Making the pool indoor and part outdoor or a glassed area to allow the natural light in.
Screen Name Redacted 5/11/2024 12:53 PM	less intrusive, no need to change lights on 56th,
Screen Name Redacted 5/13/2024 03:20 PM	As noted above, relocate to the South Delta Rec Centre lands ... there is ample land to do so and it would result in operational efficiencies for staffing.
Screen Name Redacted 5/13/2024 08:58 PM	No need for a fourth baseball diamond. Period.
Screen Name Redacted 5/13/2024 10:39 PM	No, these options make the best use of the space.
Screen Name Redacted 5/14/2024 01:58 AM	Do all of these options mean cutting down the beautiful mature trees and taking out the disc golf course? I understand the need for ball fields, but it must be noted they are not utilized year round while the disc golf is.
Screen Name Redacted 5/14/2024 12:05 PM	no
Screen Name Redacted 5/14/2024 08:38 PM	Bisecting the park by extending 10th Ave. is a very bad idea. We don't need cars coming through the middle of the park.
Screen Name Redacted 5/14/2024 10:55 PM	Leave building where it is- and re do the current one or close / tear down and rebuild - do not relocate location and take away any of the green space

Screen Name Redacted 5/15/2024 10:46 PM	West is the only option, we don’t need a building along 56th street and the Baseball association just completed an expensive score board to complement Ray Carter field. The South option would eliminate Carter field and the Score board.
Screen Name Redacted 5/16/2024 10:36 AM	Use existing 9 Ave access for Option 3 (no additional access at 10 Ave). Any opportunity to use the old lawn bowling site for facility?
Screen Name Redacted 5/16/2024 12:24 PM	I really don't think we need another baseball diamond. I'd love to keep the disc golf and some trees - my kids love climbing trees.
Screen Name Redacted 5/16/2024 12:25 PM	What about moving pool and fitness to sdrc. Increasing field space for soccer & baseball at current Winskill. This would have all rec in one area and sports fields separate. This would improve capacity for both areas.
Screen Name Redacted 5/16/2024 05:06 PM	Modify the 1: West option to preserve the entire existing forest walk around the frisbee park. Given that the City’s plans are to significantly increase residential density just north of this area of Tsawwassen, removal of any substantial part of this small forest a short-sighted plan that is not in the interests of currently nearby residents, and the many apartment/condominium dwellers soon to join them in this area. All of us should have the opportunity for walking access to a forested space where we can enjoy nature and benefit from the proven health effects. Proximity to a naturally forested space has been proven to be important due to the well-documented health benefits of forest walks, also called “forest bathing” in some cultures. It is simply walking through or otherwise spending time in a forest, not only for enjoyment, but also for better health. Winskill Park should not be entirely for competitive sports. The forest can continue to be an important resource for nearby residents, including the many seniors expected to move into this area, and their visiting families. The forest is a free, low-maintenance feature of Winskill Park, and one that should continue to serve people of all ages and interests.
Screen Name Redacted 5/17/2024 12:59 PM	Additional parking underground for people that need access to the building via elevator allowing for more people to attend?EV charging stalls that are easy to access an
Screen Name Redacted 5/18/2024 11:48 AM	How about putting funding into other locations? We have many schools with poorly managed baseball diamonds. What

Screen Name Redacted 5/18/2024 12:05 PM	relocate winskill aquatic centre to the south delta recreation centre. Keep current disc golf course and green space intact.
Screen Name Redacted 5/18/2024 12:12 PM	Move new aquatic Center to the Recreational Center
Screen Name Redacted 5/18/2024 12:20 PM	One large multiplex at the existing SDRC.
Screen Name Redacted 5/18/2024 12:56 PM	Building the new aquatic facility at the rec centre would be a good idea. There is a large parking lot and under utilized area that could be converted without a huge loss to community outdoor park space. Having all amenities (pool, ice rink, curling rink, gyms) in one location would be ideal.
Screen Name Redacted 5/18/2024 01:07 PM	Why don’t you build down at rec centre where there is more space and you’re not encroaching on one of the city’s last green spaces.
Screen Name Redacted 5/18/2024 01:08 PM	Consider moving the fitness Center and pool down to the Rec Centre.
Screen Name Redacted 5/18/2024 01:09 PM	South Delta Rec Center
Screen Name Redacted 5/18/2024 01:11 PM	The new pool/centre should be relocated to where the South Delta Recreation Centre is.
Screen Name Redacted 5/18/2024 01:16 PM	Year down existing pool build new there,an move East!
Screen Name Redacted 5/18/2024 01:39 PM	No
Screen Name Redacted 5/18/2024 02:14 PM	Can the arena and rex centre accomodate the growth and leave disc golf course alone.
Screen Name Redacted 5/18/2024 02:38 PM	Why is the library not considered to be apart of the building? This increases the multi-dimensionality and encourages multi-generational interaction. The facility becomes a cultural and physical hub. Why isn't

	a 50 metre pool being considered as there is none south of the Fraser or is this cost prohibitive? Many Olympic athletes have been brought up here then have to transfer to clubs North of the Fraser.
Screen Name Redacted 5/18/2024 03:07 PM	North option--delete relocated and new diamonds, retain existing trees
Screen Name Redacted 5/18/2024 03:12 PM	Place the new facility at the rec center to benignity common accessibility and administration
Screen Name Redacted 5/18/2024 03:20 PM	Rec centre
Screen Name Redacted 5/18/2024 10:54 PM	Move to another location
Screen Name Redacted 5/19/2024 04:13 PM	keep the disc golf course
Screen Name Redacted 5/20/2024 10:05 PM	Go with option 1, but a more standard shaped building, and forego the treed area to create a larger facility with more parking, because, ans a 4th diamond
Screen Name Redacted 5/21/2024 10:59 AM	I would rather see this facility at South Delta Recreation Centre, 1720 56 St Hall C, Delta, BC V4L 2B1. Winskill drives too much traffic into the heart of the town.
Screen Name Redacted 5/21/2024 01:37 PM	Bite the bullet and remove the existing turf field. Locate new rec centre there. Create a proper 4-diamond configuration (see MAP in Langley or others) Where the existing diamonds, buildings, parking and disc golf areas are. One of those as a full turf diamond that doubles as a soccer/field hockey pitch. Purchase the parking lot to the North from the existing owner and build a three level parkade - lease-back 30-40 spaces to service adjacent retail. Improve road access between the lawn bowling and retail buildings (removing dedicated lawn bowling parking which isn't necessary.)
Screen Name Redacted 5/21/2024 07:04 PM	where is the new disc golf park being constructed

Screen Name Redacted 5/22/2024 09:53 AM	Option 1 but maintaining the disc golf course and trees is my preference.
Screen Name Redacted 5/22/2024 12:10 PM	Move the pool to SDRC and have underground or rooftop facility parking. This could be achieved for a better long term community solution vs an expensive bandaid that creates more traffic congestion in the middle of town.
Screen Name Redacted 5/23/2024 08:51 PM	I can't choose any of these because they all eliminate the disc golf and the forest. Even if some trees in the forest have to be removed because of disease, replacing them by putting new trees in the parking lots hardly maintains a park-like setting. I also wonder why the footprint of the building is so different in each option. What if the footprint of the West option was flipped and put in the extreme South East corner? Could the disc golf and forest not be maintained and still put in a diamond where the old building is? Or flip the south building so the long side as along 56th...would that allow parking etc to be reconfigured to allow the disc golf and forest to be maintained? Maintaining 9th Ave as the entrance is most efficient rather than creating another intersection at 10th that will just further impede traffic flow that is already negatively affected with intersections at 4th, 6th , 8A, 9th and the pedestrian light at Royal Oaks.
Screen Name Redacted 5/24/2024 02:40 AM	Has the possibility of putting the new one next to the SDRC been considered? There's plenty of space out there, it would avoid this problem of knocking down the disc golf forest, and the consolidation would create a number of logistical efficiencies, particularly concerning transportation access. SDRC already has a huge parking lot that's rarely full, and it's located right beside a main bus stop. Winskill is poorly accessible by transit (pretty much only the 614). There is value in having Winskill close to SDSS, and the more central location makes it walkable for more people, but that might be outweighed by the other benefits.
Screen Name Redacted 5/24/2024 08:56 AM	Locating the new facility at the South Delta Rec site and avoiding cutting down the forest/disc golf course area makes a lot of sense. Maybe move the existing skate park to Windskill (easier access for youth that way).
Screen Name Redacted 5/24/2024 01:09 PM	Perhaps renovate the existing pool structure and build a lanes pool at SDRC.

Screen Name Redacted 5/24/2024 02:27 PM	No baseball expansion.
Screen Name Redacted 5/24/2024 04:47 PM	Put it on the old spot
Screen Name Redacted 5/24/2024 06:28 PM	Please put the pool at the South Delta Rec Centre and save the mature trees at this park.
Screen Name Redacted 5/24/2024 06:34 PM	The a new intersection at 10 Ave would mean carving a road right through the existing park and paving over existing green space. I advocate for keeping the existing entrance at 9 Ave. An intersection at 10 Ave would also mean 5 traffic lights between 8A and 12th Ave.
Screen Name Redacted 5/24/2024 06:34 PM	I strongly support “option 1 - west” . This is the only option that maintains any of the remaining forested area within the park. Tsawwassen is lacking in forested green space and I opposed to losing what is left of the trees as would be the case if options 2 and 3 are pursued.
Screen Name Redacted 5/25/2024 11:28 AM	I don’t really care. I presume you’ll make the best choice for the neighborhood.
Screen Name Redacted 5/25/2024 12:26 PM	I think a version of site 1 is the best option. I think it would be a big mistake to locate the building towards 56th Street. The overall site is darker to that back corner and the powerlines are there, therefore keeping the oudoor usage areas away from the back part of the property towards the brightest part of the park seems the most sensible option.
Screen Name Redacted 5/25/2024 02:15 PM	Northern orientation puts it closer to Future high density developments. Still very perplexed by the perceived necessity to have over 350 car parking spaces. Seems to be no consideration to have less. Have considerations been made for charging for parking? With residential Development coming to Tsawwassen mall area free parking there will probably be a thing of the past why should the municipality provide hundreds of free overflow parking spots.
Screen Name Redacted 5/25/2024 06:42 PM	No addition of a new intersection

Screen Name Redacted 5/25/2024 08:23 PM	Please consider the best site. Do not rush process or planning. Look at all available land in Tsawwassen.
Screen Name Redacted 5/26/2024 08:42 AM	Keep the disc golf course and green space
Screen Name Redacted 5/26/2024 04:08 PM	City of Delta needs to seriously consider underground parking. The new structure should be several stories tall (at least 2 levels). Above ground parking is a poor use of space.
Screen Name Redacted 5/26/2024 04:12 PM	I don't support any of these options as it looks like you are proposing to cut down the trees for parking and baseball and replace the disc golf course with pavement, which does not support Delta's urban tree strategy and CEEP or Council's support for enhanced recreation and sports infrastructure.
Screen Name Redacted 5/26/2024 08:54 PM	Move whole project to Delta Rec Centre.
Screen Name Redacted 5/26/2024 09:17 PM	- For options North and South it would offer the best opportunity to keep the disc golf/ forested areas - Underground parking should be considered to reduce the amount of parking lot that will take up the space that could be better used for fields, playgrounds and nature. It will also reduce the heat impact that pavement has on the city and climate
Screen Name Redacted 5/27/2024 12:09 AM	South Delta Rec centre area.
Screen Name Redacted 5/27/2024 02:34 PM	None of the three options include disc golf. The disc golf course should be protected and preserved. This is the only course in Delta. And it is the first course in Canada. It is a special heritage site.
Screen Name Redacted 5/27/2024 06:16 PM	Why not the north west corner beside the kinvillage building?
Screen Name Redacted 5/27/2024 06:53 PM	I know that some arguments have been put forward to move the facility to the South Delta Rec/Community Centre (SDRC). I don't agree. The centre of town is right here (56@12), not at the SDRC, and will become increasingly so when the new Century project is completed.

Screen Name Redacted 5/27/2024 09:54 PM	Option 2 but instead of a new ball diamond leave the trees
Screen Name Redacted 5/27/2024 10:31 PM	I don’t want to see any tree removals in the outdoor areas
Screen Name Redacted 5/28/2024 10:53 AM	No
Screen Name Redacted 5/28/2024 03:47 PM	Winskill should be moved to the South Delta Recreational Facility . Relocate the skate board park , the outdoor arena etc. and put everything under one roof or one administration
Screen Name Redacted 5/28/2024 05:56 PM	I would ask about the feasibility of underground parking like at Edmonds pool in burnaby in addition to the 350 spaces.
Screen Name Redacted 5/29/2024 06:37 AM	none
Screen Name Redacted 5/29/2024 09:17 AM	None of the above that removes the oldest disc golf course in Canada or disrupts the natural forest. None.
Screen Name Redacted 5/29/2024 05:01 PM	Keep the park. Close the facility and rebuild on existing footprint.
Screen Name Redacted 5/29/2024 10:46 PM	In order to maintain the established green space and discover golf course, divert funding to Pebble Hill park and redevelope the area there to include more diamonds.
Screen Name Redacted 5/30/2024 08:52 AM	Entire facility relocated to current SDRec centre area
Screen Name Redacted 5/30/2024 12:52 PM	Wait until we can locate it better. Adding it to the rink and south delta rec would be great! What about building up at winskill? I get more parking is needed but not at the expense of loosing disc golf or fields.
Screen Name Redacted 5/30/2024 01:56 PM	Please keep as much of the mature trees in Winskill Park as possible.

Screen Name Redacted 5/30/2024 02:12 PM	I'll be honest, it's somewhat difficult to decipher the maps without current fields noted. I think the disc golf area is prime for redevelopment considering that the majority of the trees are in poor condition. I also think the area south of the lawn bowling pitch could be better utilized.
Screen Name Redacted 5/30/2024 05:15 PM	Municipal owned land at South Delta Recreation Centre
Screen Name Redacted 5/30/2024 09:43 PM	Why not a multi story building with the pool at the ground floor. weights on the second and exercise machines on the 3rd and a cafe on the 4th
Screen Name Redacted 5/31/2024 02:05 PM	South Delta Rec. has been suggested. It is the only location which can handle the amount of parking you are suggesting/requiring
Screen Name Redacted 5/31/2024 03:34 PM	Double layered parking lot, maybe flex rooms for other groups in the building.
Screen Name Redacted 5/31/2024 11:13 PM	just preserve the green space and use other fields in Town or build fields somewhere else, why is taking out the forest even an idea?
Screen Name Redacted 5/31/2024 11:44 PM	I would think it would be better if all the parking is closer to the pool where the option 2 or 3 is. It will be a way from the residential and more visible to the public.
Screen Name Redacted 6/01/2024 01:22 AM	Personally, I would like to see the new building located in the back (west) of the park. Having the field beside the road is more aesthetically pleasing.
Screen Name Redacted 6/01/2024 11:25 AM	Any option is acceptable.
Screen Name Redacted 6/01/2024 11:54 AM	I would suggest putting the new aquatic center at the south delta rec center. If the parking lot were converted to a tier parkade there would be plenty of space. Further the common green spaces of Winskill, forest, walking trails, disc golf etc could be improved and enhanced- not compromised.

Screen Name Redacted 6/01/2024 11:59 AM	Move the facility to the current South Delta Rec location
Screen Name Redacted 6/01/2024 10:00 PM	The location should be easy in and out from 56 street. probably will need a second intersection for all the choices if it's going to be a huge facility.
Screen Name Redacted 6/01/2024 11:01 PM	I would avoid a big parking lot and new street in the middle of the park. This would ruin the character of the park.
Screen Name Redacted 6/02/2024 06:01 AM	Are you crazy another intersection/lights onto 56th street!! You can't drive thru Tsawwassen now. Try for another exit out and off if 56th street.
Screen Name Redacted 6/02/2024 02:08 PM	Option 1 is good but I am in favour of more tree removal if we could get some inside or outside space for racket sports
Screen Name Redacted 6/03/2024 09:15 AM	south delta rec center if there is space
Screen Name Redacted 6/03/2024 11:54 AM	I would want to reduce the impact of parking on the park.
Screen Name Redacted 6/03/2024 12:06 PM	The trees around the disc golf course need to be saved. The new site should east of the old site
Screen Name Redacted 6/03/2024 02:58 PM	I have heard others suggesting move to South Delta REc Centre and I want to note that I am NOT in favour of that option. The location in the Town Centre is the correct location, because it is closest to the most residents in Tsawwassen where it is now.
Screen Name Redacted 6/03/2024 03:54 PM	If this is a feasible location why not locate the pool at a revamped South Delta Rec. Center..does the city of Delta own the land directly east behind the existing facility? Parking at Winskill is already a major issue and how are you going to facilitate that without totally destroying the parklike setting that exists on the west and south side now?
Screen Name Redacted 6/03/2024 04:10 PM	Add on to the rec centre at 18th & 56th?

Screen Name Redacted 6/03/2024 06:08 PM	Frankly I like the suggestion to better utilize the current South Delta Rec Centre site, but other than that, I don't have a preference.
Screen Name Redacted 6/03/2024 06:53 PM	move the disc golf to the forested city property at the NE corner of 56th St and 6th Avenue
Screen Name Redacted 6/03/2024 08:03 PM	Yes build it down by the South Delta Rec Centre
Screen Name Redacted 6/04/2024 09:32 AM	I would prefer a solution where the park on the west side currently used for disc golfing stays as untouched as possible
Screen Name Redacted 6/04/2024 01:17 PM	Not in terms of location, but I am hoping that multi-story construction has been considered to minimize footprint.
Screen Name Redacted 6/04/2024 01:29 PM	No
Screen Name Redacted 6/04/2024 02:01 PM	None of these options is acceptable. All require significant destruction of our park, the heart of our community. At a time when people worldwide are looking to enhance green spaces and plant more trees, it is unconscionable that our city would seek to do the opposite.
Screen Name Redacted 6/04/2024 03:27 PM	Please consider using the South Delta Recreation area as it is would be a good alternative to Winskill.
Screen Name Redacted 6/04/2024 04:47 PM	I am only in favour of option #1
Screen Name Redacted 6/04/2024 06:12 PM	No
Screen Name Redacted 6/04/2024 09:36 PM	None of the options are favorable. Why can’t this facility be located at SDRC? Winskill is such a beautiful park. Traffic is already heavy as is.
Screen Name Redacted 6/04/2024 10:40 PM	I am not really fussy about where it is. Just build it where it can be the most versatile and reasonable cost.

Screen Name Redacted 6/04/2024 11:40 PM	I would also add a covered area for indoor baseball training
Screen Name Redacted 6/04/2024 11:43 PM	My concern is that you build enough parking. With the ball diamonds and soccer fields being used for multiple sports and the pool users sharing the same lot, parking is often an issue. There just isn't enough.
Screen Name Redacted 6/05/2024 08:02 AM	Underground parking and keep the trees
Screen Name Redacted 6/05/2024 09:30 AM	There is absolutely no need for 350 parking spaces! Get real! Stop taking out natural features to provide ecologically horrible parking spots. Climate crisis anybody?
Screen Name Redacted 6/05/2024 10:01 AM	Pool should be relocated to the Delta rec centre More parking and on bus route
Screen Name Redacted 6/05/2024 10:50 AM	present an option that does not include finding a new space for the disc golf course
Screen Name Redacted 6/05/2024 01:27 PM	I do not want to see any of the forested area lost
Screen Name Redacted 6/05/2024 01:35 PM	I think the building needs to be along 56 st for best access, less issue of noise pollution and safety issues for the outdoor space users. There also needs to be more access to the park as it is very limited right now. The entra lanway coming in near the lawn bowling makes a lot of sense for access and parking. No one can park at winskill and the business and resident neighbours can attest to this, along with all of the people attending the site for activities.
Screen Name Redacted 6/05/2024 02:35 PM	Leave winskill where it is
Screen Name Redacted 6/05/2024 03:29 PM	Consider some or partial underground parking options in order to preserve/maintain more green space/forested area on the site.
Screen Name Redacted	A revised plan that preserves the enire historical, recreation,

6/05/2024 09:24 PM	ecological and inclusive forested green space. This could be achived by reducing new parking spaces to encourage public transit and car sharing. Also the facility could be built is a simular space and in steps, where the pool.could be done first, and recreation programs could be moved to the recreation centre.
Screen Name Redacted 6/05/2024 11:03 PM	yes - option #1 and make four fields like softball city with backstops in the center
Screen Name Redacted 6/05/2024 11:58 PM	No new ideas, but if there's improvements make them on option one, to save most trees.
Screen Name Redacted 6/06/2024 12:47 AM	Can we pave a walk way inside the park so that pedestrians don't get too close to the ~60km/h traffic flying down 56th? We can also allow some bike lanes to enter the city centre without being on the main road.
Screen Name Redacted 6/06/2024 09:39 AM	Expand the other rec center
Screen Name Redacted 6/06/2024 10:14 AM	Moving it to ice rink location and maintaining Winskill as more of a green/treed space in the heart of tsawwassen
Screen Name Redacted 6/06/2024 10:46 AM	Its important to keep the trees and not add a new intersection
Screen Name Redacted 6/06/2024 07:04 PM	No interrupting 56th!!!!!! It would disrupt the flow of traffic even worse - think of the south lands and highschool.
Screen Name Redacted 6/07/2024 12:20 AM	Why are the diagrams of the bldg different shapes? Does the building design change depending on location?
Screen Name Redacted 6/07/2024 12:46 AM	Place baseball fields like softball city with backstops using option #1 as the starting point and could potentially get a 5th diamond or backstop south of current lawn bowling
Screen Name Redacted 6/07/2024 09:04 AM	No

Screen Name Redacted 6/07/2024 09:20 AM	Unsure
Screen Name Redacted 6/07/2024 09:28 AM	All season field for baseball / soccer / lacrosse training
Screen Name Redacted 7/01/2024 08:42 AM	Batting cages, covered training
Screen Name Redacted 6/07/2024 10:43 AM	I would remove all possibility of changing the flow of traffic. 56th is essential that cars keep moving - I understand if you do not live near there or have not been in town very long it can be hard to imagine such a small road gets SOOO much traffic but it does and with the Southlands being on the left and Tsawwassen being on the right we can not have this intersection or double turn option.
Screen Name Redacted 6/07/2024 10:49 AM	No
Screen Name Redacted 7/01/2024 08:42 AM	What is happening with the forest and trees? This is not clearly stated in your plans
Screen Name Redacted 6/07/2024 11:18 AM	No
Screen Name Redacted 6/07/2024 12:01 PM	Disc golf course and old, large trees need to be maintained
Screen Name Redacted 6/07/2024 12:59 PM	No
Screen Name Redacted 6/07/2024 10:11 PM	Would need to review full site layout and more details than provided in the survey before making an informed decision on site location.
Screen Name Redacted 6/08/2024 02:30 AM	It seems to me that the option 1 would be the less damaging for the trees and plants, but I leave this for the engineers and people who know about construction issues; my utmost concern is for the trees and the environment. If creating a new field, building or parking will mean cutting the trees, this is my option: Do it in another area, where no trees have to be sacrificed!.

Screen Name Redacted 6/08/2024 11:23 AM	Can you please provide details on any assessments conducted on relocating Winskill Pool to the rec centre area?
Screen Name Redacted 6/08/2024 02:18 PM	Yes. That's doesn't require cutting down any trees.
Screen Name Redacted 6/08/2024 03:23 PM	I would be totally against removing any trees/forestation for any options.
Screen Name Redacted 6/08/2024 04:52 PM	I just don’t want to see the old trees taken down for this. So I’m okay with whatever makes best sense and preserving these old trees. I live behind the forest and it would be devastating for them to be cut down.
Screen Name Redacted 6/08/2024 09:02 PM	West is best, as long as the treed area with the paths can be preserved (or recreated nearby)
Screen Name Redacted 6/09/2024 06:23 AM	Cutting trees and removing the disc golf area seem extreme. Move baseball and save green space.
Screen Name Redacted 6/09/2024 08:13 AM	Any option that does not disturb the current disk gold area.
Screen Name Redacted 6/09/2024 09:18 AM	Maintain trails and trees
Screen Name Redacted 6/09/2024 04:06 PM	Next to the SDRC, to incorporate all amenities in one place
Screen Name Redacted 6/10/2024 01:55 PM	In the west option, move the pool further west and eliminate the parking on that side to provide a more aesthetic view looking out to the west from the pool.
Screen Name Redacted 6/10/2024 03:42 PM	Maybe a 2 storey, no reason why meeting rooms, administration etc can’t be above the pool. Which would be more economical to maintain? 1 very large single story or a smaller 2 story building with the pool & gym on the first floor. Could parking be a stand alone 2 storey garage? Don’t know what that would cost.
Screen Name Redacted	I would build the new aquatic centre adjacent to or behind the South

6/10/2024 06:37 PM	Delta Rec Centre. I saw this suggested in the Optimist and I think it is a MUCH better idea. There is a lot more space to work with and it wouldn't require cutting down a significant number of old growth trees and completely rearranging and ruining the current Winskill park. There is also already a very large existing parking lot at this location, with other spaces in the back and along the sides. There are numerous issues with the above suggested options, certainly none of them are ideal.
Screen Name Redacted 6/11/2024 12:40 AM	I favour the option that allows for the most landscaping/trees, and the most stormwater runoff infiltration into those green spaces.
Screen Name Redacted 6/11/2024 09:58 AM	No. I would say just maybe re-think the plan of slowing traffic on 56th.
Screen Name Redacted 6/11/2024 11:48 AM	North just makes the most sense for preserving greenspace
Screen Name Redacted 6/11/2024 06:57 PM	At south delta rec centre. This is easily accessible by car, transit and on foot. It would not impact the disc golf, baseball or trees at winskill and allow for an integrated sports facility with the rink and basketball courts. Also, no changes to streets, like a new intersection needed.
Screen Name Redacted 6/11/2024 07:59 PM	Move disc golf to diefenbaker park
Screen Name Redacted 6/11/2024 10:31 PM	Grauer Park near the South Delta Recreation Centre might be another possible option. It would make the area like a one stop shop for the arena/gym and aquatic centre. Ladner has a similar set up.
Screen Name Redacted 6/12/2024 12:16 AM	The City is already proposing to spend roughly $130M on this project. Why not consider acquiring new nearby land to construct the aquatics and fitness centre and expand the overall park without taking away the other park amenities from other users? Even if this increased cost, I could see this being more appealing if other park uses (i.e., greenspace) were not infringed on. Alternatively, the City should consider reconstruction in the existing footprint with underground or roof parking to increase outdoor park space and minimize impact to other user groups. Also, the City should consider what could be added to South Delta Rec Centre to offset community amenity use and avoid a substantial expansion at this park.

Screen Name Redacted 6/12/2024 02:38 PM	I support any option that preserves the green space as it is.
Screen Name Redacted 6/12/2024 03:04 PM	I would look at not adding an intersection if that is possible it just seems kinda silly tout one on 56th. I use the disk golf in the summer but those can be put anywhere so as long as one is eventually put in that's grand.
Screen Name Redacted 6/12/2024 03:23 PM	Don’t relocate the facility into the green space.
Screen Name Redacted 6/12/2024 08:05 PM	Move to south delta recreation centre to preserve the forested area.
Screen Name Redacted 6/13/2024 08:14 AM	The disc golf course needs trees and obstacles. It cannot just be "moved" as no where else on site provides this diverse terrain.
Screen Name Redacted 6/13/2024 04:51 PM	I don’t want the trees removed at the frisbee golf with any option!! There are not many big trees left in Tsawwassen and it seems horrible to take these down!!
Screen Name Redacted 6/13/2024 05:21 PM	No new diamond, keep trees
Screen Name Redacted 6/13/2024 07:58 PM	As stated before, it should be located at SDRC. Paving over a park is unacceptable. Taking down all the trees is unacceptable.
Screen Name Redacted 6/14/2024 09:26 AM	Staff should be driving this decision, not the public. The public does not understand the scope or complexities of the project. If program continuity is a requirement during construction staff should ensure that it occurs in a way that least impacts the new build
Screen Name Redacted 6/14/2024 12:46 PM	Yes. We need a 50 metre pool in Delta.
Screen Name Redacted 6/14/2024 07:57 PM	I would suggest using the existing parking lot and the teen centre area as you lay down area and not destroying the forest in the back of the park that to me is ridiculous and cannot happen. What I think is important when determining

Screen Name Redacted 6/14/2024 08:17 PM	Please save the disc golf course and protect our local history! Rearrange the ball fields to accommodate the new facilities
Screen Name Redacted 6/14/2024 11:01 PM	I think we should retain all the trees, especially after there was a tree planting program implemented a few years ago. Maybe the community could handle the inconvenience of demolishing the pool and building the new one where is current existing one is.
Screen Name Redacted 6/14/2024 11:49 PM	1. Maintain the SW area in Option 2 for trees and a new version of the Disk Golf. 2. Option 2 involves the least amount of relocating the baseball diamonds. 3. It would be essential to have 10th Avenue as an access route with that number of cars, otherwise 9th Ave would become unlivable for the residents.
Screen Name Redacted 6/15/2024 02:09 PM	why do all three options include the fourth ball diamond which, at this point, is only a possibility for consideration before all information has been gathered to determine whether or not another field is needed?
Screen Name Redacted 6/16/2024 03:58 PM	No
Screen Name Redacted 6/16/2024 04:39 PM	No road through the middle of the park.
Screen Name Redacted 6/16/2024 10:29 PM	Buy up land on 56th and 9th south of existing park area and build new aquatic centre there. Another option is buy land on 53a that backs onto Winskill park and place aquatic center there. Put the parking under the power lines.
Screen Name Redacted 6/16/2024 11:21 PM	1. Create a covered multi-sport turf area with lights which can be used for baseball, soccer, and aquatic dry-land training. It would also help serve the growing female field-hockey/lacrosse teams. 2. Install lights on all the playing fields to allows for extended training and games, especially during spring and fall months. 3. Upgrade safety netting between fields for player, spectator, and park user safety. I have been hit twice by fly balls. It is just a matter of time before someone is critically injured. 4. Create mew space for concessions, storage, and change room/washroom facilities.
Screen Name Redacted 6/17/2024 09:30 AM	no more intersections added to 56th please!!!!

Optional question (198 response(s), 384 skipped)
Question type: Essay Question

Q25 What do you think is important when determining the location? What influenced the selection of your preferred option?

Screen Name Redacted 5/07/2024 08:02 PM	The size in the north option is the biggest and has the most availability and easy to access off 56th.
Screen Name Redacted 5/07/2024 08:17 PM	Leave the trees. Ttown is becoming rare to find a cluster of trees.
Screen Name Redacted 5/07/2024 08:43 PM	Easy access off 56th
Screen Name Redacted 5/07/2024 09:19 PM	Safety of school children and local cross walks
Screen Name Redacted 5/08/2024 07:44 AM	There is a serious lack of parking at Winskill. Young Families have for ages had serious issues and trying to bring their kids to the pool or pick up at Boys and Girls Club.
Screen Name Redacted 5/08/2024 11:30 AM	Less lights along 56th street. The light at 9th is insane and so slow.
Screen Name Redacted 5/08/2024 01:03 PM	Currently sitting in the hot tub overlooking the field and occasional sunset with the trees is very nice and relaxing. It would be a shame to lose this feature. Thus I believe that option 1 is the best one to allow for this to be retained.
Screen Name Redacted 5/08/2024 01:49 PM	Least amount of changes to intersections and less money spend on that.
Screen Name Redacted 5/08/2024 01:52 PM	Ease of use for all people, soccer , baseball, and winskill
Screen Name Redacted 5/08/2024 02:23 PM	It's important to me that additional intersections are NOT added as to further disrupt traffic flow. An in and out lane would be fine but I would be against new traffic lights.

Screen Name Redacted 5/08/2024 04:30 PM	Traffic in and out should be main concern. Use of existing centre during construction also a concern.
Screen Name Redacted 5/08/2024 09:08 PM	Sunlight and home run size
Screen Name Redacted 5/08/2024 09:35 PM	Space for a fourth diamond that takes into consideration the sun in the eyes of the players when playing in the field. It makes the game very difficult with diamonds facing East.
Screen Name Redacted 5/09/2024 06:42 AM	Parking accessibility, minimal loss of trees, not to close to 56th street
Screen Name Redacted 5/09/2024 12:41 PM	Traffic. parking, more people in the area, not too close to the houses backing the park, being able to be more visible from 56th street
Screen Name Redacted 5/09/2024 03:47 PM	The least disruption to traffic on 56th. I don't think adding another light is necessary and should be avoided.
Screen Name Redacted 5/09/2024 03:55 PM	ease of in and out
Screen Name Redacted 5/09/2024 04:05 PM	I rarely ever see the lawn bowling or disc golf being issued but the baseball diamonds are often occupied. I think prioritizing those while minimizing disruption to the current flow of traffic is import.
Screen Name Redacted 5/09/2024 04:15 PM	car flow through the park is not ideal with kids/families. prefer option 1 to keep as much older trees as possible
Screen Name Redacted 5/09/2024 05:08 PM	impact on traffic and green space
Screen Name Redacted 5/09/2024 05:18 PM	baseball diamond allocation and keeping the construction zone condensed so fields and parking can still be accessible during construction
Screen Name Redacted	I like the North option as this would be right on bus route and also

5/09/2024 05:29 PM	close enough to town center that folks could walk and not need to drive. The old lawn bowling as a flex spot perhaps a good idea. I
Screen Name Redacted 5/09/2024 05:39 PM	Ease of access by public transport.
Screen Name Redacted 5/09/2024 05:56 PM	None
Screen Name Redacted 5/09/2024 06:24 PM	Less impact to wildlife and environment
Screen Name Redacted 5/09/2024 07:03 PM	Think of the environment and the long term impacts of this development. Offset it with major contributions to nature.
Screen Name Redacted 5/09/2024 07:33 PM	least impact on current park
Screen Name Redacted 5/09/2024 09:21 PM	I'm strongly against adding an additional traffic light.
Screen Name Redacted 5/09/2024 09:39 PM	No new access/light. Not dividing the park with an access road. Preserving trees in the current disc golf course.
Screen Name Redacted 5/09/2024 10:04 PM	Avoid adding another light to 56th street
Screen Name Redacted 5/10/2024 12:23 PM	Easy walk to lots of housing.
Screen Name Redacted 5/10/2024 03:04 PM	Making it accessible and easy to get to. I have to walk or take a bus so if it is in the North section it is closer to a bus stop.
Screen Name Redacted 5/10/2024 03:39 PM	No new traffic intersection/access point needed for the West option.
Screen Name Redacted 5/10/2024 04:41 PM	I think it might be best to avoid another intersection on 56th St..
Screen Name Redacted	Keeping the trees like is suggested in option 1 is of the utmost

5/10/2024 05:09 PM	importance to me. I would be very upset to see them gone.
Screen Name Redacted 5/10/2024 06:45 PM	Ease of getting in and out
Screen Name Redacted 5/10/2024 11:22 PM	Maximize field space. Close to main road for easy access , walking , bus , cycle
Screen Name Redacted 5/10/2024 11:45 PM	keeping the fields together.
Screen Name Redacted 5/11/2024 12:45 PM	Minimize the extend of change and minimizes costs
Screen Name Redacted 5/11/2024 12:53 PM	leaving a greater area of the park open to the possibility of planting trees again.
Screen Name Redacted 5/11/2024 07:09 PM	preservation of trees and the homes they provide for wildlife that live there.
Screen Name Redacted 5/12/2024 09:24 AM	There is a brand new scoreboard that was just installed on the main diamond. That would be a huge waste of money to rip it out after <1 year if putting the rec centre in option 3 location.
Screen Name Redacted 7/01/2024 08:34 AM	Option 1 requires no rebuilding of an intersection, only relocates disc golf which is the same problem in the other two options.
Screen Name Redacted 5/13/2024 01:10 PM	no ball diamonds need to be relocated (extra cost) not additional traffic control needed.
Screen Name Redacted 5/13/2024 01:16 PM	The preferred option 1 keeps cars out of the areas where people are exercising and breathing heavily. Less opportunity for pedestrians crossing parking lots to use fields. Spend money on the facility rather than a new intersection. Keeps traffic moving on 56th instead of adding another light. Preserves the green sports space as a pedestrian area only. Not so chopped up.
Screen Name Redacted 5/13/2024 03:05 PM	Least cost

Screen Name Redacted 5/13/2024 03:20 PM	Convenience is key ... having the skating, swimming, fitness, and other civic amenities in one location would make it more convenient. There is more land to provide parking as well and it can be integrated into transit hub facilities.
Screen Name Redacted 5/13/2024 08:58 PM	Keeping the forested green space and trail.
Screen Name Redacted 5/13/2024 10:39 PM	Traffic. The new Kin centre building and utilizing the space most efficiently.
Screen Name Redacted 5/13/2024 11:11 PM	I think it’s aesthetically more pleasing to keep the building farther back from 56th Street.
Screen Name Redacted 5/14/2024 01:58 AM	I didn't select as it appears you are going to destroy the forest part of the grounds.
Screen Name Redacted 5/14/2024 12:05 PM	the option 1 which saved the trees, also no drive way effect the kids activity, also the option 1 less cost If I account right.
Screen Name Redacted 5/14/2024 08:38 PM	Option West is the only one which preserves some of the forest. Both of the other two eliminate it, which I strongly disagree with. As noted above, cutting the park in half with an extension of 10 Ave. is not acceptable. And the park doesn't need a 4th diamond. While I applaud the emphasis on sport for our young people, we also need to recognize that the older generations also require leisure spaces in the park, and they need to be maintained (the forest, the open fields)
Screen Name Redacted 5/15/2024 02:29 PM	Parking , easy street access. NO traffic jams during busy peak times.
Screen Name Redacted 5/15/2024 10:46 PM	protect open sight lines, existing Ball fields, the playground , the Turf field and Soccer fields. The park setting would be ruined with a massive building and parking lot anywhere along 56th street. Central parking is a good idea for all users which also favours the West option.
Screen Name Redacted 5/15/2024 11:14 PM	It doesn’t interfere with the existing fields and the disc golf course is a waste of space… and is ever only used by a small group of grown

	men who just drink and smoke weed…
Screen Name Redacted 5/16/2024 09:49 AM	Incurring unnecessary additional cost Site preservation
Screen Name Redacted 5/16/2024 10:36 AM	Least impact to existing site (trees, fields, etc.)
Screen Name Redacted 5/16/2024 12:24 PM	The two access to the parking lot is great! I also really like the proximity of the North layout to both the lawn house and Kin Village - I think the closer, the better.
Screen Name Redacted 5/16/2024 12:25 PM	Need light at tenth especially for those that walk/cycle
Screen Name Redacted 5/16/2024 01:30 PM	More efficiency in vehicular traffic flow. Outdoor playable areas are open to maximum sunlight. A well designed building and landscaping located close to the main roadway will be more visible and a source of community pride.
Screen Name Redacted 5/16/2024 05:06 PM	Impact of too much parking space (of which there is so much that it will not encourage public transit, biking or walking to the facility). Parking also impinges on the forested walk on the west side of the park in all three options presented.
Screen Name Redacted 5/16/2024 07:06 PM	noise of ongoing operations and construction least impacting on nearby residents allows parking to include the commercial are of Tsawwassen in addition to that in the park
Screen Name Redacted 5/17/2024 10:27 AM	Optimize parking and minimize infrastructure changes to streets to maximize funds for main building.
Screen Name Redacted 5/17/2024 12:59 PM	Least amount of impact to the community if possible with emphasis on easy access in and easy access out of the parking and street areas by vehicle even during peak times.
Screen Name Redacted 5/18/2024 11:48 AM	The most important consideration is any effect on ecology. We are expanding and increasing density in our town and green space will be more important and valuable than ever.

Screen Name Redacted 5/18/2024 12:05 PM	All options come at the cost of much needed greenspace
Screen Name Redacted 5/18/2024 12:12 PM	Maximizing what little green space. Natural habitats Tsawwassen has
Screen Name Redacted 5/18/2024 12:20 PM	Delta should not be losing any more green space, especially with the massive population increase to come.
Screen Name Redacted 5/18/2024 12:56 PM	The most important thing is to not lose more community park and outdoor space. Tsawwassen is on a peninsula and has limited park/outdoor space and once it’s developed it’s gone forever.
Screen Name Redacted 5/18/2024 01:07 PM	Being a lifelong resident here and enjoying our parks I don’t want to see it go.
Screen Name Redacted 5/18/2024 01:08 PM	The forested area in the south and west of the park is one of the only accessible wooded areas in Tsawwassen and home to disc golf.
Screen Name Redacted 5/18/2024 01:09 PM	Continue current usage, parking restrictions
Screen Name Redacted 5/18/2024 01:11 PM	Accessibility. SDRC is much more accessible.
Screen Name Redacted 5/18/2024 01:16 PM	Leave green space available,not much park land left
Screen Name Redacted 5/18/2024 01:39 PM	I think that the park is perfect the way it is. No expanded changes need to be done.
Screen Name Redacted 5/18/2024 02:38 PM	Southern exposure provides you the best solar exposure for EV / solar water heating. This would allow you to leave the existing forest. I don't however like loosing more land by having more car entrances?
Screen Name Redacted 5/18/2024 03:07 PM	keep old trees and forest walk therein; there is no need for another baseball diamond

Screen Name Redacted 5/18/2024 03:12 PM	Budget
Screen Name Redacted 5/18/2024 03:20 PM	Accessibility to people North of Winskill. Road access is not sufficient. Put it at the Rec centre.
Screen Name Redacted 5/18/2024 10:54 PM	That no trees are knocked down and the disc golf course is not disrupted
Screen Name Redacted 5/19/2024 04:13 PM	the disc golf course is important ..
Screen Name Redacted 5/20/2024 10:05 PM	1- facility is accounting for needs of community in years to come (capacity, parking, etc) and is designed for efficient and effective construction and maintenance 2- avoid need to change intersections etc 3-do not like the third option because it introduces a new road within the Winskill fields compound which substantially increases the danger for young kids playing near the fields. Young siblings are often on the sidelines and it needs to be a safe and contained area for roaming and play.
Screen Name Redacted 5/21/2024 10:59 AM	All of these options will destroy the forest.
Screen Name Redacted 5/21/2024 12:33 PM	I don’t like the idea of a new intersection
Screen Name Redacted 5/21/2024 01:37 PM	Maximizing space efficiency for playing fields. The current location does not accomplish this and the three presented options are still not as efficient as they could be. If this is going to be a $150M+ project, let's get it right - even if that means recognizing past planning mistakes.
Screen Name Redacted 5/21/2024 01:51 PM	Option 1 needs less re-arranging, option 2 requires yet another intersection on 56th street, and option 3 requires all 3 ball diamonds relocated
Screen Name Redacted 5/21/2024 07:00 PM	Location matters for me on what works best for least amount of disturbance for creating these new parking spots and moving feilds. As well as what would have the best view while working out.

Screen Name Redacted 5/21/2024 07:04 PM	use the same building envelope
Screen Name Redacted 5/21/2024 07:04 PM	leave the old growth forest.
Screen Name Redacted 5/21/2024 10:39 PM	Lower cost of not having as many things moved around so more money spent on the actual facility. Not adding another intersection on 56th St. Keeping some existing trees.
Screen Name Redacted 5/22/2024 08:07 AM	Away from the main road
Screen Name Redacted 5/22/2024 09:53 AM	Maintenance of the forests is the most important thing in my opinion.
Screen Name Redacted 5/22/2024 09:54 AM	Coach at the Main Winskill Diamond Maintaining our field without it needing to be moved would prevent us from needing to relocate for 2 years (Delta Blue Jays) - Option 3 would force that to happen which would be unfortunate.
Screen Name Redacted 5/22/2024 12:26 PM	The new building should be sited on and address 56th street. The north location is closest to the centre of town and feels more grouped with institutional and office buildings than the southern option. While pedestrian access could be from more than one point, the 56th building face should be inviting and welcome people even though the parking is on the other side. Improvements are needed to pedestrian routes especially on 56th St. The sidewalk should be widened and moved to the other side of the street trees to improve comfort and change the focus from traffic to park. Great pedestrian amenities will encourage people who are close enough to walk rather than drive.
Screen Name Redacted 5/22/2024 12:10 PM	Traffic, accessibility to transit and long term planning
Screen Name Redacted 5/22/2024 03:40 PM	Proximity to the road and keeping the lights the same. 56th already had SO many lights, we don't need ot add another one.
Screen Name Redacted 5/22/2024 04:09 PM	save the ball fields and maximize open space...I think that is what Chris Winskill would prefer

Screen Name Redacted 5/22/2024 07:14 PM	No preference The less street work required, the better (added cost and inconvenience).
Screen Name Redacted 5/23/2024 07:18 AM	Keeping the old trees
Screen Name Redacted 5/23/2024 11:47 AM	A building placed along 56th would make the viewing areas too close to traffic to be enjoyable as a fan and also close in the driving corridor and make 56th less visually appealing. It's lovely to drive the main road and see parks and trees along the roadway
Screen Name Redacted 5/23/2024 01:19 PM	Preservation of pre existing land and forest
Screen Name Redacted 5/23/2024 01:38 PM	Multiple entry and exit points to the parking lot with traffic controlled intersections on 56th.
Screen Name Redacted 5/23/2024 08:51 PM	Do the new pool and amenities need to be in the current Winskill area at all? why not consider next to the SD Rec Centre - consolidate all indoor recreation in one location there. Bonus that the SD Rec Centre is better served by transit. Then Winskill could be all outdoor recreation and maintain the disc golf and forested area. More trees and paths and even the 4th diamond could then be added. It could really then be "Winskill Park"
Screen Name Redacted 5/23/2024 10:37 PM	I like the building contained with the new lawn bowling and parking.
Screen Name Redacted 5/23/2024 10:43 PM	No supplemental or incremental road access costs!
Screen Name Redacted 5/23/2024 10:47 PM	The cost. Option 1 means there is no need to spend money on road changes.
Screen Name Redacted 5/24/2024 02:40 AM	Accessibility to as many people as possible, including people without cars or who don't drive.
Screen Name Redacted 5/24/2024 08:56 AM	Avoid impact to existing forest and disc golf. Additional baseball diamonds not neeeded. More parking is critical for Windskill.

Screen Name Redacted 5/24/2024 09:42 AM	Option 1 depicts the least amount of disruption.
Screen Name Redacted 5/24/2024 02:05 PM	Walking distance from high school in Tsawwassen
Screen Name Redacted 5/24/2024 02:27 PM	the most important is the size of the pool, lounge and community centre. Baseball is unimportant.
Screen Name Redacted 5/24/2024 04:41 PM	Walking distance from schools for the kids after school
Screen Name Redacted 5/24/2024 06:08 PM	Retention of as much of the trees and forest as possible.
Screen Name Redacted 5/24/2024 06:28 PM	Option one is the only one that saves ANY trees. Parks should save mature trees.
Screen Name Redacted 5/24/2024 06:34 PM	Option 1 seems to be the least invasive and keeps the park intact. The other options cut the park in half and pave over too much green space. The back of Winskill park (disc golf) is an important area to walk and enjoy the trees and quiet green space. There are not many of those areas left in Tsawwassen and the area should be preserved. Disc golf itself is an active, informal, unstructured activity which should be encouraged. I would hate to see the beautiful mature trees removed for the sake of a big parking lot. Why does the new Windskill need 350 parking spaces? I would like to see more parking for e-bikes and regular bicycles and less for vehicle parking. OPTION 1 SEEMS TO BE THE LEAST INVASIVE PLAN.
Screen Name Redacted 5/24/2024 06:34 PM	A) retaining Trees B) not altering the traffic pattern on 56th street or adding additional traffic controls along 56th street. C) fewer alterations to the overall configuration of the park.
Screen Name Redacted 5/24/2024 07:23 PM	Another light on 56 St is unnecessary
Screen Name Redacted 5/24/2024 07:40 PM	I would sacrifice aestetics vs functionality. I think it is better to have an useful place rather than a nice (for view) building

Screen Name Redacted 5/24/2024 08:27 PM	Keep as many trees as possible
Screen Name Redacted 5/25/2024 09:39 AM	I don’t want to lose all the valuable green space.
Screen Name Redacted 5/25/2024 11:28 AM	I would say to minimize disruption to residents and don’t increase traffic on residential streets immediately surrounding the site.
Screen Name Redacted 5/25/2024 12:26 PM	Manintain as much of the trees as possible and maintain the open space on 56 st.
Screen Name Redacted 5/25/2024 02:15 PM	Has the greatest potential to have the most number of people access without Crossing massive parking lots
Screen Name Redacted 5/25/2024 03:08 PM	Keeping trees and disc golf area
Screen Name Redacted 5/25/2024 06:42 PM	No new intersections!
Screen Name Redacted 5/25/2024 07:51 PM	don't want another light on 56th avenue
Screen Name Redacted 5/25/2024 08:23 PM	We need to maintain fields for play. So best place is a site which allows for this expansion without taking away valuable field space.
Screen Name Redacted 5/25/2024 11:10 PM	That it is on 56th street making it more visible as an important pillar in the community
Screen Name Redacted 5/26/2024 08:42 AM	Only one intersection crossing 56
Screen Name Redacted 5/26/2024 11:23 AM	It’s sad we will get rid of the trees
Screen Name Redacted 5/26/2024 11:38 AM	Closest to the center

Screen Name Redacted 5/26/2024 04:08 PM	I would like the green area (i.e. the trees and grassy area) to be affected as little as possible.
Screen Name Redacted 5/26/2024 04:12 PM	Protecting the disc golf course and trees are the key determinants in my decision.
Screen Name Redacted 5/26/2024 05:45 PM	The disc golf course needs to remain as is. Or, be improved and relocated somewhere else in Tsawwassen.
Screen Name Redacted 5/26/2024 06:14 PM	Disc golf
Screen Name Redacted 5/26/2024 08:54 PM	Fauna,no deforestation.
Screen Name Redacted 5/26/2024 09:17 PM	I liked that the North option resulted in the fewest relocations of the ball diamonds and it allowed for more of the natural green space to remain untouched by the development.
Screen Name Redacted 5/27/2024 12:09 AM	Ensure the current facility can keep operating throughout the construction process.
Screen Name Redacted 5/27/2024 10:57 AM	Access directly off the main road and having the building visible from 56th - it will be beautiful I'm sure so no point in tucking it away.
Screen Name Redacted 5/27/2024 02:34 PM	Protecting the wooded green space and the disc golf course is my preferred option. But no proposal so far treats any of that space as important.
Screen Name Redacted 5/27/2024 06:16 PM	Maximizing the entire site for future community growth
Screen Name Redacted 5/27/2024 06:53 PM	Option 1 would seem to minimize disruption for neighbours and avoid the need for 1. a new intersection at 56 & 10th and 2. replacing one of the existing ball diamonds. It is unfortunate that the disc golf has to move, but under no option does it remain.
Screen Name Redacted 5/27/2024 09:08 PM	Easy entry and exit from parking

Screen Name Redacted 5/27/2024 09:54 PM	The trees
Screen Name Redacted 5/27/2024 10:31 PM	See a ove
Screen Name Redacted 5/28/2024 10:53 AM	Less disruption to everything.
Screen Name Redacted 5/28/2024 03:47 PM	my preferance is to Option 2 because sguare and rectangular buildings cost less. Option one would be a nightmare in terms of cost
Screen Name Redacted 5/28/2024 04:00 PM	Least amount of having to overhaul spots more environmentally friendly
Screen Name Redacted 5/28/2024 05:56 PM	Not affecting the mature Forrest area is essential to the new planning as well as adding additional tree and natural, native, non invasive, non seasonal garden space to increase the drawdown and biodiversity of our current park
Screen Name Redacted 5/28/2024 07:08 PM	Disruption to current pool users and field users during construction. West location seems to have the least impact.
Screen Name Redacted 5/28/2024 10:43 PM	It’s important to me that the 13u field remain where it is. It has special value given its history.
Screen Name Redacted 5/29/2024 06:37 AM	parking proximity to building, least disturbance to current houses, no moving of existing fields
Screen Name Redacted 5/29/2024 07:57 AM	Limited disruption to an already overly busy baseball area
Screen Name Redacted 5/29/2024 08:08 AM	Preserving as much park land as possible.
Screen Name Redacted 5/29/2024 09:17 AM	See above

Screen Name Redacted 5/29/2024 03:56 PM	Ease of access as well as flexibility in the building size. Bigger is better with our growing population. Keeps a lot of the existing ball fields.
Screen Name Redacted 5/29/2024 05:01 PM	Keep the latk
Screen Name Redacted 5/29/2024 06:54 PM	I think it's important to keep as many of the trees that are currently on the site there. They are old growth and essential to Tsawwassen tree canopy.
Screen Name Redacted 5/29/2024 07:20 PM	Fields close to 56th
Screen Name Redacted 5/29/2024 10:24 PM	Parking - electric charging - safe bicycle parking
Screen Name Redacted 5/29/2024 10:46 PM	Lesser of the evils, none are ideal at Winskill, without a cost to the natural environment of the park.
Screen Name Redacted 5/30/2024 03:09 AM	The addition of new roads makes it seem cumbersome
Screen Name Redacted 5/30/2024 06:55 AM	Factoring in the tree cover on the west side of Winskill Park, allowing the fields to get the most exposure to sun and dryness by placement east and having the building west.
Screen Name Redacted 5/30/2024 08:52 AM	Transportation. Located away from main residential areas single fam dwellings. Existing parking is in place
Screen Name Redacted 5/30/2024 11:50 AM	As little impact to traffic /roads as possible to keep costs down.
Screen Name Redacted 5/30/2024 12:52 PM	None of the options seem any different than each other. Where are the out of the box options?
Screen Name Redacted 5/30/2024 01:56 PM	Minimize destruction of existing trees in park.

Screen Name Redacted 5/30/2024 02:12 PM	See above.
Screen Name Redacted 5/30/2024 03:03 PM	Option A has preserves the trees while still allowing a 4th diamond. The intersection at 10th Ave is already very challenging and options B and C would make it a dangerous intersection.
Screen Name Redacted 5/30/2024 04:51 PM	All amenities should be close together. We back into the parking lot so option 2 seems to be less intrusive to the neighbours
Screen Name Redacted 5/30/2024 05:15 PM	1. It is easily accessed by transit at the South Delta Exchange. 2. This location would allow a centralization of administration for both the pool and Recreation Centre. 3. It would leave Winskill Park for field sports and stop the need to take out any trees.
Screen Name Redacted 5/30/2024 07:18 PM	Having 4 baseball/softball diamonds, additional parking, no new intersections on 56th Street are all important considerations in my opinion
Screen Name Redacted 5/30/2024 09:30 PM	Least impact on current green space including the forest which needs to be preserved as much as possible. Keep construction out of the way of the current facility. Add a second entrance and exit but make it a right turn in an out only. Do not add another light on 56th. For the concerns about kids and traffic, use fences or other barriers to prevent kids from running onto the the roadway.
Screen Name Redacted 5/31/2024 09:05 AM	Keeping the disc golf is important. It is a great family sport and no cost for all people! Keeping the park feel is important. Always a nice walk around the outside of the park along the disc golf course. Good for dog walkers too.
Screen Name Redacted 5/31/2024 02:05 PM	Pick the location which more people can walk to.
Screen Name Redacted 5/31/2024 03:34 PM	Construction time, affect on sports that use the outside areas, parking
Screen Name Redacted 5/31/2024 11:13 PM	saving and preserving this rare forest that are very limited , how is it even part of the plan, its beyond my understanding in this day and age how the forest is not the priority , we can keep the forest and build the pool and create new fields and keep the first 9 hole basket

	course in Canada for an ever growing sport.
Screen Name Redacted 5/31/2024 11:44 PM	Option 2 & 3 is visible to the public and away from residential areas and we can keep the beautiful forest.
Screen Name Redacted 6/01/2024 01:22 AM	Mainly how it looks in terms of being on the land and the potential parking situation.
Screen Name Redacted 6/01/2024 11:25 AM	Less cost for temporary infrastructure while new facility being built
Screen Name Redacted 6/01/2024 11:30 AM	Whatever costs the least to create. Don’t think we need to renovate everything outside if there are already fields there.
Screen Name Redacted 6/01/2024 11:54 AM	Preservation of Tsawwassens forests and common green spaces - I’m not referring to playing fields
Screen Name Redacted 6/01/2024 11:59 AM	The most important factor is keeping as many trees and natural green space as possible. Tsawwassen has already lost so much. The city has said that most of the current forest area is dead/dying or diseased, so why not regenerate it?? Planting trees in a parking lot is not the same! Instead of making a huge parking lot why not make a tiered parking lot to allow for more natural green space where kids, families and seniors can enjoy the outdoors without having to compete for space with baseball players and other organized sports events.
Screen Name Redacted 6/01/2024 01:16 PM	children's safety, less disruption to community as whole
Screen Name Redacted 6/01/2024 03:11 PM	Preservation of more forest. Least disruption to residential areas. Easier access off 56 Street. Full intersection at 56 street and 10 ave rather than right in / right out.
Screen Name Redacted 6/01/2024 11:01 PM	See above. I prefer the least disruptive options.
Screen Name Redacted 6/01/2024 11:50 PM	Foot print and parking

Screen Name Redacted 6/02/2024 05:37 AM	Nothing really. The removal of disc golf was present in all 3 options. That is the main concern.
Screen Name Redacted 6/02/2024 02:01 PM	Limiting the effect on traffic on 56st in the long run and effect on recreation in the short run.
Screen Name Redacted 6/02/2024 02:52 PM	Parking
Screen Name Redacted 6/02/2024 03:12 PM	Traffic
Screen Name Redacted 6/02/2024 03:58 PM	Limiting traffic flow
Screen Name Redacted 6/02/2024 07:23 PM	Less disruptive
Screen Name Redacted 6/02/2024 09:50 PM	The facility fronting 56 is more attractive to showcase new facility and already near the current intersection.
Screen Name Redacted 6/02/2024 10:41 PM	Keeping as many trees and not having a road and parking cut the park in half.
Screen Name Redacted 6/03/2024 11:49 AM	Accessibility
Screen Name Redacted 6/03/2024 11:54 AM	Avoid dividing the par with parking lots down the middle or requiring cars to drive through the park. Keep cars to the perimeter/corners, and allow pedestrians/bikes/athletes/kids to run around within the park without having to cross parking lots.
Screen Name Redacted 6/03/2024 12:06 PM	Save the trees!!!!
Screen Name Redacted 6/03/2024 12:28 PM	Ease of access from the main street
Screen Name Redacted	We like that option 1 has more green and tree space. We don't want

6/03/2024 12:43 PM	to die.
Screen Name Redacted 6/03/2024 01:10 PM	Seems like West is the least impactful - but I can't really get my head around all the trade offs from the options...
Screen Name Redacted 6/03/2024 02:32 PM	Traffic flow along 56 will only be worse if 10 th is opened up. It is already unmanageable. This would make it even more so
Screen Name Redacted 6/03/2024 02:58 PM	I like that in option 1, most of the existing treed space is preserved, and no new roads are needed.
Screen Name Redacted 6/03/2024 03:26 PM	I am not sure if I have enough information or understand the diagrams well enough to make an informed decision. But I am in favour of being able to keep the majority of the sports field and existing baseball fields as is, for cost saving, for preserving the existing ambience and for minimizing environment impacts.
Screen Name Redacted 6/03/2024 03:42 PM	Cost, parking, minimize disruption to all impacted services
Screen Name Redacted 6/03/2024 04:10 PM	Parking, a place large enough to grow with community
Screen Name Redacted 6/03/2024 06:53 PM	no extra intersection
Screen Name Redacted 6/03/2024 08:03 PM	The rec Centre is a better location as the green spaces at Winskill are maintained or even enhanced also the buses and other housed rec facilities would be adjacent to the new Pool
Screen Name Redacted 6/03/2024 08:14 PM	Having 2 access roads in and out makes sense.
Screen Name Redacted 6/03/2024 08:15 PM	I think it is better away from the commercial area next to the lawn bowling. Adequate parking should be very close to centre.
Screen Name Redacted 6/03/2024 08:59 PM	would like to see as many trees kept as possible

Screen Name Redacted 6/03/2024 10:27 PM	No movement of baseball diamonds and no new intersection = funds to use elsewhere
Screen Name Redacted 6/04/2024 09:32 AM	Keep as much green space untouched for recreational use of residents
Screen Name Redacted 6/04/2024 10:51 AM	I prefer the West option because I think it has a better location for parking that doesn't intersect the park
Screen Name Redacted 6/04/2024 12:45 PM	The addition of a new intersection. We have more than enough of those, and I would prefer the intersections to say the same
Screen Name Redacted 6/04/2024 12:58 PM	parking availability for all sports that use the field and winskill pool
Screen Name Redacted 6/04/2024 01:17 PM	Least additional work to the existing fields and roadways.
Screen Name Redacted 6/04/2024 01:29 PM	Not affecting wooded area and frisbee golf
Screen Name Redacted 6/04/2024 02:01 PM	See above. Not one of the options is acceptable.
Screen Name Redacted 6/04/2024 03:27 PM	I didn't choose any of the options as they all involve destroying the green space associated with Winskill.
Screen Name Redacted 6/04/2024 04:47 PM	The least amount of disruption to the current facilities and the access and egress options.
Screen Name Redacted 6/04/2024 06:12 PM	Option for the 4 diamond or other recreational activities.
Screen Name Redacted 6/04/2024 07:07 PM	Save as much of current disc golf forested area as posisble
Screen Name Redacted 6/04/2024 09:36 PM	It is important to consider that parking is going to be an issue when multisports events are occurring simultaneously. None of the locations are ideal. Think outside the box. Why is the city focusing on

	Winskill only?
Screen Name Redacted 6/04/2024 10:11 PM	Don’t want the parking lot to be directly adjacent to 56th.
Screen Name Redacted 6/04/2024 10:40 PM	Building. An be larger on the west side.
Screen Name Redacted 6/04/2024 11:11 PM	Intersection needs to be able to turn both ways to get in and out of park. Rec center needs its own parking and the fields need their own parking
Screen Name Redacted 6/04/2024 11:40 PM	Adding a fourth baseball diamond and maximizing parking
Screen Name Redacted 6/05/2024 12:08 AM	The open space next to 56th is nice, it would be good to try and keep the open feel of the area. There are already a large number of intersections and traffic lights along 56, I would prefer not to add an additional one so close to the existing crossings.
Screen Name Redacted 6/05/2024 08:02 AM	None since the trees get cut
Screen Name Redacted 6/05/2024 08:28 AM	Honestly I am open to all of the options that would keep the current poop open until the new site is done construction
Screen Name Redacted 6/05/2024 09:30 AM	Tsawwassen only has 2 roads in - please do not choose to create roadwork chaos on the main artery.
Screen Name Redacted 6/05/2024 10:01 AM	Leaving the trees in place
Screen Name Redacted 6/05/2024 10:50 AM	Disc golf course should stay with all the mature trees surrounding it
Screen Name Redacted 6/05/2024 01:00 PM	Proximity to residential neighborhoods should be considered
Screen Name Redacted 6/05/2024 01:35 PM	Safety Access Noise Lease obstructive to current park site The U18 ball diamond is such a part of our town and it feels fitting to pass by

	and see it where it is with its new score board (I think there needs to be netting to keep balls inside though)
Screen Name Redacted 6/05/2024 02:35 PM	As little disruption as possible
Screen Name Redacted 6/05/2024 02:50 PM	Not having to build a new access road and not having a road run through the middle of the park.
Screen Name Redacted 6/05/2024 03:29 PM	The option that disrupts the current forested area the least.
Screen Name Redacted 6/05/2024 05:40 PM	Parking and cost
Screen Name Redacted 6/05/2024 06:19 PM	I like the single access point to parking
Screen Name Redacted 6/05/2024 06:45 PM	Can kids access the pill and park spaces including baseball and soccer without having to cross the parking lot or roads
Screen Name Redacted 6/05/2024 09:24 PM	The preservation of as much forsted green space as possible.
Screen Name Redacted 6/05/2024 09:40 PM	I liked the options that sounded like it was less change/less expensive. I was also considering the layout/location as a parent who might have young kids. It might be a good idea to keep the cars/traffic on the outside of the park like in option 1. Instead of adding traffic driving straight through the park. (The soccer field/baseball diamonds.) We're at the field 3 times per week with kid sports; it's not uncommon for us to walk from the soccer field to go over to the park or over to the baseball diamond. Our young kids often run ahead.
Screen Name Redacted 6/05/2024 11:03 PM	keep everyone playing when building new aquatic center
Screen Name Redacted 6/05/2024 11:58 PM	I like having the open area near 56th
Screen Name Redacted	better accessibility from the street, occupying a near-main-road space

6/06/2024 12:47 AM	that can potentially make the neighbourhood and park quieter since the building can shield/absorb street noise.
Screen Name Redacted 6/06/2024 09:39 AM	Loss of wild, green space. Increased traffic on 56th. Public transport access
Screen Name Redacted 6/06/2024 10:14 AM	Maintaining as much as possible of the shady, forested, trail area, and green space, where you can enjoy being in nature and walk away from traffic noise. Not adding more intersections to 56 street. Not surrounding the lawn bowling with noisy roads.
Screen Name Redacted 6/06/2024 10:30 AM	Retention of trees, no additional intersection on 56th
Screen Name Redacted 6/06/2024 10:46 AM	the lack of tree removal and no new intersection
Screen Name Redacted 6/06/2024 06:17 PM	Keeping parking spaces to a minimum. Reducing impact to nature.
Screen Name Redacted 6/06/2024 07:04 PM	Protecting the trees and keeping cars moving.
Screen Name Redacted 6/06/2024 08:39 PM	Least disruptive
Screen Name Redacted 6/06/2024 11:24 PM	Spend $ on facility not intersections
Screen Name Redacted 6/07/2024 12:20 AM	Keep the building back from 56 St. so maybe there could be a “quiet” garden space/ courtyard or something, plus no intersection reconstruction needed. Make a more people friendly connection to bike lane and walking paths connecting to new town centre rather than prioritizing cars. There should still be another controlled cross walk around 10th and 56th though.
Screen Name Redacted 6/07/2024 12:46 AM	Cost and functionality of the new field placements
Screen Name Redacted 6/07/2024 09:04 AM	Extra field

Screen Name Redacted 6/07/2024 09:06 AM	Cost
Screen Name Redacted 6/07/2024 09:20 AM	Final product of facility, but also the nuisance of construction upon the existing facility. I like west option, but I'm worried it will be a bottleneck of construction.
Screen Name Redacted 6/07/2024 09:28 AM	Reasoning behind this, is there is proper configuration of the park happening, and we can ensure that the association receives new fields and ammenities for years to come.
Screen Name Redacted 6/07/2024 09:40 AM	Adding 4th diamond, adding covered training area for all sports. More parking
Screen Name Redacted 7/01/2024 08:42 AM	4th baseball diamond, more parking
Screen Name Redacted 7/01/2024 08:42 AM	4th diamond, covered training, more parking
Screen Name Redacted 6/07/2024 10:26 AM	Options 2 and 3 seem to be a better use of space than option 1. Option 3 seems to leave a more unobstructed view of the whole park, vs option 2 where the building would feel too close to the lawn bowling and turf, cutting off the baseball diamonds. Right in right out access seems to be more fluid and less traffic impacting than adding a full intersection.
Screen Name Redacted 6/07/2024 10:43 AM	I want our kids to be safe - Tsawwassen with more road rage is not safe. We have kids walking up and down to get to the high school and they should not be put at more risk. Again, I understand it can be ahrd to imagine that the road gets really busy if you are new or do not use that road multiple times a day - every day but it does and we need to keep it as it is.
Screen Name Redacted 6/07/2024 10:49 AM	Cost and impact
Screen Name Redacted 7/01/2024 08:42 AM	It's hard to decide because there is no clear path to protect the forest and disc golf area

Screen Name Redacted 6/07/2024 11:15 AM	Least amount of construction impact
Screen Name Redacted 6/07/2024 11:18 AM	We want proper configuration to allow maximum use and growth potential
Screen Name Redacted 6/07/2024 12:01 PM	Maintaining wooded areas as much as possible; optimizing baseball diamond layout
Screen Name Redacted 6/07/2024 12:31 PM	adding another entry point from 56th street to eliminate the bottle neck that happens when there are multiple sport events happening at the park and pool on the same weekend.
Screen Name Redacted 6/07/2024 12:59 PM	No
Screen Name Redacted 6/07/2024 03:39 PM	The west option is least favourable to allow proper configuration
Screen Name Redacted 6/07/2024 04:03 PM	Keeping the other 3 fields operating during construction
Screen Name Redacted 6/07/2024 06:10 PM	Traffic flow. Minimum disruption to other park users
Screen Name Redacted 6/07/2024 07:30 PM	new facilities are needed and would benefit our association and the future growth of baseball in our community”.
Screen Name Redacted 6/07/2024 08:45 PM	Where the population is
Screen Name Redacted 6/08/2024 02:30 AM	As I said above, keeping nature alive, which is equal to keeping humans healthy and alive. Clearing of trees is not.
Screen Name Redacted 6/08/2024 09:45 AM	The option for a 4th field.
Screen Name Redacted	Important to grow the baseball areas. Frisby Golf should also be

6/08/2024 11:23 AM	maintained as much as possible.
Screen Name Redacted 6/08/2024 11:40 AM	Lack of parking currently and proper field layout is important
Screen Name Redacted 6/08/2024 02:18 PM	Trees and wildlife.
Screen Name Redacted 6/08/2024 03:23 PM	As above. Leave the wooded area as is. We need to keep the trees.
Screen Name Redacted 6/08/2024 04:52 PM	I don't really care how it's done. Just save the trees. I love that you're keeping the current burning open also. Love that for my kids.
Screen Name Redacted 6/08/2024 06:53 PM	Aesthetically, having the park open to view from 56th is desirable to me. Feels like adding another big building on the 56th side would reduce the openness of the town and the feeling of openness of the park.
Screen Name Redacted 6/08/2024 09:02 PM	We really enjoy the forested space for walks with the kids and dog. Please keep!!
Screen Name Redacted 6/08/2024 09:42 PM	The trees
Screen Name Redacted 6/09/2024 12:41 AM	I think we should keep streets out of the park.
Screen Name Redacted 6/09/2024 01:06 AM	Better access to facility and parking
Screen Name Redacted 6/09/2024 08:13 AM	The importance should be not disturbing the green space and tree area that is currently there. If space is limited then add the fitness and weight area down by the ice rinks where there is more space and have just a smaller pool facility at the current location.
Screen Name Redacted 6/09/2024 08:22 AM	not disrupting traffic flow
Screen Name Redacted	Accessibility of traffic with a second entrance

6/09/2024 09:18 AM	
Screen Name Redacted 6/09/2024 11:11 AM	Please maintain our greenspace
Screen Name Redacted 6/09/2024 04:06 PM	I don't like any of the suggested location options, because all involve felling the trees currently supporting the disc golf course. So a move to SDRC would seem preferable
Screen Name Redacted 6/09/2024 10:43 PM	Cost effective and efficient use of space. An option that is the most beneficial to Baseball fields.
Screen Name Redacted 6/10/2024 12:16 PM	Traffic flow
Screen Name Redacted 6/10/2024 01:31 PM	Need to maximize outdoor field space (for baseball, and soccer) to accommodate our rapidly growing population.
Screen Name Redacted 6/10/2024 01:55 PM	The west location is overall the best location, and it facilitates a better view looking out from the pool glassed in areas looking out. Most pools are built to take advantage of the surrounding scenery, rather than to look at a parking lot or a busy street. The north and south location are very limited in this respect.
Screen Name Redacted 6/10/2024 03:42 PM	I was at one of the information sessions at the field house .The construction manager was asked about each site. #1 needs pilings because of the soil, forget that. #2 is good, I only wish it would have right in/ right-out, a drop off location, rather than another traffic light. #3 sounds really expensive as all the services have to be moved including the new scoreboard.
Screen Name Redacted 6/10/2024 04:05 PM	Keeping the trees, and the building away from 56. But if it’s better for the ball diamonds to be away from 56 for safety then the other options are also fine. Consider the orientation of the fields to minimize fly balls hitting cars in the lot
Screen Name Redacted 6/10/2024 06:37 PM	The most Important thing to me is preserving the forest and green space. You can’t get those back once you ruin them. The park is so nice as it is, and I use it to walk my dog through the forest and on the grass very often. Maintaining the baseball fields is also important.

Screen Name Redacted 6/11/2024 12:40 AM	Please see reply in 24.
Screen Name Redacted 6/11/2024 09:58 AM	Understanding that 56th is BUSY and that we need to keep it moving (coming from someone who uses it multiple times a day)
Screen Name Redacted 6/11/2024 10:53 AM	Previous work done was at a cost. If it's relocated it was a waste of tax payers money
Screen Name Redacted 6/11/2024 11:48 AM	Existing infrastructure
Screen Name Redacted 6/11/2024 06:57 PM	Accessibility, capacity and impact on green space.
Screen Name Redacted 6/11/2024 07:59 PM	proximity to my house
Screen Name Redacted 6/11/2024 10:31 PM	I think it’s important not to impede the view of the baseball/soccer fields and greenspace from 56th Street. One of the nicest things is driving past Winskill Park and seeing the wide open space, green grass and kids playing sports. My preferred option was selected because It seems the least invasive, retains a larger portion of the existing forest, and does not require the construction of a new intersection at 10th Avenue which will disrupt the flow of traffic (ie would add yet another traffic light!). Also my preferred choice does not require relocating ball diamonds so is much less disruptive there as well and I think the parking situation is better. I think my preferred option (West) would be a better setup for community events like Sunfest as well. Finally, it seems like the West option would also be the most cost effective due to not having to put in a new intersection or relocate ball diamonds.
Screen Name Redacted 6/12/2024 12:16 AM	None of them are preferred, but in my opinion, the most important aspect of the park is the greenspace, so the locations that are farthest away from those areas would be preferred. There are already numerous baseball diamonds in the community, so if something had to be taken away to accommodate the new construction, I'd prefer it be loss of baseball than greenspace.
Screen Name Redacted	The indoor space of the building should be maximized. I would vote

6/12/2024 10:56 AM	for whichever option(s) will allow the most space. That said, Tsawwassen has a lot of stop lights, so I prefer we not add another one.
Screen Name Redacted 6/12/2024 02:38 PM	Again, the green space is paramount, and could be converted into something very special with the addition of a walking path.
Screen Name Redacted 6/12/2024 03:04 PM	I think keeping the trees is really important because they are big beautiful old trees which house lots of birds and provide shade. I also think we do not need an intersection at all.
Screen Name Redacted 6/12/2024 03:23 PM	The fact that the forested area by winskill (disc golf) is home to many wild animals and species of birds. Cutting through the forest would destroy the habitat of these animals. There are also residents that have houses facing the forested area as well, and they wouldn't appreciate the years-long construction and traffic of the facility.
Screen Name Redacted 6/12/2024 08:05 PM	Keeping trees and green space at existing location. Consolidate with other recreational facilities at south delta recreation centre.
Screen Name Redacted 6/12/2024 10:01 PM	Very small group uses disc golf and they are back there drinking and smoking drugs all the time. Area is poorly kept and and not usable or suitable for families. Keep the fields that are used by way more people And families and retain green space on 56th.
Screen Name Redacted 6/12/2024 10:22 PM	Minimize the loss of mature trees
Screen Name Redacted 6/13/2024 08:14 AM	Not adding another light on 56th street
Screen Name Redacted 6/13/2024 04:51 PM	I think the south location will impact the traffic the least: makes most sense to have building on main road and more fields off the road. No now intersection required.
Screen Name Redacted 6/13/2024 07:58 PM	The plan will destroy a park used by many folks not just athletes. It is a place of refuge when the temperatures soar. Winskill Park should be for everyone to use. There is almost no bus service to this location. Doubling the parking space makes absolutely no sense in a park and at the expense of trees.

Screen Name Redacted 6/13/2024 10:27 PM	Keep the large trees, minimize paving in the grassy areas
Screen Name Redacted 6/13/2024 10:43 PM	The current disc golf course is the first in the country. I strongly feel it should be left as is. If anything, money should be allocated to upgrading it in its current location.
Screen Name Redacted 6/14/2024 11:33 AM	Moving further away form 56 street
Screen Name Redacted 6/14/2024 07:57 PM	Determining the location is an important decision. To be totally honest with you and I put a lot of thought into this. You should not even be considering destroying the forest in the back of the park. It's definitely not the end of the world to have no pool for a little while while you build a new one, let's be honest here if you guys destroy this forest in the back of the park, it will be a complete disaster for the community.
Screen Name Redacted 6/14/2024 08:17 PM	SAVE THE DISC GOLF COURSE! Save local history!
Screen Name Redacted 6/14/2024 09:41 PM	Separation from the Lawn bowling facilities and Artificial turf which are already busy at peak times almost every weekend during season.
Screen Name Redacted 6/14/2024 11:01 PM	The park, with all the trees is my dogs favorite park in town. The disc course has a community/club that will be disbanded if the park is leveled. Winskil is our central park, and home to wildlife as well. There is a duck couple that returns every spring.
Screen Name Redacted 6/14/2024 11:49 PM	TREES, DISK GOLF, ACCESSIBILITY, Baseball is a very seasonal sport while walking through the woods is a daily event with or without dogs.
Screen Name Redacted 6/15/2024 07:48 AM	Maintain present sports fields but make new facility as large as possible on disk field site. Perhaps two levels high with possible underground parking.
Screen Name Redacted 6/15/2024 11:57 AM	Ease of entry/exit for vehicle traffic on/off 56th.

Screen Name Redacted 6/15/2024 03:32 PM	Safer area for children, like the green field along 56th rather then a building.
Screen Name Redacted 6/15/2024 03:56 PM	None of these options are sufficient. The forest area is the most important regarding this piece of tsawwassen land. The community utilizes this park.. and should be protected. There is no need to encroach on land and trees that have been a tsawwassen staple for years.
Screen Name Redacted 6/15/2024 04:00 PM	Do not disturb the forested area of the park.
Screen Name Redacted 6/16/2024 01:04 AM	Number 2 is the only one that keeps the trees and is least disruptive during the construction phase. A Different parking plan needs to be created.
Screen Name Redacted 6/16/2024 09:23 AM	Not adding another intersection at 56th and 10th ave. A controlled crosswalk would be more beneficial
Screen Name Redacted 6/16/2024 01:43 PM	Relocating the disc golf and losing green space would be devastating. Also as someone who lives nearby, construction for a new intersection would be really disruptive and frustrating to drive through every day.
Screen Name Redacted 6/16/2024 03:58 PM	The least amount of work required and impact to the facility.
Screen Name Redacted 6/16/2024 04:39 PM	Please prioritize the movement and safety (and experience) of people, instead of cars. This area is for people. Cars can always drive a little further. Additionally, generally speaking, dis-advantaged populations are less likely to drive.
Screen Name Redacted 6/16/2024 10:29 PM	Habitats loss. All suggested options poor. Buy up land. What is an extra $15 million when you plan to spend $130 + million . Expand the park, will need the extra space in the future since you are ramming the OCP down on us and there will be many more pressures on the park coming.
Screen Name Redacted 6/16/2024 11:21 PM	having 4 ball diamonds will ensure that our community is able to offer space to play for many years to come. We have great baseball and

	softball players in our community and having more fields will ensure these programs can be offered for many years to come! A new intersection at 10th avenue will also allow for better traffic flow and safety.
Screen Name Redacted 6/17/2024 09:30 AM	I don't want to see another traffic signal in 56 st.
Screen Name Redacted 6/17/2024 09:30 AM	no more intersections added to 56th please!!!
Screen Name Redacted 6/17/2024 09:40 AM	A well-equipped facility should be prioritized over an additional ball diamond.

Optional question (344 response(s), 238 skipped)
Question type: Essay Question

Q26 Do you have any other feedback to share?

Screen Name Redacted 5/07/2024 08:02 PM	So happy this is happening. Don't cheap out on size or amenities as the community is growing and there is an extreme need for this facility. Our family is heavy users of this facility and our use will increase with the additional amenities being offered. Do not do an 8 lane pool. It won't be enough.
Screen Name Redacted 5/07/2024 08:17 PM	Looking forward to what is decided upon. We need this facility improved.
Screen Name Redacted 5/07/2024 08:43 PM	Parking is crazy right now for all user groups. Do we have a sense of the number needed based on tournaments, swim meets (especially if the pool is better suited for competition we could see more meets being held here with more attendees).
Screen Name Redacted 5/08/2024 07:44 AM	Why do we need a brand new design? What about the West Vanderpool? Or any of the other amazing aquatic centre and fitness centres around the mainland can we not just reuse a design and save all that money and on design and spend it on expanding this center?
Screen Name Redacted 5/08/2024 11:30 AM	There are modular designs used in Europe to building recreational facilities, have we considered using some of them to save on design

	and construction costs. Build for our growing future because this building likely needs to last for the next 50 years.
Screen Name Redacted 5/08/2024 01:03 PM	I understand that it is impossible to please everyone. But their main needs can be properly addressed. Divide the research into age groups and focus on what they need and give everyone a piece of that. So at least we all get a little of what we want. Perhaps you are already doing that. The best part of the facilities for me is its convenience. It takes me close to no time to get there, parking is never an issue, slight line up to pay and swift process through the change rooms and onto the pool. Keep that easy simple flow from parking lot to relaxing and most will be continue to be happy with the place. Honestly I'm happy with how it is right now.
Screen Name Redacted 5/08/2024 01:49 PM	Squash courts please
Screen Name Redacted 5/08/2024 01:52 PM	Let's make this great! We need more than an "upgrade" we need to make this fitness facility "world class"!
Screen Name Redacted 5/08/2024 02:23 PM	I would possibly include an off-leash dog park for the proposal. Dogs often run on the fields and the great big wide open space would be great for people to play long fetch with their dogs.
Screen Name Redacted 5/08/2024 04:30 PM	Just make it awesome and do it quickly. Whatever plan leads to that outcome will be great!
Screen Name Redacted 5/08/2024 09:35 PM	lights for baseball fields, 1 turf baseball diamond for year round use, indoor space for batting and pitching training, a hub to gather around a awesome concession space that creates a sense of community for locals and users
Screen Name Redacted 5/09/2024 03:47 PM	Please find a new location for the disc golf course if it needs to be moved.
Screen Name Redacted 5/09/2024 03:55 PM	no
Screen Name Redacted 5/09/2024 05:08 PM	I hope feedback is actually considered rather than the "lip-service" given the OCP feedback

Screen Name Redacted 5/09/2024 05:18 PM	1. Adding another intersection would mean 4 stops within 2 city blocks on the busiest road in tsawwassen. keep the vehicle path coming off Ray Carter way and 8th or close off Ray Carter Way
Screen Name Redacted 5/09/2024 05:29 PM	The seniors outside activity equipment rarely used by 'seniors'. It is a play area mainly and I wonder if it could be removed! SINCE DELTA WILL BE SPENDING OVER $100,000 MILLION DOLLARS WHY NOT INCLUDE IN THE PLANS A SPACE AT WINSKILL ON WHICH A NEW LIBRARY COULD BE BUILT AND OWNED BY DELTA. THIS WOULD REDUCE THE NEED TO BE BEHOLDEN TO CENTURY HOLDINGS AND COULD MEAN REDUCED HEIGHTS OF BUILDINGS. YOU HEARD THE TSAWWASSEN RESIDENTS BE OPPOSED TO 17, 19, 21 AND 23 STOREY BUILDINGS IN THE TOWN CENTER WHICH WOULD MAKE THE DEVELOPER RICH, AS IT WOULD OFFER A LIBRARY FOR THE HIGH DENSITY PROPOSED. HAVING SUCH TALL BUILDINGS IN TOWN CENTRE AND PLACING ALL PARKING UNDERNEATH WOULD REALLY DESTROY THE CENTER OF TOWN.
Screen Name Redacted 5/09/2024 05:56 PM	I would really like the Library to be relocated to Winskill. It should be on Delta City property! I have always thought that if you could build a three or four story building, the library could have a beautiful space on the top floor with views to Boundary Bay! If you have ever been on the Ferris wheel during Sun Festival, there is a view! Also, I think we pay too much rent to have our library off Delta property!
Screen Name Redacted 5/09/2024 06:24 PM	Exciting times
Screen Name Redacted 5/09/2024 07:03 PM	Do not cut down any trees!!! Plant more trees!
Screen Name Redacted 5/09/2024 10:04 PM	Make the fitness class rooms big enough for at least 40 people.
Screen Name Redacted 5/10/2024 12:23 PM	Yes. Two cheap and easy features. First, tile the main pool with coloured lines crosswise as well as lengthwise to mark lanes. You might then not need rope barriers and so accomodate more swimmers per lane. Second, provide simple grab bars, like the barre in a ballet room, all the way down all possible walls, for the benefit of those of us with marginal mobility.

Screen Name Redacted 5/10/2024 03:04 PM	Thank you for including the residents in this decision.
Screen Name Redacted 5/10/2024 05:09 PM	I also think it is imperative to make sure the boys and girls club regains a space as it is invaluable for after school care for many people in our neighborhood.
Screen Name Redacted 5/10/2024 11:21 PM	Need to have good access for traffic. Maybe the right hand lane on 56th should only be to turn into Winskill and 9th. The two lanes turning into one after 8th can be a problem with people running lights, speeding to merge.
Screen Name Redacted 5/10/2024 11:45 PM	It will be wonderful to have a ew building.
Screen Name Redacted 5/11/2024 12:53 PM	perhaps consider adding a second story for club house space for groups such a cubs, guides or other groups or clubs.
Screen Name Redacted 5/13/2024 01:16 PM	Make the facility built to last in terms of capacity. Have many opportunities to have opening windows, walls, skylights for great natural ventilation. Provide areas for all ages and make sure there are adaptations for seniors and disabled people to use.
Screen Name Redacted 5/13/2024 03:20 PM	No towers in Tsawwassen.
Screen Name Redacted 5/13/2024 05:28 PM	I'm filling out this form because I seem to remember that when Sundgod Aquatic center was expanded years ago the cost for that expansion was paid for by those living in North Delta. If I am incorrect in that then please IGNORE this comment. But if I am correct, am I to expect that costs for this expansion will be paid for by those of Tsawwassen? If not why?
Screen Name Redacted 5/13/2024 08:58 PM	I don’t like either of the current three options above.
Screen Name Redacted 5/13/2024 10:39 PM	Disc golf could get moved to pebble hill park.
Screen Name Redacted 5/14/2024 01:58 AM	Are you really going to cut down all those trees?

Screen Name Redacted 5/14/2024 10:28 AM	We want to create something that will last a few generations for families. A facility like this will improve long term health both physically and mentally for our community.
Screen Name Redacted 5/14/2024 12:05 PM	try to use option 1 -west .
Screen Name Redacted 5/14/2024 08:38 PM	Option West requires the fewest changes, preserves the forest and provides considerable parking close to the new facility.
Screen Name Redacted 5/14/2024 10:55 PM	Pool would benefit alot from having water play area/ fun obstacle courses etc for kids to play.
Screen Name Redacted 5/15/2024 02:41 PM	Would be nice to have state of the art baseball features such as a batting cage.
Screen Name Redacted 5/15/2024 10:46 PM	People also use the Park for Walking, Jogging, Dog exercise and outdoor time. The only logical location would be somewhere along the Western end of the park. I don’t believe we should interrupt the existing open concept.
Screen Name Redacted 5/15/2024 11:14 PM	Don’t let Dylan Kruger take all the credit city staff!! You are the back bone of the city… not him.
Screen Name Redacted 5/16/2024 10:36 AM	Any consideration to separate facilities for aquatic and fitness? May fit existing site conditions better, but don't know impact to operations and budget.
Screen Name Redacted 5/16/2024 12:24 PM	That's it! Thanks for taking my feedback!
Screen Name Redacted 5/16/2024 01:30 PM	Design of the new building and environs should maximize energy efficiency along with well executed architectural features.
Screen Name Redacted 5/16/2024 05:06 PM	Preserve the current well-used forest walk on the west side of the park. It is a treasure, especially on hot summer days.

Screen Name Redacted 5/16/2024 07:06 PM	For safety, noise, and efficiency, entrance and exit should be one way only. Enter at 10th off 56th (signal light for entrance from the South). Exit only on 9th (right &/or left with signal light). Exit could possibly be 2 lanes onto 56th. This will be safer, Residents of 8b & 55 can enter their residences via 8a. Two houses on 9th can have single lane private access. By not building 4th diamond, disc golf and trees can be maintained
Screen Name Redacted 5/17/2024 10:27 AM	So glad we are doing a full rebuild as a Reno would not suffice for the ever growing/ changing community.
Screen Name Redacted 5/17/2024 12:59 PM	Build this with the idea that it will last 50-100 years, as to add or renovate for more space I. The future will be exponentially more expensive.
Screen Name Redacted 5/18/2024 11:48 AM	I see a lot of statements about conservation and environment yet I also see your plans include the destruction of green space.
Screen Name Redacted 5/18/2024 12:12 PM	Tsawwassen needs a disc golf course; there is a community that has been built over the last 30 years that has grown very strong. Without it, many members of your community would have nothing. I would be utterly and completely heart broken if the course was removed. I'm mentally preparing for the worst, but at the very least we need another piece of property to continue our love of the game
Screen Name Redacted 5/18/2024 12:56 PM	I am an avid softball player and disc golfer. It would be a shame to lose Deltas only disc golf course which happens to be the oldest disc golf course in Canada.
Screen Name Redacted 5/18/2024 01:08 PM	Please don't cut down the trees or alter the disc golf park.
Screen Name Redacted 5/18/2024 01:11 PM	Leave Winskill to be a green space/park. Tsawwassen needs this.
Screen Name Redacted 5/18/2024 02:38 PM	*** people may not notice the "slide" feature below while you are assessing unimportant to important (
Screen Name Redacted 5/18/2024 03:07 PM	it would be wonderful if bike riders did not use walkways, especially at speed.

Screen Name Redacted 5/18/2024 08:35 PM	Do not get rid of the disc golf course or cut down all the trees in the disc golf course!
Screen Name Redacted 5/18/2024 10:54 PM	Please save the disc golf park
Screen Name Redacted 5/19/2024 10:04 AM	It's completely and utterly heartbreaking that with these options you're essentially dismantling the Tsawwassen disc golf community. I've been playing at this course for over 20 years, I've gained life long friends, and I just want our community to be considered before making any further moves.
Screen Name Redacted 5/19/2024 04:13 PM	KEEP THE DISC GOLF COURSE
Screen Name Redacted 5/20/2024 10:05 PM	Go big. Build for the future.
Screen Name Redacted 5/21/2024 10:59 AM	Protect nature.
Screen Name Redacted 5/21/2024 01:37 PM	Only that we need to be careful not to over-serve small, specific user groups. Recent examples of this include an expensive new lawn bowling facility (which is often under-utilized,) and a significant piece of land set-aside for disc golf which, in my understanding, is used by a very small number of local residents. The city needs to hold developers to account when it comes to increasing stress on schools, parks, healthcare and other public services. The TFN should be building out this infrastructure to avoid taxing Delta and developments like the Southlands need to include parks, schools and other infrastructure in their applications.
Screen Name Redacted 5/21/2024 07:00 PM	Is there any possibility to move parking underground? That is a lot of space just for parking.
Screen Name Redacted 5/21/2024 07:04 PM	Tear down the old one, and build a new one where the existing one is
Screen Name Redacted 5/21/2024 07:04 PM	Leave the forest where the disc golf course is.

Screen Name Redacted 5/22/2024 09:53 AM	Please save the trees! The trees will help maintain a cooler temperature with Climate Change. Cutting down these trees will be a regrettable mistake in the very near future.
Screen Name Redacted 5/22/2024 04:09 PM	It would be a good idea to help out the disc golf people to relocate...it is used quite often, and is a nice area
Screen Name Redacted 5/23/2024 08:51 PM	The first parameter in our world of climate change and dwindling tree cover should be to maintain the forested area, replacing diseased trees as needed but in the same area. There are few forested areas to walk in our city and this should be treasured. Also the disc golf is extremely well used and co-exists very nicely with walkers...a multi-use area! And unlike baseball diamonds, the disc golf and walking path is used year round.
Screen Name Redacted 5/24/2024 02:05 PM	Keeping the tree as much as possible in the area is important. Hopefully the disc golf park will be keep wity lots of large tree over the course.
Screen Name Redacted 5/24/2024 02:27 PM	This community centre should be build for the community size we are expecting in 20 years, not remain too small for our current community size. Steam room and lounge should be considered above baseball.
Screen Name Redacted 5/24/2024 06:28 PM	What happened to the Winskill Park Urban Forest Regeneration Plan referred to in this article? https://www.delta-optimist.com/local-news/hundreds-of-trees-to-be-removed-replaced-at-tsawwassens-winskill-park-3817899
Screen Name Redacted 5/24/2024 06:34 PM	More trees should be planted to replace any that are cut down and trees and outdoor seating should be added so people not involved in organized sports are able to enjoy the park as well.
Screen Name Redacted 5/24/2024 06:34 PM	Strongly support option 1. I don’t find the other two options acceptable
Screen Name Redacted 5/24/2024 07:23 PM	Please include a walking/running path throughout the park and make sure that safe and clear connections are maintained to and from the park for pedestrians and cyclists (from 8A Ave townhouses, KinVillage (multiple locations), north to the Tsawwassen Town Centre,

	etc.
Screen Name Redacted 5/24/2024 08:27 PM	We really need this new pool for our growing town needs it. But we desperately need outdoor space that doesn't have to be for only one use that excludes people who don't play a sport or can't due to mobility or economic hardship.
Screen Name Redacted 5/25/2024 11:28 AM	Just indoor pickleball
Screen Name Redacted 5/25/2024 02:15 PM	Looking forward to the city improving this park. Just hoping we don't miss the park for the parking
Screen Name Redacted 5/25/2024 09:33 PM	I'd like to see squash courts added. As I age it's the best sport for longevity.
Screen Name Redacted 5/25/2024 11:10 PM	Including the boys and girls club that provides after school care, into the plans would be very important for many families in the community.
Screen Name Redacted 5/26/2024 04:08 PM	Underground parking instead of above ground parking. Pool area should be the 1st level. Then weight room and multi purpose rooms should be 2nd level. This should be a state of the art facility which will be modern for years to come.
Screen Name Redacted 5/26/2024 04:12 PM	Please do not displace Delta's only disc golf course with a baseball diamond or parking which can be accommodated in a different layout. Preservation of our disc golf course is clearly being missed here. With the removal of Winskill's disc golf course, you are taking away an accessible sport for all ages.
Screen Name Redacted 5/26/2024 05:45 PM	Save the disc golf!
Screen Name Redacted 5/27/2024 12:09 AM	The disc golf is very under utilized and kind of a sketchy area. Wouldn't be a big loss to the community if the new facility was built there.
Screen Name Redacted 5/27/2024 10:57 AM	This was a really well done form, thanks!

Screen Name Redacted 5/27/2024 01:28 PM	what is happening to the boys and girls club?
Screen Name Redacted 5/27/2024 02:34 PM	Please do not destroy the only disc golf course in Delta. Established green space, woods, trails are not replaceable. Disc golf is one of the most affordable sports a person can play. It is one of the fastest growing sports. It is a cheap family activity. It is a way to spend time in nature. It is the oldest course in Canada. Please protect our ability to participate in a healthy outdoor activity. The green space is invaluable and should be protected.
Screen Name Redacted 5/27/2024 06:53 PM	This is a terrific and timely initiative for the community. Thanks for the opportunity to provide input.
Screen Name Redacted 5/27/2024 09:54 PM	Don’t cut down the teees
Screen Name Redacted 5/27/2024 10:31 PM	Think there should be thorough consideration of moving pool to South Delta Recrestion Centre
Screen Name Redacted 5/28/2024 07:44 AM	Would love the new facility to have a wide slide like the richmond pool for parents and kids. Also a cold plunge pool, sauna, and steam room. The Richmond Facility also has much easier change rooms to use. Loe love to see something like that as well.
Screen Name Redacted 5/28/2024 03:47 PM	The location of the disc golf course is a disaster. It is a haven for drug and alcohol abuse by young people. More dogs have got sick or died because they have ingested opiods or other drugs. I would like the whole area levelled including all the trees
Screen Name Redacted 5/28/2024 04:00 PM	More adapted swimming options available ans for anxious kids too
Screen Name Redacted 5/29/2024 06:37 AM	This has been talked about for many years with no action. We all really hope this will be moving forward. I am concerned how long the current facility will be closed as my health and workouts are a top priority for myself and my family.
Screen Name Redacted 5/29/2024 09:17 AM	I feel that filling this out is a joke as this city council does not listen to the community

Screen Name Redacted 5/29/2024 03:56 PM	Very happy that this is happening. The community is growing extremely fast and this amenity is very much needed.
Screen Name Redacted 5/29/2024 05:01 PM	Keep the park and expand passive activity like footpaths.
Screen Name Redacted 5/29/2024 06:54 PM	Please actually listen to community feedback this time!! The feedback for the OCP was completely ignored!
Screen Name Redacted 5/29/2024 10:24 PM	??
Screen Name Redacted 5/29/2024 10:46 PM	N/a
Screen Name Redacted 5/30/2024 06:55 AM	Paved, covered, and lit walkways from the complex at 5377 8A Avenue. The muddy trails prevent easy and truly hassle-free access for residents nearby who enter Winskill Park from that corner.
Screen Name Redacted 5/30/2024 12:52 PM	As a resident I am not sold on the proposal. There doesn't seem to be significant upgrades or enhancements being done that will serve our community for the growing future.
Screen Name Redacted 5/30/2024 01:56 PM	Build the plan to support our community in future years, not just what its size and demographics are in 2024. Think big, Delta. Thank you
Screen Name Redacted 5/30/2024 02:12 PM	Is it possible to include below or above ground parking to reduce the paving footprint? Will electric car charging stations be included?
Screen Name Redacted 5/30/2024 03:03 PM	In Option A the disk golf could be in the trees, where it is partially now.
Screen Name Redacted 5/30/2024 05:15 PM	I have spoken to other people who use the Winskill Aquatic Centre, most have agreed that the new facility should be 50m not 25m knowing that it would be s higher cost. In addition the option to build the new facility on land at the South Delta Recreation Centre should be explored before a final decision is made.

Screen Name Redacted 5/30/2024 07:18 PM	Get it done asap
Screen Name Redacted 5/30/2024 09:30 PM	I support keeping the forest as much as possible. Ensure small user groups that may be loud but represent few people don't sway the decisions. Consider moving the Boys and Girls Club to a school facility as I'm told school enrollment is down. Keep the new facility for Delta recreation. If preference is given to Boys and Girls Club, others such as day care facilities will also want space.
Screen Name Redacted 5/30/2024 09:43 PM	Don't go cheap. Short term thinking is the curse of Delta municipal politicians.
Screen Name Redacted 5/31/2024 12:10 AM	There are so many other options for fields. Schools or southlands
Screen Name Redacted 5/31/2024 09:05 AM	Good luck. I look forward to swimming my lengths in the new pool and continuing to play disc golf so close to home.
Screen Name Redacted 5/31/2024 02:05 PM	Do not give in to the automobile for options 1,2 or3. THIS IS A PARK; NOT A PARKING LOT! The property needs a flower garden for pollinators.
Screen Name Redacted 5/31/2024 11:13 PM	I really believe this process is rushed and that the people need more time to react to the incredibly speedy delivery of information, i m also very disappointed in the city when i contacted them the last 2 years on plans for the future and the lack of maintenance for the disc golf park is lacking , every other course in B.C has proper T pads, markers for yardage and forest management in place. our Park is an amazing one and a piece of history its time it gets the respect it deserves, I ve played as a professional for thirty years and been all over the world for disc golf, It has grown faster then anything else and courses are being built everywhere , the city needs to understand the need and step up, its time, this has gone on way to long. people who visit always ask the locals why our city have yet to upgrade the course . Kelowna just approved 3 new 9 hole parks and Vancouver is putting money and funding aside for Disc golf,I believe the city of delta is just unaware of the sport but now will realize the demand through this engagement process.
Screen Name Redacted	Looking forward to a new facility

6/01/2024 11:25 AM

Screen Name Redacted
6/01/2024 11:54 AM

The current plans, to me, are unsatisfactory. I see way too much concrete dissecting the most popular recreational area of our town. The proposal to plant more trees is also poor given that most of these trees are in the parking lot, not in the park itself, while environmentally unsound turf replaces natural grass. I suggest more inclusive trails, forested areas and green spaces for all Tsawwassen residents - not just baseball teams. Tsawwassen has replaced playing fields for kids with more pickle ball and lawn bowling for seniors - let the park be a park - not a cash register.

Screen Name Redacted
6/01/2024 11:59 AM

The three options are all unsatisfactory. Relocate Winskill Aquatic Centre to the South Delta Rec center location. Build underground and tiered parking lots there and turn the Winskill area into forests and parklands for all Tsawwassen residents not just baseball fields and parking lots! Just as the original owners of the land intended it to be.

Screen Name Redacted
6/02/2024 02:01 PM

I'll literally settle for just putting standard shower controls in the current facility so that people can clean their kids easier.

Screen Name Redacted
6/02/2024 02:08 PM

Options 2 and 3 with a road the bisects the park in UNSAFE

Screen Name Redacted
6/02/2024 09:50 PM

Disc golf and forest area is not a good use of space. Disc holders tend to create their own urban course with their own nets all around town, by the high school etc. They don’t need a dedicated 3-4 acres of valuable land. If there is an opportunity to place any amenity on the rooftop of the new facility, such as yoga space, pickleball or a daycare play space, etc.

Screen Name Redacted
6/03/2024 11:54 AM

- Please resist the urge to design this thing as a collage of the many many many suggestions you will get. Let the Architecture be clear, simple, and beautiful while incorporating and addressing the input. - Parking really undermines this quickly. I know we need to expand parking, but it destroys the park in many of the proposals. Would a simple 2 storey structure be able to be incorporated architecturally in the design to lessen the footprint impacts on the park?

Screen Name Redacted
6/03/2024 12:28 PM

Visibility from the main road

Screen Name Redacted 6/03/2024 01:10 PM	I love the current facility and the fact that it is reasonable in cost - maybe $2.75 per visit with a pre purchase of 20 visits. I sure hope the new site keeps it reasonable - or to $3/visit. Possible ?
Screen Name Redacted 6/03/2024 03:26 PM	This project is long overdue considering the state of the art facilities in neighbouring communities, and the rampant development currently taking place here. It is in fact verging on the too little too late end of the spectrum. I do appreciate due care in the planning phase, but I would like to see this project full steam ahead ASAP. Thank you
Screen Name Redacted 6/03/2024 03:42 PM	Sharing the pool with the swim club leaves those taking swim lessons or aquafit uncomfortable in water too cold for these activities. Love the idea of this facility, just hope the dollars are there to appropriately staff it.
Screen Name Redacted 6/03/2024 03:54 PM	Please make this feedback questionnaire easier to find on the Delta website
Screen Name Redacted 6/03/2024 06:08 PM	Please ensure that - by design - Delta sends the same message in practice that it says in words during Pride month... that everyone is welcome here in Delta. Please do that by ensuring that all people feel welcomed in the new Winskill facility! Thank you. :-)
Screen Name Redacted 6/03/2024 08:03 PM	Also delay the building for a few years as our taxes are currently too high - 7.6 percent in this economy is unsustainable
Screen Name Redacted 6/03/2024 08:14 PM	À café with seating area inside would be great!
Screen Name Redacted 6/03/2024 08:15 PM	It would be nice if you could have some control over the water temperature in the showers.
Screen Name Redacted 6/04/2024 01:17 PM	It would be nice to have space for RMT's, physiotherapists etc. as part of the facility (similar to Ladner Leisure with Sungod Physio.
Screen Name Redacted 6/04/2024 01:29 PM	No
Screen Name Redacted	I find it bizarre that the public is being presented with these options as

6/04/2024 02:01 PM	a starting point. Why were we not first asked whether we were in favour of the destruction of Winskill as we know it? I also find it totally regrettable that so many of the user groups - the disc golfers, the moms' groups who meet up to walk the trails every day, to name two - are not organized (like the baseball association) and have no voice to speak on their behalf. Lastly, we need to know which members of council support this horrible proposal so they can be held accountable in the next election.
Screen Name Redacted 6/04/2024 03:27 PM	Winskill was donated to Delta for use as a park and the green space once eroded cannot be reclaimed.
Screen Name Redacted 6/04/2024 07:07 PM	I am ok with updating building but don't see that it's necessary to add another diamond to park. We need to keep as much green space as possible in tsawwassen (delta). The forested area is a gem and have been walking in there since 1996. It's so great for kids to walk and play in, it's nice that disc golf is a quiet sport and we need as much area for beneficial bugs etc. we ca t just keep ripping down the green space and chipping away at it. Before we know it we'll become Richmond.
Screen Name Redacted 6/04/2024 09:36 PM	Yes. Why is the city of Delta selling out its residents? The majority of us moved here because of its small town charm. In the 20 years I have lived here. I've seen positive growth, but these new changes are being planned without consideration to services and infrastructure. Leave the green space alone.
Screen Name Redacted 6/04/2024 11:11 PM	Cafe outside should be added for the months sports are outside. Undercover bleachers
Screen Name Redacted 6/04/2024 11:40 PM	We also need a covered area for a batting cage or baseball training
Screen Name Redacted 6/05/2024 08:02 AM	Don't take down more trees!
Screen Name Redacted 6/05/2024 09:30 AM	No more parking spaces, no more baseball fields and leave our trees alone.
Screen Name Redacted 6/05/2024 10:01 AM	Leave the trees as they are

Screen Name Redacted
6/05/2024 11:37 AM

leave the forest

Screen Name Redacted
6/05/2024 01:35 PM

Walkers and cyclers- please consider the park access is not ideal from any side at this time. Coming from 8a you must go quite out of your way to get around the u18 ball diamond. With the old building being gone please consider better access, more safety for kids walking and cycling. The forest area- this area has been long neglected by the city, my property backs directly onto it. In recent years the area has been opened up and has new access from the townhouse development on 8A. It is amazing to see the see the many high school students and families walking through the area since it has been cleared. This forested area is very valuable and needs to be invested in. Make it safe, more accessible, add in benches and relax areas. If this area is invested in it will be used more and more. As the town centre densities and less people have yards or drive cars this will only increase in demand. Make the forest more healthy and safe, and create a nature sanctuary. Our town needs it! Spontaneous play- please consider beyond organized sports. The more opportunities for spontaneous play for families and youth the better. Volleyball? Basketball? Just any little areas to have some fun. So many siblings hang out here while their siblings play baseball and soccer. The playground being so far from the fields is a big challenge. The kids end up playing on the stacked soccer posts and bleachers. Not safe. But it feels unsafe to let the siblings go all the way to the far corner where the playground is located. Some spots to climb and play closer to the ball fields and turf would be very good.

Screen Name Redacted
6/05/2024 02:35 PM

Not all change is good. Taking trees down and potentially disrupting the existing park and it's beauty, you will also take privacy away from the residents bordering the property including the residents of the care home.

Screen Name Redacted
6/05/2024 02:50 PM

Glad to see that this facility is finally being replaced. It was outgrown years ago and the need for a larger aquatic and fitness facility is very evident. Keep up the great work Delta- hope to see the addition of more recreation improvement projects in the near future.

Screen Name Redacted
6/05/2024 03:29 PM

I am grateful to be able to voice our family's opinion/needs/preferences for this and future facilities. We have both an opportunity and an obligation in Delta (South Delta specifically) to maintain the green/vibrant spaces that we love South Delta for, while also meeting the infrastructure needs of our growing population. There is a VERY passionate contingent of residents who are opposed

	to any sort of new development—while I am absolutely PRO development that supports our community's growing needs, I am VERY appreciative of thoughtful effort and consideration of proposed plans. Where possible, after public hearings and feedback opportunities take place, there is a follow up loop that would be really helpful for community stakeholders, where plans that are voted as moving forward could then be introduced to the community highlighting the thoughtful/thorough consideration process and the deciding factors for specific details.
Screen Name Redacted 6/05/2024 06:45 PM	Having windows and skylights into the pool area is so important. The current pool is so dark it's depressing, having natural light while in the pool is wonderful, feels like an outdoor pool indoors
Screen Name Redacted 6/05/2024 09:40 PM	So glad you're redeveloping Winskill!! Keep up the good work!
Screen Name Redacted 6/05/2024 11:03 PM	upgrade the aquatic center with minimal disruption to current sports - soccer and baseball
Screen Name Redacted 6/06/2024 10:30 AM	The need for 50m lane pool cannot be understated
Screen Name Redacted 6/06/2024 10:46 AM	Talk to any user of the pool and they will say there are not enough lanes, making a 50 m pool invite the opportunity to host competitive swim meets besides the b4 meet as well as makes lanes swimming and teaching more accessible when clubs are in the water. especially since there are 3 clubs that use the space.
Screen Name Redacted 6/06/2024 12:56 PM	DO NOT REMOVE ANY TREES IN WINSKILL PARKS TREE CANOPY!
Screen Name Redacted 6/06/2024 07:04 PM	We need the pool that suits our community that has longevity and isn't just "fun". We need features that work for every age as every age uses the pool.
Screen Name Redacted 6/06/2024 08:39 PM	Build a 50 metre pool. Foolish not to
Screen Name Redacted 6/07/2024 12:20 AM	I hope Tsawwassen will get a gorgeous facility that I have been so envious of in other communities with the same tax rate and

	population. Seriously look at what Surrey did with Clayton. I'm hoping it will be a facility that I can use every week. I would be so happy about that!
Screen Name Redacted 6/07/2024 12:46 AM	Add lights for nighttime games to extend playing time, maybe a all purpose or rubber track around the outside of Winskill for walking, exercise, mininparks inside Winskill eg. water park, picnic area, playgrounds
Screen Name Redacted 6/07/2024 09:04 AM	If there is a way to include a large indoor Space that allows for off season multi sport training it would be a huge Benefit. Many local Amateur sport teams have to travel to richmond currently for off Season indoor training
Screen Name Redacted 6/07/2024 09:20 AM	No
Screen Name Redacted 6/07/2024 09:27 AM	Need more fields with lights.
Screen Name Redacted 6/07/2024 09:28 AM	Improve the baseball equipment storage, lockup, add lights to have more games and viewing areas for parents and fans
Screen Name Redacted 6/07/2024 10:01 AM	Better concession and change room options for baseball diamonds
Screen Name Redacted 6/07/2024 10:43 AM	I think we should look towards local artists for all art in this pool. I would love if all the Art was from artists in Tsawwassen and Ladner. Having First Nation art is important but this is a pool for our community and should be made with art from our community. I would love if we could get a piece from the Tsawwassen Band but we also have companies located in Tilbury and other areas which could make every art feature one sourced locally and shows that Tsawwassen is a mix of all sorts of people.
Screen Name Redacted 6/07/2024 10:49 AM	Strongly recommend consideration of a fieldhouse type facility to allow for winter/inclement weather indoor training for a variety of sports - many municipalities are including these in their parks and recreation planning. This would benefit a variety of minor sports (football, baseball, fastpitch, soccer, fieldhockey) as well as community based sports interests such as running, tracks, softball, crosstraining etc. It can be used by schools - including the high

	school - during the day. The City only all weather facilities are in Ladner (covered lacrosse box, and upcoming indoor baseball faciity) which is not nearly enough to meet the needs of the south delta community.
Screen Name Redacted 7/01/2024 08:42 AM	Keeping natural habitat should be at the forefront of plans- the environmental impact should be the most important factor. None of the plans listed above clearly articulate how much an impact this will have. For example- how many trees will be cut down? Where will there be “wild” space? Where will the disc golf course be moved to?
Screen Name Redacted 6/07/2024 12:31 PM	Looking forward to seeing the development and thank you for gathering feedback from the user groups and public!
Screen Name Redacted 6/07/2024 12:59 PM	No
Screen Name Redacted 6/07/2024 02:28 PM	Suggestions for the baseball pavilion: 1. Adding at least one new baseball field to the property. We suggest constructing the largest field possible, as adjustable fences and basepaths can accommodate various levels of play. 2. Introducing a covered multi-sport turf area. This space would be used for batting cages, pitching areas, and offseason training. This would also benefit SDU’s younger age groups and the aquatic centre's dry land training activities. 3. Installing lights on the fields to allow for extended game and practice times, especially during the spring and fall months. 4. Creating new spaces for concessions, storage, and change rooms. 5. Upgrading the safety netting between fields.
Screen Name Redacted 6/07/2024 06:10 PM	Consider at 50 metre pool to meet long term needs of the community
Screen Name Redacted 6/08/2024 02:30 AM	Yes, please! KEEP THE TREES OF WINSKILL PARK WHERE THEY ARE! PLEASE! They are not only beautiful, but spiritual and sacred! Yes, they are! You can laugh at me, but going for walks among those trees is a wonderful experience for many people in this city. (Or in another places that have them). I live at Kin Village, and go to the park daily for walks. This keeps me alive, physically and spiritually. Nature has a healing effect in human beings. We all need nature, trees, water, and not more cars, roads or parking lots. PLEASE, KEEP THE TREES WHERE THEY ARE. And thank you for asking and listening to us, the people living in this beautiful town.

Screen Name Redacted 6/08/2024 09:47 AM	There must be nets above the diamonds between the fields so that no one else gets hit by the balls. I've seen too many elderly grandparents and little kids get hit. The fields at Palmer is so safe and there is not better feeling than watching your kids play what they love and knowing you don't have to stress about getting hit in the head. Last night with two games going there were 7 balls they went up and over and we were all yelling heads but the sun was so bright you couldn't see the ball. This safety issue is a MUST
Screen Name Redacted 6/08/2024 11:23 AM	I encourage you to be inspired by innovation! Let's create something we all love and are proud of, that makes us a healthier, happier, and stronger community! Let's plan for our future community, our children and new families, not just those that are most vocal in the moment.
Screen Name Redacted 6/08/2024 02:18 PM	Have a simple mobile phone drawn picture. You can do the work without shutting down the current facility until it is time to make the multi level parking lot.
Screen Name Redacted 6/08/2024 09:02 PM	Very excited about this, but want to ensure the space remains a family friendly park in addition to rec services
Screen Name Redacted 6/09/2024 01:06 AM	Consider getting rid of the disc golf course. It attracts a negative element to our community. Myself and my family pass through the park daily, sometimes a few times a day. My children have to witness groups of men smoking, drinking, using drugs and swearing loudly. Disc golfers rarely yield to park users. Myself and my kids have been hit by flying discs-- often thrown when they see we are walking and they don't care. We've passed by groups of disc golfers who joke and say ' just throw it' as we're passing-- meaning who cares if they hit us! Winskill is awesome and is family oriented. The disc golf is not and doesn't belong in the new plan for our community centre/park.
Screen Name Redacted 6/09/2024 09:18 AM	Outdoor pool would be an excellent use of space as well
Screen Name Redacted 6/09/2024 11:11 AM	Please maintain our greenspace
Screen Name Redacted 6/09/2024 10:43 PM	A covered multi sport field would be a great addition for off season Baseball training and any other sport that could use it. The disc golf course is an important asset and I hope it stays or is relocated.

Screen Name Redacted 6/10/2024 01:31 PM	Delta's population is rapidly growing, and our children and youth population particularly so. Winskill is a hub for community activities (both aquatics/fitness, and baseball/soccer, etc). It is important to perhaps overbuild for today's needs, as in a few short years both aquatics and field space will be oversubscribed. Now is the time to do it right!
Screen Name Redacted 6/10/2024 01:55 PM	Absolutely don't build a pool facility without a hydrotherapy pool. This is very important for the needs of a growing seniors population.
Screen Name Redacted 6/10/2024 03:42 PM	Cut down as few trees as possible
Screen Name Redacted 6/10/2024 06:37 PM	Please don’t cut down the trees!
Screen Name Redacted 6/11/2024 12:40 AM	Thanks for reading 8>)
Screen Name Redacted 6/11/2024 09:58 AM	I think these plans are good starting points but I think they definitely should be looked over again and thought of objectively.
Screen Name Redacted 6/11/2024 07:59 PM	more fitness classes and options at night and on weekends
Screen Name Redacted 6/12/2024 12:16 AM	The City has recently forced the advancement of the OCP on the communities without adequately listening to concerns of the people or standing up for their best interests. There is continuously decreasing greenspace with ongoing development and with greater densification proposed for the community, this is unacceptable. The City should be giving its taxpayers better access to greenspace and services to offset the impact of community growth.
Screen Name Redacted 6/12/2024 10:56 AM	Please consider: * Lots of poolside seating for events * Signage at both sides of the path leading to the high school. It's not obvious to people there is even a path there. * Timing board for the pool
Screen Name Redacted 6/12/2024 02:38 PM	Please protect our green spaces. They are a habitat for nature, and they make Tsawwassen truly special.

Screen Name Redacted 6/12/2024 03:04 PM	No
Screen Name Redacted 6/12/2024 03:23 PM	Relocate the facility anywhere but the forested area.
Screen Name Redacted 6/12/2024 09:20 PM	Outdoor pool in Tsawwassen would be nice.
Screen Name Redacted 6/12/2024 10:01 PM	Build a bigger pool.
Screen Name Redacted 6/13/2024 06:58 AM	Synthetic turf fields, enclosed training area for off season work
Screen Name Redacted 6/13/2024 04:51 PM	I think delta has seriously under provided for Tsawwassen. We have the oldest and worst of most public facilities. I really hope this build will be much bigger and fancier than the dinosaur pool and gym we have now. Our growing population is already changing and we need to build a pool and gym that can accommodate a bigger population, but just what we have now. I also hope a huge focus will be on the outdoor green spaces and keeping as many large trees and the forest!!
Screen Name Redacted 6/13/2024 05:21 PM	Keep trees
Screen Name Redacted 6/13/2024 07:58 PM	Do not proceed with this plan. Take time to find a way to provide Tsawwassen with a much needed multiple services building, as is the case in Ladner and north Delta
Screen Name Redacted 6/13/2024 10:43 PM	All 3 options are not good in my opinion
Screen Name Redacted 6/14/2024 09:26 AM	Design for the future and future growth. Look at Minoru Centre for Active living as an example of a new facility being too small 5 years after construction. Some lessons there.
Screen Name Redacted 6/14/2024 12:46 PM	There are no 50 metre pools in Delta. Ladner is a leisure pool only. We need to build for a growing community with a larger facility. Swim needs in Delta are not being adequately served now.

Screen Name Redacted 6/14/2024 07:57 PM	We 100% need to protect all the green space I have used this park for 45 years along with my entire family. I'm being 100% honest and truthful and want you to know that I understand that we need a new pool and I understand that it needs to be expanded.
Screen Name Redacted 6/14/2024 08:17 PM	I grew up playing disc golf at Winskil park and those were some of the best days of my life!! Please allow this part of our local history to remain and help local youth learn a fun new physical skill. Disc golf brings players of all ages shapes and sizes together for an exciting game that is so fun to play!
Screen Name Redacted 6/14/2024 11:49 PM	I think for the amount of money this facility costs, it should have a balanced perspective with no over identification to any one interest group. To remove the entire wooded area for the sake of a 4th baseball diamond that would be used only for a short season would be a good example of the aforementioned comment. I am a former competitive swimmer from the 1960's and think this facility will give the youth a wonderful experience.
Screen Name Redacted 6/15/2024 08:21 AM	This should be a 50 meter pool. It is a huge urban planning error to make this 25 meters. I am not a swimmer so it doesn't matter to me but here in South Delta Ladner is the 'Leisure Centre' and Winskill is the 'competitive' swimming center. Years from now people will look back and pan the decision for a 25m pool. This should be a careful urban planning decision, not a flavour of the moment political one.
Screen Name Redacted 6/15/2024 02:09 PM	need to keep some of the greenspace and trees near the disc golf area. Should not have new buildings nearer/closer to residential buildings.
Screen Name Redacted 6/15/2024 03:56 PM	I have friends and family that are tsawwassen raised. They concur with my sentiments about this statement.
Screen Name Redacted 6/15/2024 04:00 PM	Please preserve the disc golf course.
Screen Name Redacted 6/16/2024 09:22 AM	It would be ideal to construct the new baseball diamond with turf or synthetic grass for use year round and in all-weather situations. An upgrade to the batting cage also needs to be considered.

Screen Name Redacted 6/16/2024 03:58 PM	No
Screen Name Redacted 6/16/2024 04:39 PM	Prioritize pedestrian and bicycle movements. People are more important than cars. There is too much parking planned. Making alternate forms of transportation more attractive and safe is proven to increase usage. People are forever. Cars are a drain on our city.
Screen Name Redacted 6/16/2024 10:29 PM	Arborists report skewed. Basically says all trees are in poor health. In nature trees are in all different stages of health which makes good habitat for all beings.
Screen Name Redacted 6/17/2024 09:40 AM	Delta has under-prioritized areas for weight lifting in the past. Weight lifting has been demonstrated to be one of the safest forms of fitness (in terms of injuries sustained per hour spent) and is hugely beneficial to health at all ages. Weight lifting must be prioritized for this facility, and experts in the field should be consulted on how to deliver a high quality weight lifting facility.
