To Whom it Concerns,

My name is Kris Klimko and I am writing today on behalf of the disc golfers of Tsawwassen.

Last night, several of us met with Josh Turner, Dan Cooper and James Palframan to discuss the future of disc golf in Tsawwassen. We talked about a three-pronged approach aimed at reducing the impact of losing the disc golf course at Winskill Park. While nothing will ever truly replace Winskill, we are very happy with the efforts and solutions that Josh, Dan and James have offered to us. If and when the disc golf course at Winskill is removed, we are in full support of the following:

1. Installing six baskets at Dennison Park as quickly as possible with the guidance of InDesign and the disc golfers of Tsawwassen.
2. Installing one or two baskets at Winskill after the construction is complete. A nod to the history and players that have spent so much time in that park.
3. Installing 9-12 baskets at Diefenbaker Park before the end of the year. Again, with the design being facilitated by InDesign and the Tsawwassen disc golfers. We understand that this installation is on a one-year pilot project and that the feasibility of keeping this course will be assessed at the end of that trial.

Thank you for continuing to keep Tsawwassen disc golf in mind,

Kris Klimko
